CHAIN MAKERS

70 & 72 YORK ST., - TORONTO.

WITHIN the limited capacity of this catalogue we are able to illustrate only a small portion of the many designs that we make. The endeavor being to give a general idea of the products of our factory.

The illustrations are all exact photographic reproductions of the actual goods and are full size making them useful to the retailer for taking orders when out of stock.

Our standard quality is gold filled, represented by the registered trade mark which explains itself. We are confident that the trade will be with us in sustaining this high standard, but to meet the competition of cheaper lines now on the market we are producing many of the conventional designs in a grade which compares with the better American goods but at much lower prices than they can be profitably imported and sold for.
