Bringing Canada's Greatest Home Furnishing Stocks Within Easy Reach of Your Home

This Catalogue enables anyone—however distantly located—to enjoy the purchasing advantages of residents of the largest cities. In condensed and compact form, it brings to your home a part of the largest home furnishing stock in Canada and makes it possible to furnish the entire home without the trouble and expense of a journey.

Upwards of thirty years devoted to the exclusive selling of home furnishings has given us a unique experience and one that should stimulate the confidence of every person who lacks a knowledge of furniture construction to put unlimited trust in our ability to supply their wants in the best way.

Every department of our great store is in charge of thoroughly capable managers and buyers of many years' experience, who are in touch with the best markets and who possess the knowledge of experts. As a consequence our stocks are always replete with the newest and best of home furnishings to be obtained anywhere.

Satisfaction Assured or Your Money Back

We have endeavored to make clear everything contained herein and aimed to describe faithfully each article, and you will find nothing that is unworthy all we say of it. The illustrations are all photographic reproductions of the actual pieces and, though in many cases necessarily very small—thereby losing many of the finer details of carving and beautiful grain in the wood—yet they are shown by the only truthful means of representation and are further vouched for by a guarantee that if they do not correspond in every particular with the descriptions quoted, we will cheerfully return your money to you.

Safe Delivery to You Guaranteed

We not only guarantee satisfaction of every article shown in this catalogue, but we also guarantee that goods will reach you safely. We have the most careful examination made of all goods before they leave our shipping warehouse to see that everything is extra well packed. We ask you to merely follow the simple instructions found in the "General Information" on next page regarding receipt of goods from the Freight Agent.

We Pay All Freight Charges

Every article shown in this catalogue (with a few trifling exceptions such as small orders of carpetings, oilcloth, draperies, bed linen, etc., which are freight paid when order amounts to \$10.00) is quoted at a price which brings it to your nearest shipping point anywhere in Ontario. This removes any necessity on your part of figuring up any additional cost; merely send us the prices quoted and we do the rest.

General Information

HOW TO ORDER

When ordering give name and number of each article—and page—as it appears in catalogue and if there are different finishes, or covers, or trimmings, state exactly which is preferred by you. Many pieces of furniture in oak are finished in golden, fumed or Early English colors, and unless a choice of finish is stated, we will send the golden color, excepting, of course, furniture in the mission section of the catalogue, which in all cases is quoted in the dark shades of oak.

Carefully fill out your order blank if you have one. Do not fail to write **your name and address plainly**. Do not cut up the catalogue—you will need it for future reference. Care in making out order insures accuracy and avoids the necessity of our writing for more definite particulars and a consequent delay.

TERMS

Our terms are in all cases cash with order. Our prices throughout this catalogue are net and based upon the smallest profit margin that reliable merchandise can be sold for. Positively no discounts from catalogue prices.

GUARANTEE

We warrant everything we sell to be just as represented and that the material, workmanship and finish is the best in its class. If you do not find it so, you can send it back to us and your money will be returned to you.

SAMPLES

We will be pleased to submit samples, free, of any of the coverings of upholstered goods or drapery materials, carpets, linoleums, etc., upon request if preferred colorings, quality and approximate price is stated. It is not

necessary, however, to have these samples in order to be assured of a good selection, as all our coverings are chosen with the utmost care and discreet taste. All patterns may be relied upon to be up-to-date.

ABOUT SENDING MONEY

Avoid sending money by open mail. It exposes to temptation everyone through whose hands the letter may pass and is liable to a loss without a chance of its recovery, while Post Office and Express Money Orders, Bank Draft or Registered Letter can be had at small cost with but little trouble or delay. Customers who send cheque in payment for goods are requested to have **cheque marked, also made payable at par in Toronto**, otherwise this charge will be reverted to customer. The use of postage stamps exceeding 20c. for payment of goods is prohibited by Postal Authorities.

WHEN YOU RECEIVE GOODS

Always be sure to make an examination of your goods on arrival before signing for them. If any appearance of damage **insist** that Agent make a note of it on your freight or express bill. This is important, as Railway and Express Companies are responsible for any damage in transit. Goods are received by them from us in first-class condition and should be delivered as such. We cannot prosecute a claim with the Railway Companies if you fail to have the Agent note extent of damage.

MISTAKES WILL HAPPEN

It is impossible that in a business of the magnitude of our establishment mistakes will not arise; therefore, when an error occurs, or you are at all dissatisfied, we ask your indulgence. Kindly write us as pleasantly as possible, and rest assured that we will do all in our power to make right any omission.

Do Not Hesitate to Write Us if in Doubt

or if you do not see in this catalogue just what you want, we will make a study of your wishes and treat your communications as carefully as if you came in person to our store. We will be glad to supplement this catalogue with other cuts and illustrations of goods not shown if some idea is given us about the article and price that you desire to pay. This will guide us in making the selection of illustrations sent.

Everything Shown in this Catalogue is an Exact Photographic Illustration taken Direct from the Article Itself

Thus you can depend upon knowing precisely what you are buying. There is no exaggeration of sizes or proportions, no idealizing as is possible and usually done when cuts are made by any other process than are those we use herein.

Upholstered Furniture

On this and the following five pages are illustrated an assortment of parlor suites that we are certain for variety, quality and style are unapproached by any showing made by any other house in the Dominion. In this section of our immense store is displayed a most beautiful collection of upholstered furniture, including upwards of one hundred designs of parlor suites alone. The illustration pictured is one of the many examples of well-made and most desirable medium-priced suites that we offer at little cost.

This Dainty 3-Piece Parlor Suite, only \$24.75

A striking example of our ability to offer the choicest products of furniture manufacturers at very much lower prices than are generally asked by furniture stores throughout the Dominion. It is but one of the many excellent values presented in this catalogue.

It is not only in appearance a most desirable suite, but is in every way a well-made and thoroughly dependable three-piece outfit, carrying with it our regular guarantee of absolute satisfaction.

The Frames of this dainty parlor suite are made of selected birch-mahogany, the wood being thoroughly seasoned and kiln-dried before the manufacturing process. The design is at once graceful and well-proportioned, being finished on lines in keeping with the latest drawing-room furniture; the frames are put together in a thorough manner — just as well as the cabinet-maker knows how to construct them—and each piece is hand-rubbed to a brilliant polish finish.

Remarkable Values in Rockers

Many buyers measure the value of an article by its price; they determine its quality in the same way without looking into its merits. If the Rockers on these pages were judged in this manner, they would receive scant recognition, the prices quoted being so very low.

Buying our materials in immense quantities and producing the special designs in very large numbers, enables us to quote prices that are extraordinary low; were we a small concern, it would be impossible for us to sell Rockers of the character illustrated below and on the following pages at anywhere near the prices.

Rocker No. 3548. A rocker must be generous in size and well proportioned in order to contribute that degree of comfort we all so much desire at the close of day. This rocker is built for solid comfort. Its deep seat and broad roll arms present a most inviting appearance. The seat is of steel spring construction, it is all-over upholstered, has diamond-tufted button back, ruffled front; mounted on heavy oak runners.

The Covering used is a special grade of black imitation leather known as moroccoline; this so closely resembles genuine leather that few but experts would detect the difference; it is particularly durable and will outwear most real leathers that are used for furniture coverings. This rocker is 37 inches high and 34 inches wide.

The Upholstering Spring seat and shaped back of this rocker is covered in best grade imitation leather; this covering is soft and pliable and gives the rocker an extremely rich appearance. It is just as good as it looks, and the illustration is a faithful picture of the rocker, as it is a direct photographic reproduction.

No. 3530 Rocker—This elegant rocker has been pronounced by experts to be the most graceful design that has been built for years. It is built of quarter-sawn oak of the choicest selection. The Design is one of unusual merit. The long spindles which continue from arm to runner are a new feature in rocker construction. The poise is perfect and the back wide and roomy; seat is of the full roll design; back is shaped and insures the utmost comfort; carvings are elaborate and in keeping with the general design.

You'd Wonder How We Could Offer Such a Big All-Over Upholstered Rocker for So Little as \$12.95

This is the style of Easy Chair that so many homekeepers have longed to possess, but heretofore furniture manufacturers have produced such chairs only in genuine leather and only under very costly means of production. We have worked hard to overcome the obstacle of a high price in order to give our patrons a chair or rocker of this type at a moderate price. Indeed the price quoted above is so very small that some will be apt to doubt that we could sell such a fine big chair for so little.

A Massive, Well Designed and Constructed Sideboard at an Extremely Low Price

We do not emphasize this particular Sideboard to the disadvantage of others, but take this special means of showing the capacity of this store for extraordinary values. It is merely an example of the extremely low figure at which a really good piece of furniture can be bought for.

The Price
\$15.95

in no wise indicates the value of this handsome board. It is only by reason of our enormous output that we are enabled to command the very lowest factory prices. Our orders for this one design alone would probably exceed the total number of sideboards handled by many of the largest stores in the country.

The Design

is exactly like the illustration, being built somewhat on the staid old colonial lines with modern adaptations. *Rich carvings* on top and in cupboard door panels. The drawers and doors have *solid brass handles*; the large *British bevel mirror* adds much to the general appearance. Particularly striking are the two massive colonial posts which support the upper shelf and the smaller ones on either side of mirror.

The Material

used in the construction of this sideboard is selected hardwood; it is thoroughly seasoned and kiln-dried before the making process; the finish is a beautiful rich surface golden quarter-cut oak, and in appearance this sideboard would easily go for one priced 50% higher. The interior is well finished and trimmings are first-class. Case top measures 22 x 46 inches. It has two shaped cutlery drawers—one lined—one long linen drawer, large double cupboard with panel doors, solid posts and double top. The top is very ornamental, besides one long shelf supported by a heavy column on either side, to each of which is attached a smaller shelf, as well as the fine British bevel mirror, size 14 x 28 inches, seen in the illustration. Sideboard is well finished throughout.

Some idea of the immensity of the stock carried can be had when we tell you that our carpet floor has an area of nearly ten thousand square feet—always stocked to its utmost capacity with the newest and best lines the most noted manufacturers of the world can produce. Patterns and colorings are always fresh, and our prices are especially appreciated by those housekeepers of discernment and taste who delight to know that the best may be purchased at a price not higher than is ordinarily asked for the inferior.

Specimen Diagram

Measuring Room for Carpet

In taking measurements for Carpets, the utmost care should be taken to be exact. In cases where there are recesses or bay windows that project beyond the square of the room, a diagram should be drawn, showing exactly their shapes and positions with exact measurements filled in. Also state whether the strips of carpet are to be run the length or with the width of the room. An allowance of two yards for each room should be made for matching the patterns, as an average of one-quarter of a yard per strip is lost in this way. (If there is less waste, money will be refunded). By carefully observing these instructions you will make it easier for us to quickly and accurately attend to your orders.

Made in England, where they know how to make many things better than we do in this country. The advantage of inlaid linoleum over the ordinary kind is in that the pattern and colors run through to the back, making it absolutely impossible for design to wear off until the cloth has worn through. Our choice of patterns is handsome indeed, in large and small checks, and tile designs. Made in two yard widths only. Other prices:

Per square yard..... \$1.00, \$1.25

Linoleum, Plain or Printed

Linoleum is too well and favorably known to require any comment as to its lasting qualities. Preferred by many to carpet for sanitary reasons, being easily kept clean and wholesome, and is a much warmer floor covering than oilcloth. Made in an immense variety of floral and check designs, also in plain brown cork color. For use in kitchens, dining-rooms, bathrooms, stores and offices.

The plain brown linoleum is made in two yard widths only, at 40 and 50 cents per square yard.

Printed Linoleums are:

- 2 yard widths at 35, 40 and 50 cents per square yard.
- 4 yard widths at 45 cents per square yard.

Full 36 inches wide. Prices:

The "Caloric" is distinctly a woman's household article. She uses it every day in the year. It not only cooks or bakes perfectly, but it does the work at less than a quarter the cost of cooking in the old way.

Food can be prepared and placed in a "Caloric" early in the day and the housewife may go out shopping or visiting for hours safely and return to find the cooking all done hot—but not burned—and ready to serve.

Every home should contain one. The cost is comparatively small. It will pay for itself in what it saves.
