WHOLESALE PRICE LIST

—OF—

SUPERIOR

STOVES, RANGES,

. Hollow-Ware, &c.

—MANUFACTURED BY—

The D. MOORE CO. (Ltd.)

ESTABLISHED 1828.

HAMILTON, ONTARIO.

1122-01760

# TO THE TRADE.

WE take pleasure in presenting our ILLUSTRATED PRICE LIST for 1888, and are confident that it is worthy of careful and thorough examination.

We have added many new and elegant patterns to our line for this year, and desire to call special attention to the following:

“MAYFLOWER” Coal and Wood Cook.

“MACASSA” Coal and Wood Cook.

“BERMUDA” Wood Cook.

“FLORIDA” Wood Cook.

“LOYAL CANADIAN” High Art Square Base Burner.

“BURLINGTON” Surface-Burning Base Heater.

“VENUS” Franklin Open Grate.

“SUNBEAM” Coal and Wood Parlor.

making a most complete and varied assortment, excelled by none.

We continue to manufacture of the very best materials, and employ skilled labor in all departments, and the Trade can be assured that the excellent reputation our goods have hitherto so deservedly earned will be fully maintained.

Thanking our friends and the Trade generally for the liberal patronage bestowed upon us in the past, and soliciting a continuance for the future,

Respectfully,

CTC

# TERMS.

---

••

FOUR MONTHS, dating from end of month in which goods are shipped. All accounts to be settled by note or cash.

Goods supplied during the months of July, August and September will date as 30th September—4 mo.

FREIGHT will be allowed to customers' nearest railway station or steamboat landing (providing steamboat service is in operation) on Stoves and Hollow-ware, but not on repairs when shipped alone, unless in lots of 200 lbs. or over.

CASH DISCOUNT within thirty days from 1st of month following shipment, 6%; within sixty days, 4%; within ninety days, 2%. Under no circumstance will these discounts be allowed if the specified time is exceeded. The amount of freight must in all cases be deducted before cash discount is calculated.

INTEREST at the rate of 8% will be charged on all renewals and overdue accounts.

All goods are shipped at "owners' risk," and after receiving carriers' receipt "in good order," our responsibility ceases.

In cases of "breakage in transit," customers will please notify us immediately upon arrival of such, giving a full description of parts broken.

All orders received for Cook Stoves and Ranges will be supplied with full sets of Hollow-Ware, i. e., 2 Pots and 1 Spider, unless otherwise ordered.

We ship no goods on "commission," or to be paid for when sold.

---

*All former Stove Price Lists are hereby cancelled.*

# THE SARATOGA RANGE.

---

The "Saratoga" has been constructed to meet the demand for a large, heavy, modern, and first-class range. It embraces all the latest and most approved cooking inventions of the day. The construction of the Fire Box and spacious Flue arrangements ensure the most economical and complete combustion of fuel, and an even distribution of heat to all parts of the oven, thereby securing very effective baking and general cooking facilities.

The Reservoir attachment is most complete, in which, by simple action of the reservoir damper, the water can be made to boil in an extraordinary short space of time.

---

## **SPECIAL FEATURES :**

# THE BERMUDA.

---

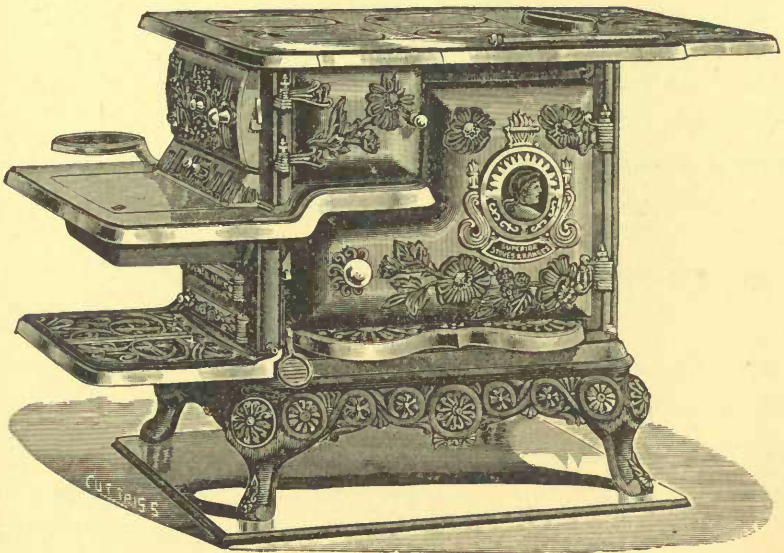

• •

In the "Bermuda" we have to offer for this season a New and ORIGINAL Wood Cook Stove, ENTIRELY OF OUR OWN PRODUCTION. It embraces every necessary convenience and improvement of a strictly first-class construction. It is conceded to be the handsomest and most perfect Wood Cooking Stove ever introduced, and is destined to lead, without a peer, in that class of Stove. The ornamentation has not been excessively overdone, but rather, is artistically superb and unique. The Legs and Fancy Base (the Stove being adapted for both, to meet the requirements of the trade), are massive and of handsome carved design. The measurements are unusually large, giving the largest Top, largest Fire Box, largest Fire Door, largest Oven, largest Hearth and Ash Pit, large spacious Flues, large Flue Door easy of access for cleaning; it is, in fact, the largest Four Hole Wood Cook now before the trade. Large Nickel Oven Door Panels, with beautiful Art Tile Centers; Nickel Door Knobs, Towel Bar, etc.; Patent Foot Lever to open Oven Doors; improved Oven Ventilation; new and improved Wood Grate; Swinging Front Grate; Low Down Plate Shelf made to fit either front or back of Stove; Back Top Shelf; handsome outside Oven Shelf; extra heavy sectional Fire Back; heavy Covers, Centers and Cut Long Center.

With all its valuable and most approved features, we do not hesitate to predict for it a hearty reception at the hands of the trade, and that those who desire a large, strictly first-class, modern and substantial Wood Cook Stove will be highly pleased with the "Bermuda."

# BERMUDA.

FOR WOOD.

	Price.
No. 9-26—Square, with Legs.....	\$ 27 00
“ 9-26— “ “ Fancy Base.....	27 90

We call special attention to this Stove, as it combines all the latest improvements, with an exterior finish unequalled in beauty of design and excellence of workmanship.

See description on preceding page.

# BERMUDA.

FOR WOOD.

	Price.
No. 9-26—With Reservoir and Legs .....	\$
“ 9-26— “ “ “ “ Fancy Base .....	

The Bermuda, with Bracket Jamb Reservoir attachment, is without doubt the most complete Cooking Stove ever introduced. The Reservoir Top is connected flush with top of Stove, making a continuous table]

**TOP 4 FEET LONG BY 2 FEET 8 INCHES WIDE,**

and by the addition of the Back Top Shelf gives a length of NEARLY 5 FEET, making the Largest Top of any Four Hole Wood Cooking Stove made.

The Reservoir is of heavy sheathing copper, well tinned and substantially made, and is arranged so as to obtain the full circulation of heat, when dampers are so adjusted, as to ensure most perfect and rapid heating of water.

# THE FLORIDA.

---

• •

The "Florida" for this season has undergone some very important changes, which have greatly enhanced its utility and durability, and with the acquirement of the "Bermuda" (referred to on previous pages), now embraces the newest and most profitable features essential to form a strictly first-class, large and most complete line of Wood Cook Stoves.

Its special features are perfectly in harmony with those of the "Bermuda."

The very artistic design and ornamentation are handsomely embellished with superior nickel plate, including the elegant Scroll Panels on the Oven Doors, with beautiful Art Tile Centers, Nickel Knobs, Towel Bar, Illuminated Front, etc., etc., producing a magnificent attraction seldom seen in a Cooking Stove.

The proportions of the Stove are unusually large ; large Top ; large Fire Box ; large Fire Door ; extra large Oven ; large Hearth and Ash Pit ; large and spacious Flues ; large Flue Cleaning Door ; Patent Oven Door Pedal Attachment ; Oven Ventilator ; Low Down Front Plate Shelf ; Back Top Shelf ; Fancy Outside Oven Shelf ; heavy and durable Fire Back, Covers, Centers and Cut Long Centers.

Without a doubt the most complete and advantageous Stove ever offered.

# THE BRITANNIA.

---

• •

This popular and well known Stove needs no extended comment from us. Its immensely increased sales bespeak for its excellence and superior qualities more than we could here delineate, were we ever so disposed to treat upon it. Suffice to say that it has won for itself an universal and most successful reputation, and we shall endeavor to keep it up in the foremost rank of first-class Wood Cooks, to which it has so deservedly attained.

---

A standard and well known Stove, of excellent working facilities.

# THE LOYAL CANADIAN.

HIGH ART BASE BURNER AND DOUBLE HEATER.

---

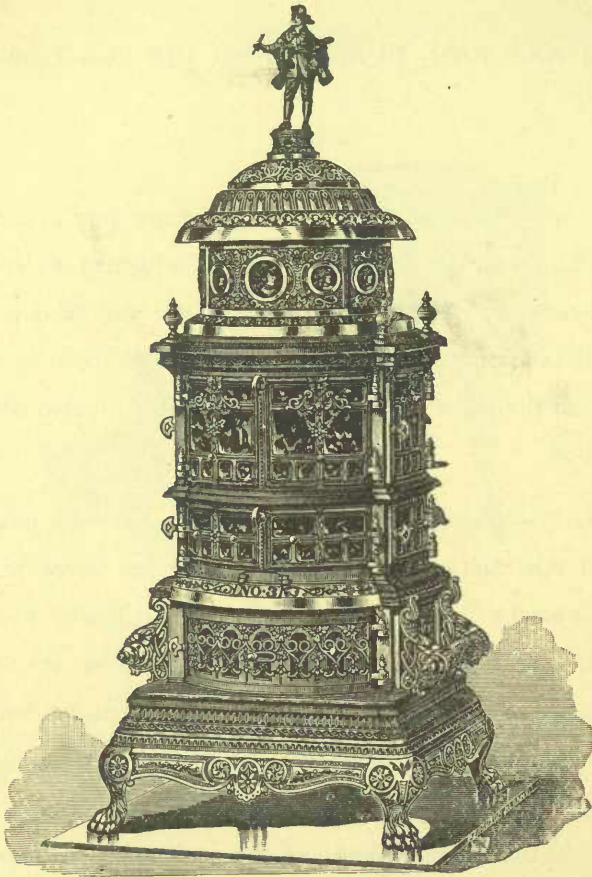

• •

The "Loyal Canadian" has undergone some very important and improved changes for this year. The principal being that of incorporating with its already very efficient system a most entire and effective DOUBLE HEATER ARRANGEMENT, by means of which a room above or adjoining that in which the Stove is placed can be comfortably heated when Stove is in operation.

Not being content to simply plod along in line with other manufacturers of this class of Stove, we determined this season to make a special effort for the "lead" in Square High Art Base Burners and Double Heaters, and while judiciously avoiding the prevailing erroneous and useless practice of overloading with gaudy superfluities, we have aimed our endeavors towards the production of a purely first-class, chaste and symmetrical structure of meritorious adornment and operation, and one that should be free from the numerous defects possessed by many others, and we are extremely gratified at the apparent success of our efforts, by which we are, with confidence, enabled to offer a Stove that will commend itself to the trade and public generally for its many superior and established points of excellence.

# LOYAL CANADIAN.

	Price.
No. 2—Double Heater .....	\$ 35 30
“ 3— “ “ .....	38 60
“ 5— “ “ .....	44 50
“ 3— “ “ and Oven.....	42 75

EVERY STOVE A DOUBLE HEATER.

# THE NEW JEWEL.

ROUND BASE BURNER. WITH AND WITHOUT OVEN.

---

The well merited reputation and continued large sales of this popular Stove affords us unbounded assurance of its superiority over others of its class, and we highly commend it to the trade as a most essential acquirement.

THE ORNAMENTATION is elaborate and chaste, embracing a most elegantly Nickel Plated entire Upper Section, Loose Body Rings, Name Plates, Swing Cover over Kettle Hole, Knobs, Turnkeys, Hinge Pins, Foot Rail and the very handsome Leg Base.

THE PANEL SECTION is thoroughly ventilated, which serves both to preserve the Nickel and to increase the radiation of hot air.

THE MAGAZINE is encased in a wrought iron cylinder, with gas flues, forming an absolutely gas tight chamber.

FIRE POT AND FLUES are substantial and large, ensuring complete combustion and economy of fuel, consequently great heating capacity.

ANTI-CLINKER GRATE, with draw centre, very effective.

ASH PAN is large and durable, with strong bail.

LARGE FLUE COVER, easy of access for cleaning.

## THE OVEN STOVE

For baking and boiling has no equal.

The heat passes direct from the fire immediately under both kettle holes.

The Oven is large, with spacious flues, giving a complete circulation of heat to all parts, and is perfectly controlled for either baking or boiling by the aid of the dampers.

The "Check Draft," "Direct Draft," and "Oven Dampers," are very effective and convenient.

# THE BURLINGTON.

• •

The "Burlington" is the most popular and leading Sheet Iron Surface-Burning Stove made. It has proven a most remarkable success, not only with the trade of the Western and Eastern Provinces, but also with that of Manitoba and the North-West Territories, where, during the past two years it has superseded all other Heating Stoves.

It has been greatly improved for this season by largely increasing the size of the Front Feed Door and Opening, so that the coal can be put in from the mouth of the coal hod without the annoyance of spilling.

New Base Flues, with neatly arranged Flue Openings, very convenient and easy of access for cleaning, which can be done at any time while the Stove is in operation.

Being a full RETURN FLUE Stove, with Double Bottom and Sides of Base, makes it a most Powerful Heater.

It is thoroughly gas tight.

Has improved Anti-Clinker Draw Center Grate, always reliable, and will not leak dust when being shaken.

Substantial deep Fire Pot, lined with Fire Brick, which can be easily replaced by anyone at moderate cost.

Large square Ash Pit, with large bailed Ash Pan.

Has a perfectly ventilated Oven on Top, which will bake equal to any Cook Stove.

Very convenient tea kettle attachment.

It is a most economical and fuel saving Heater, will produce double the amount of heat with same quantity of fuel as any other known Stove, and will run 24 hours on one hod full of coal.

It is better proportioned and has more heating surface than any other Stove.

Has large illuminated front Feed Door.

Three illuminated Clinker Doors around Fire Pot, through which the latter can be reached at all times for raking, a most valuable feature.

The castings are extra heavy and durable.

Is perfectly fitted and mounted with genuine Russia iron, by skilled workmen.

No superfluous nickel work to discolor, but all heating surface.

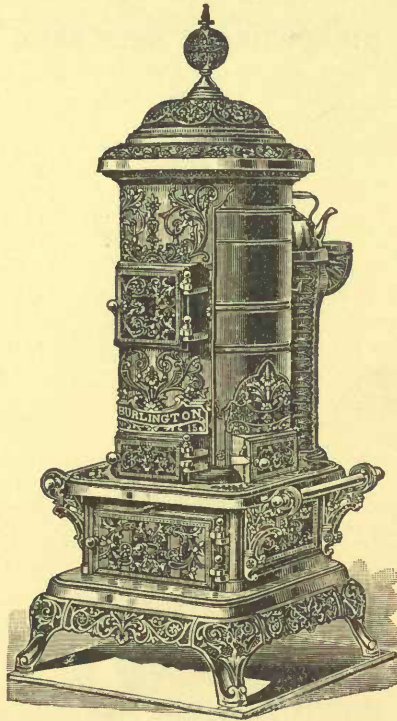

It is a most complete and serviceable adornment to any house.

Every Stove guaranteed to work perfectly.

# THE FOREST KING.

ROUND HEATER, FOR WOOD OR COAL.

---

• •

With PATENT COMBINATION GRATE for wood, without which no Round Wood Heater is perfect. This consists of two grates working in conjunction, one with the other, each provided with corresponding openings and blank spaces, forming either an OPEN GRATE or a CLOSED FIRE BOTTOM as may be desired, and operated by a shaker from the outside. (See cuts on next page.)

This is a most important feature, as all the wood coals may be retained in the Stove, and any amount of ashes desired; the fire is at all times under perfect control; with good hardwood can be kept continuously burning throughout the winter, and with such fuel

WE WARRANT THEM TO KEEP FIRE ALL NIGHT.

This point alone gives our customers a most decided advantage over all others.

It is the ONLY WOOD HEATER in which the FIRE CAN BE KEPT CONTINUOUSLY BURNING and PERFECTLY CONTROLLED.

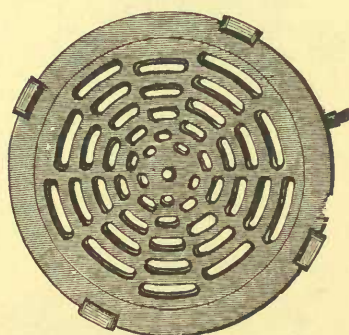

---

FOR HARD OR SOFT COAL.

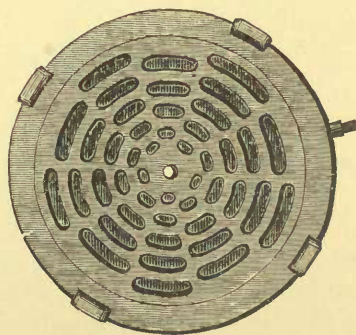

We make an excellent Anti-Clinker Dumping Grate for this Stove, which can be easily adjusted, making it a very desirable Stove for large stores, warehouses, schools, halls, etc.

# "FOREST KING" COMBINATION WOOD GRATE.

# NEW CROWN OIL STOVES.

---

• •

We have secured the sole right for Canada to manufacture the "NEW CROWN" Oil Stove, which, in its various styles and sizes, is acknowledged to be the MOST PERFECT Oil Stove ever made.

THE TANK is extra large and is protected from the heat of the burners by a SHEET ZINC PLATE and a PERFORATED DOUBLE AIR CHAMBER, thereby making it ABSOLUTELY SAFE and ODORLESS.

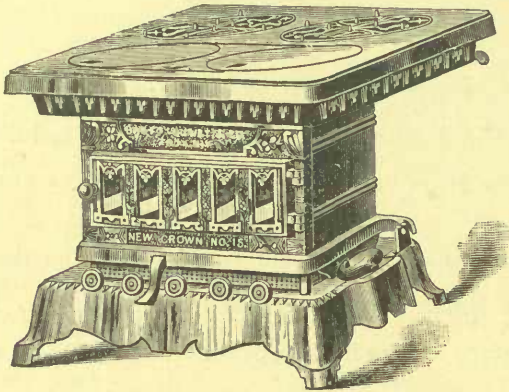

THE OVEN is DOUBLE, having a complete inside lining, and is so constructed that the heat is circulated completely around, thereby giving a steady and uniform heat to all parts.

We make also a SINGLE OVEN, an excellent baker, which we can furnish at less price than the Double Oven. (See prices, page 97.)

This Stove has been thoroughly tested and has proven the greatest success in this line ever introduced, and we can cheerfully recommend it to the trade as the most ECONOMICAL, most EFFICIENT and POSITIVELY SAFEST OIL STOVE in the market.

# New Crown Oil Stove.

It is universally conceded that Villeneuve Mica is of superior quality to any which has been imported into Canada. It is quite as refractory as any yet discovered, and cannot be excelled in lustre or transparency.

We are in a position to supply the requirements of the trade at lower prices than can be had from foreign producers, and urge dealers to apply for discounts before ordering elsewhere.

MANUFACTURERS, IMPORTERS, AND WHOLESALE  
DEALERS IN
