Net authority used, end of year.....	27,917,457
Authority limit	30,000,000
Unused authority carried forward	2,082,543

**NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981**

1. Purpose and authority

The objective of the Fund is to establish an effective central control and accountability over the purchasing, stocking and issuing of expendable items, controllable items and initial sparing for depot stocks required by the Department.

The Transport Stores Revolving Fund was authorized by the Adjustment of Accounts Act—Bill C-22 passed July 3, 1980.

The Transport Stores Revolving Fund has an authorized working capital limit of \$30,000,000. An amount of \$25,489,058 representing net assets assumed by the Fund was charged against the authority when the Fund became budgetary.

2. Significant accounting policies

(a) Inventories

Inventories are valued at cost.

(b) Sales prices

Selling prices to consumers are on the basis of acquisition costs.

3. Restatement of prior year's figures

The 1980 figures have been restated to conform to the 1981 presentation.

Appendix 2—Continued

Self-supporting Airports and Associated Ground Services Revolving Fund—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Purpose and authority

The Airports Revolving Fund was established in 1969 and authorized by Vote L160, Appropriation Act No. 3, 1969, 1968-69, c. 36 for the purpose of financing the operation and development of certain airports. As at March 31, 1979, the Fund included the accounts of the international airports at Dorval, Mirabel, Toronto and Vancouver and the land which was acquired at Pickering, Ontario, for the purpose of constructing an airport.

Effective April 1, 1979, Treasury Board approved an expansion of the Fund to include the operations of five additional international airports and 14 national airports. At that same date, the Department of Transport commenced to recover from the Fund the costs of providing certain essential operating support, including air traffic control and telecommunication and electronic services.

Effective April 1, 1980, Parliament through the passage of the "Adjustment of Accounts Act" repealed all votes in respect of the accounts of the Airports Revolving Fund. Section 31 of this Bill established the Self-supporting Airports and Associated Ground Services Revolving Fund as a budgetary entity with a statutory drawing authority of \$80 million.

Consolidated Revenue Fund

The Consolidated Revenue Fund is the central account through which all government receipts and disbursements flow. All cash transactions of the Self-supporting Airports and Associated Ground Services Revolving Fund are therefore made through the Consolidated Revenue Fund. By virtue of the Self-supporting Airports and Associated Ground Services Revolving Fund's mandate, it receives credit for all revenues generated and is empowered to draw funds under statutory authority, from the Consolidated Revenue Fund for any revenue shortfalls.

2. Significant accounting policies

(a) Inventory

Inventory of materials and supplies maintained for repair and maintenance purposes at the airports is carried at the lower of cost and replacement value.

(b) Fixed assets

Fixed assets purchased by the Fund are recorded at cost. Fixed assets transferred to the Fund prior to April 1, 1979 are recorded at appraisal values as established by Transport Canada in accordance with Treasury Board Circular 1970-7 of January 8, 1970. Fixed assets transferred to the Fund as at April 1, 1979 in connection with the addition of 19 airports (Note 1) are recorded at their depreciated cost.

Not included in the cost of land is additional compensation to March 31, 1981 totalling \$15,062,748 paid by Transport Canada, on an ex gratia basis, to former owners of expropriated properties of Mirabel Airport. This amount will not be charged to the Fund, and has been reported under the Air Transportation Program—Grants and contributions activity.

(c) Airport development cost

Project administration costs, including interest during construction, incurred during the construction of new airports are capitalized and included in airport development costs to the extent that these costs are not readily identifiable with specific capital items.

(d) Depreciation

Depreciation is charged, on a straight-line method, based on the estimated useful life of the assets.

The depreciation rates used for the major classes of assets are as follows:

Runways and other surfaces	3.3%— 7.5%
Terminal and facilities	4.0%—10.0%
Machinery	3.3%— 5.0%
Equipment—Static	5.0%— 9.0%
—Mobile	6.0%—18.0%
Amortization of development costs (excluding interest)	10.0%
Amortization of capitalized interest	4.2% (the average rate of depreciation of the assets)

(e) Contributed capital

Amounts representing working capital and the values assigned to assets transferred to the Fund, from Canada, are shown as contributed capital.

The values of assets transferred from the Fund to Transport Canada are shown as reductions to contributed capital.

(f) Headquarters and regional overhead

Headquarters and regional overhead reflects the expenditures incurred by the Canadian Air Transportation Administration in providing technical and administrative services to the Fund. These expenditures are not readily identifiable with specific services and are applied to the Fund as a percentage of the direct operating and maintenance expenses.

(g) Grants in lieu of taxes

Grants in lieu of taxes, imposed on airports operating in the Fund, are accrued based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid by the Department of Finance and recovered from the Fund.

The grants are not finalized until they have been audited by the Department of Finance, often several years in arrears. Any normal adjustments upon finalization are reflected in the accounts in the year of settlement.

(h) Pension plan

Employees of the Canadian Air Transportation Administration operating the airports financed through the Self-supporting Airports and Associated Ground Services Revolving Fund are covered by the Public Service Superannuation Act and the Supplementary Retirement Benefits Act. The Government of Canada's portion of the pension cost is included in the employee fringe benefit charge assessed against the Fund. The actual payment of the pension is made from the Public Service Superannuation and Supplementary Retirement Benefits Account.

3. Deletion of loans

The "Adjustment of Accounts Act" (Note 1) deleted loans due to Canada of \$650 million. The deletion of debt was reflected in the accounts of the Fund as an increase in contributed capital (equity) of the Government of Canada.

4. Transfer of Pickering lands to the Department of Transport

Effective March 31, 1981, the accounts relating to the Pickering lands were transferred to the Department of Transport reducing the assets and contributed capital of the Fund by \$185 million respectively.

Appendix 2—Concluded**Self-supporting Airports and Associated Ground Services Revolving Fund—Concluded****NOTES TO FINANCIAL STATEMENTS**MARCH 31, 1981—*Concluded***5. Termination benefits**

Termination benefits accrue to employees of the Canadian Air Transportation Administration operating the airports financed through the Self-supporting Airports and Associated Ground Services Revolving Fund. Payment of these benefits is made to the employees on separation or retirement and is expensed by the Fund when paid. No provision has been made in the accounts for benefits accruing to employees as at March 31, 1980. The amount of the liability has not been calculated.

6. Payment of provincial sales taxes

The Department of Finance makes certain payments on behalf of the Fund to participating provinces in lieu of the payment of sales taxes. These payments, estimated to amount to approximately \$1.4 million this year, are currently not recovered from the Fund and no provision has been made in the accounts for these payments.

7. Contractual liability

The Self-supporting Airports and Associated Ground Services Revolving Fund was committed to expenditures totalling approximately \$23 million under fixed asset construction contracts as at March 31, 1981.

8. Correction of prior years

A review of the accounts of certain assets transferred to the Fund, April 1, 1979, resulted in an increase in the fixed assets and contributed capital of the Fund of approximately \$2 million and a reduction in depreciation expense for the period ending March 31, 1980 of approximately \$1.5 million. The prior year's figures have been correspondingly restated.

9. Contingent liabilities

In connection with its operations, the Fund is the defendant in certain pending or threatened litigation. Management, based on legal counsel, estimate the contingent liabilities to approximate \$10 million.

Appendix 3

Transport Canada

CONSOLIDATED STATEMENT OF OPERATING RESULTS*
FOR 231 AIRPORTS COVERING THE FISCAL YEARS ENDED
MARCH 31, 1981 AND MARCH 31, 1980 (NOTE 1)

Appendix 3—Concluded

Transport Canada—Concluded

NOTES

1. The above financial statements include the Department's investment in airports which it does not operate, so as to reflect its total investment.
2. The above statements have been prepared on an accrual basis. A reconciliation of these figures with cash revenues and expenditures included in the details of Vote 15 and Vote L30 follows:

	Revenues	Expenditures
	(\$000's)	
Accrued totals	352,972	498,150
Adjustments:		
Non-cash items	(559)	(326,291)
Revolving fund overhead, grants in lieu of taxes, and employee fringe benefits		125,507
Cash totals	352,413	297,366

Revenues and expenditures, which are applicable to the Self-supporting Airports and Associated Ground Services Revolving Fund, which comprises the accounts of the 23 national and international airports, have been included in this statement in order to show operating results on a basis comparable with the previous year.

3. Commencing April 1, 1979, the Self-supporting Airports and Associated Ground Services Revolving Fund was charged for the cost of terminal control services provided by the Air Administration. Charges for the period approximated 60 million dollars and have been included in the expenditure category "Materials, Supplies and Services".
4. Depreciation is charged at 3½% on hard-surfaced runways, 4% on Terminal buildings, and on other assets ranging from 5% to 20%.
5. The other allocated costs include the provision for interest on investment, administrative overhead and employee fringe benefits.
6. Investments which were reported during prior periods, at airports which are neither owned nor operated by Transport Canada, have been deleted from the accounts in accordance with the Confirmation of Public Property Accounting Records.

TREASURY BOARD

Secretariat

Objectives

CENTRAL ADMINISTRATION OF THE PUBLIC SERVICE PROGRAM

- In accordance with the responsibility delegated by the Privy Council as set out in the Financial Administration Act:
- the selection of programs and projects that will achieve the objectives of the Government in the most effective manner and in accordance with its priorities and the efficient use of person-years and material resources by departments and agencies in the operation of their programs and projects.

GOVERNMENT CONTINGENCIES AND CENTRALLY FINANCED PROGRAMS

- To provide for unforeseen and urgent expenditures which arise after the Main Estimates have been tabled; to provide funds for centrally managed programs.

EMPLOYER CONTRIBUTIONS TO INSURANCE PLANS PROGRAM

- Provision of the Government's contribution, as the employer, to employee insurance plans and for payments made under certain residual pension plans.

TEMPORARY ASSIGNMENTS PROGRAM

- To provide in response to departmental and agency demands highly qualified analysts to assist, on a temporary basis, in policy reviews and similar activities.

Comptroller General

Objectives

MANAGEMENT PRACTICES AND CONTROLS PROGRAM

- In accordance with the responsibility delegated by the Privy Council, as set out in the Financial Administration Act, to ensure the quality and integrity of financial control systems and related administrative practices and procedures designed to operate after and within the authorization of the allocation of resources by the government and by Parliament.

IMPLEMENTATION ASSISTANCE PROGRAM

- To improve financial management practices and the directly related planning and control procedures upon which the financial function depends.

Note: The former Special Program of the Treasury Board Secretariat was transferred to the Canada Employment and Immigration Commission of the Department of Employment and Immigration, and then to the Citizenship Program of the Department of Secretary of State.

Effective June 30, 1980 (PC 1980-1620), Statistics Canada was transferred to the Department of Supply and Services.

VETERANS AFFAIRS

Objectives

VETERANS AFFAIRS PROGRAM

- To provide support for the economic, social, mental and physical well-being of veterans and their dependants.
- To provide sheltered employment by production and sale of Vetcraft products.

WAR VETERANS ALLOWANCE BOARD PROGRAM

- To ensure that veterans and their dependants receive their entitlement under the War Veterans Allowance Act and Part XI of Civilian War Pensions and Allowances Act.

PENSIONS PROGRAM

- To provide service-related death and disability pensions to ex-members of the armed forces or their dependants.

BUREAU OF PENSIONS ADVOCATES PROGRAM

- To provide an independent professional legal aid service to persons seeking to establish claims under the Pension Act and allied statutes and orders.

Use of Appropriations

Vote	Program	
VETERANS AFFAIRS PROGRAM		
	Budgetary	
1	Operating expenditures; upkeep of property, including engineering and other investigational planning expenses that do not add tangible value to real property, taxes, insurance and maintenance of public utilities; to authorize, subject to the approval of the Governor in Council, necessary remedial work on properties constructed under individual firm price contracts and sold under the Veterans' Land Act and to correct defects for which neither the veteran nor the contractor can be held financially responsible, and for such other work on other properties as may be required to protect the interest of the Director therein	\$ 191,624,800
	1a To extend the purposes of Veterans Affairs Vote 1 of the Main Estimates, 1980-81, to deem Gervais Bellefontaine to have enlisted and to have served continuously in the Canadian Army between 10 January 1944, and 28 December 1945, both dates inclusive, on which latter date he is deemed to have been honourably released from the Canadian Army	1
	1b To authorize the deletion from the accounts of certain debts due and claims by Her Majesty amounting in the aggregate to \$348,493.58	1
	<i>Less: transfer to Vote 5</i>	191,624,802 10,599,999
5	The grants listed in the Estimates and contributions provided that the amount listed for any grant may be increased or decreased subject to the approval of the Treasury Board	\$ 304,724,000
	5b To authorize the transfer of \$10,599,999 from Veterans Affairs Vote 1 of the Main Estimates, 1980-81 for the purposes of this Vote ..	1
	Transfer from: Vote 1	10,599,999

Notes to statement of accounts receivable

NOTE A—CONSUMER AND CORPORATE AFFAIRS

By virtue of Section 118 of the Bankruptcy Act, the Superintendent is entitled to a two per cent levy for the purpose of defraying administrative expenses. The dollar amount indicated represents shares certificates (inactive) and four promissory notes received by the Superintendent as levy payments at the close of the relevant bankruptcies. The listed value is not at market rates but rather at the dollar value of the levy at the time of acquisition.

NOTE B—EMPLOYMENT AND IMMIGRATION—CANADA
EMPLOYMENT AND IMMIGRATION COMMISSION

This statement excludes the Unemployment Insurance Account receivable which is reported separately in the financial statements of the Unemployment Insurance Account as at December 31, 1980.

NOTE C—ENERGY, MINES AND RESOURCES—ATOMIC
ENERGY CONTROL BOARD

The amount shown under "Other collectable during the current year" includes an estimated amount of \$212,000 collectable from NIAC for the Board's Nuclear Reinsurance Account.

NOTE D—NATIONAL REVENUE—CUSTOMS AND EXCISE

Not included in the statement are contingent receivables estimated at \$232,274,811 for customs duties and excise taxes relating to motor vehicles and motor vehicle parts imported by vehicle manufacturers who have not fully complied with conditions specified under automotive incentive programs.

The total receivables represent 14,413 accounts and consist of:

	Customs	Excise	Total
	\$	\$	\$
Active and Collectable	15,551,771	11,773,830	27,325,601
This amount represents current debts on which collection action is presently being taken, and represents 11,487 accounts.			
Disputed—Under Appeal.....	4,382,069	26,367,466	30,749,535
There are 1,291 accounts which have been disputed or are under appeal as provided for under governing acts and regulations.			
Bankruptcies	653,259	7,412,950	8,066,209
There are 761 accounts where an official assignment or receiving order has been filed under the Bankruptcy Act.			
Uncollectable.....	1,001,502	4,320,050	5,321,552
These are debts on which all avenues of collection have been exhausted and which are awaiting authority for deletion, or are in the process of being submitted to the Departmental Uncollectable Committee for review. There are 874 such debts.			
	21,588,601	49,874,296	71,462,897

NOTE E—NATIONAL REVENUE—TAXATION

The total receivable amounted to \$1,841,969,109 and consisted of 927,007 accounts:

	Collectable		Uncollectable		Total

Federal Government's net share of administration expenses of provincial boards	3,956,613
Merchant seamen compensation	10,701
Total net expenditures	17,192,814

*Includes \$12,265 compensation to Quebec casual employees TB (1979-29) dated August 24, 1979.

Compensation and administration expenses

The claims of Federal employees eligible for compensation are dealt with and paid by the Provincial Workmen's Compensation Board from funds advanced by the Federal Government. Claims of employees resident in the Northwest Territories and the Yukon Territory are processed and paid by the Workers' Compensation Board of Alberta. Details of transactions resulting in the above-mentioned expenditures follow:

Ontario	(3,201)
Manitoba	1,183
Saskatchewan	2,570
Alberta	(53)
British Columbia	(948)
Total provinces	1,174
Northwest Territories	248
Yukon Territory	32
Total	1,454

The Hospital Insurance and Diagnostic Services Act was established in 1957 to enable the payment of contributions by Canada towards the cost of eligible hospital and diagnostic services incurred by the provinces. Agreements were made with all the provinces and territories, but under a federal-provincial agreement, the Province of Quebec subsequently opted out of the program in the fiscal year 1962-63.

On April 1, 1977, the method of determining and paying contributions in respect of the Hospital Insurance and Diagnostic Services Act was changed with the introduction of the Established Programs Financing arrangements included under Part VI of the Federal-Provincial Fiscal Arrangements and Established Programs Financing Act, 1977. Federal contributions now take the form of a transfer of a predetermined number of tax points (and associated equalization) and, in addition, the payment of a predetermined base amount of cash escalated on the basis of growth of the GNP and population. Consequently, the payments (recoveries) made during the fiscal year 1980-81 under the Hospital Insurance and Diagnostic Services Act reflect only adjustments of costs incurred prior to April 1, 1977.

Payments under Federal-Provincial Fiscal Arrangements and Established Programs Financing Act, 1977 (in thousands of dollars)

Provinces and territories	Hospital insurance	Medical care	Extended health care services	Total 1980-81
Newfoundland	70,430	24,401	15,526	110,357

Yukon Territory	2,151	741	579	3,471
Total	2,480,315	859,607	640,420	3,980,342

Effective April 1, 1977, the federal contributions in respect of provincial and territorial health care services are included under the established programs financing arrangements found in Part VI of the Federal-Provincial Fiscal Arrangements and Established Programs Financing Act, 1977. These contributions take the form of transfer of a predetermined number of tax points (and associated equalization) which are estimated at \$3.0 billion in 1980-81, together with the payment of a predetermined base amount of cash escalated on the basis of growth of the GNP and population.

Payments under the Health Resources Fund Act (in thousands of dollars)

Provinces and territories	Approved projects	Payments	Balance to be paid
Newfoundland	30,132	30,132	
Prince Edward Island	1,805	1,805

Total provinces	425,927	417,815	8,112
Northwest Territories	113	113	
Total	426,040	417,928	8,112

The Health Resources Fund Act was passed in 1966 to provide for the establishment of a Fund of up to 500 million dollars, to be used to contribute to provinces a portion of the cost of the planning, designing, acquiring, construction or renovating of a school, hospital or other institution to be used to improve the quantity, quality, education and utilization of personnel in the health professions and allied disciplines in order to meet the overall needs for trained people.

During 1978-79, the Act was amended to limit payments to projects authorized prior to November 4, 1978.

Payments under the Canada Assistance Plan (in thousands of dollars)

Provinces and territories	Year ended March 31		Increase or decrease (-)

Yukon Territory	468	1,093	(625)
Total	1,941,301	1,653,169	288,132

The Canada Assistance Plan Act authorizes the Government to enter into agreements with provinces and territories for sharing the costs of social assistance provided to persons in need, and welfare services provided to persons in need or likely to be in need. The rate of the federal contribution is 50% of the eligible and shareable costs.

⁽¹⁾ The Province of Quebec has opted to receive special funding in lieu of cost sharing under the Canada Assistance Plan, in accordance with Part VII for special welfare programs of the Federal-Provincial Fiscal Arrangements and Established Programs Financing Act, 1977. Under these provisions, the Province of Quebec is entitled to receive a combination of cash and tax abatement units equivalent to the transfer payments which would have been made had it opted to participate in the Canada Assistance Plan.

The amounts received by Quebec were:

(in thousands of dollars)	1980-81	1979-80
Cash payments	586,739	496,883
5 tax abatement units (estimated value)	264,555	243,105
	851,294	739,988

Summary of payments under the Family Allowances Act

Year ended March 31	Number of recipients (in thousands)	Number of children (in thousands)	Payments (in millions of dollars)
1977.....	3,562	7,244	1,980
1978.....	3,595	7,140	2,122
1979.....	3,611	7,011	2,093
1980.....	3,631	6,915	1,726
1981.....	3,645	6,826	1,851

Federal family allowances are paid in respect of children under the age of 18. Although payment is normally made to a parent, it may be made to any person who has assumed responsibility for the maintenance of the child. Special allowances are paid for children who are maintained by agencies or institutions. The legislation provides for annual escalation of the allowance in January of each year in accordance with increases in the consumer price index. The federal monthly rate of family allowances per child was \$21.80 in 1980 and \$23.96 in 1981. Special allowances were \$30.51 a month in 1980 and \$33.53 a month in 1981.

A provincial government may request the Federal Government to vary the family allowances rate payable in that province on the basis of the age of the children or the number of children in the family, or both, provided that the smallest monthly payment in that province is at least 60% of the federal rate and the average monthly amount paid for all children in that province is equal to the monthly federal rate. The provinces of Alberta and Quebec have exercised this option.

In March 1981, there were 3,645,009 families and agencies receiving an average of \$45.08 on behalf of 6,826,071 eligible children.

Child Tax Credit is an income tested benefit designed to assist low and middle income families with children. The basic amount of 1980 Child Tax Credit is \$238.00 and is reduced by 5% of family income above \$21,380. The first payments under the Child Tax Credit program provided by amendments to the Income Tax Act in December 1978 were made in 1979 on the basis of net family income in the 1978 taxation year. Payments applicable to taxation years 1978, 1979 and 1980 made from April 1, 1980 to March 31, 1981 amounted to \$286,226,959, \$637,520,084, and \$372,055,910 respectively, a total of \$1,295,802,953.

A full or partial basic old age security pension is payable at age 65 to everyone who has met certain residence requirements.

A guaranteed income supplement is an additional amount payable to pensioners who have no other income or only a limited amount. Entitlement is normally based on income in the preceding calendar year, computed in accordance with the Income Tax Act. Where a married couple is concerned, their combined income is taken into account. In 1980, the guaranteed income supplement was increased by \$35.00 per month per household. This increase guarantees pensioner couples an income which is greater than Statistics Canada's low-income level. The income guarantee for single pensioners remains below the Statistics Canada low-income level.

Spouse's allowance is payable to the spouse of a pensioner if the spouse is between 60 and 65 years of age and meets the residence requirements. Entitlement is based on the combined income of the couple in the same way as the guaranteed income supplement.

Effective from November 1979, the spouse's allowance may continue to be paid, following the death of the pensioner spouse, until the surviving spouse reaches age 65 or remarries, provided the allowance was payable for the month in which the pensioner died. Entitlement is based on the surviving spouse's income only. This applies to all eligible surviving spouses of pensioners who have died since the program began in October 1975.

All benefits under the Old Age Security program are subject to change in January, April, July and October of each year based on increases in the Consumer Price Index.

The benefits in effect as at April 1, 1981 were as follows:

	\$
Basic OAS pension.....	208.20
Maximum GIS—	
Single person.....	209.03
Married person—Spouse not a pensioner.....	209.03
Married couple—Both pensioners.....	161.16
Maximum monthly—	
Spouse's allowance.....	369.36

In March 1981, there were 2,302,841 old age security pensioners, of whom 1,245,188 or 54% were also receiving a supplement; the average supplement paid was \$142.23. In addition there were 85,179 spouses of pensioners in receipt of spouse's allowance. The average spouse's allowance was \$188.75.

NATIONAL HEALTH AND WELFARE—Concluded

The New Horizons Program was established in 1972 to encourage and enable retired Canadians to become more actively involved in the life of their community. This objective is accomplished through the payment of contributions to groups of older people to provide them with an opportunity to share their interests, skills and talents in developing and carrying out projects of their own choosing to the benefit of the participants and others in their community.

REGIONAL ECONOMIC EXPANSION

Grants to assist various organizations associated with the promotion and development of regional economic expansion; contributions related to economic expansion and social adjustment by payments to provinces, provincial agencies and to persons for: programs and projects under the Agricultural and Rural Development Act; the inventory and use of land; research in connection with the development and adjustment of manpower resources in selected areas; programs related to industrial research and development of services to industry including industrial infrastructure; incentives to industry for the development of employment opportunities in designated regions and special areas; general development agreements; and other federal-provincial programs

Year ended March 31, 1981
Year ended March 31, 1980
From inception (including 1980)

Notes.

- (1) Information not available.
- (2) This program was previously reported in the 1976-77 and 1977-78 Public Accounts for the Department of Indian Affairs and Northern Development under the program "Qu'appelle Corridor Recreation and Tourism Planning".
- (3) Amends reporting in the previous year's Public Accounts.
- (4) No payment is shown to Quebec since the compensation to that province was made in the form of a special individual income tax abatement and a cash adjustment payment as provided for under the Established Programs (Interim Arrangements) Act, 1964-65. Under an agreement authorized by this Act, the total value to Quebec of the special abatement and cash adjustment was equal to what the federal contribution would otherwise have been under the operative federal statute. Refer to Department of Finance (Vol II) for details.
- (5) Effective April 1, 1977, the nursing home care benefits agreement ended and federal contributions in respect of this program are now included under the Federal-Provincial Fiscal Arrangements and Established Programs Financing Act, 1977.
- (6) No contribution has been made to Quebec as that province has not signed an agreement under the Vocational Rehabilitation of Disabled Persons Act.
- (7) Maintenance cost of perley bridge. Agreement that Federal Government pay 75% and Ontario Government pay 25%.
Maintenance Cost of MacDonald Cartier Bridge. Agreement that Federal Government pay 33 1/2%, Ontario Government 33 1/2% and Quebec Government pay 33 1/2%.
- (8) Includes programs in respect to comprehensive rural development plans, Agricultural and Rural Development Act (ARDA), special areas and special highways agreements, general development agreements, atlantic provinces management training agreement and the atlantic provinces physical distribution advisory services.
Does not include an amount of \$582 for 1981, \$1235⁽³⁾ for 1980 and \$32,006⁽³⁾ since inception, not allocated by provinces.
- (9) A total amount of \$73,700,000 will be recovered in fiscal year 1981-82.
- (10) A total amount of \$94,566,000 will be recovered in fiscal year 1981-82.
- (11) To provide funds to the Department of Regional Economic Expansion to cover Transport Canada's share of Government contribution to the Province of Saskatchewan, to assist in extending highways in the northern areas.

National Design Council

Acting Chairman: D P B Daly.

Members: A R Bailey, Dr P L Bourgault, A M d'Abbadie d'Arrast, H L Donaldson, A Dubois, W P Harland, K B Lambert, W R Teschke, J P Vaughan, T H S West.

Ex Officio Member: P C Fredenburgh.

Members of Council shall serve without remuneration but are entitled to be paid reasonable travelling and living expenses while absent from their ordinary place of residence in the course of their duties.

JUSTICE

Canadian Human Rights Commission

The Commission was established under the authority of the Canadian Human Rights Act (PC 1977-2706 dated September 22, 1977) and consists of a Chief Commissioner, a Deputy Chief Commissioner, and not less than three or more than six other members, to be appointed by the Governor in Council, either as full-time or part-time members of the Commission.

Section 24(1) of the Act provides that the full-time members be paid a salary such remuneration as is prescribed by by-law of the Commission for attendance at meetings of the Commission or any division or committee thereof that the member is requested by the Chief Commissioner to attend. By-law No 2 of the Commission provides that part-time members be paid a fee of \$300 per diem. Full-time members: R Cadieux Ottawa Ont, RGL Fairweather Ottawa Ont, I Hansen Ottawa Ont.

Part-time members: Y Henteleff Winnipeg Man, M MacDonell Antigonish NS, L Martin Montreal Que, D Richardson Edmonton Alta, W Tarnopolsky Ottawa Ont.

Law Reform Commission of Canada

The Commission was established according to the Law Reform Commission Act, c. 64, 1969-70. The complement and status of members

Names of members of commissions and rates of pay—Continued**JUSTICE—Concluded****Law Reform Commission of Canada—Concluded**

is in accordance with an amendment to that Act, which received assent on 24 April, 1975, providing for a Chairman, a Vice-Chairman and three additional members, all serving on a full-time basis. By further amendment as passed by the House of Commons on 22 January in Bill C-56, the titles of "Chairman" and "Vice-Chairman" were changed to "President" and "Vice-President" respectively.

Section 5 of the Act, as amended, provides that each member, unless in receipt of a salary under the Judges Act, shall be paid such salary as is fixed by the Governor in Council.

Members: F C Muldoon QC Ottawa Ont (President), His Honour Judge E J Houston Ottawa Ont, R Paul QC Montreal Que.

LABOUR**Commission of Inquiry into Hours of Work in the Maritime Transport Industry operating from Great Lakes Ports**

The Commission was established under Part III of the Canada Labour Code, paragraph 62(1).

Member: C Lapointe Montreal Que. Departmental employee at regular salary.

Secretary to Commission: Y Deslongchamps Montreal Que. Departmental employee at regular pay.

Burket Commission of Inquiry into Safety in uranium mines in Ontario

The Commission was established under section 86 of the Canada Labour Code.

Members: K Burkett Toronto Ont, P Riggin Toronto Ont, K Rothney Garson Ont.

This department paid fees of \$92,886 as its share under cost-sharing arrangement with the Ontario Ministry of Labour.

NATIONAL HEALTH AND WELFARE**National Council of Welfare**

The Council was established by the Government Organizations Act, 1969 as a citizens' advisory body to the Minister of National Health and Welfare. Its mandate is to advise the Minister of matters pertaining to social welfare policy.

The Council consists of a chairman and up to twenty members drawn from across Canada, who serve as private citizens and are appointed by the Governor in Council. Section 9 of the Government Organization Act states that each member of the Council may be paid remuneration for his services as approved by the Governor in Council, as well as reasonable travelling and other expenses incurred while attending meetings. Order in Council PC 1978-7/506 of February 23, 1978 established a per diem rate of \$150 for the chairman and \$100 for each member.

The Council currently has 18 members (3 vacancies remain to be filled): D Barr (Chairman) Toronto Ont, T A Brennan Bath NB, P Davies Toronto Ont, A Gagnon St-Paul-du-Nord Que, C Girard-McClure Dolbeau Que, M Guadagnola Montreal Que, J Kirley Calgary Alta, M Leroux Quebec Que, P Levasseur Drummondville Que, G Long Burnaby BC, B Lynch Cornwall Ont, A Molloy Saskatoon Sask, R Mondor Montreal Que, E Murialdo Toronto Ont, Y Raymond Montreal Que, P Rowe St John's Nfld, T Sale Winnipeg Man, T D Tramble Monastery NS.

National Advisory Council on Aging

The Council was established by Order in Council PC 1980-1195 of May 1, 1980 as a citizens' advisory body to the Minister of National Health and Welfare. Its mandate is to assist and advise the Minister on all matters related to the quality of life of the aged.

The Council consists of a chairperson and a maximum of seventeen members, who serve as private citizens and are appointed by the Governor in Council. The Order in Council states that each member of the Council may be paid remuneration for his services as approved by the Governor in Council, as well as reasonable travelling and other expenses incurred while attending meetings. Order in Council PC 1980-2625 of October 2, 1980 established a per diem rate of \$150 for the chairman and \$100 for each member.

The Council currently has 14 members (4 vacancies remain to be filled): S McDonald (Chairman) Montreal Que, C Bayley Vancouver BC, R Bayne Hamilton Ont, J Casgrain Westmount Que, S P Connolly Charlottetown PEI, M Davis Edmonton Alta, B Fournier Beauport Que, A Labelle St-Boniface Man, L Langlois Beauport Que, C McDonald Windsor Ont, C Penfold Toronto Ont, H Richard Shediac NB, M Rowe St John's Nfld, J Sangster Regina Sask.

Canada Pension Plan Advisory Committee

The Committee was established under Part III of the Canada Pension Plan Act, (PC 1965-799 dated May 5, 1965) Section 117 and consists of not more than 16 members appointed by the Governor in Council.

The Act provides that the members be paid a per diem rate as well as reasonable accountable travel and living expenses. PC Order 1978-123 establishes a per diem rate of \$150 for the chairman and \$100 for the other members.

Members: J A French (Chairman) Toronto Ont, C M Bowman (Vice-chairman) Winnipeg Man, R Baldwin Ottawa Ont, B Bone Toronto Ont, M Clark Vancouver BC, L Doane Halifax NS, M Donoghue Blackville NB, Dr G Fortier Gaspé Que, G Goodspeed Saskatoon Sask, C Graveline Montreal Que, D Hall Calgary Alta, W P Hogan Dunville Nfld, M Marteinson Calgary Alta, J McArthur Windsor Ont, N Patenaude Field Ont, J Shea Hamilton Ont.

PRIVY COUNCIL**Commission of Inquiry concerning certain activities of the Royal Canadian Mounted Police**

The Commission was established under Part I of the Inquiries Act by Order in Council PC 1977-1911 July 6, 1977.

Three full-time Commissioners were appointed to the Commission and the rates of honorarium were established by Orders in Council PC 1977-13/3078, PC 1977-3080, October 27, 1977 and PC 1978-2319, July 20, 1978. PC 1980-3/1184, May 1, 1980 authorized living allowance of \$90 per diem.

Full-time Commissioners: Justice David C McDonald Edmonton Alta, received no honorarium being presented by the Judges Act from accepting additional remuneration, Guy Gilbert Montreal Que, received payment of a per diem rate of \$750 and living allowance of a per diem rate of \$90, Donald S Rickerd Toronto Ont, received payment of a per diem rate of \$250 and living allowance at a per diem rate of \$90.

Commission of Inquiry into certain allegations concerning commercial practices of the Canadian Dairy Commission

The Commission was established under Part I of the Inquiries Act by Order in Council PC 1979-1586, May 25, 1979. One full-time

Commissioner, the Honourable Mr Justice Hugh F Gibson, Ottawa, Ontario was appointed by Order in Council PC 1979-1587, May 25, 1979. The Commissioner received no honorarium being presented by the Judges Act from accepting additional remuneration.

Commission to Review Salaries of Members of Parliament and Senators

The Commission was established pursuant to the Senate and House of Commons Act and one full time Commissioner, Alfred D Hales Guelph Ont was appointed by Order in Council PC 1979-2167, August 9, 1979.

The Commissioner received payment of a per diem rate of \$250 plus reasonable travel and living expenses.

Commission to Review Salaries of Members of Parliament and Senators

The Commission was established pursuant to the Senate and House of Commons Act and two full time Commissioners Dr Joseph Clifford McIsaac Battleford Sask and the Honourable Leon Balcer Ottawa Ont were appointed by Order in Council PC 1980-1274, May 9, 1980.

The Commissioners received payment of a per diem rate of \$250 and living allowance of a per diem rate of \$90 authorized by Order in Council PC 1980-6/1747, June 26, 1980.

Royal Commission on Conditions of Foreign Service

The Commission was established under Part I of the Inquiries Act and one full-time Commissioner, Pamela A McDougall was appointed by Order in Council PC 1980-2336, August 27, 1980.

The Commissioner is a public servant classified at the DM 2 level in receipt of an annual salary of \$63,110.

Royal Commission on Newspapers

The Commission was established under Part I of the Inquiries Act by Order in Council PC 1980-2343, September 3, 1980.

Three full time Commissioners were appointed, the Chairman Thomas Worrall Kent Mabou NS by Order in Council PC 1980-2343, September 3, 1980, Laurent A Picard Outremont Que by Order in Council PC 1980-2483, September 15, 1980 and Borden Spears Toronto Ont by Order in Council PC 1980-2484, September 15, 1980.

The Chairman received payment of a per diem rate of \$400 and the others received payment of a per diem rate of \$350, and each received a living allowance of a per diem rate of \$90.

Commission of Inquiry Concerning Certain Activities of the Royal Canadian Mounted Police

Expenses of the Commission of Inquiry Concerning Certain Activities of the Royal Canadian Mounted Police:

	Estimates	Allotments	Expenditures
	\$	\$	\$
Expenses.....	1,500,000	1,950,000	1,929,782

PC 1977-1911, dated July 6, 1977.

WHEREAS, it has been established that certain persons who were members of the RCMP at the time did, on or about October 7, 1972,

take part jointly with persons who were then members of La Sûreté du Québec and La Police de Montréal in the entry of premises located at 3459 St Hubert Street, Montreal, in the search of those premises for property contained therein, and in the removal of documents from those premises, without lawful authority to do so;

WHEREAS, allegations have recently been made that certain persons who were members of the RCMP at the time may have been involved on other occasions in investigative actions or other activities that were not authorized or provided for by law;

WHEREAS, after having made inquiries into these allegations at the instance of the Government, the Commissioner of the RCMP now advises that there are indications that certain persons who were members of the RCMP may indeed have been involved in investigative actions or other activities that were not authorized or provided for by law, and that as a consequence, the Commissioner believes that in the circumstances it would be in the best interests of the RCMP that a Commission of Inquiry be set up to look into the operations and policies of the Security Service on a national basis;

WHEREAS, public support of the RCMP in the discharge of its responsibility to protect the security of Canada is dependent on trust in the policies and procedures governing its activities;

AND WHEREAS, the maintenance of that trust requires that full inquiry be made into the extent and prevalence of investigative practices or other activities involving members of the Royal Canadian Mounted Police that are not authorized or provided for by law;

THEREFORE, the Committee of the Privy Council, on the recommendation of the Prime Minister, advise that, pursuant to the Inquiries Act, a Commission do issue under the Great Seal of Canada, appointing Mr Justice David McDonald of Edmonton Alta, Mr Donald S Rickerd of Toronto Ont, Mr Guy Gilbert of Montreal Que to be Commissioners under part I of the Inquiries Act:

- (a) to conduct such investigations as in the opinion of the Commissioners are necessary to determine the extent and prevalence of investigative practices or other activities involving members of the RCMP that are not authorized or provided for by law and, in this regard, to inquire into the relevant policies and procedures that govern the activities of the RCMP in the discharge of its responsibility to protect the security of Canada;
- (b) to report the facts relating to any investigative action or other activity involving persons who were members of the RCMP that was not authorized or provided for by law as may be established before the Commission, and to advise as to any further action that the Commissioners may deem necessary and desirable in the public interest; and
- (c) to advise and make such report as the Commissioners deem necessary and desirable in the interest of Canada, regarding the policies and procedures governing the activities of the RCMP in the discharge of its responsibility to protect the security of Canada, the means to implement such policies and procedures, as well as the adequacy of the laws of Canada as they apply to such policies and procedures, having regard to the needs of the security of Canada.

The Committee further advise that the Commissioners:

- 1. Be authorized to adopt such procedures and methods as the Commissioners may from time to time deem expedient for the proper conduct of the inquiry;
- 2. Be directed that the proceedings of the inquiry be held in camera in all matters relating to national security and in all other matters where the Commissioners deem it desirable in the public interest or in the interest of the privacy of individuals involved in specific cases which may be examined;
- 3. Be directed, in making their report, to consider and take all steps necessary to preserve

Names of members of commissions and rates of pay—Continued

PRIVY COUNCIL—Continued

Commission of Inquiry Concerning Certain Activities of the Royal Canadian Mounted Police—Concluded

- (a) the secrecy of sources of security information within Canada; and
 - (b) the security of information provided to Canada in confidence by other nations;
4. Be authorized to sit at such times and at such places as they may decide from time to time, to have complete access to personnel and information available in the Royal Canadian Mounted Police and to be provided with adequate working accommodation and clerical assistance;
 5. Be authorized to engage the services of such staff and technical advisers as they deem necessary or advisable and also the services of counsel to aid them and assist in their inquiry at such rates of remuneration and reimbursement as may be approved by the Treasury Board;
 6. Be directed to follow established security procedures with regard to their staff and technical advisers and the handling of classified information at all stages of the inquiry;
 7. Be authorized to exercise all the powers conferred upon them by section 11 of the Inquiries Act; and
 8. Be directed to report to the Governor in Council with all reasonable dispatch and file with the Privy Council Office their papers and records as soon as reasonably may be after the conclusion of the inquiry.

The Committee further advise that, pursuant to section 37 of the Judges' Act, His Honour Mr Justice McDonald be authorized to act as Commissioner for the purposes of the said Commission and that Mr Justice McDonald be the Chairman of the Commission.

PC 1977-13/3078, October 27, 1977, authorized payment to Commissioner Mr Donald S Rickerd of an honorarium of \$250 per diem while on duty as Commissioner of the Commission and PC 1980-3/1184, May 1, 1980, authorized a non-accountable living allowance of \$90 per diem.

PC 1978-2319, July 20, 1978, authorized payment to Commissioner Mr Guy Gilbert of an honorarium of \$750 per diem while on duty as Commissioner of the Commission and PC 1980-3/1184, May 1, 1980, authorized a non-accountable living allowance of \$90 per diem.

PC 1979-887, March 22, 1979, and PC 1979-1616, June 2, 1979, clarified and enlarged the terms of reference of the Commission.

PC 1980-2114, October 28, 1980, established the reporting date of 31 March 1981.

PC 1981-890, March 31, 1981, amended the reporting date to May 15, 1981.

Commission of Inquiry into Certain Allegations Concerning Commercial Practices of the Canadian Dairy Commission

Expenses of the Commission of Inquiry into certain allegations concerning commercial practices of the Canadian Dairy Commission:

	Estimates	Allotments	Expenditures
	\$	\$	\$
Expenses	300,000	300,000	313,372

PC 1979-1586, dated May 25, 1979.

WHEREAS the Committee of the Privy Council has had before it a report by the Prime Minister concerning certain allegations made by Schafer Bros Ltd and Mr Michel Choquette in respect of dealings of the Canadian Dairy Commission, its officers and employees with Schafer Bros Ltd, Montreal Que during the years 1966 to 1977 relating to the export from Canada of skim milk powder;

AND WHEREAS the Committee is of the opinion that it would be in the public interest for the said allegations to be investigated;

The Committee, THEREFORE, on the recommendation of the Prime Minister, advise that the Honourable Mr Justice Hugh F Gibson of the City of Ottawa, Province of Ontario, be appointed a Commissioner under part I of the Inquiries Act to inquire into certain allegations made by Schafer Bros Ltd and Mr Michel Choquette in respect of dealings of the Canadian Dairy Commission, its officers and employees with Schafer Bros Ltd, Montreal Que during the years 1966 to 1977 in respect of the export from Canada of skim milk powder, and

- (a) to define the issues raised by the said allegations;
- (b) premised on the said issues, to determine all relevant facts concerning the actions of the Canadian Dairy Commission, its officers and employees in their dealings with Schafer Bros Ltd during the years 1966 to 1977 relative to the export from Canada of skim milk powder;
- (c) to ascertain whether the Canadian Dairy Commission, its officers and employees have acted lawfully and fairly in their dealings with Schafer Bros Ltd; and
- (d) to report to the Governor in Council with regard to the matters investigated under paragraphs (a), (b) and (c) and to include in the report
 - (i) a recommendation as to whether any compensation should be paid to Schafer Bros Ltd and, if so, the basis on which such compensation should be determined, and
 - (ii) such other recommendations as the Commissioner may deem appropriate.

The Committee further advise:

1. That the Commissioner be authorized to adopt such procedures and methods as he may from time to time deem expedient for the proper conduct of his duties;
2. That the Commissioner be authorized to engage the services of such counsel, staff, clerks and technical advisers as he may require at rates of remuneration and reimbursement to be approved by the Treasury Board;
3. That the officers and employees of departments and agencies of the Government of Canada render such assistance to the Commissioner as may be required for his activities;
4. That the Commissioner be authorized to sit at such times and at such places as he may decide from time to time;

PC 1979-1587, May 25, 1979.

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL, on the recommendation of the Minister of Justice, pursuant to section 37 of the Judge's Act, is pleased hereby

- (a) to authorize the Honourable Mr Justice Hugh F Gibson to act as a commissioner on an inquiry in respect of dealings of the Canadian Dairy Commission pursuant to Order in Council PC 1979-1586 of May 25th, 1979; and
- (b) to authorize payment of reasonable travelling and other expenses incurred by the said Honourable Mr Justice Gibson away from his capacity as a commissioner in the same amount and under the same conditions as if he were performing a function or duty as a judge pursuant to the Judges' Act.

PC 1979-1653, June 13, 1979.

The Committee of the Privy Council, on the recommendation of the Prime Minister, advise that the Honourable Hugh F Gibson appointed commissioner under Order in Council PC 1979-1586 of May 25th, 1979, to inquire into certain allegations in respect of dealings of the Canadian Dairy Commission be known as the Commission of Inquiry into Certain Allegations Concerning Commercial Practices of the Canadian Dairy Commission.

Royal Commission on Conditions of Foreign Service

Expenses of Royal Commission on Conditions of Foreign Service:

	Estimates	Allotments	Expenditures
	\$	\$	\$
Expenses	700,000	700,000	665,627

PC 1980-2336, August 27, 1980.

WHEREAS the Committee of the Privy Council has had before it a report of the Prime Minister submitting:

That changes in the scope and content of international relations, in the methods by which those relations are conducted and the conditions and circumstances under which members of the foreign service and their families choose to live in Canada and under which they must live while abroad may not have been adequately recognized in the management of the foreign service;

That failure to take adequate account of these changes could be leading to a decline in the incentives for service abroad and could affect the motivation that has underlain the high professional standards of the Foreign Service and given Canada an enviable reputation for the effectiveness with which its interests are served; and

That the Government wishes to ensure that these high standards are maintained and that the people of Canada continue to benefit from this high level of service.

It is, therefore, in the national interest that an inquiry be made into how these changes should be reflected in the Government's approach to the management of foreign service personnel and related foreign service operations.

The Committee, on the recommendation of the Prime Minister, therefore, advise that, pursuant to Part I of the Inquiries Act, Your Excellency in Council may be pleased to appoint, effective September 1, 1980, Pamela A. McDougall as Commissioner to examine into changes in the conditions of foreign service and to report on steps that the Government might take to accommodate them in the context of its approach to the legal, administrative and operational frameworks of the Foreign Service, with particular attention to:

- (a) the views of persons serving in the foreign service and their families;
- (b) the views of organizations and associations representing members of the foreign service and their families;
- (c) the views of the departments and agencies responsible for the management of the foreign service; and
- (d) the views of persons both within and outside of Government who make direct use of the foreign service.

The Committee further advise:

- (a) That the Commissioner be authorized to adopt such procedures and methods as she may from time to time deem expedient for the proper conduct of the inquiry and may sit at such times and at such places in Canada and abroad as she may decide from time to time;
- (b) That the Commissioner be authorized to exercise all the powers conferred upon her by section 11 of the Inquiries Act;
- (c) That the officers and employees of departments and agencies of the Government of Canada render such assistance to the Commissioner as she may require for her activities; and
- (d) That the Commissioner be required to submit a report no later than one year from the date of appointment and file with the Public Archives of Canada the papers and records of the Commission as soon as possible after the conclusion of the inquiry.

PC 1980-2457, September 12, 1980.

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL, on the recommendation of the Prime Minister, is pleased hereby to amend Order in Council PC 1980-2336 of 27th August, 1980

1. By renumbering paragraphs (a), (b), (c) and (d) setting out the Commissioner's powers as paragraphs 1, 2, 3 and 5 respectively;
2. By deleting the word "and" at the end of paragraph 3 thereof and by adding thereto immediately after paragraph 3 thereof the following paragraph:
 - "4. That the Commissioner be authorized to engage the services of such counsel, staff and technical advisers as she may require at rates of remuneration and reimbursement to be approved by Treasury Board"; and

Royal Commission on Newspapers

Expenses of Royal Commission on Newspapers:

	Estimates	Allotments	Expenditures
	\$	\$	\$
Expenses	970,000	1,370,000	1,446,534

PC 1980-2343, September 3, 1980.

The Committee of the Privy Council, having had before it a report from the Right Honourable Pierre Elliott Trudeau, the Prime Minister, submitting:

that there has been a decline in the number of daily newspapers serving major cities and a decline in the number of cities in which competition between daily newspapers exists;

that there has been increased concentration of ownership and control of daily newspapers in Canada; and

that it is desirable that a study be undertaken, without delay, into the extent and causes of the aforesaid situation, and into the implication for the country of that situation.

The Committee, therefore, on the recommendation of the Prime Minister, advises that Mr Thomas Worrall Kent, of Mabou, in the Province of Nova Scotia, be appointed a Commissioner under Part I of the Inquiries Act to inquire generally into the daily newspaper industry in Canada, specifically into the concentration of the ownership and control of the industry and into the recent closing of newspapers, and, without limiting the general scope of this inquiry, to examine and report on:

- (a) the degree to which the present situation in the newspaper industry has affected or might affect fulfilment of the newspaper industry's responsibilities to the public;
- (b) the consequences of the elimination of daily newspapers for individual citizens and community life in those cities where a newspaper has been eliminated in recent years;
- (c) the consequence of the present situation in the newspaper industry for the political, economic, social and intellectual vitality and cohesion of the nation as a whole;

(d) such measures as might be warranted to remedy any matter that the Commission considers should be remedied as a result of the concentration of the ownership and control of the industry and the recent closing of newspapers.

The Committee further advises that

- 1. The Commission be authorized to exercise all the powers conferred upon Commissioners by section 11 of the Inquiries Act;
- 2. The Commission be authorized to adopt such procedures and methods as it may from time to time deem expedient for the proper conduct of the inquiry and sit at such times and in such places in Canada as it may decide from time to time;
- 3. The Commission be authorized to engage the services of such counsel, staff, clerks and technical advisers as it considers necessary or advisable at such rates of remuneration and reimbursement as may be approved by the Treasury Board;
- 4. The Commission be required to report to the Governor in Council not later than July 1st, 1981;
- 5. The Commission be required to file with the Dominion Archivist the papers and records of the Commission as soon as reasonably may be after the conclusion of the inquiry;
- 6. The officers and employees of the departments and agencies of the Government of Canada be required to render such assistance to the Commission as it may require for the inquiry; and
- 7. The said Mr Thomas Worrall Kent be designated as the Chairman of the Commission.

PC 1980-2483, September 15, 1980.

The Committee of the Privy Council, on the recommendation of the Prime Minister, advise that Mr Laurent A Picard, Outremont, Que, be appointed a Commissioner, under Part I of the Inquiries Act, of the Commission to inquire generally into the daily newspaper industry in Canada, authorized to be established by Order in Council PC 1980-2343 of 3rd September, 1980.

PC 1980-2484, September 15, 1980.

The Committee of the Privy Council, on the recommendation of the Prime Minister, advise that Mr Borden Spears, of Toronto Ont, be appointed a Commissioner, under Part I of the Inquiries Act, of the Commission to inquire generally into the daily newspaper industry in Canada, authorized to be established by Order in Council PC 1980-2343 of 3rd September, 1980.

PC 1980-2703, October 9, 1980.

The Committee of the Privy Council, on the recommendation of the Prime Minister, advise that the Commissioners appointed under Order in Council PC 1980-2343 of 3rd September, 1980, Order in Council PC 1980-2483 of 15th September, 1980 and Order in Council PC 1980-2484 of 15th September, 1980, to inquire generally into the daily newspaper industry in Canada, be known as the Royal Commission on Newspapers.

Copper Mission to Brussels, June 21-26, 1980

Government Delegates

Peplinski D, Halliburton D, Thomson Dr R.

Non-Government Delegates

Carmichael J, Carriere R, English C, Farge J, Gervais Dr E, Goldman D, Harris T, Hodkin E W, Kirby B, Lee L, Lily J H, Molson J, Newman C, Pearson E B, Russek A, Schloen J, Sicotte D, Vertesi T.

Sub-Committee for Industrial Cooperation Meeting in Ottawa, November 18-20, 1980

Government Delegates

Burger A, Guérin A M, Riley G, Trépanier G, Watt A R, Williamson T.

Non-Government Delegates

Apperley T, Armstrong M, Andrzejewski P, Booth J, Bélanger J, Caspari M, Carrette D, Davis M, Dieg F, de Condé A, Fitzbiggon A, Fox R, Fritz C, Garrick C, Gay P, Gerner E, Govaerts F, Grenier P E, Maes A, Margotton B, Palmer C, Poder P, Ruel M, Watts C, Yeates C.

EC Coal Mission to Canada, September 14-26, 1980

Government Delegate

Nash G.

Non-Government Delegates

Anderheggen E, Baralis R, Baumann H P, Berstein F, Bots J W, Daniels W, Eliasmoller H, Gibson J, Heinemann W R, Meek M.

Canada/EC Forest Products Working Group Meeting in Brussels, May 10-16, 1980

Government Delegates

Côté B, Hall J W, Ross R W, Shaw D, Vandervan K.

Non-Government Delegates

de la Brosse P, Eggleston D, Friz C, Goffard W, Govaerts F, Gravigny L, Gray P, Put G, Sangway K.

Lumber Seminar in Hamar, Norway, September 14-19, 1980

Government Delegate

Selin A.

Non-Government Delegate

Carroll Dr M.

Asbestos Mission to Europe, January 16-25, 1981

Government Delegate

Nash G.

Non-Government Delegates

Dahmen Dr G, Dunnigan J, Lesage Dr M, Meek M, Perlstein D.

Japanese Fats and Oil Wholesalers' Mission from Japan, July 24-26, 1980—\$596

Government Delegate

McBride A D.

Canola Trade Delegation to North Africa, February 20-28, 1981—\$2,974

Government Delegate

McBride A D.

Non-Government Delegates

Baryliuk N, Chamberlain R, Hall B, Hughes D, Langer J.

Incoming Technical Mission from India, January 7-30, 1981—\$9,340

Non-Government Delegates

Agarwal V K, Sen C, Singhal Dr.

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 55 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the Accounts of Canada and from more detailed records maintained in departments and agencies. The Accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department is responsible for the accuracy of its accounts and maintains detailed records of the transactions in those accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years.

Format of the Public Accounts

The Public Accounts is produced in three volumes.

Volume I presents a summary and analysis of the financial transactions of the Government while **Volume II** presents the financial operations of the Government, segregated by department and associated agencies, as well as additional information and analysis of selected types of payments.

Volume III contains the financial statements of those Crown corporations which are permitted by legislation to keep their own accounts. These are Schedules C and D (agency and proprietary) corporations, as well as the Bank of Canada and The Canadian Wheat Board which, although not designated as Crown corporations, act as agents of Her Majesty.

Summary Table

Table 1 contains a summary of the loans, investments and advances made by the Government to the Crown corporations as well as the financial assistance paid from budgetary appropriations during the current year. The table also includes the total amount of investments in Crown corporations financed from non-budgetary appropriations as at March 31, 1981 and the return on these investments during the fiscal year of the Government.

Details of the financial assistance authorized by budgetary appropriations and paid to corporations can be found in Volume II under the department through which the corporation reports. The return on investments paid by the corporations to the Government are analyzed in Section 13 of Volume I as well as in the departmental sections of Volume II. Further information on loans, investments and advances made by the Government to the corporations is contained in Section 6 of Volume I.

TABLE 1

SUMMARY OF GOVERNMENT FINANCIAL TRANSACTIONS
WITH CROWN CORPORATIONS FOR THE YEAR ENDED MARCH 31, 1981

Corporations	Financed from budgetary appropriations ⁽¹⁾	Non-budgetary				Total amount invested	Return on investments Current year

AIR CANADA

AUDITORS' REPORT

TO THE HONOURABLE,
THE MINISTER OF TRANSPORT,
OTTAWA
AND
TO THE BOARD OF DIRECTORS OF AIR CANADA.

We have examined the balance sheet of Air Canada as at December 31, 1980 and the statements of income, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the Corporation and the accompanying financial statements are in agreement with the books of account.

The financial statements for the preceding year were examined by other Chartered Accountants.

AIR CANADA—Continued

NOTES TO FINANCIAL STATEMENTS

1. Summary of significant accounting policies

(a) Property and equipment and flight equipment under capital leases

Depreciation and amortization is provided by the straight line method based on the following periods.

Asset	Number of Aircraft	Depreciation Period
Boeing 747	7	16 years
Lockheed 1011	10	15 and 16 years
Boeing 727	34	14 years
DC-8	27	14 years
DC-9	44	12 years
Ground equipment and facilities		5 to 30 years

Air Canada leases 18 of the above aircraft. For accounting purposes, these aircraft are treated as though they are owned.

Expenditures for maintenance and repairs are charged to operating expenses as incurred. Significant expenditures for modifications and betterments are capitalized.

Gains or losses realized on the disposal of major property and equipment are reflected in income in the year of disposition.

(b) Spare parts

Provision for the obsolescence of aircraft spare parts included in current assets, less their estimated residual value, is made by charges to operating expenses over the service lives of the related aircraft types.

(c) Deferred charges

Costs incurred in introducing new types of aircraft are deferred and amortized on a straight line basis over five years, commencing with the time the first aircraft of each type is placed into revenue service.

Financing and other deferred costs are amortized on a straight line basis over the period to which they relate.

(d) Passenger and freight revenues

Passenger and freight sales are recognized as earned revenue when the transportation service is provided. Unearned amounts are treated as current liabilities.

(e) Capitalized interest

Interest is capitalized on payments for major property and equipment additions made prior to their entry into regular service and is included in their cost.

(f) Translation of foreign currencies

All assets and liabilities are translated into Canadian dollars at year-end exchange rates except spare parts, property and equipment, flight equipment under capitalized leases, and investment in other companies which are translated at exchange rates prevailing when the asset was acquired. Revenues and expenses (excluding depreciation, amortization, and obsolescence which are translated at their historic rates) are translated at the rates in effect during the month in which the transactions occurred.

Foreign exchange gains and losses are reflected in income for the year.

(g) Income taxes

The Corporation records income taxes on the tax allocation basis which recognizes the income tax effect on transactions when they are recorded in accounting income, regardless of

when such items are recognized for tax purposes. These timing differences can result in deferred income taxes either being provided for or recoverable depending on when the items are recognized for accounting and tax purposes.

(h) Pensions

The cost of funding current service pension benefits is charged to operations as incurred. Unfunded liabilities as determined by actuarial valuation are funded by annual payments which are charged to operations over periods recommended by the actuaries and in accordance with regulatory requirements.

2. Cash and short-term investments

	1980	1979

Other companies—at cost	730	1,674
Advances	2,865	606
	40,899	27,790

AIR CANADA—Concluded

NOTES TO FINANCIAL STATEMENTS—Concluded

The Corporation has excluded Nordair Ltd. from consolidation and has recorded the investment using the equity method of accounting because the continued ownership of Nordair Ltd. is subject to Government review.

In May 1980, Air Canada purchased 29.3% of Guinness Peat Aviation Ltd. for a total of \$8.9 Million. This company is in the business of leasing, selling and financing aircraft on a worldwide basis. The cost of the shares purchased exceeded the underlying net book value of Guinness Peat Aviation Ltd.'s net assets by \$7.6 million at the date of purchase. This goodwill is being amortized on a straight line basis over 15 years.

7. Long-term debt

	1980	1979
	(\$000)	
Government of Canada		
7.2% note, payable semi-annually, maturing in 1993	279,353	292,736
8.1% to 8.8% notes maturing in 1981	13,800	13,800
	293,153	306,536
5.5% notes due 1982/84	10,388	12,695
6.0% notes due 1983/84	44,090	54,876
8.375% note due 1990	63,179	
	410,810	374,107
Current portion.....	36,670	28,427
	<u>374,140</u>	<u>345,680</u>

On January 1, 1981 the Corporation exercised its options on the \$13.8 million notes with the Government of Canada and renewed the debt at 8.31%, payable in annual installments, to 2001.

Repayment requirements over the next five years amount to \$172.3 million; \$36.7 million in 1981, \$38.0 million in 1982, \$37.4 million in 1983, \$34.1 million in 1984, and \$26.1 million in 1985.

Long-term debt in 1980 includes \$107.3 million payable in U.S. funds and \$10.4 million payable in Pounds Sterling.

8. Lease obligations

The assets and related obligations for capital leases are recorded at an amount equal to the present value of future lease payments using the interest rates implicit in the leases. The weighted average interest rate of these obligations is 7.9% and their expiry dates are from 1986 to 1991.

The future minimum lease payments under capital leases and operating leases having initial or remaining lease terms of more than one year are as follows:

	Capital Leases	Operating Leases
	(\$000)	
1981	36,785	16,464
1982	36,221	14,911
1983	35,657	10,943
1984	35,092	7,886
1985	34,532	6,446
Remaining years	147,935	35,569
Total future minimum lease payments	326,222	92,219
Less amount representing interest	103,597	
Present value of obligations under capital leases	222,625	
Less current portion of obligations under capital leases	19,088	
Long-term obligations under capital leases	<u>203,537</u>	

9. Income taxes

As at December 31, 1980, the Corporation had available \$24.5 million of investment tax credits that may be applied as a reduction to future federal income taxes payable. Of these investment tax credits, \$13.2 million is available until 1984, and \$11.3 million is available for use until 1985.

10. Commitments

Contracts for the acquisition of aircraft and spare engines, after deducting progress payments, amounted to approximately \$925.1 million U.S. Aircraft deliveries are scheduled as follows:

	1981	1982	1983	1984	Total
B-727	5	3			8
L-1011-500	6				6
B-767		2	4	6	12

Other commitments as at December 31, 1980 include \$19.2 million Canadian for ground equipment and facilities, and \$16.2 million U.S. for aircraft betterment projects.

11. Pension plans

The Corporation maintains pension plans for virtually all its employees. The total charge against operations for these plans for the year was \$63.5 million (1979—\$65.9 million). As at December 31, 1980, the unfunded liability of the Corporation's pension plans amounted to \$217.9 million (1979—\$208.3 million) and is being retired by annual payments over various periods ending 2003. At December 31, 1980, the market value of the pension funds' assets exceeded vested benefits.

12. Subsequent events

On January 30, 1981, the Board of Directors declared a dividend of \$13.2 million payable to the Government of Canada on or before March 31, 1981.

13. Contingencies

Various lawsuits and claims are pending by and against the Corporation. It is the opinion of management that final determination of these claims will not materially affect the financial position or the results of the Corporation.

14. Related party transactions

In 1980, expenses incurred with related parties covering such items as landing fees, terminal assessments, fuel taxes and interest on long-term debt amounted to approximately \$133 million, while revenues derived in the ordinary course of business from providing such services as passenger, mail and freight transportation approximated \$116 million.

Not included above is the 1980 dividend of \$13.2 million paid by the Corporation to the Government of Canada and the federal portion of the deferred corporate income tax provision of \$36.2 million.

Account balances resulting from those transactions are included in the balance sheet and are settled on normal trade terms.

ATLANTIC PILOTAGE AUTHORITY
(Established by the Pilotage Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of Atlantic Pilotage Authority as at December 31, 1980 and the statements of operations, deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Nature of activities

The Atlantic Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. The objects of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act further provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

2. Significant accounting policies

(a) Parliamentary appropriations

Until the revenue from pilotage charges is sufficient to permit the Authority to operate on a self-sustaining financial basis, it has been the practice to recover operating deficits and capital expenditures, including amounts paid under capital lease arrangements, from parliamentary appropriations provided for that purpose. Appropriations received by the Authority in excess of these amounts are reflected on the balance sheet under current liabilities as "Due to Canada in respect of parliamentary appropriations".

(b) Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful life of the assets as follows:

Buildings	20 years
Pilot boats	20 years
Pilot boats under capital lease	25 years
Furniture and equipment	10 years

Although charged in the statement of operations, depreciation is not recovered from parliamentary appropriations.

ATLANTIC PILOTAGE AUTHORITY—*Concluded*NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980—*Concluded*

(c) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972, the cost of capital assets and the principal portion of payments made under capital lease agreements financed from parliamentary appropriations are shown as contributed capital.

(d) Capitalized leases

The Authority leases three boats from Canada under long-term financing leases. Under the terms of the lease agreements, the Authority assumes the rights and obligations of ownership. As a result, the leases are treated as purchases and the principal portion of lease payments is capitalized and depreciated over the estimated useful lives of the boats. The corresponding liability is reduced by the principal portion of lease payments and the interest portion is expensed in the year to which it relates.

(e) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid generally over the remaining service lives of the pilots.

(f) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. This liability is recorded in the accounts as the benefits accrue to the employees.

(g) Income tax

Under the provisions of the Income Tax Act, the Authority is not subject to federal income tax.

3. Capital lease agreements

The Authority leases three pilot boats under long-term financing leases. The payments required under the leases are as follows:

	1980	1979
	\$	\$
9 3/4% lease agreement, due April 1991, payable in blended annual payments of \$54,785	602,640	657,425
8% lease agreement, due October 1989, payable in blended annual payments of \$31,077	279,690	310,767
8% lease agreement, due November 1989, payable in blended annual payments of \$31,077	279,690	310,767
Total lease payments	1,162,020	1,278,959
Less: amount representing interest	407,447	476,905
Principal amount of capital lease	754,573	802,054
Less: current portion	51,536	47,481
	<u>703,037</u>	<u>754,573</u>

The aggregate payments required on these leases, in each of the next five years is \$116,939 per annum.

Upon maturity of the leases, the Authority has the option to purchase each of the boats for \$1.

Included in the figure for accumulated depreciation of fixed assets at December 31, 1980 is \$235,360 (\$196,800 at December 31, 1979) representing accumulated amortization on pilot boats under capital lease.

4. Due to Canada in respect of parliamentary appropriations

It is anticipated that the final Supplementary Estimates of the Government of Canada for the fiscal year ended March 31, 1981 will include provisions for the forgiveness of the amounts "Due to Canada in respect of parliamentary appropriations". In the event that this proposal is adopted, the effect will be to eliminate the balance due to Canada and to reduce the accumulated operating deficit by \$368,084.

The Authority does not intend to apply for parliamentary appropriations with respect to operations subsequent to March 31, 1980. Accordingly, the parliamentary appropriations received during the current year relate to operations to March 31, 1980.

5. Pension plan

Under provisions of the Pilotage Act, pilots may choose to become employees of the Authority and become entitled to count service prior to becoming an employee as pensionable under the Public Service Superannuation Act. For pilots who have elected to purchase pension benefits with respect to past service, the Authority is required to match the employee contribution. The estimated unfunded past service pension contribution with respect to these employees was approximately \$305,000 as of December 31, 1980 (1979—\$321,000) and will be funded over the remaining service lives of the pilots, or the terms of purchase whichever is the lesser.

6. Contingencies

The Authority is defendant in certain pending litigation relating to its operations. It is the opinion of management that these actions will not result in any significant liabilities to the Authority.

ATOMIC ENERGY OF CANADA LIMITED

AUDITOR GENERAL OF CANADA

THE HONOURABLE MARC LALONDE, P.C., Q.C., M.P.,
MINISTER OF ENERGY, MINES AND RESOURCES,
OTTAWA, ONTARIO

I have examined the balance sheet of Atomic Energy of Canada Limited as at March 31, 1981 and the statements of income, retained earnings (deficit), contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the company as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

Ottawa, Ontario
May 15, 1981

The accompanying notes are an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1981

1. Significant accounting policies

- (a) Reporting of operations: The activities of the Company are reported in the Statement of Income under three categories—Commercial Operations; Nuclear Research and Development; Prototype Reactor Operations.
- (i) The Commercial Operations comprise:
- International Division which constructs nuclear power plants and provides project management, marketing, and engineering services outside Canada;
 - Engineering Division which provides marketing, engineering, testing and project management services rendered principally to domestic power utilities and the International Division;
 - Chemical Division which produces and sells heavy water;

ATOMIC ENERGY OF CANADA LIMITED—Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1981—Continued

- (d) Radiochemical Division which manufactures and markets medical and industrial radiation equipment and radioisotopes;
- (c) Corporate operations and investments.
- (ii) Nuclear Research and Development comprise:
- (a) Nuclear research and development operations conducted at the Chalk River and Whiteshell laboratories. The cost of the Research and Development program is funded primarily by appropriation from Parliament by way of capital and operating votes which are deducted from the program costs in the Statement of Income.
- (iii) Prototype Reactor Operations comprise:
- (a) Gently-1 prototype nuclear station. The cost of maintaining this prototype is funded by appropriation from Parliament;
 - (b) Douglas Point nuclear station which is operated by Ontario Hydro for the Company.
- (b) Nuclear power projects: Nuclear power projects are accounted for on the percentage of completion method. Under this method revenues and related costs of each project are reported in the annual Statement of Income based on the percentage of completion. When project estimates indicate a probable loss, full provision for the estimated loss is made against current operations. The percentage of completion method is applied on a conservative basis in order to recognize the absence of certainty on these long-term projects.
- (c) Foreign currencies: Monetary assets and liabilities in foreign currencies are recorded in Canadian dollars at current exchange rates. Deferred revenues and costs on uncompleted contracts in foreign currencies are recorded at historical rates on a monthly basis. Gains and losses resulting from foreign currency transactions and balances, which relate to international nuclear power projects are included in project costs. Other foreign exchange gains and losses are recorded in operations when realized.
- (d) Inventories:
- (i) Valuation: Radiation equipment and materials are valued at the lower of average cost and net realizable value. Maintenance and general supplies are valued at cost. Heavy water inventory is valued at the lower of average cost net of related parliamentary appropriations, if applicable, and net realizable value.
 - (ii) Classification: Inventories are classified as non current when they are not expected to be sold within the next fiscal year.

- (c) Plant and property:
- (i) Expenditures for research facilities are recorded as program costs in the year of acquisition.
 - (ii) Other assets are recorded at cost and are depreciated on a straight-line basis over the estimated useful lives of the assets as follows:

Houses	—50 years
Buildings	—20 to 40 years
Machinery and equipment	—5 to 20 years
Nuclear generating stations	—30 years
- (f) Comparative figures: Where appropriate, financial data for 1980 has been reclassified to conform with the 1981 format.

2. Reorganization

A major reorganization plan was implemented to address certain financial problems of the Company. These problems pertained to the inadequacy of forecast revenues from sales of heavy water to repay the loans and interest charges related to the purchase, rehabilitation and construction of the heavy water plants.

To correct this debt financing problem and to place the Company on a more viable financial basis, the Government of Canada authorized various financial measures which were approved by Parliament effective April 1, 1980 including the forgiveness of the heavy water plant loans and interest totalling \$816.9 million. The company also received a commitment from the Government for future funding by Parliamentary appropriations of third party loan payments of \$70.3 million, and the funding of heavy water plant operations as required, the latter being repayable in the event of future sales. The current year production has been partially funded by a \$65.0 million appropriation and has not yet been sold. Future funding levels for heavy water production and third party loan payments require annual approval by Parliament.

As part of the reorganization the value of the plants has been written down to a nominal amount recognizing that the historical capital costs of the Company's heavy water plants, based on present forecasts, would not be recovered from future sales. The reorganization also provides for the elimination of the deficit in the amount of \$147.1 million against Contributed Capital as at April 1, 1980.

The adjustments to Contributed Capital which result from the reorganization are as follows (in thousands of dollars):

Forgiveness of heavy water plant loans by Canada including interest	
La Prade	442,220
Glance Bay	297,426
Port Hawkesbury	77,302
	816,948
Principal on third party loans	4,278
	821,226
Write down of heavy water plants (Note 7)	765,415
	55,811
Elimination of Deficit	147,058
Reduction in Contributed Capital	91,247

ATOMIC ENERGY OF CANADA LIMITED—Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1981—Continued

3. Transactions with the Government of Canada

(a) In addition to the transactions described in Note 2, the Government of Canada funds specific nuclear research, development and utilization activities of the Company and provides loan financing for other purposes. During the year the following amounts were utilized:

	(in thousands of dollars)	
	1981	1980
Budgetary appropriations		
Nuclear research and development	123,119	114,654
Prototype reactor operations	10,181	8,795
Heavy water—Inventory	65,000	
—Loan payments	9,300	
—La Prade maintenance	8,623	
	<u>216,223</u>	<u>123,449</u>
Loans and Advances		
Advances to provincial utilities		64,900
Heavy water—Inventory		97,000
—Plants		81,600
Other plant	3,600	
	<u>3,600</u>	<u>243,500</u>
	<u>219,823</u>	<u>366,949</u>

(b) During the year the Company paid \$11.1 million (1980—\$9.7 million) to the Government of Canada as the Corporation's contributions to the Public Service Superannuation Account.

4. Inventories

Inventories comprise the following:

	(in thousands of dollars)	
	1981	1980
Current		
Heavy water	5,161	113,661
Radiation equipment and materials	27,749	19,504
Maintenance and general supplies	21,656	16,602
	<u>54,566</u>	<u>149,767</u>
Non-current		
Heavy water at cost less recoverable parliamentary appropriation of \$65.0 million (Note 2)	54,470	

5. Long-term receivables and utility financing

	(in thousands of dollars)	
	1981	1980
(a) Long-term receivables—These primarily consist of lease/sale options due from foreign governments and companies. Interest rates on fixed rate agreements range from 7.0% to 10.5% with terms of up to 12 years, and on floating rate agreements interest is based on bank offered rates	119,925	92,984
Other	7,625	13,844
	<u>127,550</u>	<u>106,828</u>
Current portion	6,579	6,026
	<u>120,971</u>	<u>100,802</u>
(b) Utility financing—Notes receivable from provincial utilities to finance nuclear facilities some of which are under construction, at interest rates varying from 7.795% to 10.0%. The notes with established terms (\$195.0 million) mature through 1992. Other notes have a 25 year amortization from the "in-service date" of the plants	712,999	705,873
Current portion	27,630	9,860
	<u>685,369</u>	<u>696,013</u>

Refer to Note 9(a) for related debt.

6. Investment

Pickering nuclear generating station—

Ontario Hydro, the Province of Ontario and the Company are parties to a joint undertaking for the construction and operation of Units 1 and 2 of the Pickering 'A' nuclear generating station, with ownership of these units being vested in Ontario Hydro. Ontario Hydro is committed to make payments over a period terminating in 2001 to each of the parties in proportion to their capital contributions. These payments, termed "payback", represent in a broad sense the net operational advantage of having the power generated by Pickering Units 1 and 2 as compared with Lambton Units 1 and 2 coal-fired units. The cost of the investment is amortized on a straight-line basis and amounted to \$4.8 million for the year as a charge to operations.

ATOMIC ENERGY OF CANADA LIMITED—Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1981—Continued

7. Fixed assets (in thousands of dollars)

(a) Property, plant and equipment

	Cost	Parliamentary Appropriations	Accumulated Depreciation	Net Book Value
Commercial				
Land	1,430	455		975
Buildings	18,355	3,548	9,303	5,504
Machinery & equipment	23,482	7,345	7,217	8,920
Construction in progress	4,149			4,149
	<u>47,416</u>	<u>11,348</u>	<u>16,520</u>	<u>19,548</u>
Research facilities				
Land	8,761	8,761		
Buildings	59,210	55,106	1,810	2,294
Research reactors & equipment	209,141	198,757	10,359	25
Construction in progress	9,792	9,776		16
	<u>286,904</u>	<u>272,400</u>	<u>12,169</u>	<u>2,335</u>
Prototype reactors				
Gentilly-1	88,795	88,795		
Douglas Point	81,739	7,056	12,009	62,674
	<u>170,534</u>	<u>95,851</u>	<u>12,009</u>	<u>62,674</u>
	<u>504,854</u>	<u>379,599</u>	<u>40,698</u>	<u>84,557</u>

Depreciation for the year ended March 31, 1981 for the above property, plant and equipment amounted to \$4,932 (1980—\$4,636).

(b) Heavy water plants

	Cost	Write Down on Reorganization (Note 2)	Accumulated Depreciation	Net Book Value
La Prade	442,848	442,848		
Glace Bay	258,892	240,530	18,362	
Port Hawkesbury	101,037	82,037	19,000	
	<u>802,777</u>	<u>765,415</u>	<u>37,362</u>	

8. Major contracts in progress

(a) International nuclear power projects

The Company has major contracts in progress in Argentina, Korea, and Romania with respect to the construction of, and/or supply of engineering services and materials, for 600 megawatt (electric) CANDU nuclear power stations.

(b) Domestic projects

The Company has contracts with provincial utilities in Ontario, Quebec and New Brunswick for the provision of engineering and procurement services for the construction of CANDU nuclear power stations.

(c) Loss provision

Based on current forecasts provision for future losses in the Company's accounts remains adequate at March 31, 1981.

9. Long-term debt

	(in thousands of dollars)	
	1981	1980
(a) Utility financing—Loans by Canada to finance provincial utility nuclear projects at interest rates varying from 7.565% to 10%. The notes with established terms (\$194.0 million) mature through 1992. Other notes have a 25 year amortization from the "in-service date" of the plants	715,480	704,999
Current portion	31,189	9,970
	<u>684,291</u>	<u>695,029</u>
Refer to Note 5(b) for related receivables.		
(b) Heavy water plant loans (Note 2)		
Loans by Canada		822,641
Third party loans	66,060	70,338
	<u>66,060</u>	<u>892,979</u>
Current portion	7,397	
	<u>58,663</u>	<u>892,979</u>

ATOMIC ENERGY OF CANADA LIMITED—Concluded

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1981—Concluded

10. Major commitments

- (a) In July 1969, the Company entered into a contract with Ontario Hydro whereby the Company is committed to purchase all of the Cobalt-60 produced at the Pickering generating station for a period of 30 years from the in-service date (1971) of the installation. The contract is independent of market demand and may be terminated by agreement between the parties.
- (b) The Company has a contract with Hydro Quebec to supply 1,440 megagrams of heavy water by 1990 at a price that is intended to recover all relevant costs. The Company is required to repurchase up to 960 megagrams of the heavy water in 1995 if declared surplus by Hydro Quebec. To date Hydro Quebec has not committed to take delivery of any heavy water under the terms of this contract.

BANK OF CANADA

AUDITORS' REPORT

We have examined the statement of assets and liabilities of the Bank of Canada as at December 31, 1980 and the statement of income and expense for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Bank as at December 31, 1980 and the results of its operations for the year then ended in accordance with the accompanying summary of significant accounting policies, applied on a basis consistent with that of the preceding year.

⁽¹⁾ Salaries, including overtime, and related contributions to pension and insurance funds for bank staff other than those engaged in building maintenance. The number of employee years worked by such staff (including temporary, part-time, and overtime work) was 1,956 in 1980 and 1,883 in 1979.

⁽²⁾ Includes cafeteria expenses, retirement allowances, educational training costs and medical expenses.

⁽³⁾ Includes all building maintenance costs (including staff costs) but net of rental income. Certain of the expenses for 1979 have been reclassified in order to conform with the presentation adopted for 1980.

FINANCIAL STATEMENTS DECEMBER 31, 1980
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared within the framework of the accounting policies summarized below.

(a) Form of Presentation

The form of the statement of assets and liabilities meets the requirements of the Bank of Canada Act. The figures for the prior year have been reclassified to comply with the 1980 revisions to the Act.

(b) Revenues and Expenses

Revenues and expenses have been accounted for on the accrual basis.

(c) Investments and Bills

In accordance with the requirements of the Bank of Canada Act, these assets have been recorded at their cost adjusted for amortization of purchase discounts and premiums. The amortization as well as gains and losses on disposition have been included in income.

(d) Translation of Foreign Currencies

Assets and liabilities in foreign currencies have been translated to Canadian dollars at the rates of exchange prevailing at the year-end.

(e) Depreciation

Depreciation has been recorded at the following annual rates applied on the declining balance method:

Buildings	5%
Equipment	20%

CANADA DEPOSIT INSURANCE CORPORATION
(Established by the Canada Deposit Insurance Corporation Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE ALLAN J. MACEACHEN, P.C., M.P.,
MINISTER OF FINANCE,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canada Deposit Insurance Corporation as at December 31, 1980 and the statements of income and accumulated net earnings and changes in cash resources for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1980 and the results of its operations and the changes in its cash resources for the year then ended in accordance with the accounting policies described in Note 2, applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

MICHAEL H. RAYNER
Acting Auditor General of Canada

Ottawa, Ontario

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Objective of the Corporation

The Canada Deposit Insurance Corporation was incorporated as a Crown corporation on April 17, 1967 under the provision of the Canada Deposit Insurance Corporation Act. The Corporation is, for all purposes of this Act, an agent of Her Majesty and all property acquired by the Corporation is the property of Her Majesty.

The Corporation's principal objective is to provide insurance on deposits with federal institutions (banks, trust and loan companies) and with approved provincial institutions (trust and loan companies) up to \$20,000 per depositor per institution.

2. Significant accounting policies

(a) Deposit Insurance Fund

Premiums are assessed against member institutions based on the insurable deposits held by those institutions as of April 30 of each year. Premiums are credited directly to the Deposit Insurance Fund in accordance with section 18 of the Canada Deposit Insurance Corporation Act. Premium rebates, representing a refund of premiums previously paid, are charged directly to the Deposit Insurance Fund.

In accordance with section 20(2) of the Canada Deposit Insurance Corporation Act, the Corporation's accumulated net earnings are reported as a separate item on the balance sheet, and shown as an addition to the Deposit Insurance Fund.

(b) Recognition of losses

Provisions for losses arising from actions taken to secure the subrogation of depositors' rights and interests are recorded in the year these actions are taken or as soon as possible thereafter when the losses can be reasonably estimated. Such provisions are recorded as a direct charge against accumulated net earnings.

(c) Revenue

Return on investments include gains and losses on sales of investments and the annual amortization of premiums and discounts on fixed term securities.

(d) Income taxes

Income taxes are accounted for on the tax allocation basis, which relates the provision for income taxes to the reported accounting income or loss for the period. Significant timing differences between the income or losses reported for accounting and for tax purposes arise from the exclusion of accrued interest from income for tax purposes and from claiming an investment reserve for tax purposes.

(e) Fixed assets

Depreciation on furniture and equipment is calculated at 20%, per annum, on the declining balance method; leasehold improvements are amortized on a straight line basis over five years.

(f) Asset valuation

Fixed assets, treasury bills and mortgages are recorded at cost. The cost of bonds and debentures are adjusted for the amortization of discounts and premiums.

6. Assets acquired from a member institution

	1980	1979
	\$	\$
Canada bonds	158,938	158,824
Other bonds and debentures	1,109,034	1,113,271
	<u>1,267,972</u>	<u>1,272,095</u>
Mortgages	769,571	888,302
	<u>2,037,543</u>	<u>2,160,397</u>

Market value of Canada bonds and other bonds and debentures at December 31, 1980 was \$821,088 (1979—\$867,515).

7. Claims re insured deposit payments

(a) Commonwealth Trust Company

In 1970 under the provisions of section 13 of the Canada Deposit Insurance Corporation Act, the Corporation, by paying \$5,432,971, acquired all the rights and interests of the depositors against the member institution which was in receivership. Recoveries to December 31, 1980 totalled \$4,992,971 which include an amount of \$54,231, received during the year, leaving a balance of \$440,000 outstanding. The Corporation has recorded this claim at \$1 since 1976; subsequent recoveries are credited directly to the accumulated net earnings.

(b) Astra Trust Company

During the year Astra Trust was placed in liquidation and the Corporation paid claims for insured deposits totalling \$21,071,508. Further claims included in accounts payable as at December 31, 1980 totalled \$720,438. The recoveries of these claims by the Corporation are anticipated to be significant but they cannot yet be reasonably estimated and accordingly a provision for a loss by the Corporation on the realization of the assets of the Astra Trust Company to offset the claims paid has not been recorded.

Certain claims have been filed against the Corporation with respect to a non-member institution which are alleged to be related to the operations of the Astra Trust Company. The Corporation is of the opinion that it is not liable in this connection and therefore no provision for losses has been made.

8. Premiums and premium rebates

As provided in section 19(8) of the Canada Deposit Insurance Corporation Act and as approved by the Board of Directors on February 13, 1980, member institutions were assessed reduced premiums for the year. Under section 19(8.2) of the Canada Deposit Insurance Corporation Act, the Corporation may pay a premium rebate to member institutions. No premium rebates were paid in 1980.

9. Insured deposits

Deposits insured by the Corporation, based on returns received from member institutions, totalled \$96,078 million as of April 30, 1980 representing \$87,178 million for federal institutions and \$8,900 million for provincial institutions.

CANADA MORTGAGE AND HOUSING CORPORATION

AUDITOR'S REPORT

TO THE HONOURABLE PAUL COSGROVE, P.C., M.P.
MINISTER RESPONSIBLE FOR
CANADA MORTGAGE AND HOUSING CORPORATION.

We have examined the balance sheet of Canada Mortgage and Housing Corporation as at 31 December 1980, and the statements of operations and reserve fund, financial activities, mortgage insurance fund and insurance, guarantee and contribution funds for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these statements are in agreement with the books of account of the Corporation and present a true and fair view of the state of affairs of the Corporation as at 31 December 1980, and the results of its operations and financial activities for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

In our opinion, proper books of account have been kept and the transactions of the Corporation that have come under our notice have been within the powers of the Corporation.

CANADA MORTGAGE AND HOUSING CORPORATION—Continued

NOTES TO THE FINANCIAL STATEMENTS
31 DECEMBER, 1980

1. Significant Accounting Policies

Canada Mortgage and Housing Corporation was constituted as a Crown Corporation by an Act of Parliament on 1 January, 1946. Its activities are regulated by the National Housing Act, the Canada Mortgage and Housing Corporation Act and, in certain respects, the Financial Administration Act, and include:

- (a) Financing housing directly through the making of mortgage loans under specified conditions at interest rates set by statute normally at market rates which are generally higher than the rates it pays on funds borrowed from the Government of Canada;
- (b) Making payments or incurring expenses needed to implement government housing policy as agent for the Minister responsible for Canada Mortgage and Housing Corporation. These include grants, loan forgiveness, losses on real estate, losses under federal-provincial agreements, interest rate losses, research and development and specified administrative expenses. These payments or expenses are charged to the Minister as incurred;
- (c) Establishing a framework of confidence for lending by private lending institutions, the chief instrument of which is the provision of Mortgage Insurance. This facilitates an adequate supply of mortgage funds by reducing the risk to lenders and encouraging the secondary market trading of mortgages. For purposes of this activity the Corporation administers on behalf of the Government of Canada certain Insurance and Guarantee Funds. The Mortgage Insurance Fund, the largest of the Funds, was established to provide for claims made under the National Housing Act and is the depository for the mortgage insurance premiums paid by borrowers. The Corporation has no direct financial interest in the Fund. To the extent that the assets of the Fund are not sufficient to meet claims against it, any deficiency will be provided by the Government of Canada.

The principal accounting policies followed are:

- (a) Revenue Recognition
 - (i) Interest income is accounted for on the accrual basis.
 - (ii) Grants, contributions and subsidies made on behalf of the Minister are recorded as recoverable when expenses are recognized.
- (b) Loans

Loans are capitalized as the cash is advanced. Where loans under certain program conditions contain forgiveness clauses, such forgiveness is recorded at time of initiation and recovered from the Minister. Costs incurred in connection with making loans are included in administrative expenses. Certain programs are subject to interest rate losses which are recoverable from the Minister. No provisions are made for possible losses on loans since losses on insured loans are recoverable from the Mortgage Insurance Fund, while property acquired upon default on uninsured loans is transferred to real estate for subsequent disposal.
- (c) Real Estate

Real estate is recorded at cost. Property acquired upon default of loans is recorded at the unpaid loan balance plus interest accrued to the date of acquisition by default, together with acquisition expenditures and any modernization and improvement costs. Both the net operating costs prior to disposal and net losses resulting from the disposal of properties acquired upon default of loans are recoverable from the Minister, subject to parliamentary appropriation. Profits on

the sale of Corporation-funded real estate or real estate acquired without cost, to the extent not deemed to have been realized and where financing is provided for the transactions, are deferred and income recognized as repayments are received.

(d) Depreciation

Depreciation on real estate is recorded on a straight line basis. Rates are set in terms of the loan repayment originally negotiated, usually 40 or 50 years. Depreciation on business premises, office furniture and equipment is recorded on a diminishing balance basis at the following fixed annual rates:

Masonry buildings	5%
Frame buildings	10%
Furniture, fixtures and equipment	20%
Automotive equipment	30%

(e) Federal-Provincial Agreements

The investments recorded under federal-provincial agreements include only costs to the Corporation and do not reflect amounts contributed by other parties. The investments under federal-provincial agreements with the provinces to encourage development of rental housing, land assembly, co-operative housing and rural and native housing are considered joint ventures. The Corporation's seventy-five per cent investment in the joint ventures is accounted for on the equity method. Under this method the investment is carried in the balance sheet at original cost plus the Corporation's seventy-five per cent share of recognized earnings. These earnings may include gains on the sale of land assembly projects. The timing of these sales is dependent on many factors and as a result the earnings derived therefrom fluctuate from year to year. The Corporation's share of losses under these agreements is charged to the Minister.

(f) Income Taxes

The Corporation is subject to federal income taxes and provides for income taxes on the tax allocation basis. Under this basis the provision for income taxes is determined from the earnings reported in the statement of operations rather than from the Corporation's income for tax purposes.

Deferred income taxes on the balance sheet result primarily from a provision in the accounts for an unfunded actuarial obligation on the employees' pension plan which is in excess of the actual funding of the obligation deductible for tax purposes. In future years as the obligation is funded, allowable deductions for tax purposes will be greater than the costs reflected in the statement of operations and accordingly applicable income taxes payable on the deferred tax balance will be reduced.

(g) Reserve Balance

Income or loss after income taxes is transferred to the Reserve Fund which is limited by statute to \$5,000,000. Any excess over this amount is transferred to the credit of the Receiver General of Canada.

(h) Valuation of Real Estate

The market value of real estate acquired on claims against the Mortgage Insurance Fund is estimated by the Corporation using generally accepted appraisal methodologies. These are applied by its accredited appraisers taking into account factors which include, but are not limited to, market conditions, prevailing interest rates, occupancy rates and project income potential.

(i) Employees' Pension Plan

Current service costs of the employees' pension fund are charged to earnings and funded on the basis of actuarial

CANADA MORTGAGE AND HOUSING CORPORATION—Continued

NOTES TO THE FINANCIAL STATEMENTS

31 DECEMBER, 1980—Concluded

calculations made at least every three years, using the projected unit credit method under which the actuarial liability equals the present value of future benefits expected to be paid.

The effect of inflationary forces which cause salary and pension levels to rise at a rate faster than that used in the actuarial calculations and deficiencies and surpluses resulting from changes in actuarial assumptions and from other factors are charged to operations in the year in which such deficiencies and surpluses are identified.

(j) Insurance, Guarantee and Contribution Funds

For purposes of reporting stewardship of the Funds administered by the Corporation, transactions are recorded on a cash basis with fees taken into income in the year received and claims charged against the Fund when paid by the Corporation. No provision is made for claims anticipated or in process. Real estate acquired on claims against the Mortgage Insurance Fund is carried in the accounts at the amount of the claim or the estimated realizable value whichever is lower. Real estate acquired by the Rental Guarantee Fund is carried at cost which does not exceed market. No depreciation is recorded on real estate owned by these funds.

2. Borrowings from the Government of Canada

The Corporation borrows from the Government of Canada to finance investments in loans, federal-provincial agreements, real estate and agreements for sale and mortgages arising from sale of real estate. These loans bear interest of varying rates and are repayable over periods not in excess of 50 years.

3. Notes Payable to the Government of Canada

The Corporation borrows, under the provision of Section 9(6) of the National Housing Act, from the Consolidated Revenue Fund in order to meet its obligations related to the Mortgage Insurance Fund. Under terms and conditions approved by the Governor in Council, these Notes bear interest at varying rates equal to the rates which the Minister of Finance approves for loans to Crown Corporations and are repayable not later than 31 March, 1985.

4. Actuarial Obligation to Employees' Pension Plan

An actuarial study dated October, 1980 identified an estimated underfunding as at 1 January 1980 in respect of the Corporation's employees' pension plan, in the amount of \$27.8 million. This underfunding resulted primarily from a change in the Department of Insurance requirements in respect of valuation methodology and assumptions. This amount has been charged against operations in 1980 net of those amounts recoverable in future years from the Minister as this obligation is discharged. In addition recoveries of administrative expenses include \$5.5 million currently recoverable from the Minister and the Mortgage Insurance Fund in respect to this provision.

Of this actuarial obligation, the Corporation has contributed \$12 million (capital and interest) to the Pension Fund, including a special payment of \$9.5 million over and above its regular contributions in 1980. The remaining liability of \$17.5 million represents an obligation which must be discharged by 31 December 1994, in accordance with the regulations of the Pension Benefits Standards Act.

5. Adjustment of Prior Years' Net Income

The adjustment to prior years' net income results from net overestimates in calculating interest earned totalling \$8,019,000, less applicable income taxes of \$3,873,000. This \$4,146,000 adjustment of net income is recoverable from the Receiver Gener-

al as an offset against the excess over the statutory limitation on the Reserve Fund of \$8,054,000 for 1980. The adjustment has been applied to 1979 in the amount of \$1,313,000, and to 1978 and prior years in the amount of \$2,833,000.

This adjustment has been reflected by a restatement of the Statement of Operations and Reserve Fund for the year ended 31 December 1979.

6. Actuarial Evaluation of the Mortgage Insurance Fund

During the year the Corporation undertook an actuarial study of the Mortgage Insurance Fund. In the opinion of Management, based on preliminary results of the study, there could be a deficiency in the resources available to meet future claims arising from insurance in force which could result in a charge to the Government of Canada under Section 9(6) of the National Housing Act. This possible deficiency cannot be accurately determined at this time. This situation has resulted from the charging of premiums imposed by legislation which have proven to be inadequate.

7. Other Information

CANADIAN ARSENALS LIMITED
(Incorporated under the Canada Business Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEAN-JACQUES BLAIS, P.C., M.P.,
MINISTER OF SUPPLY AND SERVICES,
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Arsenals Limited as at March 31, 1981 and the statements of income, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Board as at March 31, 1981 and the results of its operations and changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

As referred to in Note 2 (a) to the financial statements, all fixed assets used by the Company are owned by Canada, and no cost is recorded in the financial statements for their use. The cost of utilization of the fixed assets used by the Company should be reflected in the financial statements. Accordingly, these fixed assets should be recorded as an asset of the Company and depreciated.

KENNETH M. DYE
Auditor General of Canada

Ottawa, Ontario
June 16, 1981

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981

1. Incorporation and operation

The Company was incorporated under the Canada Business Corporations Act. It is an agency corporation under Schedule C of the Financial Administration Act.

The Company manufactures medium and large caliber ammunition and other complementary military products.

2. Significant accounting policies

(a) Fixed assets

All fixed assets used by the Company are owned by Canada. Fixed assets funded by parliamentary appropriations or paid for by Canada prior to the establishment of the Company are not recorded as an asset of the Company. Fixed assets purchased during the year without any parliamentary appropriations are recorded as assets in the Company's accounts. The cost of utilization of these fixed assets has not been recorded in the financial statements.

Fixed assets under capital leases have been recorded as assets of the Company with the related financing cost and depreciation being recorded in the financial statements.

(b) Revenue recognition

Sales are recorded on the basis of deliveries. Progress billings to customers are recorded as liabilities until delivery or in accordance with milestones provided in the contracts. Progress billings from suppliers are recorded as assets until reception of the goods.

Certain contracts provide that the Company can invoice products as delivered at prices in accordance with escalator clauses. Sales are then recorded at prices included in the escalator clauses. However, final prices are still under negotiation between the Company and its customers.

(c) Inventory

Inventories of finished goods and work in process are valued at the lower of cost and net realizable value. Manufacturing supplies and raw materials are valued at the lower of cost and replacement cost.

The purchase of patents and licences, and development cost related to contracts in production are charged to inventory when they are incurred, are amortized over the number of units produced and included in the cost of goods sold at the time of sale.

(d) Employee termination benefits

Employees of the Company are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the account as the benefits accrue to the employees.

(e) Pension plan

Employees of the Company are covered by the Public Service Superannuation plan administered by the Government of Canada. Contributions to the plan are required from both the employee and the Company. These contributions represent the only liability of the Company in connection with the plan and are recorded in the accounts on a current basis.

3. Inventory and work in process

	1981	1980
	\$	\$
Inventories of raw materials, work in process and finished goods.....	18,120,294	20,338,406
Supplies	315,695	404,168
	18,435,989	20,742,574

CANADIAN ARSENALS LIMITED—Concluded

NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 1981—Concluded

4. Fixed assets

Fixed assets owned by the Crown and administered by the Company are detailed below, at cost:

	1981	1980
	\$	\$
Land and improvements.....	2,216,796	2,288,314
Buildings	9,110,038	11,648,909
Equipment	8,721,444	9,600,004
	<u>20,048,278</u>	<u>23,537,227</u>

An amount of \$1,234,422 representing assets acquired during the year without parliamentary appropriation have been recorded as an asset in the Company's accounts.

The Company has undertaken steps to have the titles for the ownership of the fixed assets that are presently under its custody transferred to Canadian Arsenals Limited.

5. Sales type capital leases

Fixed assets acquired through sales-type capital leases were as follows at March 31, 1981:

	Deprecia- tion rates	Accumulat- ed deprecia- tion		Net
		Cost		
		\$	\$	\$
Office				
Furniture and equipment..	20%	154,483	30,896	123,587
Vehicle	30%	17,702	5,311	12,391
Production equipment.....	20% & 30%	176,023	40,389	135,634
		<u>348,208</u>	<u>76,596</u>	<u>271,612</u>

These fixed assets are depreciated in accordance with the diminishing balance method at fixed rates. The rates are based on the expected useful life of the assets.

The following table provide the details of the minimum obligations resulting from capital leases.

	\$
1981-82	89,261
1982-83	89,261
1983-84	77,225
1984-85	70,493
1985-86	42,170
1986-87	24,959
1987-88	20,737
	<u>414,106</u>
Less: amount representing interest at various rates	107,387
Balance of the obligations	306,719
Current portion of the obligations	50,097
Long term portion of the obligations	<u>256,622</u>

6. Loans due to Canada

These loans which provide working capital to the Company bear no interest and have no fixed repayment dates.

7. Related parties transactions

The Company depends on the Government of Canada for long-term loans. During the year, the company recorded sales of \$45,345,503 to the Government of Canada (\$30,067,096 in 1980). The Company also made payments of \$830,843 (\$661,783 in 1980) in respect of current contributions to the Public Service Superannuation Account of the Government of Canada.

8. Contractual obligations

At March 31, 1981, the Company is committed for equipment and vehicle rentals for an amount of \$100,162. Total disbursements resulting from the above commitments will amount to \$64,905 next year and the balance of \$35,257 will become payable over the subsequent two year.

9. Comparative figures

Certain of the 1980 comparative figures have been reclassified in order to conform to the presentation adopted in 1981.

CANADIAN BROADCASTING CORPORATION
(Established by the Broadcasting Act)

AUDITOR GENERAL OF CANADA

THE CANADIAN BROADCASTING CORPORATION AND
THE HONOURABLE FRANCIS FOX, P.C., M.P.,
SECRETARY OF STATE OF CANADA AND
MINISTER OF COMMUNICATIONS,
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Broadcasting Corporation as at March 31, 1981 and the statements of income and expense, proprietor's equity account and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Significant accounting policies

The financial statements of the Corporation have been prepared by management in accordance with Canadian generally accepted accounting principles consistently applied. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of periodic financial statements necessarily involves the use of estimates and approximations. The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the accounting policies summarized below:

(a) Engineering and production supplies

The inventory of engineering and production supplies is stated at the lower of average cost and replacement cost.

(b) Programs completed and in process of production

The inventory of programs completed and in process of production is stated at cost. Cost includes the cost of goods and services, direct labour and the share of overhead expenses applicable to each program. The total program cost is charged to operations upon broadcast or when programs are determined unusable.

(c) Prepaid film rights

The Corporation enters into contracts for film broadcasting rights. As payments are made under the terms of each contract they are reflected in the accounts as prepaid film rights. The prepaid film rights are then charged to operations as the films are broadcast or determined unusable.

(d) Fixed assets

Fixed assets are stated at cost. Cost includes material, engineering services, direct labour and related overhead. Depreciation is based on the estimated useful lives of the assets, calculated on the straight line method as follows:

Buildings	33 years
Technical equipment:	
Transmitters and towers	20 years
Other	10 years
Furnishings and equipment	10 years
Automotive	5 years

Leasehold improvements are amortized over the term of the lease to a maximum period of five years.

Amounts included in uncompleted capital projects are transferred to the appropriate fixed asset classification upon completion, and are then depreciated according to the Corporation's policy.

(e) Employee termination benefits

Employee termination benefits are provided in the accounts as benefits accrue to employees under the respective terms of employment.

(f) Leases

Leases are classified as capital or operating leases. Assets recorded under capital leases are amortized on a straight line method using rates based on the estimated useful life of the assets or based on the lease term as appropriate. Obligations recorded under capital leases are reduced by rental payments net of imputed interest.

(g) Pension plan

The cost of funding current service pension benefits is charged to operations as incurred. Unfunded liabilities as determined by actuarial valuation are funded by payments which are charged to operations over periods recommended by the actuaries and in accordance with regulatory requirements. Additional payments are also charged to operations as made.

2. Investments

	(in thousands of dollars)	
	1981	1980
Télévision St. François Inc.—		
Preferred shares	350	350
Master FM Limited—Common shares	2	2

Depreciation and amortization	34,717	31,962
Interest on loans		14,053
Provision for employee termination benefits and vacation pay.....	12,816	9,483
	<u>47,533</u>	<u>55,498</u>

As at March 31, 1981, the unexpended balance of the operating appropriation amounting to \$12.5 million (\$6.8 million in 1980) was retained by the Corporation and included in the Proprietor's Equity Account.

4. Advances from Canada

Advances are made for working capital purposes and are free of interest. These advances become repayable to the Receiver General for Canada when cash and treasury bills exceed the Corporation's requirements for working capital.

5. Lease obligations

The assets and related obligations for capital leases are recorded at an amount equal to the present value of future lease payments.

The future significant minimum lease payments under capital and operating leases that have initial non-cancellable lease terms in excess of one year as of March 31, 1981, are as follows:

	(in thousands of dollars)	
	Capital Leases	Operating Leases
1982	455	37,052
1983	455	33,763
1984	455	27,763
1985	455	22,246
1986	455	21,155
1987-2003		74,293
Total future minimum lease payments.....	<u>2,275</u>	<u>216,272</u>
Less: amount representing interest	<u>882</u>	
Long-term obligations under capital leases	<u>1,393</u>	

6. Commitments

The Corporation has entered into commitments for film rights amounting to approximately \$40.5 million (\$32.5 million in 1980).

7. Loans from Canada

Bill C-22, an Act to adjust the Accounts of Canada, was passed by the House of Commons July 3, 1980. The Act provides for the write-off and deletion from the accounts of Canada of the aggregate amount of principal and interest outstanding as at March 31, 1981 in respect of loans made to the Corporation. Consequently, interest expense has not been recorded in the Corporation's accounts for the current year and the principal and interest outstanding amounting to \$282,199,000 have been transferred to the Proprietor's Equity Account.

8. Pension plan

The Corporation's pension plan covers substantially all continuing employees. The total charge against operations for the plan for the year ended March 31, 1981 was \$24.0 million (\$17.3

million for the year ended March 31, 1980. As at March 31, 1981 the present value of the estimated unfunded liabilities was \$115.8 million based on the actuarial valuation at December 31, 1977. Of this amount:

—\$107.6 million related to unfunded liabilities existing at December 31, 1976 to be liquidated over 30 years;

—\$8.2 million arose during 1977 to be liquidated over periods not exceeding 15 years.

9. Contingencies

In the ordinary course of the business of the Corporation, there are matters in suit and in dispute and contingencies outstanding against it. In the opinion of management, the losses, if any, which may result from the settlement of these matters are not likely to be material and accordingly no provision has been made in the accounts of the Corporation.

10. Related party transactions

The Corporation is related in terms of common ownership to all government of Canada created departments, agencies and Crown corporations and is mainly financed by Parliament of Canada appropriations. Transactions with Canada are outlined in Notes 3, 4 and 7, preceding.

During the 1980/81 fiscal year transactions with these related departments, agencies and Crown corporations were normal business transactions without special significance or materiality, on normal trade terms applicable to all individuals and enterprises.

11. Comparative figures

Certain of the 1980 comparative figures have been reclassified to conform to the presentation of 1981.

CANADIAN COMMERCIAL CORPORATION
(Incorporated under the Canadian Commercial Corporation Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE HERBERT E. GRAY, P.C., M.P.,
MINISTER OF INDUSTRY, TRADE AND COMMERCE,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canadian Commercial Corporation as at March 31, 1981 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1981

1. Operations

The Corporation acts primarily as the contracting agency when other countries and international agencies wish to purchase products and services from Canada on a government-to-government basis.

Contracts are made with customer governments and corresponding contracts are entered into with Canadian firms by the Corporation.

Supply and Services Canada provides contracting services to the Corporation at Treasury Board approved, pre-determined rates, applied to the amounts of contracts procured, and provides certain administrative functions at cost.

If the Minister so directs, the Corporation transfers to the Receiver General for Canada any surpluses considered to be in excess of requirements. Reimbursement for realized deficits is contingent upon Parliamentary appropriations.

The Corporation is not liable for the payment of income taxes.

The Corporation has no capital stock. Paid in capital of \$20,000,000 comprises amounts received from Canada under subsection 8(1) of the Canadian Commercial Corporation Act of which \$10 million was approved in 1980-81.

2. Significant Accounting Policies

(a) Contract Billings

Sales are recorded at time of delivery except in the case of contracts involving progress payments; in these cases, sales are recorded at the time progress payments become due. Since title to work-in-process related to progress claims has not passed to customers, the Corporation continues to recognize assets and liabilities resulting from progress payments and receipts until delivery is made.

(b) Fixed Assets

Fixed assets are charged to expense in the year of acquisition. As at March 31, 1981 the aggregate original cost of furniture and office fixtures on hand amounted to \$114,000 (\$97,000 in 1980).

CANADIAN COMMERCIAL CORPORATION—*Concluded*NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1981—*Concluded*

(c) Foreign Currency

All assets and liabilities have been translated at the exchange rate on March 31, 1981. Income and costs have been converted at the average exchange rate for the month of the transaction. Gains and losses resulting from foreign currency transactions including translation, are shown in the Statement of Operations.

3. Accounts Receivable

(a) Foreign Governments

Since the Corporation's sales are on a government-to-government basis the settlement of some accounts may be protracted. Provision for bad debts is based on a review of all outstanding accounts with foreign governments. In respect of this review, the Corporation recognizes that the future economic and political conditions in some of the debtor countries are subject to forces which are unpredictable. Accordingly, delays in payment which may occur from time to time are not necessarily indicative of a need to make provision for future losses.

The Corporation has provided \$777,000 as at March 31, 1981 (\$780,000 in 1980) against the possible non-collection of certain receivables.

(b) Government of Canada

Expenses and working capital payments are funded by Parliamentary appropriation. As at March 31 expenses of \$1,515,284 and a working capital payment of \$10,000,000, both applicable to the 1980-81 appropriation, had not yet been paid by the Government of Canada.

4. Contractual Commitments

At March 31, 1981 the Corporation was committed to fulfill contracts with customers amounting to \$467 million (\$384 million in 1980).

The Corporation is committed to its customers for the performance of its suppliers and thus may incur additional costs on default of a supplier. A provision of \$4 million is recorded for additional contract costs which it is estimated may be realized if certain suppliers are unable to meet contractual obligations.

5. Advances Received from Customers

Certain advances received from customers amounting to \$478,220 (\$472,178 in 1980) bear interest for customers' accounts at prevailing short-term bank deposit rates.

6. Loan to Supplier

During 1971, the Corporation entered into a loan agreement with a supplier. The original agreement has been subsequently amended to provide that the Corporation controls the supplier's ability to obtain financing and to change ownership. The loan is non-interest-bearing, unsecured and repayable in annual instalments of increasing amounts terminating in 1990.

7. Loans Payable in Canada

Subsection 8(2) of the Canadian Commercial Corporation Act states that the Corporation may borrow up to \$10,000,000 from the Consolidated Revenue Fund on such terms and conditions as determined by the Governor in Council. As at March 31, 1981, \$7,000,000 was outstanding as follows:

<u>Amount</u>	<u>Due date</u>	<u>Interest rate</u>
\$		
3,300,000	Nov. 30, 1981	6.3125%
3,700,000	Nov. 30, 1981	10.875%

Interest expense for the year on the above loans amounted to \$608,689 (1980—\$287,541).

8. Contingent Liability

The Corporation is named as defendant in a legal action instituted in 1975 claiming damages for alleged losses resulting from the termination of a portion of a contract. Total damages claimed are \$6.8 million plus accrued interest and costs. The action is being contested and the ultimate outcome is uncertain. In light of the advice of counsel, management is of the opinion that no provision for settlement is required.

9. Representative Agreement

The Corporation has entered into a representative agreement with Dismatica Industrial C.A. of Venezuela to whom aggregate fees of \$9,079 were paid during the year (\$40,485 in 1980).

Representative agreements have also been entered into with Sunda Karya Corporation, Indonesia P.T. and Jasa Murni Sdn. Bhd. of Malaysia, but no payments under these agreements have been made or are due.

10. Extraordinary Item

During 1976 the Corporation renegotiated certain supplier contracts and acquired 527,855 common shares and one special preference share of a supplier for a nominal value of \$1.00. This was done to fulfill contractual obligations to a major customer at minimum cost.

In September 1980, the Corporation disposed of these shares for \$263,928, receiving a downpayment of \$87,976 and two equal non-interest bearing notes due February 2, 1981 and August 1, 1981.

The note due on February 2, 1981 was paid in full on that date.

11. Restatement of Comparative Figures

Certain prior year figures have been restated to conform with the current year's presentation.

CANADIAN DAIRY COMMISSION
(Established by the Canadian Dairy Commission Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE EUGENE FRANCIS WHELAN, P.C., M.P.,
MINISTER OF AGRICULTURE,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canadian Dairy Commission as at July 31, 1980 and the statements of deficit, operations, marketing operations supported by producers and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at July 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

CANADIAN DAIRY COMMISSION—Continued

NOTES TO FINANCIAL STATEMENTS

JULY 31, 1980

1. Objectives

The objectives of the Canadian Dairy Commission as established by the Canadian Dairy Commission Act 1966-67 are "to provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment and to provide consumers of dairy products with a continuous and adequate supply of dairy products of high quality".

2. Significant accounting policies

- All fixed assets are charged to expense in the year of purchase.
- Inventories (Note 4) are valued at the lower of cost or net realizable value.
- The estimated loss from commitments to purchase products at Canadian support prices (Note 5) is charged to Marketing Operations supported by Producers.

3. Levies repayable

Producers were charged a contingency levy of 57¢ per hectolitre of milk to offset the cost, if any, of disposal of surplus product from production within the allotted market share quota, and beyond Canadian requirements; 11¢ per hectolitre in those provinces participating towards offsetting the cost of the special export program; and \$18.16 per hectolitre on over-quota production.

This year all over-quota levies received are refundable; all contingency levies with interest earned thereon are refundable and the export levies from provinces who paid the levy but had no production within the export quota are also refundable.

Total levies refundable at July 31, 1980 amounted to \$15,339,915 of which \$9,246,393 was held in trust for contingency levies collected.

4. Inventories

The inventories are valued at the lower of cost and net realizable value and consist of:

	1980	1979
	\$	\$
Skim milk powder.....	19,530,117	12,582,861
Butter.....	56,560,304	66,287,243
Other related dairy products.....	15,322,812	5,315,368
	<u>91,413,233</u>	<u>84,185,472</u>

These inventories have been adjusted as follows:

Skim milk powder

Prices for surplus Skim Milk Powder on the world market are lower than on the domestic market, resulting in the estimated net realizable value of the inventory as at July 31, 1980 being \$21,000,000 (\$23,300,000 in 1979) less than the Canadian support price.

Other related dairy products

The inventory includes evaporated milk and whole milk powder and the estimated net realizable value of the inventory as at July 31, 1980 is \$4,700,000 (\$1,400,000 in 1979) less than acquisition cost.

5. Outstanding commitments

As at July 31, 1980, the Commission is committed to purchase Skim Milk Powder and other related products produced prior to July 31, 1980 at the Canadian support prices in an amount of approximately \$9,000,000. The loss which may result from these purchases at higher than export prices has been estimated to be approximately \$3,900,000. The amount of this estimated loss has been charged to the marketing operations supported by producers and is included in accounts payable and accrued liabilities.

6. Loans from Government of Canada

Loans from Canada obtained to finance the purchase of dairy products bear interest rates varying from 10.000% to 14.125% per annum. There are no specific terms of repayment. Interest, calculated on a simple basis, is paid at the time of any principal repayment. Interest expense on loans from Canada was \$8,000,000 for the year and the accrued interest was \$1,500,000 at July 31, 1980.

7. Contingent liability

At July 31, 1980, the Commission was a defendant in a lawsuit amounting to \$1,800,000. The lawsuit resulted from a dispute over the sale of butteroil in 1976.

8. Agents' commissions

The Commission has used the services of the following sales agents in connection with marketing surplus dairy products. Commissions for the export of evaporated milk in the amount of \$1,088,982 are charged to cost of sales and the balance of \$110,624 is shown on the statement of operations.

Commissions paid or payable are as follows:

Date of Appointment	Name of Agent	Market Area	12 Months 1980	16 Months 1979
			\$	\$
November, 1976	Coop Fédérée de Québec	Algeria	929,016	1,053,398
May, 1977	Ault Foods Ltd.	Mexico		842,397
July, 1979	Intercontinental	Mexico	270,590	
			<u>1,199,606</u>	<u>1,895,795</u>

9. Responsibility for loss

Producers are responsible for costs associated with any special production for export and for the disposal of all surplus products. The federal government is only responsible for deficits resulting from major unforeseen changes in world market conditions and exchange rates. The producers will be responsible for the entire deficit of the Marketing Operations.

10. Financing

Agriculture Vote 40 which covers program expenditures for the Commission lapsed \$255,000 in 1980 (\$156,000 in 1979).

Funding to cover subsidies and marketing expenses is provided by a contribution from the Agricultural Stabilization Board through Agriculture Vote 20. The funds provided through this Vote amounted to \$283,140,929 (\$397,678,104 in the previous 16 month period), of which \$269,543,875 related to subsidies (\$373,310,266 in the previous 16 month period) and \$13,597,054 related to marketing expenses (\$24,367,838 in the previous 16 month period).

CANADIAN FILM DEVELOPMENT CORPORATION
(Established by the Canadian Film Development Corporation Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE FRANCIS FOX, P.C., M.P.,
 MINISTER OF COMMUNICATIONS AND SECRETARY OF STATE,
 OTTAWA, ONTARIO.

I have examined the balance sheet of the Canadian Film Development Corporation as at March 31, 1981 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation and that the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers, except for the parliamentary votes which have been exceeded as mentioned in Note 6 to the financial statements.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Authority and nature of activities

The Corporation was established in 1967 under the Canadian Film Development Corporation Act and is an Agent of Her Majesty named in Schedule C of the Financial Administration Act. It has the objective of fostering and promoting the development of a feature film industry in Canada. To achieve its objective, the Corporation advises and assists Canadian producers, invests in Canadian feature film productions in return for a share in the proceeds and makes loans to producers with interest thereon.

2. Significant accounting policies

(a) Loans to producers

The Corporation's loans to producers are listed at their face value, net of an allowance for losses.

(b) Investments in feature films

The Corporation's investments in feature films are carried at the lower of costs and net realizable value. Net realizable value represents estimated future revenues based on the average return during the current and preceding years.

(c) Fixed assets

Fixed assets are carried at cost and depreciation is provided at 20% per annum under the diminishing balance method for furniture and equipment and under the straight-line method for leasehold improvements.

(d) Revenues

Interest revenue earned on loans to producers and revenue from investment fees are recorded on the accrual basis. Revenue from feature films is recorded as received.

(e) Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under conditions of employment. The liability for these benefits is recorded in the accounts as benefits accrue to the employees.

CANADIAN FILM DEVELOPMENT CORPORATION—Concluded

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981—Concluded

(f) Pension plan

Employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the plan are required from both the employee and the Corporation. These contributions represent the total liability of the Corporation and are recognized in the account on a current basis.

3. Loans to producers

At March 31, 1981 short term loans to producers aggregate \$1,318,225 (1980—\$418,102) while long term loans are \$328,993 (1980—\$633,421).

	1981	1980
	\$	\$
Balance at beginning of the year	1,051,523	227,090
Investments	4,819,558	7,850,302
	5,871,081	8,077,392
Less:		
Reimbursements	2,707,873	6,687,142
Write-offs	1,515,990	338,727
Balance at end of the year	1,647,218	1,051,523

Interest revenue for the year is \$228,784 (1980—\$332,282).

4. Accounts receivable

	1981	1980
	\$	\$
Travel advances to employees	11,713	
Accounts receivable—Trade	16,499	1,090
Accrued investment fees	108,000

5. Investments in feature films

	1981	1980
	\$	\$
Balance at beginning of the year	865,966	1,098,459
Investments	3,347,893	3,127,338
	4,213,859	4,225,797
Less: write-offs	3,323,600	3,359,831
Balance at end of the year	890,259	865,966

At March 31, 1981 revenue from feature films totals \$416,393 (1980—\$627,770).

6. Due to Canada—Excess of actual expenditures over parliamentary votes

The disbursements for the fiscal year ending March 31, 1981 exceeded parliamentary appropriations by \$395,510:

	1981	1980
	\$	\$
Disbursements		
Administration expenses	1,435,331	868,185
Investments		
loans to producers	4,819,558	7,850,302

Parliamentary appropriation	4,093,000	4,078,000
Due from Canada in respect of parliamentary appropriation	1,666,705	1,555,907
	5,759,705	5,633,907
Due to Canada—Excess of actual expenditures over parliamentary votes	395,510	(1,666,705)

7. Commitments

At March 31, 1981, the Corporation was committed under contractual agreements to invest an amount of \$473,867 (1980—\$387,677) in Canadian feature film productions. Additional commitments concerning rental of office space and equipment amounting to \$351,818 for the next four years are enumerated below:

Financial years	Amount
	\$
1981-82	113,824
1982-83	102,909
1983-84	77,728
1984-85	57,357
	351,818

8. Contingent liabilities

At March 31, 1981, legal proceedings had been instituted against the Corporation for an amount of \$115,000 subsequent to the Corporation's decision not to enter into an agreement at the time of signature of the contract. It is management's opinion that the outcome of this lawsuit will have no marked repercussion on the Corporation's financial situation; therefore no provision has been made for this amount.

9. Comparative figures

Some of the 1980 comparative figures have been restated to conform with the presentation adopted for 1981.

CANADIAN LIVESTOCK FEED BOARD
(Established under the Livestock Feed Assistance Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE EUGENE F. WHELAN, P.C., M.P.,
MINISTER OF AGRICULTURE,
OTTAWA, ONTARIO,
AND
THE CANADIAN LIVESTOCK FEED BOARD

I have examined the balance sheet of Canadian Livestock Feed Board as at March 31, 1981 and the statements of operations, equity of Canada and changes in financial position for the year ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Board as at March 31, 1981, the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Board, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981

1. Nature of activities

The objectives of the Board are to ensure the availability of feed grain to meet the needs of livestock feeders, the availability of adequate storage space in Eastern Canada for feed grain, and the maintenance of reasonable stability in, and fair equalization of, feed grain prices in Eastern Canada, British Columbia, Northwest Territories and Yukon.

2. Significant accounting policies

(a) Basis of accounting

The claims for freight assistance are recorded as expenses in the period in which the shipments take place. The claims related to the local feed grain security program and the inland elevator program are recorded as expenses in the period in which the admissible costs are incurred by the claimants.

Payments made in April relating to the previous year are recorded as due from Canada in respect of parliamentary appropriations to the extent of available funds.

(b) Equipment and office furniture

Purchases of furniture and equipment are recorded as administrative expenses in the year of acquisition.

(c) Services provided without charge

An estimate of accounting and cheque issue services provided without charge by a government department is included as an expense and credited to Equity of Canada.

(d) Employee termination benefits

Employees of the Board are entitled to specified benefits on termination as provided for under the collective agreements and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

CANADIAN LIVESTOCK FEED BOARD—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 1981—*Concluded*

(e) Pension Plan

Employees of the Board are covered by the Public Service Superannuation plan, administered by the Government of Canada. Contributions to the plan are required from both the employee and the Board. These contributions represent the total liability of the Board and are recognized in the accounts on a current basis.

3. Amounts receivable—Inland elevator construction assistance program

Since April 1, 1979, the Board has administered the Inland elevator programs. With respect to the construction of new elevators, the claimant will reimburse the Board, without interest, up to a maximum of 40 per cent of the contribution received. The reimbursements, calculated by applying a standard rate of produce stored, are due from the fourth to the tenth year of operations of the new elevator. Based on cumulative contributions of \$2,504,922 (1980—\$1,348,056) paid at the year end, the Board estimates that it will recover \$1,001,969 (1980—\$539,223). The first of these recoveries is due during the year ending March 31, 1985.

4. Parliamentary appropriations

Funds allotted to the Board as at March 31 were as follows:

	1981	1980
	\$	\$
Agriculture		
Vote 45—Operating expenditures.....	1,025,000	903,750
Vote 50—Contributions.....	15,300,000	13,603,333
Vote 50a—Contributions.....		1,700,000
Vote 50c—Contributions.....	2,450,000	2,000,000
	<u>18,775,000</u>	<u>18,207,083</u>
Less:		
Parliamentary appropriations lapsed	759,185	137,118
Recoveries of prior years' contributions received during the year and paid to Canada.....	36,818	20,753
	<u>17,978,997</u>	<u>18,049,212</u>

5. Commitments

The Board estimates that, over the next five years, an amount of \$4,530,512 could be paid in respect of the Local Feed Grain Security program, of the Inland elevator program and the rental for property and facilities used in the course of its activities. These are detailed as follows:

	\$
1981-82	1,293,594
1982-83	1,159,413
1983-84	1,149,863
1984-85	920,648
1985-86	6,994
	<u>4,530,512</u>

6. Comparative figures

Comparative figures for the year ended March 31, 1980 have been reclassified to conform with the presentation adopted for 1981.

CANADIAN NATIONAL RAILWAY SYSTEM

AUDITOR'S REPORT

TO THE HONOURABLE THE MINISTER OF TRANSPORT,
OTTAWA, CANADA

We have examined the consolidated balance sheet of the Canadian National Railway System as at December 31, 1980 and the consolidated statements of income, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the System as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Also, in our opinion, proper books of account have been kept and the transactions that have come to our notice have been within the powers of the System.

The consolidated financial statements of the System as at December 31, 1979 and for the year then ended were reported upon by another firm of chartered accountants.

CANADIAN NATIONAL RAILWAY SYSTEM—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1: Summary of Significant Accounting Policies

Introduction

All references in these Notes to the "Company" refer to Canadian National Railway Company which is wholly-owned by the Government of Canada and, unless the context otherwise requires, its consolidated subsidiaries, and all references to the "System" mean Canadian National Railway Company and its consolidated subsidiaries together with the lines of railway, marine, telecommunications and other property entrusted by the Government of Canada to the Company for management and operation.

(a) Principles of Consolidation

The consolidated financial statements include the accounts of all subsidiaries, the Company's share of the assets, liabilities, revenues and expenses of CNCP Telecommunications which is accounted for by the proportionate consolidation method, and, consistent with the legislation governing the System, the accounts of the Canadian Government Railways entrusted to the Company by the Government of Canada.

Investments in jointly-operated companies in which the Company has less than a majority interest are accounted for by the equity method where appropriate.

(b) Income Reporting by Division

In presenting the results by division, charges for services performed by one division for another, which are made generally at market value, have not been eliminated. Consolidated net income is not affected by this practice.

(c) Material and Supplies

The inventory is valued at laid down cost based on weighted average cost for ties and rails, latest invoice price for fuel and new materials in stores, and at estimated utility or sales value for usable second hand, obsolete and scrap materials.

(d) Insurance Fund

The System is self-insured for various risks, maintaining a separately invested fund. The provision for insurance represents the estimated amount of self-insured losses to be adjusted.

(e) Property

Property is carried at cost, which, in the case of properties brought into the System at January 1, 1923, is the aggregate of the values then appearing in the books of the railways now comprised in the System, less a write-down of \$262.8 million at the time of capital revision in 1937.

Accounting for railway and telecommunications property is carried out in accordance with rules issued by the Canadian Transport Commission and the Canadian Radio-television and Telecommunications Commission respectively (Canadian property), and the Interstate Commerce Commission (United States property), except, in the case of United States property, for the application of depreciation accounting to ties, rails, other track material and ballast. Major additions and replacements generally are capitalized with the exception of interest costs and labour costs relating to track material replacement which are charged to expense.

The cost of depreciable assets retired or disposed of, less salvage, is charged to accumulated depreciation, in accordance with the group plan of depreciation except for CN Trucking and CN Hotels and Tower divisions which follow the unit plan whereby gains or losses are taken into income as they occur.

(f) Depreciation

Depreciation is calculated at rates sufficient to write off properties over their estimated useful lives, generally on a straight-line basis. For railway and telecommunications properties, certain rates are authorized by the Canadian Transport Commission, the Canadian Radio-television and Telecommunications Commission and the Interstate Commerce Commission. The rates for significant classes of assets are as follows:

	Annual Rate
Ties	3.25%
Rails	1.15%
Other track material	1.90%
Ballast	4.00%
Road locomotives	4.60%
Freight cars	2.97%
Commercial communications systems	4.37%

Hotel properties are depreciated at annual rates of 2% to 10% and vessels at 5%.

(g) Transportation Revenues

Transportation revenues are generally recognized on completion of movements, with interline movements being treated as complete when the shipment is turned over to the connecting carrier. Costs associated with uncompleted movements are generally deferred.

(h) Pensions

Current service costs are charged to operations, and funded, as they accrue.

Prior service costs are charged to operations over varying periods to 2027, as set out in Note 8, and are being funded by annual payments covering principal and interest over varying periods to 2006 (2015 in the case of U.S. Plans) as permitted by regulatory authorities.

(i) Foreign Exchange

Assets and liabilities in foreign currencies have been translated into Canadian dollars at current rates except for investments, property investment and long-term debt for which historical rates have been used. Income is charged or credited with all exchange differences. Income and expenses of foreign subsidiaries have been translated at average rates during the year except for depreciation provisions which are on the same basis as the related property investment.

			<u>181,613</u>

- (a) On June 24, 1980, Grand Trunk Western Railroad Company, a wholly-owned subsidiary, acquired for cash all the outstanding shares of the Detroit, Toledo and Ironton Railroad Company. Effective December 31, 1980, the Company acquired the 86,400 shares of the capital stock of Northern Alberta Railways Company not previously held by the Company and purchased at par the outstanding 5% First Mortgage Bonds held by the seller for cash. Northern Alberta Railways Company was then amalgamated with the Company on the same date. These acquisitions were accounted for as purchases and consolidated or amalgamated, as the case may be, from the dates of acquisition. The businesses acquired carry on railway transportation activities.

The following is a summary of net assets acquired:

	Detroit, Toledo and Iron- ton Rail- road Com- pany	Northern Alberta Railways Com- pany
(in thousands of dollars)		
Assets acquired	40,020	41,498
Liabilities assumed	10,892	21,698
Net assets acquired	<u>29,128</u>	<u>19,800</u>

CANADIAN NATIONAL RAILWAY SYSTEM—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

The Interstate Commerce Commission, in its decision approving acquisition by the Grand Trunk Western Railroad Company of the Detroit, Toledo and Ironton Railroad Company, required the former to either acquire the remaining 50% ownership share of The Detroit & Toledo Shore Line Railroad Company or to divest itself of its 50% ownership. The shares of The Detroit & Toledo Shore Line Railroad Company were placed in the hands of an independent voting trustee in June 1980 pending implementation of the ICC decision in this respect.

- (b) During 1980, the Company made additional investments of U.S. \$41.87 million (\$49.61 million in Canadian funds) in preference shares issued by Eurocanadian Shipholdings Limited.
- (c) Effective January 1, 1980, the Company acquired a 50% interest in the newly formed partnership, CNCP Telecommunications. A summary of the Company's share of the assets, liabilities, revenues and expenses of the partnership included in the consolidated financial statements through CN Telecommunications follows:

	(in thousands of dollars)
Assets	34,027
Liabilities	15,683
Revenues	118,837

Long-Term Debt			1,441,171	1,505,237

(a) Guaranteed by the Government of Canada.

(b) It is a condition of the 5½% bonds due in 1985 and the 5% bonds due in 1987, that the Company will use its best efforts to purchase during each quarter of each calendar year to maturity when available in the open market at prices not greater than their respective original issue prices, at least ½ of 1% of the principal amount of the issue.

It is a condition of the 8½% bonds due in 1987 that the Company will use its best efforts to purchase bonds during each of the years commencing March 1, 1980 to 1986, in the aggregate principal amounts of \$1.2 million, in each case at a price not exceeding the offering price (99¼%).

For the 9¼% sinking fund debentures due in 1998, there is a mandatory sinking fund provision under which the Company will pay, before March 15, 1984, and each year thereafter to and including March 15, 1997, a sum in cash sufficient to retire on each such March 15 U.S. \$8.0 million principal amount of debentures at 100% of their principal amount.

For the 8½% debentures due in 2002, there is a mandatory sinking fund provision under which the Company will pay before July 1, in each of the years 1983 to 2001 inclusive, an amount sufficient to redeem U.S. \$5.0 million principal amount of debentures at 100% of their principal amount or deliver to the sinking fund debentures otherwise acquired of an equivalent principal amount.

For the 9.7% debentures due in 2004, there is a mandatory sinking fund provision under which the Company will pay before July 15, in each of the years 1989 to 2003 inclusive, an amount sufficient to redeem U.S. \$9.5 million principal amount of debentures at 100% of their principal amount or deliver to the sinking fund debentures otherwise acquired of an equivalent principal amount.

(c) Weighted average interest rate on Government of Canada loan and advances outstanding at December 31, 1980 and 1979, was approximately 8.2% per annum.

(d) The Government of Canada consolidated loan bears interest at 8¾% per annum and is payable in equal semi-annual payments of \$13.63 million covering principal and interest to June 30, 1998.

(e) Secured by rolling stock and payable by semi-annual or quarterly instalments over various periods to 1995 at interest rates ranging from 8% to 11½%. As at December 31, 1980, the principal amounts are payable as U.S. \$224.4 million (December 31, 1979—U.S. \$211.1 million).

(f) Principal of Swiss Francs 100.0 million repayable on April 9, 1985, or earlier at the Company's option

(g) Repayable by semi-annual instalments of \$218,503, including principal and interest, to August 1, 1988.

(h) Principal repayments, including sinking fund repayments and repurchase arrangements, on debt outstanding at December 31, 1980, are as follows:

Year ending December 31:	(in thousands of dollars)
1981	154,169
1982	37,332
1983	44,769
1984	54,418
1985	179,809
1986—1990	466,192
1991—1995	297,499
1996—2000	225,225
2001—2005	109,184
2006	5,139

CANADIAN NATIONAL RAILWAY SYSTEM—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

(i) If the year-end exchange rate had been used in translating long-term debt payable in foreign currencies, the long-term debt would have been increased by \$80.8 million (1979—\$58.9 million).

Note 5: Shareholder's Equity

(a) Capital Stock

During the year, 53,352 shares of the no par value common stock of the Company were issued to the Government of Canada at a value of \$26,676,000 as part of an arrangement whereby the Government shall purchase shares in the capital stock of the Company having a value in aggregate of up to \$143,100,000 as a contribution to the cost of CN Marine's capital projects.

(b) Retained Earnings

Under its governing legislation, the Company is required to pay to the Receiver General for Canada a dividend equal to 20% of net income for the year or such greater percentage as the Governor in Council may direct. Accordingly, a dividend in the amount of \$38.5 million (1979—\$41.6 million), representing 20% of the net income for the year, has been accrued and is included in Other current liabilities.

Note 6: Major Commitments

(a) Leases

(i) The Company's lease commitments as at December 31, 1980, of which the significant portion is in respect of railway rolling stock, are as follows:

	Non-Cancellable Leases	
	Capital Leases	Other
	(in thousands of dollars)	
Year ending December 31:		
1981	47,066	46,053
1982	46,777	43,267
1983	45,692	40,147
1984	44,701	33,877
1985	45,807	32,746
1986—1990	159,095	126,588
1991—1995	17,371	32,237
1996—2000	6,934	16,319
thereafter	6,924	739
Total minimum lease payments	420,367	371,973
Less amount representing imputed interest	150,463	
Present value of net minimum lease payments under capital leases	269,904	

Many of the leases provide renewal options and an option to purchase the property at fair market value at the end of the lease term.

(ii) Rental expenses under all lease arrangements were:

	Year ended December 31	
	1980	1979
	(in thousands of dollars)	
Total expenses	146,685	149,472
Expenses under capital leases	46,207	42,866

Leases entered into in 1980 which are of a capital nature are insignificant.

(iii) Net reduction in income and increases in assets and liabilities in the consolidated financial statements, which would have arisen if leases satisfying the criteria of capital leases had been capitalized, are as follows:

	Year ended December 31	
	1980	1979
	(in thousands of dollars)	
Net reduction in income	1,855	6,126
Increase in Assets		
Property Investment		
Leased property under capital leases	303,831	301,112
Less accumulated amortization	109,118	86,423
	194,713	214,689
Increase in Liabilities		
Current Liabilities		
Present value of obligations under capital leases	22,166	19,175
Non-Current Liabilities		
Present value of obligations under capital leases	269,904	271,542
Less current portion	22,166	19,175
	247,738	252,367

(b) Other

The Company has a commitment at December 31, 1980, to purchase rail from a major Canadian steel producer over the period of the next forty-three months at an aggregate cost of \$146 million.

Note 7: Subsidies

Revenues include the following subsidies:

	Year ended December 31	
	1980	1979
	(in thousands of dollars)	
Government of Canada		
(a) Payments under the Railway Act paid under au- thority of that Act and the related Appropriation Act in respect of certain uneconomic operations, services and prescribed rates which railways are required by the Railway Act to maintain	97,592	135,216
(b) Maritime Freight Rates Act and Atlantic Region Freight Assistance Act subsidies	17,328	18,574
(c) Other	5,532	3,100
	120,452	156,890

Note 8: Pensions

The Company has retirement benefit plans covering substantially all its employees under which they are entitled to benefits at retirement age, based on compensation and length of service. Annual pension costs are as follows:

	Year ended December 31	
	1980	1979
	(in thousands of dollars)	
	196,712	200,749

CANADIAN NATIONAL RAILWAY SYSTEM—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

The total amount of past service costs remaining to be charged to operations at December 31, 1980, based on the latest actuarial valuation as at December 31, 1977, adjusted for subsequent changes, aggregate:

	At December 31	
	1980	1979
	(in thousands of dollars)	
Canadian plans	1,117,110	1,160,994
U.S. plans.....	23,566	18,411
	1,140,676	1,179,405

This amount is being charged to operations in annual amounts, including principal and interest, as follows:

	Annual Cost (in thousands of dollars)
1981—1982	132,399*
1983—1991	126,899*
1992	26,811
1993	32,038
1994—1996	26,843
1997—2006	22,733
2007—2008	27,727
2009—2014	23,039
2015	22,138
2016—2027	22,040

*Includes average annual amounts where payments are based on a proportion of payroll costs.

The charge to operations in 1980 exceeded the funding requirement by \$9.3 million (1979—\$13.1 million). The cumulative excess of charges to operations over funding requirements, amounting to \$64.4 million (1979—\$55.1 million), is included in Other Liabilities and Deferred Credits.

The actuarially-computed value of vested benefits at December 31, 1977, the date of the latest actuarial valuation, exceeded the total of the pension funds at that date by \$613.3 million.

Note 9: Miscellaneous Loss

Miscellaneous loss consists of the following:

	Year ended December 31	
	1980	1979
	(in thousands of dollars)	
Miscellaneous revenues.....	16,438	46,904
Interest		
Total interest on long-term debt	125,284	111,034
Interest on short-term borrowings	1,017	118
Interest on investments	(15,376)	(14,793)
Total interest (net)	110,925	96,359
Interest assigned to divisions	(109,325)	(92,111)
	1,600	4,248
Other expense (net)*	67,661	67,647
Total expenses	69,261	71,895
Total miscellaneous loss	52,823	24,991

*Other expense (net) consists of general corporate income and expenses.

Note 10: Income Taxes

At December 31, 1980, loss carry-forwards for tax purposes which have not been recognized in the financial statements amounted to \$187 million. Of that amount, the tax benefits pertaining to losses of \$77

million and \$110 million are available until December 31, 1981 and 1982 respectively. Also, the undepreciated capital cost for income tax purposes exceeds the net book value of depreciable assets by about \$700 million, with the excess being available to reduce taxable income of future years.

The Company's effective tax rate in 1980 was 4.1% lower than the normal 50.8% due principally to the exclusion from taxable income of the non-taxable portion of capital gains.

Note 11: Reclassification of Comparative Figures

During 1980, changes were made to improve the classification of certain items and for comparative purposes the 1979 figures have been reclassified.

Note 12: Segmented Information

(a) Geographic Areas

Virtually all of the System's operations and assets are within Canada with the exception of Grand Trunk Corporation which operates in the United States.

(b) International Traffic

In addition to the revenue generated by Grand Trunk Corporation, the System derives revenue from traffic originating or terminating on railroads in the United States. In 1980, such revenues approximated \$579 million (1979 - \$524 million).

(c) Identifiable Assets by Division

	December 31	
	1980	1979
	(in thousands of dollars)	
CN Rail	3,957,994	3,538,760
Grand Trunk Corporation	546,902	459,542
CN Telecommunications	408,940	392,501
CN Trucking	59,040	53,161
CN Express	69,078	70,840
CN Hotels and Tower.....	143,289	141,337
CN Marine	167,731	122,953
TerraTransport	62,338	59,142
Miscellaneous	229,901	304,895
Total assets per Consolidated Balance Sheet ..	5,645,213	5,143,131

Included in the above amounts are assets pertaining to the new Real Estate Division and to CNM Inc. Since details of these items are not yet available, they have not been identified as assets of those divisions.

(d) Capital Expenditures and Depreciation by Division

	Capital Expenditures*		Depreciation	
	Year ended December 31			
	1980	1979	1980	1979
	(in thousands of dollars)			
CN Rail	408,119	313,202	134,690	128,003
Grand Trunk Corporation	42,311	62,700	14,028	11,424
CN Telecommunications	33,360	44,409	23,921	22,416
CN Trucking	8,900	6,486	5,596	5,170
CN Express	4,101	6,215	4,569	4,757
CN Hotels and Tower	6,594	7,035	5,655	5,374
CN Marine	49,857	107,326	8,251	7,375
TerraTransport	4,249	5,062	2,603	2,394
Miscellaneous	3,523	5,850	1,192	861
	561,014	558,285	200,505	187,774

*Represents additions to property, plant and equipment.

CANADIAN NATIONAL RAILWAY SYSTEM—*Concluded*NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—*Concluded*

Amounts for capital expenditures and depreciation pertaining to the new Real Estate Division and to CNM Inc. have not been segregated since details are in the process of development.

Note 13: Other Matters

- (a) The Company carries on ordinary business transactions with various entities controlled by the Government of Canada on the same terms and conditions as current transactions with unrelated parties.

In addition, the Company provides, under contractual arrangements, rail transportation and maintenance and marine services to the Government of Canada and to entities controlled by the latter. The revenue derived from such services rendered in 1980 aggregated \$412.4 million (\$319.8 million in 1979) and the amounts receivable therefrom at December 31, 1980, amount to \$17.2 million (\$20.6 million at December 31, 1979).

- (b) Commencing in 1977, the Government of Canada has agreed to pay to the Company, by way of capital grants not exceeding \$141.7 million, certain amounts with respect to expenditures incurred in carrying out rehabilitation programs for branch lines in Western Canada. Total payments received up to December 31, 1980, amounted to \$136.2 million of which \$42.6 million was received in 1980 (1979 - \$36.1 million).

Note 14: Subsequent Event

In January 1981, the Company issued and sold U.S. \$150 million (approximately \$178.8 million in Canadian funds) 14% Sinking Fund Debentures payable in U.S. funds and maturing on January 15, 2006. The sinking fund provision provides for the retirement of U.S. \$9.5 million each year beginning January 15, 1991, to retire 95% of the principal amount prior to maturity. These Debentures were issued in anticipation of the retirement of the 4% Bonds which matured on February 1, 1981. Accordingly, an amount of approximately \$175 million representing the net proceeds has been reclassified from current to long-term liabilities.

CANADIAN NATIONAL (WEST INDIES) STEAMSHIPS LTD.

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian National (West Indies) Steamships Ltd. as at December 31, 1980. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement gives a true and fair view of the financial position of the Company as at December 31, 1980 in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statement is in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

CANADIAN NATIONAL (WEST INDIES) STEAMSHIPS LTD.—*Concluded*NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 1980

1. Nature of activities

The Company, incorporated under the Canada Business Corporations Act, is subject to the Financial Administration Act and the Government Companies Operation Act.

The Company, wholly owned by Her Majesty in Right of Canada, ceased all active operations in 1957 at which time it sold its fleet of eight vessels to Cuban interests.

2. Agreement of sale

The final instalment on the sale of the eight vessels to Cuban interests was due to be paid August 19, 1963 by an irrevocable letter of credit issued through the Bank of America. However on July 3, 1963, the United States Cuban Assets Control Regulations became effective which prohibited the Bank of America from honouring payment of the draft. Since that time, legal negotiations to obtain a preferred status, in order to collect the receivable, have not been successful. It is the opinion of management, based on legal counsel, that these monies plus applicable interest will be collected when the regulations are repealed.

A waiver of the application of the statute of limitations has been obtained until January 1, 1984, and further extensions will be obtained as required.

3. Matured bonds—Unclaimed

The matured bonds have been outstanding since March 1, 1955 and as a result there is no legal obligation to redeem them. Notwithstanding this, the Company intends to honour any of the outstanding bonds should they be presented.

4. Due to Canada

The advances from Canada are repayable from monies to be received upon collection of the final instalment due under the agreement of sale described in Note 2.

CANADIAN PATENTS AND DEVELOPMENT LIMITED
(Incorporated under the Canada Business Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE HERBERT ESER GRAY, P.C., M.P.,
MINISTER OF INDUSTRY, TRADE AND COMMERCE,
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Patents and Development Limited as at March 31, 1981 and the statements of operations, retained earnings, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Company as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Objectives and operation of the Company

Canadian Patents and Development Limited (CPDL) was established to make available to the public through licensing arrangements with industry, the industrial and intellectual property which results from publicly-funded research and development.

The Company receives and processes industrial and intellectual property under arrangements with Federal Government Departments, Crown Corporations and Agencies, universities, and other publicly-financed institutions. Suitable protection is sought in Canada and other countries for such property in instances where there is a promise of commercial use. In respect of money received from the exploitation of such property, the Company pays awards to public servants under the Public Servants Inventions Act and makes payments to other originators of such property in accordance with the agreements entered into with them.

2. Significant accounting policies

Industrial and intellectual property rights

Expenditures relating to the acquisition, protection, licensing and maintenance of industrial and intellectual property rights are charged to expense as incurred.

Royalties

Royalty income, and the portion thereof payable to third parties, is recorded on an accrual basis.

Investments in bonds

Investments in bonds are carried at cost since it is management's intention to hold the bonds to maturity. Interest income is recorded on an accrual basis.

3. Patent rights

From 1948, to date, approximately \$1,731,425 (1980—\$1,665,157) has been expended on the current inventory of unexpired patent rights for inventions.

CANADIAN PATENTS AND DEVELOPMENT LIMITED—*Concluded*

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1981—*Concluded*

4. Equipment purchased under development contracts

The cost of equipment purchased under active development contracts and held by a licensee amounts to \$123,500 (1980—\$123,500).

5. Patent agents' fees and other patenting expenses

The Company incurs expense in obtaining and maintaining patents on inventions. Some of this expense is recoverable. A summary for the year is as follows:

	1981	1980
	\$	\$
Gross expense	210,927	220,280
Recovery	99,738	140,173
Net expense	<u>111,189</u>	<u>80,107</u>

6. Payments in respect of Sugar cane separation process

In June 1979, the inventors of a Sugar cane separation process sued the Crown and CPDL to recover the right to license their inventions together with an alleged loss of royalty and other income.

In 1981, CPDL recovered the right to license the patent from a licensee at a cost of \$500,000, made a cash payment to the inventors of \$100,000 for services to be rendered and incurred patent maintenance fees of \$124,763, for a total cost of \$724,763. Funds totalling \$754,596 were provided to CPDL to finance this cost by the Department of Industry, Trade and Commerce under Vote 20 of a supplementary appropriation from Parliament. An amount of \$29,833 was returned to the department after final adjustment.

CANADIAN SALTFISH CORPORATION

(Established by the Saltfish Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE ROMÉO LEBLANC, P.C., M.P.,
MINISTER OF FISHERIES AND OCEANS,
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Saltfish Corporation as at March 31, 1981 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of the financial statements.

CANADIAN SALTFISH CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Objectives and operations of the Corporation

The Canadian Saltfish Corporation was established by the Saltfish Act in March 1970, to improve the earnings of the primary producer of cured saltfish. The Corporation is an agency Crown Corporation of Canada and is required to conduct its operations on a self-sustaining basis. Total loans outstanding from Canada and from banks may not exceed \$30 million.

The Corporation has the exclusive right to trade in and market cured fish and its by-products in the Province of Newfoundland and the North Shore of Quebec and is required to buy all cured fish of an acceptable standard of quality offered for sale therein. Fish is purchased from fishermen, processed through agents of the Corporation and is subsequently marketed by the Corporation.

The Corporation was asked by two small fish companies to market their frozen fish products on a brokerage basis. No revenue is received for this service but the Corporation does recover its related direct costs.

2. Significant accounting policies

Depreciation and amortization

Depreciation is calculated on a straight-line basis and is based on the estimated useful life of the assets as follows:

Buildings	20 years
Equipment	10 years
Furniture and fixtures	5 years
Vehicles	3 years
Sundry production equipment	3, 5 and 10 years
Fish plant	10 years

Foreign currency translation

Transactions in foreign currency during the year are translated into Canadian dollars at the rate in effect at the time of the transaction. At year-end, accounts receivable or payable in foreign currency are translated at the year-end exchange rate where such translation results in a loss; should a gain result, no year-end translation is made.

Agreements with fish processors

The Corporation operates under a common processing agreement with its agents.

In the case of the Corporation's own plant, there is a management agreement with the agent which is supplemental to the common contract. This agreement provides for the Corporation to share in the agent's operating profit and, in the event of a loss, the agent receives a guaranteed fixed fee and the loss is absorbed by the Corporation.

For the year ended March 31, 1981, the Corporation has recorded in its accounts an operating loss under the management agreement of \$173,664 (\$44,947 for the year ended March 31, 1980).

Provision for additional contributions to fishermen and producers

The Corporation purchases saltfish at initial prices established by the Board of Directors and obtains processing services at negotiated rates. Additional contributions, if any, to fishermen and producers are determined by the Board based on the results of operations. These contributions are made in respect of products purchased and processed during the year and therefore are charged to the operations of the year in which they are approved for distribution.

Income Taxes

Under the provisions of the Income Tax Act, the Corporation is exempt from federal income tax.

3. Inventories

Inventories are made up of the following categories:

	1981	1980
	\$	\$
Fish, at lower of cost and net realizable value	4,198,641	2,714,134
Packages and supplies, at cost	213,599	179,733
Salt, at cost	301,732	261,452
	<u>4,713,972</u>	<u>3,155,319</u>

4. Fixed assets

	1981			
	Cost or appraised value	Accumulated depreciation	Net book value	Depreciation expense
	\$	\$	\$	\$
Land	77,574		77,574	
Buildings	896,840	94,096	802,744	44,842
Equipment	1,563,929	871,808	692,121	169,367
Furniture and fixtures ..	73,126	59,062	14,064	3,621
Fish plant	500,000		500,000	86,562
	<u>3,111,469</u>	<u>1,024,966</u>	<u>2,086,503</u>	<u>304,392</u>
	1980			
	Cost	Accumulated depreciation & amortization	Net book value	Depreciation expense and amortization
	\$	\$	\$	\$
Land	77,574		77,574	
Building	270,008	49,254	220,754	12,338
Equipment	1,586,629	753,336	833,293	164,719
Furniture and fixtures ..	60,536	55,441	5,095	2,627
Leasehold improvements	47,387	44,349	3,038	3,039
Fish plant	865,621		865,621	
	<u>2,907,755</u>	<u>902,380</u>	<u>2,005,375</u>	<u>182,723</u>

The plant, which includes land, is a fish processing plant in Port Union, Newfoundland which the Corporation purchased in 1979-80. The purchase was made in anticipation of an increased supply of saltfish beyond the processing capacity of existing agents. Although there was a substantial increase in the supply of saltfish in 1980, there was no requirement for additional processing capacity and, as a result, the plant was used primarily for storing, packaging and shipping of salt-bulk.

The Corporation is continuing to actively seek alternative uses for the plant or to dispose of it. An independent appraisal of the plant was made on April 22, 1981 and, as a result, the Corporation's Board of Directors decided to write down the depreciated value of the plant to its appraised value.

5. Loans from Canada

The Corporation is dependent on the Government of Canada for working capital and long-term loans. Loans used to finance current assets are interest bearing and are repayable within one year.

Loans obtained to finance capital expenditures also bear interest and are subject to repayment in ten equal instalments. Outstanding long-term loans are as follows:

CANADIAN SALTFISH CORPORATION—*Concluded*NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981—*Concluded*

Due date	Interest rate %	Net balance	Annual principal payments
		March 31, 1981	
		\$	\$
March 25, 1984	7½	108,000	54,000
June 19, 1984	7¼	220,500	73,500
September 22, 1985	7¼	90,000	22,500
March 31, 1986	8¾	50,000	12,500
March 27, 1989	10½	70,000	10,000
September 28, 1989	10	640,000	80,000
September 30, 1990	12¾	540,000	60,000
		<u>1,718,500</u>	<u>312,500</u>

Annual long-term loan repayment requirements over the next five fiscal years are \$312,500 in 1982 to 1984, \$258,500 in 1985 and \$185,500 in 1986.

6. Appropriations of retained earnings

The Board of Directors established that the following amounts be appropriated from retained earnings:

	March 31, 1981	Increase	March 31, 1980
	\$	\$	\$
General contingencies	1,000,000	350,000	650,000
Processing and quality improve- ments	200,000		200,000
Research and development	100,000		100,000
Reinvestment in fixed assets	1,004,000	172,500	831,500
	<u>2,304,000</u>	<u>522,500</u>	<u>1,781,500</u>

7. Other expenses

Other expenses include the following:

	1981	1980
	\$	\$
Interest expense—Long-term	169,728	104,374
—Current	551,792	576,138
Gain on foreign exchange	(166,858)	(23,803)
	<u>554,662</u>	<u>656,709</u>

THE CANADIAN WHEAT BOARD

TO THE CANADIAN WHEAT BOARD:

We have examined the financial statements and explanatory comments thereon of The Canadian Wheat Board, which comprise Part VI of The Annual Report of The Board for the crop year ended July 31, 1980. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements together with the explanatory comments thereon present fairly the financial statements of The Board as at July 31, 1980 and the results of its operations for the

periods shown, in accordance with generally accepted accounting principles consistently applied.

CAPE BRETON DEVELOPMENT CORPORATION
(Established by the Cape Breton Development Corporation Act)

AUDITORS' REPORT

TO THE HONOURABLE,
THE MINISTER OF REGIONAL ECONOMIC EXPANSION,
OTTAWA, ONTARIO.

We have examined the balance sheet and the statement of equity of the Coal Division and of the Industrial Development Division of the Cape Breton Development Corporation as at March 31, 1981, and the related income and operating statements and the statements of changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

The financial statements of the Industrial Development Division and of its subsidiaries have been presented on a consolidated basis. With respect to those subsidiaries of which we are not auditors, we have carried out such inquiries and examinations as we considered necessary in order to accept the reports of other auditors for purposes of consolidation. As required by the provision of the Cape Breton Development Corporation Act, the financial statements of the Coal Division and the Industrial Development Division are being presented separately.

In our opinion, these financial statements present fairly the financial position of the Coal Division and of the Industrial Development Division of the Cape Breton Development Corporation as at March 31, 1981, and the results of their operations and the changes in their financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Also, in our opinion, proper books of account have been kept and the transactions that have come to our notice have been within the powers of the Corporation.

Working capital at end of year.....	<u>43,357,025</u>	<u>2,588,050</u>

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981

1. Significant Accounting Policies

(A) Financing

The Corporation is financed by way of votes of the Parliament of Canada. In past years, the Corporation received, through the main estimates, votes for operating purposes equal to its projected losses for the year plus additional losses. For the year ended March 31, 1980, Treasury Board changed this policy so that the supplementary votes for operating purposes would not be approved until after the receipt of audited financial statements. The votes for capital purposes until this year had only been received through the main estimates, however, additional supplementary voted funds for capital purposes were passed on March 31, 1981.

(B) Depreciation

The Corporation has provided depreciation on its fixed assets based on their estimated useful lives. The Treasury Board of Canada has indicated that depreciation should not be provided in determining mining losses for Parliamentary appropriation. Accordingly, the depreciation provision has been eliminated in arriving at this amount.

2. Accounts Receivable

	1981	1980
	\$	\$
Trade.....	19,540,148	12,796,033
Appropriation receivable—Vote 50c capital expenditures.....	28,000,000	
Employees.....	99,733	136,522
	<u>47,639,881</u>	<u>12,932,555</u>
Less: allowance for doubtful accounts.....	100,000	48,631
	<u>47,539,881</u>	<u>12,883,924</u>

3. Repayable Advances from Canada

	1981	1980
	\$	\$
Current.....		13,000,000
Long-term		
Advance (recoverable contribution).....		10,000,000
Note payable.....		10,249,872
Less: current portion (Note payable) ..		1,464,267
		<u>18,785,605</u>

In 1975 the Corporation negotiated a term loan of \$13,600,000 from the Government of Canada to finance the development of the Prince Mine. This loan bore interest at the Government of Canada lending rate to Crown Corporations and others, established quarterly by the Department of Finance, and for the period involved the rate varied between 8% and 9½%. The loan of \$13,600,000, plus interest accrued at March 31, 1977 of \$1,042,674, was repayable in ten equal annual installments which commenced March 31, 1978.

During the year, the Corporation received as part of its financing under Vote 45c an amount equal to three principal balance owing of \$9,520,000 and the forgiveness of interest owing in the amount of \$729,872. Since the interest had been capitalized in past years, the forgiveness was credited to capital.

During the year ended March 31, 1980, the Corporation received under Vote 25 an amount of \$10,000,000 in the form of a recoverable contribution for the development of the Prince Mine. At this time, the terms under which the amount would be recovered had not been finalized. It has now been determined that such recovery will be dependant on the Corporation generating sufficient cash flow from the Prince Mine. In view of this the advance has been transferred to Proprietor's Equity.

4. Commitments

Commitments on capital projects for ongoing mining operation include the following:

- Approximately \$20,000,000 for mine face equipment
- Approximately \$18,000,000 for rolling stock

Phase II of the Donkin Mine project has commenced. The cost of completing the two tunnels which make up the project is estimated to be \$55,000,000. The project will take two years to complete.

5. Contingent Liabilities and Claims

- (A) On February 13, 1981, an explosion occurred on board a vessel carrying a shipment of coal supplied by the Corporation. As at March 31, 1981, there was neither an estimate of damage nor an indication of responsibility available.

CAPE BRETON DEVELOPMENT CORPORATION—Continued

COAL DIVISION

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981—Concluded

(B) The Nova Scotia Hospital Tax Commission has issued assessments against the Corporation covering the calendar years 1976 and 1977. These assessments treat as taxable certain items used by the Corporation in its mining operations and previously considered to be exempt from tax. If tax is imposed on all items so assessed, the resulting liability covering a period of six years to March 31, 1981 is estimated to be approximately \$3,500,000. The Corporation considers these items to be exempt from hospital tax and has appealed the assessments. The matter is expected to be heard by the Supreme Court of Nova Scotia on June 16, 1981.

(C) A Customer of the Corporation has withheld payment in the amount of \$2,550,000 on sales invoiced to it. This customer is claiming that \$850,000 represents damages incurred as a result of excessive moisture in coal purchased from the Corporation. The Corporation does not admit the claim and has taken legal action to obtain the funds. On May 1, 1980, as provided in the sales contract, the Corporation set the price of the coal supplied to the customer. The customer claims that the new price was not as outlined in the contract and withheld payments of the additional charge which amounted to approximately \$1,700,000 as at March 31, 1981. An arbitrator has been appointed in the price dispute, submissions have been made, and his decision is expected shortly.

The total of provisions as at March 31, 1981 for all outstanding claims and potential claims amounts to \$1,500,000 which management estimates to be fully adequate.

6. Long-term sales agreement

The Corporation has signed an agreement with the Nova Scotia Power Corporation which calls for the delivery of a substantial portion of the Corporation's coal production to the Power Corporation subject to the terms contained in the agreement. The agreement expires in the year 2011.

7. Pensions

An actuarial valuation of the Cape Breton Development Corporation Non-Contributory Pension Plan as at December 31, 1980 indicated an unfunded actuarial liability of \$39,310,529 and in addition an experience deficiency of \$15,203,421. No provision for these liabilities has been included in the accounts as at March 31, 1981. The former amount is required to be liquidated by 1993 and the latter amount by 1984. The minimum annual amount required, including pension payments, will be as follows:

	\$
1981	13,158,886
1982	9,682,072
1983	8,092,804
1984	6,931,484
1985-92	5,089,743
1993	649,954

Current pension payments approximate \$5,800,000 and the balance will be funded by the Corporation prior to December 31, in each year.

8. Workmen's Compensation

In previous years, the Corporation's payments for workmen's compensation included an amount which was applied against the capitalized value of existing pensions. During the year ended March 31, 1981, this practice was changed whereby payments equalled the amount paid by the Province of Nova Scotia to Cape Breton Development Corporation employees receiving compensation, together with an administration charge of 10%.

9. Remuneration of Directors and Senior Officers

(Same as Note 5 to Industrial Development Division statements)

The Corporation had six directors, whose aggregate remuneration for the year was \$8,833 (1980—\$14,267). The Corporation had nine officers whose aggregate remuneration for the year as officers was \$509,156 (1980—\$364,117). The president is the only officer who is also a director.

CAPE BRETON DEVELOPMENT CORPORATION—*Concluded*

INDUSTRIAL DEVELOPMENT DIVISION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1981

1. General Policy

The objects of the Industrial Development Division are to promote and assist the financing and development of industry to provide employment on the Island of Cape Breton. In accomplishing these aims the Corporation makes loans and investments, the amounts of which are often in excess of those which would be available through normal commercial sources. The Corporation also makes grants to assist enterprises which are considered likely to make a substantial improvement to the development of Cape Breton Island.

The Industrial Development Division is financed by way of Vote of the Parliament of Canada. Parliament voted \$8,222,250 for this purpose during the fiscal year ended March 31, 1981.

2. Significant Accounting Policies

(A) Basis of Consolidation

The financial statements of the Industrial Development Division include the results of the Division and all its subsidiaries as explained below. The subsidiaries are as follows:

	Corporation Interest	Company Year End
Darr (Cape Breton) Limited (Real Estate)	100%	December 31
Cape Breton Marine Farming Limited (Fish and Oyster Farming)	100%	March 31
Whale Cove Summer Village Limited (Tourist Accommoda- tions)	62.5%	March 31
Dundee Estates Limited (Tourist Accommodations)	100%	March 31
Cape Breton Woolen Mills Lim- ited (Carding and Spinning)	53.3%	March 31

As the financial statements of Whale Cove Summer Village Limited and Cape Breton Woolen Mills Limited showed deficit equity positions as at March 31, 1981 and the minority interest in losses to date have been absorbed against the total of the minority invested capital, the losses of these companies for the respective years are included in the consolidated net loss. As a consequence, no minority interest is shown in the balance sheet for these subsidiaries.

(B) Fixed Assets

Fixed assets are recorded at cost. The cost and related depreciation of items retired or disposed of are removed from the books and any gains or losses are included in the consolidated operating statement. Depreciation is provided on the straight-line method using rates based on the estimated useful lives of the assets generally as follows:

Buildings	Up to 20 years
Equipment	4 to 10 years
Vehicles	3 to 4 years

The four categories of fixed assets shown on the Balance Sheet each include land, buildings and equipment.

(C) Accounting Policy—Certain Subsidiaries

The statements of Dundee Estates Limited and of Cape Breton Marine Farming Limited both include notes indicating that their statements have been prepared on the assumption that the companies can continue to operate as going concerns, which assumption depends on the continued financial support of Cape Breton Development Corporation.

3. Commitments

As at March 31, 1981, the Industrial Development Division of the Corporation was committed to expenditures and loans totaling approximately \$800,000 over and above the amounts included in the financial statements at that date.

4. Guarantees

During the 1976 year, the Corporation guaranteed the repayment by Sydney Steel Corporation of that company's \$70,000,000—11¼% Series D Debentures and the repayment of interest thereon. These funds were borrowed by Sydney Steel Corporation for the purpose of financing its plant rehabilitation program. The balance of the outstanding debentures has since been reduced to \$61,110,000.

The Corporation in 1971 guaranteed the repayment of bank advances to Stora Kopparbergs Bergslags Aktiebolag. This guarantee originally amounted to \$30,000,000. The balance of advances has since been reduced to \$16,500,000 of which \$6,500,000 is in U.S. dollars.

The Corporation made the guarantees for and on behalf of Her Majesty the Queen in right of Canada; therefore, any amounts required to be paid shall be paid out of the Consolidated Revenue Fund of Canada and not out of funds of Cape Breton Development Corporation.

5. Remuneration of Directors and Senior Officers

(Same as Note 9 to Coal Division Statements)

The Corporation had six directors, whose aggregate remuneration for the year was \$8,833 (1980—\$14,267). The Corporation had nine officers whose aggregate remuneration of the year as officers was \$509,156 (1980—\$364,117). The president is the only officer who is also a director.

CROWN ASSETS DISPOSAL CORPORATION
(Established by the Surplus Crown Assets Act)

AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1981
WERE NOT AVAILABLE AT DATE OF PRINTING

DEFENCE CONSTRUCTION (1951) LIMITED
(Incorporated under the Canada Business Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE GILLES LAMONTAGNE, P.C., M.P.,
 MINISTER OF NATIONAL DEFENCE,
 OTTAWA, ONTARIO.

I have examined the balance sheet of Defence Construction (1951) Limited as at March 31, 1981 and the statements of net expense and deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Company as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Objectives and operations of the Company

Defence Construction (1951) Limited was incorporated in 1951 under the Canada Business Corporations Act, pursuant to the authority of the Defence Production Act, to contract for major military construction and maintenance projects required by the Department of National Defence.

The Company's principal functions in the field of construction management are to obtain tenders, make recommendations regarding proposed awards and to award and administer contracts. As an integral part of its responsibility for contract administration, the Company inspects the work to ensure completion in accordance with the contract and certifies contractors' progress claims for payment from funds of the Department of National Defence. It also engages architectural and engineering firms to prepare plans and specifications in accordance with the requirements of the Department of National Defence. It may provide technical and administrative assistance on construction matters to other government departments when required.

2. Significant accounting policies

Net expense

The accounts of the Company reflect only the administrative expenses incurred in procuring the construction and maintenance of defence projects on behalf of the Department of National Defence and in procuring the construction of such other projects as are approved by Treasury Board.

Depreciation

Depreciation is recorded on the straight-line method over five years.

Employee benefits

Employee benefits are expensed when earned by employees.

Pensions

During the year, the Company made payments of \$346,722 (\$336,853 in 1980) in respect of current contributions to the Public Service Superannuation Account (PSSA) of the Government of Canada. The PSSA is actuarially valued every five years. The Company's contributions and recorded liabilities are limited to the matching of the current and certain arrears contributions of employees. The Company is not required to make contributions with respect to actuarial deficiencies of the PSSA.

3. Parliamentary appropriations

The net administrative expenses are funded from the Department of National Defence appropriations to the extent of net annual cash requirements.

4. Deficit

The Deficit of the Company is comprised primarily of unfunded liabilities for employees vacation and furlough pay and termination benefits which will require funding from parliamentary appropriations in future years as they become payable.

5. Provision for employee benefits

	1981	1980
	\$	\$
Termination benefits	1,722,492	1,472,595
Life insurance for retired employees	360,995	314,807
Furlough benefits	101,563	61,738
	2,185,050	1,849,140

DEFENCE CONSTRUCTION (1951) LIMITED—*Concluded*

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1981—*Concluded*

6. Contractors' security deposits

Contractors' security deposits represent bid deposits—\$247,278 (1980—\$183,496) and deposits on plans and specifications—\$36,025 (1980—\$62,800).

7. Recovery of expense

The Company provides certain technical and administrative assistance to the Department of National Defence and other government departments and agencies on a cost-recovery basis.

8. Income tax

The Company is not liable for the payment of income taxes.

9. Supplementary information

The Company's contracting activity on behalf of government departments and agencies is summarized below:

	Year Ended March 31	
	1981	1980
	(\$000)	
Contracts in progress at beginning of the year.....	203,265	209,707

ELDORADO AVIATION LIMITED

AUDITOR GENERAL OF CANADA

THE HONOURABLE MARC LALONDE, P.C., M.P.,
MINISTER OF ENERGY, MINES AND RESOURCES,
OTTAWA, ONTARIO.

We have examined the statement of financial position of Eldorado Aviation Limited as at December 31, 1980 and the statements of operations and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements give a true and fair view of the financial position of the company as at December 31, 1980 and the results of its operations and changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the company, the financial statements are in agreement therewith and the transactions that have come under our notice have been within its statutory powers.

M. H. RAYNER
Acting Auditor General of Canada

COOPERS & LYBRAND

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Eldorado Aviation Limited

Eldorado Aviation Limited, a wholly-owned subsidiary of Eldorado Nuclear Limited, was incorporated under the Canada Corporations Act. In 1980 the Company filed for and received its continuance under the Canada Business Corporations Act.

The Company is subject to the Financial Administration Act and the Government Companies Operations Act.

2. Operations

During 1980 the Company operated two DC 4 fixed winged aircraft and two helicopters until mid year. At that time this equipment was disposed of and a Boeing 737 combination cargo/passenger aircraft was leased to handle all haulage of freight and passengers for the parent company. The net cost of operations is recovered from the parent company (and by agreement from Northern Transportation Company Limited in 1979 and prior years).

3. Significant accounting policies

Property and equipment

Assets are carried at cost. Costs of additions, betterments and renewals are capitalized.

Depreciation

Depreciation on the leased aircraft is recorded in the accounts at a predetermined rate per flying hour which has been calculated based on the estimated life of the asset.

Depreciation on other assets is recorded in the accounts on the declining balance method based on the estimated useful lives of the assets.

Deferred engine overhaul costs

The costs of rebuilding engines are charged to operations over the estimated life of the rebuilt engines on the basis of actual hours flown.

4. Capitalized lease obligations

During 1980, the Company leased, with an option to purchase, a Boeing 737 combination cargo/passenger aircraft costing approximately \$15,927,100. The cost of this equipment is included in property and equipment and the related liability is included in long-term debt to reflect the effective acquisition and financing of the aircraft.

The future minimum principal payments under the capitalized lease are as follows:

	(in thousands of dollars)
1981	591
1982	672
1983	761
1984	863
1985	981
Later years	11,747
	15,615
Less: current portion	591
	15,024

The capitalized lease bears a fluctuating interest rate which approximates the banks' prime lending rate.

ELDORADO AVIATION LIMITED—Concluded**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980—Concluded****5. Capital stock**

Authorized: an unlimited number of common shares of no par value

Issued and fully paid: 28,006 shares

6. Services provided without charge

The parent company, Eldorado Nuclear Limited, currently provides the Company with hangar facilities, the use of its EDP systems and certain administration functions without charge.

7. Remuneration of directors and officers

The Company paid no remuneration to its five directors nor to its seven officers, five of whom were directors.

ELDORADO NUCLEAR LIMITED

AUDITOR GENERAL OF CANADA

THE HONOURABLE MARC LALONDE, P.C., M.P.,
MINISTER OF ENERGY, MINES AND RESOURCES,
OTTAWA, ONTARIO.

We have examined the statement of consolidated financial position of Eldorado Nuclear Limited as at December 31, 1980 and the statements of consolidated earnings and retained earnings and changes in consolidated financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements give a true and fair view of the financial position of the Company as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under our notice have been within its statutory powers.

The accompanying notes to consolidated financial statements are an integral part of this statement.

STATEMENT OF ACCOUNTING POLICIES

The accompanying consolidated financial statements were prepared by management in conformity with generally accepted accounting principles considered to be appropriate in the circumstances, and have been applied on a basis consistent with that of the preceding year. A summary of significant accounting policies of the Company is presented to assist the reader in interpreting the statements contained herein.

Consolidation

The consolidated financial statements include the accounts of Eldorado Nuclear Limited and its wholly-owned subsidiaries, Eldorado Aviation Limited and Eldor Resources Limited.

Inventories

Inventories of mine concentrates and refined and converted products are valued at the lower of weighted average cost or net realizable value. Cost for customer-owned products is the cost of the refining and conversion processes only.

Inventories of mine concentrates are initially measured and accounted for in the financial statements when the material is sealed in containers upon completion of the milling process.

Supplies

Operating and general supplies are carried at cost.

Property and Equipment

Assets are carried at cost. Costs of additions, betterments, and renewals are capitalized. When assets are retired or sold, the resulting gains or losses are reflected in current earnings.

Maintenance and repair expenditures are charged to cost of production.

Depreciation

The principal depreciation method used is the straight-line method based on the estimated useful lives of the property and equipment. The estimated useful life of the majority of the property and equipment in service is 10 years.

Mine Development and Preproduction Costs

Certain mine development and refinery costs associated with capacity additions are deferred until commencement of production. These costs are then amortized based on production over not more than 10 years. Other costs are charged to production as incurred.

ELDORADO NUCLEAR LIMITED—Continued**STATEMENT OF ACCOUNTING POLICIES—Concluded****Capitalization of Interest**

Interest costs on funds borrowed to finance the development and construction of major assets are capitalized during the development and construction period.

Research and Development and Exploration Costs

Expenditures for applied research and development relative to the products and processes of the Company and expenditures for geological exploration programs are charged against earnings as incurred.

Pension Plan

The Company has a contributory, defined benefit, trustee pension plan covering all of its regular full-time employees. Assets in the pension fund are valued by a three-year moving average market value method, while liabilities are costed by the entry age normal cost method.

Pension costs are funded and recorded at rates confirmed by the consulting actuary pursuant to periodic actuarial revaluations. All actuarially-determined unfunded liabilities are amortized and funded over periods that adequately reflect their specific nature, up to a maximum of 15 years.

Sales of Products and Services

In accordance with normal industry practices, the Company contracts for future delivery of mine concentrates and refinery conversion services. Sales revenue is recorded in the fiscal year that title passes or, with customer-owned material, when delivery is effected.

Foreign Exchange

Accounts receivable and accounts payable denominated in foreign currencies are translated into Canadian dollars at rates of exchange in effect at year-end; income and expenses at rates in effect during the year. Gains or losses resulting from such translation practices are reflected in the statement of consolidated earnings and retained earnings.

Income Tax

The Company follows the tax allocation method of providing for income taxes. Taxable income may be different from reported earnings before taxes because certain items of income and expense are recorded in time periods different for tax purposes from those for accounting purposes. The difference between the taxes calculated as payable each year and those charged against earnings on the tax allocation method is accumulated and carried forward in the statement of consolidated financial position under the caption deferred taxes.

ELDORADO NUCLEAR LIMITED—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1980

1. Eldorado Nuclear Limited

Eldorado Nuclear Limited is incorporated under the Canada Business Corporations Act, is subject to the Financial Administration Act and the Government Companies Operations Act, and is an agent of Her Majesty in Right of Canada. The outstanding shares were acquired by the federal government in 1944 to secure a source of uranium for Canada.

The Company, wholly-owned by Her Majesty in Right of Canada, is involved in various aspects of the nuclear fuel cycle, primarily the exploration, mining and refining and conversion of uranium.

Eldorado's Beaverlodge mine in northwestern Saskatchewan produces mine concentrates. Most sales, to electric utilities, are made under long-term, annual delivery contracts, and title transfer is generally made at the Company's Port Hope facilities prior to further processing. All export contracts must first be approved by federal regulatory agencies.

The plant at Port Hope refines uranium concentrates and converts the pure uranium to produce ceramic-grade uranium dioxide powder and uranium hexafluoride as steps in the nuclear fuel cycle. Utility customers in Canada and from many other nations send material to Port Hope for such processing and the converted product is shipped on behalf of customers to fabricators in Canada or to enrichment plants in the United States, Europe and the USSR. At year-end 1980, the refinery held 25 million pounds of customer-owned uranium at various stages of processing (1979—27 million pounds). All exports of material on behalf of customers require a licence from federal regulatory agencies.

The Port Hope operation also includes metallurgical facilities to produce depleted uranium metal, experimental fuels, and various other related products, as well as storage facilities for U₃O₈ and for processed UF₆.

A wholly-owned subsidiary, Eldor Resources Limited, owns a one-sixth interest in the Saskatchewan Uranium Joint Venture which is developing new uranium properties at Key Lake in northern Saskatchewan. Another wholly-owned subsidiary, Eldorado Aviation Limited, provides transportation services to the Beaverlodge mine-site.

Each year, after the normal preparation, review and approval of budgets by the Board of Directors of Eldorado for the next calendar year, the Company submits the capital budget for approval by the Governor-in-Council upon recommendation of the Ministry of Energy, Mines and Resources, the Minister of Finance, and the President of the Treasury Board. This budget is subsequently tabled in Parliament.

2. Accounting policies

A statement of significant accounting policies of the Company is provided on pages 1 to 3.

3. Other (income) and expense

	1980	1979	1978
	(in thousands of dollars)		
Expenses			
Interest on long-term debt	6,856	6,111	6,118
New refinery site selection costs ...	4,141		913
Miscellaneous	548	147	272
Income			
Interest on investments	(465)	(3,840)	(4,478)
Gain on partial repayment of concentrate loan Eldor-UCAN	(5,763)		
Other non-operating items	(999)	(987)	(2,905)
	<u>4,318</u>	<u>1,431</u>	<u>(80)</u>

4. Income taxes and mineral royalties

The provisions for income taxes and mineral royalties were as follows:

	1980	1979	1978
	(in thousands of dollars)		
Income taxes—Current			488
—Deferred	1,864	1,495	7,349
	<u>1,864</u>	<u>1,495</u>	<u>7,837</u>
Mineral royalties	2,070	4,200	3,218
	<u>3,934</u>	<u>5,695</u>	<u>11,055</u>

The reconciliation between the federal statutory income tax rate and the Company's effective rate of income tax and mineral royalties is as follows:

	Percentage of Pre-tax Earnings		
	1980	1979	1978
Federal statutory income tax rate	48.3	46.0	46.0
Resource and depletion allowances	(33.2)	(24.4)	(19.3)
Adjusted income tax rate	15.1	21.6	26.7
Inventory allowance	(9.5)	(10.0)	(1.4)
Research allowance	(3.7)	(6.9)	(0.4)
Non-deductibility of income debenture interest	27.4	20.5	3.4
Other	4.9	(0.6)	(0.5)
Effective income tax rate	<u>34.2</u>	<u>24.6</u>	<u>27.8</u>
Mineral royalties	38.1	68.9	11.4
Net effective rate	<u>72.3</u>	<u>93.5</u>	<u>39.2</u>

Provincial mineral royalties, which are not deductible for federal income tax purposes, are calculated in part as a percentage of revenues and consequently the effective rate can fluctuate drastically from year to year.

As the result of an audit of taxation years prior to 1977, the Company received reassessment notices in 1978 increasing income for tax purposes and decreasing tax loss carry forwards by approximately \$4.0 million. The Company filed a Notice of Objection with respect to these reassessments. However, to date, no formal decision has been reached.

5. Mine concentrates on loan

Mine concentrates on loan are recorded at current inventory cost, which is lower than net realizable value. These costs are classified as either current or non-current assets, according to scheduled or estimated repayments. The mine concentrates on loan are secured by the pledging of marketable securities and a fixed and floating charge over the borrower's assets.

Income from the mine concentrates on loan is included in revenues in the amount of \$2.5 million (1979—\$6.5 million; 1978—\$7.8 million).

	94,729	110,094	45,214

(i) Due by Eldor Resources Limited

In conjunction with the purchase of its interest in the Key Lake joint venture, Eldor Resources Limited arranged with Uranium Canada, Limited (UCAN) for a loan of two million pounds of uranium mine concentrates (U₃O₈) from the Government of Canada stockpile. This material, of which 730,600 pounds were drawn in 1978 and 1,269,400 pounds in 1979, was sold at world market prices to fund the Key Lake acquisition.

Under the terms of the agreement, Eldor must pay interest on the loan value of borrowed concentrates (the loan value being the price at which it sells the concentrates to its customers) at a rate equal to that charged by the federal government on five-year loans to Crown corporations as of the initial loan date (initially 9½%). This rate is then negotiable every 5 years thereafter.

The interest payable to UCAN under the loan agreement is recorded as an increase to the investment in the joint venture and payment is deferred until commencement of commercial production. This deferred interest is then payable out of the operation's cash flow.

The original intention was to repay this loan out of Eldor's share in the production of Key Lake. However, because of the availability of excess inventory from Beaverlodge production during 1980, a portion of it was repaid during the year. The difference between the average unit loan value and U₃O₈ inventory cost is reflected in the statement of consolidated earnings and retained earnings as a reduction in "other expenses". As a minimum, the loan will be repaid in annual installments after commencement of operations, with full repayment required by 2010.

As collateral for the loan, Eldor has given UCAN a debenture of \$200 million which is secured by a fixed and floating charge on all of its assets and undertakings, both present and future. If Eldor is unable to meet its obligations to return borrowed concentrates on schedule, UCAN has access to Eldor's undivided one-sixth equity interest in the joint venture. The Key Lake discovery alone, which forms part of the joint venture's assets, is estimated to contain in excess of 150 million pounds of uranium in the two defined ore bodies.

(ii) Due by Eldorado Nuclear Limited

At year-end 1978, the Company borrowed uranium mine concentrates from the Government of Canada stockpile through Uranium Canada, Limited to cover a production shortfall from the Beaverlodge mine. In May 1979 the loan was repaid.

ELDORADO NUCLEAR LIMITED—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1980—Concluded

9. Sales contracts

Provision was established in 1978 for anticipated losses on low-priced U₃O₈ deliveries in 1979 and 1980. This provision was increased in 1979 to \$16,066,000 to meet additional anticipated losses in 1980. At December 31, 1980 all deliveries of these low-priced U₃O₈ contracts have been completed or the Company was able to negotiate cancellations, resulting in the elimination of the provision.

At December 31, 1980 the Company had commitments for the delivery of 6,864,000 pounds of uranium mine concentrates from 1981 to 1987.

10. Share capital

	1980	1979	1978
	(in thousands of dollars)		
Authorized:			
An unlimited number of common shares of no par value			
Issued and fully paid:			
70,500 shares to Canada	6,586	6,586	6,586

11. Commitments and contingencies

- (a) The last actuarial valuation of the Eldorado Pension Plan (1959), as of December 31, 1979, revealed an unfunded liability of \$248,000 which is being amortized and funded as provided in Eldorado's accounting policies and the Pension Benefits Standards Act.
- (b) The Company has entered into long-term leases on certain properties up to 1985 with annual rental payments averaging \$495,000.
- (c) Through its wholly-owned subsidiary Eldor Resources Limited, the Company is a one-sixth partner in a joint venture that discovered and has commenced developing the ore bodies near Key Lake, Saskatchewan. In accordance with the partnership agreement, Eldor is obligated to meet its proportionate share of the commitments of the joint venture. At December 31, 1980, Eldor's share of the preliminary estimated cost to commence production is approximately \$80 million.
- (d) The Company has plans for the expansion of its refining and conversion capacity to meet projected increases in world demand for uranium.

During 1980, the federal government directed the Company to alter the site of its new Ontario facilities from Hope Township to Blind River. In conjunction with this direction, the Company then revised its expansion plan for this facility. Under the new plan, all uranium refining operations will be consolidated at a new Blind River UO₃ plant, and all UO₂ and UF₆ conversion activities will take place at expanded facilities at Port Hope. This will enable the Company to phase out its 25-year-old UO₃ plant at Port Hope. The capital cost of the program to be incurred from 1980 is projected at approximately \$200 million. The plants are expected to be ready for operation by late 1983. The Company is awaiting final approval of the sites from the Atomic Energy Control Board.

The Company has entered into contracts in connection with its expansion program and as at December 31, 1980, has made commitments of approximately \$16 million.

- (e) In connection with its operations, the Company is the defendant in certain pending or threatened litigations. It is the opinion of management, based on legal counsel, that these actions will not result in any material liabilities to the Company.

12. Supplementary information

- (a) Subsequent to December 31, 1980, the Company has entered into a financing agreement for the issuance of 13¼% notes due March 15, 1986 in the amount of 50 million U.S. dollars. This debt is listed on the Stock Exchange in London.
- (b) As of February 10, 1981, the Company is in the final stages of negotiations with the Shareholder for a substantial increase in its equity capital.
- (c) The Company's by-laws provide for between seven and ten Directors. At December 31, 1980, the Company had nine Directors and nine Officers. One of the Directors was also an Officer.

Remuneration of Officers as Officers in 1980 totalled \$626,000; and remuneration of Directors as Directors in 1980 totalled \$55,000.
- (d) During 1980, sales commissions totalling \$178,514 were paid to Marubeni Corporation who have been retained as exclusive sales agents since 1960.
- (e) Interest costs of \$2.8 million paid in 1980 have been capitalized under property and equipment and investment in joint venture (1979 - nil). Deferred interest of \$10.2 million recorded in 1980 has been capitalized under investment in joint venture (1979 - \$7.9 million).

13. Segmented information

(a) Industry segment:

The Company is of the opinion that all its sales revenues are in the industry segment identified as the nuclear fuel industry.

(b) Sales:

Sales revenues of the Company are derived primarily from sales to foreign and domestic electric facilities as follows:

	1980	1979	1978
	(in thousands of dollars)		
Export Sales	77,738	48,893	109,140
Domestic Sales	13,378	62,605	14,906
Total Sales	91,116	111,498	124,046

ELDORADO NUCLEAR LIMITED—Concluded

SPECIAL REPORT
(Unaudited)

The Government of Canada will increase its equity investment in Eldorado Nuclear Limited by transferring to the Company the assets administered by Uranium Canada, Limited (UCAN). This transfer was approved by Parliament at the end of March 1981. The assets consist primarily of the Government of Canada uranium stockpile of approximately 13 million pounds of mine concentrates, plus 1.5 million pounds of concentrates outstanding on loan to Eldor Resources Limited, a wholly-owned subsidiary of Eldorado Nuclear Limited. The fair market value of the total transaction is \$300 million, which primarily represents the estimated present value of the future cash flow from the sale of the stockpile.

The Shareholder will receive the following shares as consideration for its investment:

- (a) \$200,000,000 of redeemable preferred shares dated April 1, 1981 with no dividends payable until 1986. Dividend requirements for the year ending March 31, 1986 will be \$40 million and for the year ending March 31, 1987, \$80 million. Subsequent to 1987, the shares will bear a cumulative dividend rate of 10%; and
- (b) \$100,000,000 of common shares.

An effect of the transfer on Eldorado's consolidated financial statements is a reduction in long-term debt of \$94,729,000, representing the value assigned to the 1.5 million pound Eldor loan following successful sales of the borrowed concentrates at favourable prices in 1978 and 1979.

The increased investment is largely intended to provide the Company with a capital structure which will help it to raise capital to finance its expansion program. Because of the current depressed state of the market for uranium, it is not the Company's intention to sell substantial quantities from the stockpile in the short term. Rather, sales will be made as favourable opportunities present themselves and as the market is able to absorb increased quantities without a negative impact on price.

Thus, it is not expected that the additional investment will substantially reduce the Company's external financing requirements over the next three years. However, the additional investment will substantially assist the repayment thereafter of externally raised financing.

The following summarized Statement of Consolidated Financial Position (opposite page) reflects how the increased investment would have affected the Company's Statement of Consolidated Financial Position as at December 31, 1980, had the investment been made on that date.

EXPORT DEVELOPMENT CORPORATION

AUDITOR GENERAL OF CANADA

THE HONOURABLE HERBERT GRAY, P.C., M.P.,
MINISTER OF INDUSTRY, TRADE AND COMMERCE,
OTTAWA, ONTARIO.

I have examined the balance sheet of Export Development Corporation, Corporate Account, as at December 31, 1980 and the statements of income and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

MICHAEL H. RAYNER
Acting Auditor General of Canada

Ottawa, Ontario

EXPORT DEVELOPMENT CORPORATION—Continued

CORPORATE ACCOUNT

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1980

1. Export Development Corporation

Export Development Corporation is a Crown corporation wholly-owned by Canada, which was established October 1, 1969 by the Export Development Act, a statute of the Parliament of Canada, as the successor to the Export Credits Insurance Corporation which commenced operations in 1944.

The Corporation has broad powers including the power to borrow, to lend and to guarantee loans, to enter into export and foreign investment insurance contracts and to issue guarantees in respect of export transactions.

The Corporation is not subject to the requirements of the Income Tax Act with respect to its earnings.

Contracts are entered into either under the authority of the Board of Directors ("Corporate Account") or under the authority of the Governor in Council ("Canada Account") and are so reflected in separate financial statements. The Act sets out separate loan and liability limits for Corporate Account and Canada Account, and for all purposes the Corporation treats Corporate Account and Canada Account separately. Canada Account transactions are administered by the Corporation for Canada. Funds required for such transactions are paid to the Corporation by Canada and the Corporation does not have any liability for transactions administered for Canada Account. All contracts of foreign investment insurance are issued for Canada Account.

2. Summary of Significant Accounting Policies

These financial statements were prepared in accordance with accounting principles generally accepted in Canada. A summary of significant accounting policies follows.

Export Loan Interest Earned

Interest is accrued on principal receivable until such time as the Corporation accelerates all payments falling due under a loan agreement or when in the opinion of management there is significant doubt as to its collectibility or the loan becomes non-current. Non-current is defined as any rescheduled loan where a significant payment has not been received for one year.

Finance and service charges, which are paid by exporters, are taken into interest income over the disbursement and repayment periods of a loan.

Export Loan Fees Earned

Administration fees are taken into income as earned over the disbursement and repayment periods of a loan, and standby fees are taken into income over the disbursement period.

Interest Expense

Interest expense is prorated between export loans and investments on the basis of average funds employed. Interest expense includes amortization of debt discount and issue expenses, which is charged over the life of the debt.

Allowance for Losses on Loans Receivable

Provisions for loan losses are based on a review of collectibility of all outstanding loans to sovereign and commercial borrowers. In respect of this review, the Corporation recognizes that the future economic and political conditions in some of the countries where the Corporation has made loans are subject to varying

degrees of pressures, some of which are unpredictable. Accordingly, delays in the repayment of principal and interest may well occur from time to time.

In the case of loans made to sovereign borrowers, that is the governments of countries or their agencies, payment delays are not necessarily indicative of a future loss requiring a provision. Sovereign entities and their international financial obligations do not have commercial mortality, and the international system does not allow the unilateral denial of a sovereign obligation. Furthermore, the international system provides several mechanisms and institutions through which countries facing repayment difficulties can effect remedial measures in agreement with their creditors. Therefore, except in the rare instance of outright repudiation or a write-off of asset value agreed to by creditors, in the opinion of management the ultimate collectibility of a sovereign obligation, and thus its asset value, is not subject to question although delays may have to be accepted.

It is the policy of the Corporation to set aside from net income, in addition to any specific provisions made as a result of the review of the outstanding loans, an amount sufficient to maintain an accumulated non-specific allowance proportionate to the total loan principal and interest receivable for which no specific provision has been made.

Insurance Premiums

For short term global export insurance policies, premiums are taken into income at the commencement of coverage. Premiums on other export insurance policies are taken into income using methods which generally reflect the exposures over the terms of the policies.

Allowance for Claims on Insurance and Guarantees in Force

The Corporation provides for claims based on claims experience, augmented if necessary by a specific provision based on a review of contingent liability. Claims payments are charged and recoveries credited to the allowance.

Translation of Foreign Currency

Assets and liabilities are translated into Canadian dollars at exchange rates prevailing at year end. Income and expenses are translated at average monthly exchange rates in effect during the year.

3. Loans Receivable

Loans receivable from both sovereign and commercial borrowers, net of participation by other lenders, mature as follows:

	December 31	
	1980	1979
	(in thousands of dollars)	
Overdue.....	12,169	22,465
1980.....	178,010	178,010

1986 and thereafter	1,358,288	808,130
Total	3,172,304	2,586,517
Commercial loans included above	907,405	687,529
Overdue interest.....	5,536	13,899

EXPORT DEVELOPMENT CORPORATION—Continued

CORPORATE ACCOUNT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980—Continued

The review of export loans receivable at December 31, 1980 indicated no requirement for an additional specific allowance in respect of a commercial loan other than the \$500,000 previously provided (1979—\$500,000), and indicated no circumstance where a specific allowance was required in respect of a sovereign loan (1979—NIL).

At December 31, 1980, the total principal receivable of loans with any principal or interest overdue for more than one year is \$26,635,000 (1979—\$19,681,000). The actual principal and interest overdue for more than one year on such loans is \$10,325,000 (1979—\$7,180,000) and \$2,795,000 (1979—\$2,457,000), respectively.

In order to aid the collectibility and servicing of some loans, the Corporation has concluded agreements to reschedule principal and interest payments in the following amounts:

	December 31	
	1980	1979
	(in thousands of dollars)	
During the year—Interest	25,233	773
—Principal	43,991	7,798
	<u>69,224</u>	<u>8,571</u>
Since inception of the loans program	193,120	123,896
Repaid to date	37,266	32,718
Outstanding	<u>155,854</u>	<u>91,178</u>
Rescheduled more than once	30,332	9,084
Amounts overdue	<u>289</u>	<u>3,820</u>

4. Other Assets

Other assets at December 31, 1980, include unamortized debt discount and issue expenses of \$15,711,000 (1979—\$10,805,000).

5. Long Term Loans Payable

Long term loans payable at December 31, 1980 bear interest at coupon rates from 5.31% to 14.0% per annum (1979—5.31% to 10.25%) with an average cost to maturity of 10.13% (1979—8.81%). These loans mature as follows:

	December 31	
	1980	1979
	(in thousands of dollars)	
1980		150,696
1981	260,825	257,905
1982	306,955	302,719
1983	391,270	350,673
1984	757,047	745,385
1985	433,576	127,875
1986 and thereafter	461,804	179,033
Total	<u>2,611,477</u>	<u>2,114,286</u>

The annual interest requirement on the above loans from January 1 to December 31, 1981 is \$238,840,000 (January 1 to December 31, 1980—\$173,920,000).

During the year the Corporation purchased for cancellation long term loans payable in the amount of U.S. \$31,500,000. The purchase resulted in debt extinguishment costs and write-off of unamortized debt discount and issue expenses of \$3,740,000, which amount is included in investment interest expense.

6. Deferred Revenue

Deferred revenue is comprised of the following:

	December 31	
	1980	1979
	(in thousands of dollars)	
Loans and guarantees revenue—		
Deferred finance and service charges and administration fees	36,258	29,011
Insurance and guarantees revenue—		
Deferred premiums and fees	7,487	7,407
	<u>43,745</u>	<u>36,418</u>

7. Capital

Authorized capital consists of 10,000,000 shares of a par value of \$100 each. At December 31, 1980, 2,850,000 shares were issued and fully paid (1979—2,850,000 shares). Capital includes an additional \$25,000,000 of contributed capital, the maximum amount provided in the Export Development Act.

8. Insurance in Force and Contingent Liabilities

Under the Export Development Act the liability of the Corporation under contracts of insurance, related guarantees and guarantees pertaining to the lending program of the Corporation may not exceed \$10,000,000,000. At December 31, 1980 the liability is \$1,866,516,000 (1979—\$1,679,092,000).

The Corporation has the following insurance in force:

	December 31	
	1980	1979
	(in thousands of dollars)	
Insurance and related guarantees	1,406,076	1,125,317
Insurance pertaining to undisbursed funds on signed loan agreements	106,609	206,737
	<u>1,512,685</u>	<u>1,332,054</u>

The Corporation is contingently liable for the following:

Financial guarantees pertaining to loans made by other lenders	188,629	182,227
Contingent liability with respect to participations by other lenders in loans receivable with recourse to the Corporation	50,958	47,264
	<u>239,587</u>	<u>229,491</u>

EXPORT DEVELOPMENT CORPORATION—Continued

9. Insurance and Guarantee Claims and Recovery Experience

Experience under the contingent liability insurance programs is as follows:

	Year Ended December 31	
	1980	1979
	(in thousands of dollars)	
Claims outstanding at beginning of year	8,847	5,931
Plus claims paid	10,382	3,798
Less claims recovered	1,555	664
Less claims written off	1,165	218
Claims outstanding at end of year	16,509	8,847

Recovery action is being taken with respect to claims outstanding.

10. Export Loans and Commitments

Under the Export Development Act the Corporation may have outstanding loans and undisbursed commitments to foreign borrowers up to a maximum of \$10,000,000,000 at any time. The position of the Corporation is as follows:

	December 31	
	1980	1979
	(in thousands of dollars)	
Loans receivable	3,426,557	2,822,776
Undisbursed commitments on signed loan agreements	3,491,824	3,528,061
	6,918,381	6,350,837
Less outstanding participation by other lenders without recourse to the Corporation amounts not subject to statutory limit	203,295	188,995
	118,623	114,148
	6,596,463	6,047,694
Canadian dollar equivalent of foreign currency amounts included in totals	3,438,685	2,773,698

11. Funding Policy and Practice

It is anticipated that undisbursed commitments under signed loan agreements will be disbursed as delivery of goods and services or progress on projects is achieved, the average period of disbursement being typically about three years. The Corporation expects to fund these commitments near the time of disbursement by issuing a combination of debt instruments and capital stock while generally attempting to match debt maturities and currencies with those of its export loans. The cost of funding is uncertain and cannot be assured to be above or below the average yield on these commitments.

Should current high levels of United States and Canadian interest rates persist, the cost of funding by the Corporation for its undisbursed commitments would exceed the rate of return

thereon and would result in an eventual loss on the total corporate loans portfolio and require action by Canada. The most recent issue of debt instruments by the Corporation, negotiated on February 23, 1981 for settlement March 10, 1981, carried an interest rate of 14.13 per cent.

The Corporation is for all purposes an agent of Her Majesty, and as such the loans payable of the Corporation are direct obligations of Her Majesty in right of Canada and payment of and interest on the loans will be a charge on the Consolidated Revenue Fund of Canada.

12. Short Term Loans and Investments

With respect to short term loans and investments, activity for the year was:

	Year Ended December 31		
	1980	1979	
	(in thousands of dollars)		
Short term loans payable	Average	424,700	257,800
	High	542,500	472,600
	Low	303,000	137,600
Short term investments	Average	502,000	409,500
	High	790,000	626,100
	Low	307,500	104,400

The Corporation also has lines of credit and overdraft facilities aggregating \$390,000,000 (1979—\$290,000,000) of which \$22,000,000 was used at December 31, 1980 (1979—\$2,100,000).

13. Foreign Currency Balances

The Canadian dollar equivalent of foreign currency balances (principally United States currency) is as follows:

	December 31	
	1980	1979
	(in thousands of dollars)	
Assets		
Loans receivable	1,401,071	817,241
Cash and short term investments	351,847	304,138
Accrued interest and other	47,605	34,327
Forward exchange contracts	133,948	
	1,934,471	1,155,706
Liabilities		
Short term loans payable	322,009	189,189
Long term loans payable	1,525,367	947,184
Accrued interest and other	73,688	50,205
	1,921,064	1,186,578
Rate of exchange U.S. \$1.00	1.1938	1.1666

Gains and losses resulting from the translation of foreign currency balances and transactions are reported with investment interest earned.

South America	377,329	308,472
Total	<u>3,172,304</u>	<u>2,586,517</u>

Revenue from loan interest and fees earned outside Canada for the year ended December 31, 1980 is \$252,199,000 (1979—\$202,394,000).

16. Comparative Figures

To conform to the financial statement presentation of 1980, changes have been made to the classification and description of certain items and comparative figures.

EXPORT DEVELOPMENT CORPORATION—Continued

AUDITOR GENERAL OF CANADA

THE HONOURABLE HERBERT GRAY, P.C., M.P.,
MINISTER OF INDUSTRY, TRADE AND COMMERCE,
OTTAWA, ONTARIO.

I have examined the balance sheet of Accounts Administered for Canada by Export Development Corporation as at December 31, 1980 and the statement of changes in Accounts Administered for Canada for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Accounts Administered for Canada as at December 31, 1980 and the changes therein for the year then ended in accordance with the accounting policies set out in Note 1 to the financial statements applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept for the Accounts Administered for Canada by Export Development Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers set out in the Export Development Act.

MICHAEL H. RAYNER
Acting Auditor General of Canada

Ottawa, Ontario

NOTES TO THE ACCOUNTS ADMINISTERED FOR CANADA
DECEMBER 31, 1980

1. General

The Corporation administers certain loan and insurance programs for Canada. The funds required for these operations are provided by Canada, and the Corporation has no direct financial interest in these programs. As cash is received by the Corporation, it is remitted to the Consolidated Revenue Fund of Canada, net of amounts withheld to cover administrative expenses which are charged on a cost recovery basis.

The significant accounting policies applied to these accounts differ from those applied to the Corporate Account in that no provision is made for insurance claims or loan losses.

Assets and liabilities are translated into Canadian dollars at exchange rates prevailing at year end. Income and expenses are translated at average monthly exchange rates in effect during the year.

Administration fees are taken into income as earned over the disbursement and repayment periods of a loan, and standby fees are taken into income over the disbursement period.

Foreign investment insurance premiums are taken into income evenly over the terms of coverage, excepting that the premium in the first year is taken into income in its entirety when received.

2. Loans Receivable Funded by Canada

Loans receivable from both sovereign and commercial borrowers, net of participation by other lenders, mature as follows:

	December 31	
	1980	1979
	(in thousands of dollars)	
Overdue	433	
1980		11,038
1981	33,537	25,455
1982	41,037	38,365
1983	58,655	52,179
1984	59,510	51,342
1985	57,008	43,094
1986 and thereafter	368,375	255,848
Total	618,555	477,321
Commercial loans included above	136,542	73,576
Canadian dollar equivalent of foreign currency loans included above	178,064	97,521
Overdue interest	113	81

During the year ended December 31, 1980, \$720,000 was rescheduled and in 1979, no payments were rescheduled. Since inception of the loans program, \$2,718,000 has been rescheduled, none of which was due at December 31, 1980.

3. Insurance in Force and Contingent Liability

Under the Export Development Act, the liability under contracts of insurance, related guarantees, guarantees pertaining to the lending program and contracts of foreign investment insurance is limited to a maximum of \$3,500,000,000 at any time. At December 31, 1980 the liability was \$383,735,000 (1979—\$534,329,000).

Canada Account has the following insurance in force:

	December 31	
	1980	1979
	(in thousands of dollars)	
Insurance and related guarantees	187,877	328,113
Foreign investment insurance	139,666	154,322
Insurance pertaining to undisbursed funds on signed loan agreements	13,547	10,221
	341,090	492,656

Canada Account is contingently liable with respect to financial guarantees pertaining to loans made by other lenders in the amount of \$41,332,000 at December 31, 1980 (1979—\$20,867,000).

In addition, under the Export Development Act, the interest of Canada in loans receivable may be sold to third parties. At December 31, 1980, \$18,318,000 (1979—\$17,597,000) of loan participations sold in this manner, with recourse, remained outstanding.

4. Export Loans and Commitments

Under the Export Development Act, the Canada Account may have outstanding loans and undisbursed commitments to foreign borrowers up to a maximum of \$2,500,000,000 at any time. The position is as follows:

EXPORT DEVELOPMENT CORPORATION—*Concluded*NOTES TO THE ACCOUNTS ADMINISTERED FOR CANADA
DECEMBER 31, 1980—*Concluded*

	December 31	
	1980	1979
	(in thousands of dollars)

North America	45,277	26,746
South America	147,528	126,961
Total	618,555	477,321

Canada Account revenue from loan interest and fees earned outside Canada for the year ended December 31, 1980 is \$49,525,000 (1979—\$30,681,000).

FARM CREDIT CORPORATION
(Established by the Farm Credit Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE EUGENE FRANCIS WHELAN, P.C., M.P.,
MINISTER OF AGRICULTURE,
OTTAWA, ONTARIO.

I have examined the balance sheet of Farm Credit Corporation as at March 31, 1981 and the statements of operations and retained earnings, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of the financial statements.

FARM CREDIT CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Corporate objectives

The Farm Credit Corporation was established on October 5, 1959, by the Farm Credit Act as the successor to the Canadian Farm Loan Board. The Corporation's prime objective is to assist Canadian farmers to establish and develop viable farm enterprises through the use of long-term credit as provided for by the Farm Credit Act.

The Corporation also administers the lending program authorized under the Farm Syndicates Credit Act which was originally introduced as the Farm Machinery Syndicates Credit Act on December 11, 1964. It provides for loans to groups or syndicates of farmers organized to share in the purchase and use of farm machinery, buildings and installed equipment.

2. Significant accounting policies

Allowance for doubtful accounts

The allowance for doubtful accounts relates to loans to farmers, loans to farm syndicates and agreements for sale. This allowance represents the Corporation's estimate of future probable losses on the accounts outstanding at March 31, 1981, and includes a component which, on the basis of historical loss experience, covers future losses not yet identified and also a component to provide for specifically identified probable losses.

Actual losses on loans, recoveries on loans and the changes in the allowance are recorded in the statement of operations and retained earnings as a provision for doubtful accounts.

Revenue recognition

Interest on loans to farmers, loans to farm syndicates and agreements for sale is recorded as income on an accrual basis.

Appraisal fees relating to loan applications are recorded as income when received. Appraisal fees withheld from loan funds are recorded as income at the time the loans are disbursed.

Partial discharge fees are recorded as income when the discharge occurs.

Service charges earned on loans to farm syndicates are recorded as income when loans are disbursed.

Fixed assets and depreciation

Fixed assets are recorded at cost. Leasehold improvements are amortized using the straight-line method over the term of the lease and one renewal period. Other fixed assets are depreciated using the diminishing balance method at rates of 20% for furniture and equipment and 30% for automobiles.

Income taxes

The Corporation follows the tax allocation method of accounting for income taxes. Deferred income taxes result from timing differences between the provision for doubtful accounts and depreciation charged to operations and the amounts claimed for tax purposes with respect to mortgage reserves deducted under Section 33 of the Income Tax Act and capital cost allowances.

3. Long-term receivables

Outstanding amounts are receivable over periods of up to thirty years at interest rates in effect at the time of approval.

	Period not exceeding	Annual interest rate %	Outstanding Amount (in thousands of dollars)	
			1981	1980
Loans to farmers	30 years	5-13	3,452,254	3,165,648
Loans to farm syndicates	15 years	6 ¼-13 ¼	14,668	12,578
Agreements for sale ..	30 years	5-13	15,084	13,780
			<u>3,482,006</u>	<u>3,192,006</u>

Agreements for sale of \$15,084,000 (\$13,780,000—1980) consists of \$7,278,000 (\$5,311,000—1980) pertaining to agreements for sale and mortgages arising from sales of real estate under the Farm Credit Act and \$7,806,000 (\$8,469,000—1980) pertaining to agreements for sale under the Small Farm Development Program.

A summary of the long-term receivables in the aggregate, by annual interest rate and fiscal year of maturity, is as follows:

Annual interest rate %	Maturities by fiscal year (in thousands of dollars)						1987 through 2011
	Total	1982	1983	1984	1985	1986

FARM CREDIT CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981—Continued

At March 31, 1981, accrued interest of \$155,541,000 (\$134,246,000—1980) and arrears of \$31,543,000 (\$25,126,000—1980) are included and are shown as maturing in the year ending March 31, 1982.

Prepayments of principal from borrowers of \$52,515,000 (\$94,193,000—1980) were received during the year and applied as a reduction of principal.

4. Real estate

This represents farm property held by the Corporation for resale and is carried at the lower of cost and net realizable value. It consists of property acquired in the process of administering the outstanding loans to farmers and to farm syndicates and must be disposed of by the Corporation within five years of acquisition or such further period as the Governor in Council may prescribe.

5. Fixed assets

	1981		1980	
	Cost	Accumulated Depreciation	Net	Net
	\$	\$	\$	\$
Furniture and equipment ..	1,340,042	900,063	439,979	388,495
Automobiles	6,213	5,249	964	1,377
Leasehold improvements ..	656,112	80,519	575,593	49,988
	<u>2,002,367</u>	<u>985,831</u>	<u>1,016,536</u>	<u>439,860</u>

6. Due to Canada

Pursuant to an agreement with the Department of Agriculture, the Corporation's continuing administrative costs relating to the Land Transfer Plan, a component of the Department's Small Farm Development Program which terminated on March 31, 1979, are reimbursed by the Department and any excess of income over expense is paid to Canada.

The amount due to Canada of \$148,131 (\$130,830—1980) in respect of operations during the year under this program is determined as follows:

	1981	1980
	\$	\$
Funds received from Agriculture Vote 25 (Vote 15—1980)	40,000	40,000
Less: administrative expenses	32,166	25,586
	<u>7,834</u>	<u>14,414</u>
Interest earned and other income	786,596	786,865
Less: interest on loans from Canada	646,299	670,449
Excess of income over interest expense	<u>140,297</u>	<u>116,416</u>
	<u>148,131</u>	<u>130,830</u>

7. Canada loans

The Corporation has borrowed funds, secured by note, from the Minister of Finance for the purpose of making farm loans, pursuant to section 13 of the Farm Credit Act and section 8 of the Farm Syndicates Credit Act. Loans are also outstanding that were borrowed for the purposes of the Small Farm Development Program pursuant to the Farm Credit Act, as authorized by Order in Council P.C. 1972-1490 dated June 29, 1972. These borrowings are repayable in accordance with the terms and interest rates prescribed at the time of borrowing.

Outstanding amounts as at March 31, 1981, are as follows:

	Period not exceeding	Annual interest rate %	Outstanding amount (in thousands of dollars)	
			1981	1980
Farm Credit Act	20 years	3½-12	3,226,192	2,967,860
Farm Syndicates Credit Act	5 years	5¼-12¼	13,985	12,035
Small Farm Development Program	20 years	6-9	9,058	9,424
Accrued interest			83,231	71,451
			<u>3,332,466</u>	<u>3,060,770</u>

A summary of the Canada loans in the aggregate, by interest rate and fiscal year of maturity, is as follows:

Annual interest rate %	Maturities by fiscal year (in thousands of dollars)						1987 through 2002
	Total	1982	1983	1984	1985	1986	
3-4%	8,645	2,812	2,355	2,134	1,344		
5-5%	183,209	37,707	32,346	31,852	33,597	35,439	12,268

11-11%	171,645	5,808	2,725	3,016	3,342	3,708	153,046
12-12¼	251,653	22,000	3,953	4,350	4,797	5,298	211,255
	<u>3,332,466</u>	<u>237,715</u>	<u>157,172</u>	<u>156,954</u>	<u>166,434</u>	<u>177,021</u>	<u>2,437,170</u>

FARM CREDIT CORPORATION—Concluded

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1981—Concluded

The amounts outstanding as at March 31, 1981, include accrued interest totalling \$83,231,000 (\$71,451,000—1980) and are shown as maturing in the year ending March 31, 1982.

8. Contributed capital

The contributed capital of the Corporation represents the amount received from Canada under section 12 of the Farm Credit Act. The present statutory limit on this amount is \$150 million (\$150 million—1980). In the current year, contributed capital of \$10.4 million (\$11.8 million—1980) was received from Canada.

9. Segmented information

Operations and retained earnings under the Farm Credit Act and the Farm Syndicates Credit Act are broken down as follows:

	Combined		Farm Credit Act		Farm Syndicates Credit Act	
	1981	1980	1981	1980	1981	1980
	\$	\$	\$	\$	\$	\$
Income						
Interest earned on loans	283,833,288	242,181,565	282,440,559	241,166,734	1,392,729	1,014,831
Deduct: interest on loans from Canada	254,580,291	218,075,381	253,288,676	217,148,525	1,291,615	926,856
Interest margin	29,252,997	24,106,184	29,151,883	24,018,209	101,114	87,975
Fees earned	963,925	1,129,035	963,925	1,129,035		
Other interest income and service charges	2,644,643	1,948,147	2,570,078	1,903,405	74,565	44,742
Gross income	32,861,565	27,183,366	32,685,886	27,050,649	175,679	132,717
Expense	25,173,645	21,152,834	25,096,025	21,092,124	77,620	60,710
Net income before income taxes	7,687,920	6,030,532	7,589,861	5,958,525	98,059	72,007
Provision for deferred income taxes	3,536,443	2,774,045	3,536,443	2,774,045		
Net income	4,151,477	3,256,487	4,053,418	3,184,480	98,059	72,007
Retained earnings, beginning of year	4,851,344	1,594,857	4,569,211	1,384,731	282,133	210,126
Retained earnings, end of year	9,002,821	4,851,344	8,622,629	4,569,211	380,192	282,133

10. Interest rates

Unless otherwise established by Order in Council, loans to farmers bear an interest rate from the date of approval equal to the base rate defined in section 3(2) of the Farm Credit Act Interest Rates Regulations plus one per cent. The base rate is determined using the average yield on Government of Canada bonds payable in Canadian currency and due to mature in five to ten years. The lending rate is established for six-month periods commencing April 1st and October 1st each year and applies to all loans approved in the related six-month period.

However, if a new loan under the Farm Credit Act is made, a portion of which is to be used to repay an existing Farm Credit Act loan, the current lending rate and the rate on the existing loan are blended and a composite rate charged. Except for the provision for blended rates, rates on loans to farm syndicates are determined in the same manner using the yield on Government of Canada bonds maturing in one to five years plus one per cent.

Interest rates on borrowings from Canada by the Corporation under section 13 of the Farm Credit Act are established for six-month periods commencing April 1st and October 1st each year in accordance with the terms and conditions approved by the Governor in Council. Similarly, rates on borrowings under section 8 of the Farm Syndicates Credit Act are set on these dates for the same six-month periods.

11. Funding commitments by Canada

In addition to the repayments of principal received from borrowers, the Corporation also receives and is dependent upon Canada for capital contributions and loans for the funding of its

lending program. Accordingly, by Order in Council, the Minister of Finance is committed to provide a net increase in capital and loans of \$302,800,000 for the year ending March 31, 1982.

12. Commitments to borrowers

Loans to borrowers approved but not disbursed as at March 31, 1981, amounted to \$67.8 million (\$69.5 million—1980) most of which were approved at 12 $\frac{3}{4}$ % (12%—1980). It is expected that the majority of these loans will be disbursed within the six-month period ending September 30, 1981, from funds to be borrowed by the Corporation from Canada at 13% (12%—1980).

13. Leases

The future minimum rental payments required under operating leases having initial non-cancellable lease terms in excess of one year are summarized as follows:

	\$
Year ending March 31,	
1982	1,472,658
1983	1,164,172
1984	868,558
1985	782,175
1986	628,755
Thereafter	4,882,765
Total minimum lease payments	9,799,083

In addition to these rental payments the leases generally provide for the payment by the Corporation of real estate taxes and operating expenses in excess of those amounts established at the commencement of the lease term.

FEDERAL BUSINESS DEVELOPMENT BANK

AUDITOR'S REPORT

THE HONOURABLE MINISTER OF INDUSTRY,
TRADE AND COMMERCE,
OTTAWA, ONTARIO.

Sir:

We have examined the statement of assets and liabilities of the Federal Business Development Bank as at March 31, 1981 and the statements of operations, retained earnings (deficit), changes in cash position and accumulated provision for possible future losses on loans and investments for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present a true and fair view of the financial position of the Bank as at March 31, 1981 and the results of its operations, the changes in its cash position and the changes in the accumulated provision for possible future losses on loans and investments for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the Bank, the financial statements are in agreement therewith and the transactions that have come under our notice have been within the statutory powers of the Bank.

Yours very truly,

RAYMOND J. MORCEL, C.A.
of Price Waterhouse & Co.

CLAUDE D. HENRY, C.A.
of Maheu, Noiseux, Roy & Associés

Montreal,
June 19, 1981

FEDERAL BUSINESS DEVELOPMENT BANK—Continued

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1981

1. Significant accounting policies

Loans and investments—

Loans and investments are recorded as assets when disbursed. Each loan remains as an asset until it is repaid or until realization of its security. Each investment remains as an asset until it is sold or written off. Unrealized gains on investments are not recognized in the accounts. Losses on loans and investments are provided for as described in the following paragraph.

Provision for losses on loans and for write-downs of investments—

A charge against income is made to adjust the accumulated provision for possible future losses to the level which provides for specifically identified probable losses on loans, as well as for unidentified future losses and to reflect write-downs of investments. The general portion of the accumulated provision is based on historical experience and is intended to cover future losses on loans and investments which have not yet been specifically identified. Write-downs of investments are recorded whenever a significant negative change occurs, or appears likely to occur in the investee's business development plan.

Revenue recognition—

Interest on loans is recorded as income on an accrual basis except that interest is not accrued on loans where management believes that the interest will not be recovered. Dividends, interest and capital gains on investments are recorded as income when received.

Fixed assets and depreciation—

Fixed assets are recorded at historical cost. Leasehold improvements are depreciated under the straight-line method over five years, which period corresponds to the average term of the individual leases. Computer and word processing equipment is depreciated under the straight-line method over a period of three years. All other fixed assets are depreciated using the diminishing balance method at rates based on the estimated useful lives of such assets.

With respect to the Management Services function of the Bank, all capital expenditures are recovered from the Department of Industry, Trade and Commerce and hence are not capitalized.

Debt issue expenses—

Discounts, premiums and expenses related to the issue of long term debt are amortized on a straight-line basis over the term of the obligations to which they pertain.

Translation of foreign currencies—

Notes payable in foreign currencies are hedged by forward exchange contracts and are translated into Canadian dollars at the rates provided therein. The difference between the ultimate amount payable at the contracted rate and the cash proceeds of the issue is considered to be a financing cost and is therefore amortized by a charge to interest expense over the life of the obligation on a straight-line basis. The unamortized portion of these costs is included with unamortized debt issue expenses in the statement of assets and liabilities. The related interest payable on these note issues is also hedged by forward exchange contracts and is translated into Canadian dollars at such contract rates.

2. Loan and investment commitments:

The undisbursed amount at March 31, 1981 on loans and investments authorized aggregated approximately \$104,000,000 (1980—\$179,000,000).

3. Investments:

Investments, at cost less write-downs, as at March 31, 1981 were as follows:

	1981	1980
	\$	\$
Shares	11,263,689	5,986,044
Shareholder advances	16,213,333	13,326,035
Participating debentures	5,582,380	5,630,885
Convertible debentures	1,519,680	3,239,275
	34,579,082	28,182,239
Less: amount of write-downs	8,882,000	5,300,000
	25,697,082	22,882,239

4. Debentures outstanding:

All outstanding debentures issued to and held by the Bank of Canada at March 31, 1981 and bear interest as follows:

Rate %	(in thousands of dollars)
7½	44,200
8	39,800
9½	47,600
	131,600

FEDERAL BUSINESS DEVELOPMENT BANK—Concluded

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1981—Concluded

5. Notes held by Canada:

Maturities by fiscal year of notes held by Canada at March 31, 1981 were as follows:

Rate %	(in thousands of dollars)						Total
	1982	1983	1984	1985	1986	1987-88	
7-7½	21,000						21,000
8-8½	47,000	53,000	54,000	36,000	34,000		224,000
9-9½	60,000	75,000	75,000	78,000	43,000	43,000	374,000
10-10½	43,000	43,000	43,000	43,000	42,000	101,000	315,000
	171,000	171,000	172,000	157,000	119,000	144,000	934,000

6. Notes payable, other than to Canada:

The following notes payable, other than to Canada, were outstanding at March 31, 1981:

Maturity	Nominal Rate* %	%	(in thousands of dollars)	
			1981	1980
1984 August	10.1		50,000	50,000
1985 March	13½		65,000	65,000
May	12½	(US\$ 75,000)	91,725	
June	11½		60,000	60,000
June	11½		50,000	
November	12½	(US\$ 50,000)	60,145	
1987 April	10½		25,000	25,000
1988 January	13%	(1984 January 15)**	65,000	
April	14½	(1983 April 25)**	75,000	
1990 July	11½		60,000	
1994 November	11	***	30,000	30,000
			631,870	230,000

* See note 1 for the accounting treatment of debt issue expenses.

** The holder may elect that the note be repaid on the indicated date.

*** Repayable at the rate of \$3 million on November 1 of each year from 1985-1994.

Maturities by fiscal year of the above outstanding notes payable were as follows:

	(in thousands of dollars)
1984	140,000
1985	115,000
1986	264,870
1987-1995	112,000
	631,870

7. Capital paid in by Canada:

The changes during the year in the capital paid in by Canada were as follows:

	(in thousands of dollars)	
	1981	1980
Balance, beginning of year	184,000	136,000
Add:		
Cash paid in	31,000	15,000
Conversions of note held by Canada	7,000	33,000
	38,000	48,000
Balance, end of year	222,000	184,000

8. Contingent liabilities:

The Bank is contingently liable as guarantor of loans aggregating \$10,340,600.

9. Pension fund:

The Bank has a pension plan for its employees which is contributory and trusteed. Related costs, net of employees' contributions, are charged to earnings as paid. Based on an independent actuarial valuation as at December 31, 1980, the plan was fully funded as at that date.

10. Statutory limitations on operations:

Prior to June 27, 1980, the Minister of Finance could approve capital payments to the Bank provided that capital (including retained earnings) was less than \$200 million and direct and contingent liabilities were limited to a maximum of ten times such capital. In accordance with its revised Act of Incorporation, effective June 27, 1980, the Minister of Finance of Canada may, with the approval of the Governor in Council, authorize capital payments to the Bank provided that capital (including retained earnings) is less than \$475 million. The total of direct and contingent liabilities of the Bank is limited to a maximum of 12 times such capital and retained earnings (or up to 15 times with the approval of the Governor in Council) and may never exceed \$3.2 billion. The ratio of the direct and contingent liabilities of the Bank to its capital, as defined, was 9.6:1 at March 31, 1981.

11. Comparative financial data:

Certain amounts pertaining to the fiscal year ended March 31, 1980 have been reclassified to comply with the presentation adopted for the fiscal year ended March 31, 1981.

FRESHWATER FISH MARKETING CORPORATION
(Established by the Freshwater Fish Marketing Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE ROMÉO LEBLANC, P.C., M.P.,
MINISTER OF FISHERIES AND OCEANS,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Freshwater Fish Marketing Corporation as at April 30, 1980 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at April 30, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

Ottawa, Ontario
July 23, 1980

FRESHWATER FISH MARKETING CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS APRIL 30, 1980

1. Objective and operations of the Corporation

The Freshwater Fish Marketing Corporation was established by the Freshwater Fish Marketing Act in February 1969 as a company without share capital for the purpose of marketing and trading in fish, fish products and fish by-products in and out of Canada. The Corporation is an agency Crown Corporation of Canada and is required to conduct its operations on a self-sustaining basis. Total loans outstanding from Canada and from banks may not exceed \$18.5 million.

The Corporation has the exclusive right to market the products of the commercial fishery in the provinces participating in the program in inter-provincial and export trade. Participation of the provinces of Manitoba, Saskatchewan, Alberta, the Northwest Territories and Ontario was established by agreement with the Government of Canada.

2. Significant accounting policies

Inventories have been valued on the following basis:

Finished fish products—at lower of cost and net realizable value.

Packaging material and parts—at lower of cost and replacement cost.

Depreciation and amortization

The cost of fixed assets is written off by depreciation charges over the estimated useful lives of the fixed assets on the following basis:

Buildings	—Lake stations	10%	Declining balance
	—Plant	40 years	Straight-line
Equipment	—Plant	20%	Declining balance
	—Mobile	30%	Declining balance
Packer vessel		15 years	Straight-line

Leasehold improvements are amortized on a straight-line basis over the term of the lease. Lease terms vary in length from 2 years to 20 years.

Payments to Fishermen

The Corporation purchases fish at initial prices established by the Board of Directors and the cost of such purchases is included in the Statement of Operations as part of Cost of Sales. A guide used in the determination of the initial prices is 80% of the projected total payments to fishermen (initial plus final) based upon forecasts prepared by the Corporation. Final payments, if any, to fishermen are determined by the Board after the end of the year, based on the results of operations for the year. The final payments are made in respect of products purchased during the year and therefore are charged to expense in the current year's Statement of Operations.

Foreign Currency Translation

Accounts receivable and payable in foreign currency are translated to Canadian dollars at the year-end exchange rate. Transactions in foreign currency during the year are translated at the rate in effect at the time of the transaction.

3. Interest expense

The net gain on foreign exchange for the year amounted to \$91,564 (\$30,635—1979). Interest expense of \$647,572 (\$872,725—1979) has been reduced by this amount.

4. Mortgage loan receivable

Accounts receivable—other—includes \$136,000 (\$123,000—1979) which is a loan secured by a chattel mortgage. The loan, which was to be repaid by May 1, 1984 in monthly instalments, is in default, and the Corporation is proceeding with litigation.

5. Government assistance for fish packing and processing stations

The Corporation has received agreement from federal and provincial governments for contributions to offset costs incurred by the Corporation in operating certain of its fish packing and processing plants, as follows:

	1980	1979
	\$	\$
Island Lake, Manitoba	227,000	199,000
Gunnar, Saskatchewan	155,000	121,000
Hay River, N.W.T.	23,000	100,000
Fort Chipewayan, Alberta		32,500
	<u>405,000</u>	<u>452,500</u>

During the year, a total of \$317,000 (\$469,000—1979) in government assistance has been offset against costs included in the Cost of Sales section of the Statement of Operations.

6. Fixed assets

At April 30, 1980 the fixed assets and related accumulated depreciation and amortization were as follows:

	1980		1979	
	Cost	Accumulated depreciation and amortization	Net book value	Net book value
	\$	\$	\$	\$
Land	259,266		259,266	259,266
Buildings	4,306,204	955,809	3,350,395	3,433,731
Equipment	3,821,771	2,332,970	1,488,801	1,173,464
Packer vessel	266,495	144,734	121,761	119,573
Construction in progress....	75,123		75,123	87,369
Leasehold improvements ..	425,364	270,688	154,676	198,801
	<u>9,154,223</u>	<u>3,704,201</u>	<u>5,450,022</u>	<u>5,272,204</u>

Leasehold improvements

The Corporation has spent \$1,208,319 on land and a processing plant constructed for the Department of Indian Affairs and Northern Development at Hay River, N.W.T. Under a twenty-year agreement dated July 1, 1972 the Department has leased this property back to the Corporation for one dollar (\$1.00) per year. The Corporation has received \$1,000,000 from the Department and the balance of \$208,319 is being amortized as a leasehold improvement over the term of the lease.

Depreciation and amortization for the year

	1980	1979
	\$	\$
Depreciation	501,496	459,266
Amortization	45,771	44,531
	<u>547,267</u>	<u>503,797</u>

FRESHWATER FISH MARKETING CORPORATION—Concluded

NOTES TO FINANCIAL STATEMENTS

APRIL 30, 1980—*Concluded*

7. Loans from Canada

These demand loans, secured by promissory notes, are made under Section 17 of the Act. At April 30, 1980 the outstanding loans included the following:

	Amount	Interest Rate
	\$	
Working capital loans.....	1,625,000	11½%
	<u>600,000</u>	14¼%
	<u>2,225,000</u>	
Fixed Asset Loans.....	1,871,327	4½%
	158,000	7½%
	801,044	8¼%
	623,000	9¼%
	300,000	10¼%
	<u>1,191,122</u>	10½%
	<u>4,854,493</u>	

In general, fixed asset loans are repaid in amounts equal to the sum of the annual provision for depreciation on all fixed assets and proceeds derived from fixed asset transactions. The amount due on June 1st, 1980 is approximately \$547,000. Notwithstanding the above, these loans are due on a demand basis and therefore are shown on the Balance Sheet under current liabilities.

8. Retained Earnings

Contributions of \$3,000,000 towards the operating losses incurred by the Corporation in 1971/72 and 1972/73 have been requested from the Federal and participating Provincial and Territorial Governments. All of the contributions have been received: \$1,500,000 from Canada; \$150,000 from Alberta; \$150,000 from the Northwest Territories; \$150,000 from Ontario; \$750,000 from Manitoba; and, \$300,000 from Saskatchewan. These amounts have been credited to deficit in the year in which they were received.

9. Remuneration to foreign agents

During the year, the Corporation paid an aggregate amount of \$382,677 to the following foreign sales agents: Frohman International Inc.; Juhl Brokerage Incorporated; W. Bush; International Pacific Seafoods; B.R.C. Enterprises; Maripac International; Sahakian & Salm—U.S.; Le Grande, Malo et Cie—France; LeJos Oy—Finland; Malm and Stahl—Sweden.

10. Corporate income taxes

The Corporation has the following amounts available to reduce future taxable income:

Undepreciated capital cost in excess of net book value of fixed assets \$2,944,000.

A loss carry-forward of \$766,000 available until April 1983.

GREAT LAKES PILOTAGE AUTHORITY, LTD.

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of Great Lakes Pilotage Authority, Ltd. as at December 31, 1980 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Nature of activities

The Great Lakes Pilotage Authority, Ltd., which was established on February 1, 1972 pursuant to the Pilotage Act and incorporated as a subsidiary of the St. Lawrence Seaway Authority on May 17, 1972, filed for continuance under the Canada Business Corporations Act in October 1980 and on November 28, 1980 received its Certificate of Continuance. The objects of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act further provides that the tariffs of pilotage charges will be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

2. Significant accounting policies

(a) Parliamentary appropriations

When the revenue from pilotage charges is not sufficient to permit the Authority to operate on a self-sustaining financial basis, operating deficits and capital expenditures are recovered from parliamentary appropriations. For purposes of these parliamentary appropriations, operating deficits do not include depreciation or any increase in accrued employee termination benefits.

Parliamentary appropriations with respect to operating deficits are reflected in the statement of deficit, while parliamentary appropriations to finance capital expenditures are shown as contributed capital. Appropriations received in excess of the amounts the Authority requires are reflected as due to Canada on the balance sheet.

The Authority did not require parliamentary appropriations during the year.

(b) Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful life of the assets as follows:

Buildings	20 years
Furniture and equipment	10 years

(c) Pension Plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid generally over the remaining service lives of the pilots.

(d) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. This liability is recorded in the accounts as the benefits accrue to the employees.

3. Income tax

As a result of an amendment to sub-section 27(2) of the Income Tax Act, Revenue Canada have taken the position that the Authority may now be liable for taxes.

The Authority is of the opinion that this amendment does not change its tax exempt status and has placed the matter in the hands of Legal Counsel.

GREAT LAKES PILOTAGE AUTHORITY, LTD.—*Concluded***NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980—*Concluded*****4. Pension plan**

Under provisions of the Pilotage Act, pilots who choose to become employees of the Authority are entitled to count service prior to becoming an employee as pensionable under the Public Service Superannuation Act. For pilots who have elected to purchase pension benefits with respect to past service, the Authority is required to match the employee contribution. The estimated unfunded past service pension contribution with respect to these employees was approximately \$709,000 as of December 31, 1980 (1979—\$712,000) and will be funded over the remaining service lives of the pilots, or the terms of purchase whichever is the lesser.

The total pension expense was \$545,372 in 1980 and \$457,233 in 1979 including \$94,045 and \$84,058 for past service contributions respectively.

5. Remuneration of directors and officers

The remuneration of directors as directors amounted to \$3,000 (1979—\$3,200) and the remuneration of officers as officers amounted to \$134,000 (1979—\$96,000). The Authority has 7 directors and 4 officers. Two officers are also directors.

THE JACQUES CARTIER AND CHAMPLAIN BRIDGES INCORPORATED
(Incorporated under the Canada Business Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of The Jacques Cartier and Champlain Bridges Incorporated as at March 31, 1981 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1981

1. Authority and nature of activities

The Jacques Cartier and Champlain Bridges Incorporated was incorporated under the Canada Business Corporations Act on November 3, 1978 and is a wholly owned subsidiary of the St. Lawrence Seaway Authority. Effective December 1, 1978 the Corporation has the responsibility for the operation and maintenance of the Jacques Cartier and Champlain Bridges and the federally-owned section of the Bonaventure Autoroute.

2. Significant accounting policies

(a) Parliamentary appropriation

Operating deficits for purposes of parliamentary appropriation do not include depreciation, or interest on debt, or any provision for accrued employee termination benefits. Parliamentary appropriation with respect to the operating deficits is reflected in the statement of deficit, while parliamentary appropriation to finance capital expenditures is applied against capital deficiency. Parliamentary appropriation is recorded in the accounts as advances are received. Advances received in excess of the amounts the Corporation requires are reflected as "Due to Canada" on the balance sheet, and it is the policy of the Corporation to reimburse these amounts in the following year.

(b) Operating expenses

The expenditures of the federally-owned section of the Bonaventure Autoroute are included with those of the Champlain Bridge on the statement of operations.

(c) Fixed assets and depreciation

The value attributed to fixed assets, effective December 1, 1978, is the cost to the original owner together with the related accumulated depreciation. Assets purchased subsequent to that date are recorded at cost. Depreciation has been calculated on the straight-line method at the following rates:

—Champlain Bridge	2.5%
—Jacques Cartier Bridge	4.8%
—Vehicles and equipment	10% and 20.0%

(d) Deferred revenues

Deferred revenues represent unredeemed toll tokens, tickets and other income, such as property rentals.

(e) Income taxes

The Corporation, as a wholly owned subsidiary of a schedule "D" corporation, is subject to the provisions of the Income Tax Act. The Corporation has incurred substantial losses in prior years, most of which can be carried forward and applied against taxable income in future years.

(f) Employee termination benefits

Employees of the Corporation are entitled to benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the employees become entitled to the benefits.

THE JACQUES CARTIER AND CHAMPLAIN BRIDGES INCORPORATED—*Concluded*

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1981—*Concluded*

(g) Pension plan

All employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the plan are required from both the employee and the Corporation. These contributions represent the total liability of the Corporation and are recognized in the accounts during the year in which they are earned by the employees.

3. Loans, advance and interest in arrears on loans

- (a) The loans and the advance from Canada consist of certificates of indebtedness in the amount of \$59,752,867 at interest rates varying from 2¾% to 6¾% and a non-interest bearing advance in the amount of \$6,489,605. There is no specific payment date. The Corporation intends to request that Parliament suspend the payment of these loans, the advance and the related accrued interest.

A non-interest bearing advance from Canada of \$6,489,605 appears in the accounts of Canada as a non-active loan and was charged to the accumulated deficit of Canada as it was incurred. However, Parliament has not cancelled this loan nor has the Corporation received parliamentary authority for the write-off of this debt.

- (b) Interest has not been accrued since 1962 on a 2¾% certificate of indebtedness of \$7,576,000 issued to the Jacques Cartier Bridge. The accrual of interest was discontinued to coincide with the removal of the tolls on the bridge, since all subsequent operating deficits were subject to recovery from parliamentary appropriations. The policy in respect of this issue is currently under review by management.
- (c) Interest is accrued, but not paid, on all other outstanding certificates of indebtedness. On those certificates for which the stated time period for the interest rate specified has expired, the Corporation continues to accrue interest at the rate specified on the certificates. The Corporation does not accrue interest on interest in arrears.
- (d) Since the Corporation intends to request that Parliament suspend the payment of unpaid interest, none of this interest in arrears, aggregating \$44,513,580 as of March 31, 1981, has been classified as a current liability.

4. Capital deficiency

Pursuant to Governor in Council approval (PC 1978-3139), dated October 12, 1978, the assets and liabilities of the Jacques Cartier and Champlain Bridges and the federally-owned section of the Bonaventure Autoroute were transferred, effective December 1, 1978, from the National Harbours Board, at no consideration, to the Corporation. The capital deficiency transferred to the Corporation on the effective date totalled \$72,448,371. This amount has been reduced during the year by \$255,976 (\$127,800 in 1980) which represents the parliamentary appropriation for the purchase of fixed assets.

5. Commitments

The Corporation leases certain equipment and office space under agreements that expire in 1984. As at March 31, 1981, the aggregate cost of leases amounted to \$372,000 and are detailed as follows:

	\$
1981-82	218,000
1982-83	70,000
1983-84	84,000
	<u>372,000</u>

Other contractual commitments not expended at March 31, 1981 are approximately \$2,267,000.

6. Contingent liability

Claims and lawsuits have been brought against the Corporation. These claims and lawsuits have arisen in the normal course of business; their results are uncertain, and no important loss is anticipated in the settlement of these litigations.

7. Related party transactions

The Corporation has completed, during the year and in the normal course of business, transactions with a Crown corporation involving operating expenditures of \$1,481,331 (1980—\$1,336,577) and transactions with the parent company, the St. Lawrence Seaway Authority and involving administrative, operating and maintenance expenditures of \$731,651 (1980—\$999,565). Of this latter amount, \$331,651 (1980—\$749,565) has been recovered from the parent company.

The Corporation is dependent on the Government of Canada for its long-term loans and for the financing of its loss from operations and capital expenditure.

8. Comparative figures

The 1980 comparative figures have been reclassified to conform with the current year's presentation.

9. Supplementary information

- (i) The Corporation has received the mandate from the parent company, the St. Lawrence Seaway Authority, for the maintenance of a federally-owned portion of the Mercier bridge. The expenses incurred for the year aggregated \$331,651 (1980—\$749,565) and have been recovered from the parent company. The amount recovered and expenditures are excluded from the statement of operations.
- (ii) The loans, the advance and interest in arrears on loans aggregate \$110,756,052 at March 31, 1981. At present, it is doubtful that the Corporation will be able to discharge its obligations without future parliamentary appropriations.

LAURENTIAN PILOTAGE AUTHORITY
(Established under the Pilotage Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of Laurentian Pilotage Authority as at December 31, 1980 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Nature of activities

The Laurentian Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. The objectives of the Authority are to establish, operate, maintain and administer, in the interest of safety, an efficient pilotage service within certain designated Canadian waters in and around the Province of Quebec. The Act provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

2. Significant accounting policies

(a) Fixed assets and depreciation

Fixed assets purchased by the Authority are recorded at cost and those transferred from Canada in 1972 are recorded at the assigned value at that date. Depreciation and amortization are calculated on a straight-line basis and based on the following estimated useful lives:

Buildings	20 years
Pilot boats	10 and 20 years
Boarding facilities	10 and 20 years
Leasehold improvements	12 years and 28 months
Furniture and equipment	10 years
Communications equipment	10 years
Vehicles	4 years

(b) Contributed capital

Contributed capital consists of amounts representing the values assigned to assets transferred to the Authority from Canada in 1972 plus the cost of fixed assets financed from parliamentary appropriations.

(c) Services provided without charge

An estimate of rent for office space provided without charge by a government department is included as an expense and credited to Retained Earnings.

LAURENTIAN PILOTAGE AUTHORITY—*Concluded*NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980—*Concluded*

(d) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid generally over the remaining service lives of the employees.

(e) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits are accrued to the employees.

3. Fixed assets

At December 31, fixed assets and related accumulated depreciation and net book value were as follows:

	1980		1979	
	Cost	Accumulated depreciation	Net	Net
	\$	\$	\$	\$
Land	9,300		9,300	9,300
Buildings	23,622	14,954	8,668	10,346
Pilot boats	445,191	130,429	314,762	48,938
Furniture and equipment	75,013	53,247	21,766	22,751
Communications equipment ..	106,965	30,114	76,851	89,771
Boarding facilities	191,864	30,565	161,299	175,457
Vehicles	24,841	22,357	2,484	9,936
Leasehold improvements	34,756	2,872	31,884	19,123
	<u>911,552</u>	<u>284,538</u>	<u>627,014</u>	<u>385,622</u>

Depreciation for the year is \$66,811 (1979—\$55,432)

4. Retained earnings appropriated for reserve for the renewal and/or acquisition of major fixed assets

In accordance with the Authority's objective of self-sustaining, all acquisitions and major renovations of fixed assets since April 1, 1976 have been financed from operations. As at December 31, 1980, the net book value of these assets was \$601,159.

Furthermore, the Authority foresees capital expenditures of approximately \$670,000 for the year 1981. In order to be able to continue its self-sustaining policy, the Authority has decided to appropriate retained earnings to a reserve for the renewal and/or acquisition of major fixed assets in an amount equal to the net book value of assets acquired since April 1, 1976, which represents \$601,159. Since retained earnings amounted to \$390,005 as at December 31, 1980, only this amount was appropriated for this purpose.

5. Pilotage charges

As a result of the renovation of a pilot boat, the Authority decided to increase pilotage charges by \$50 as of August 1, 1980 for pilot boats at Escoumins. As at December 31, 1980, this special charge amounted to \$189,250 and was included in income under pilotage charges.

6. Commitments

(a) Contract for the renovation of a pilot boat

In order to meet future service requirements, the Authority has signed a contract of \$579,000 for the renovation and extensive modification of a pilot boat. Two installments, totalling \$231,592 have been capitalized and are included in the cost of fixed assets; the balance will be paid by installments over the renovation period which should be completed in June 1981.

(b) Past service pension obligations

Under provisions of the Pilotage Act, contract pilots may elect to become employees of the Authority and to purchase past service pension entitlements under the Public Service Superannuation Plan.

For pilots who have elected to purchase pension benefits with respect to past service, the Authority is required to match the employee's contributions. The unfunded past service pension contributions with respect to these employees was estimated at \$135,000 as of December 31, 1980 and will be funded over the remaining service lives of the pilots.

With respect to those contract pilots who may elect, in the future to become employees of the Authority, the contingent liability with respect to past service pension contributions has not been determined.

7. Contingent liability

Pursuant to a judgment rendered on May 17, 1978, the Authority was ordered to pay \$10,000 to a previous employee who claimed \$44,500 for salary loss and other damages. The Authority has decided to give notice of appeal to the court decision and has not reflected the \$10,000 liability in the financial statements.

8. Claim receivable and contingent gain

In October 1978, the Authority's pilot boats responded to a distress call to succor a disabled ship. Following a maritime expert's report, the Authority submitted a claim for costs incurred and possible salvage of which the amount to be recovered and contingent gain cannot be determined at this time. The accounting treatment of the future outcome of this claim and contingent gain will be considered by the Authority as an extraordinary item when realized.

9. Income tax

The Authority is not subject to the provisions of any income tax act.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981

1. Commission's activities

The Commission is constituted under an "Act respecting The National Battlefields at Quebec", for the purpose of acquiring, preserving and developing an historic battlefields park at Quebec.

2. Significant accounting policies

(a) Supplies and small tools

Supplies and small tools are valued at the lower of average cost or replacement value.

(b) Fixed assets

Fixed assets are financed by parliamentary appropriations and are recorded in the accounts at cost. In general, fixed assets of the Commission are not revenue producing and no depreciation is recorded in the accounts.

(c) Employee termination benefits

The employees of the Commission are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

(d) Pension plan

The employees of the Commission are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employees and the Commission, and are expensed in the period paid.

NATIONAL BATTLEFIELDS COMMISSION—Concluded

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981—Concluded

(e) Special Land Purchase Fund

Funds have been received from provincial and municipal governments and others for the exclusive purpose of acquiring certain land. These funds, together with interest revenue earned, are accounted for separately in a Special fund. Bonds held in the Special Land Purchase Fund are carried at cost.

3. Fixed assets

Fixed assets at March 31, include:

	1981	1980
	\$	\$
Land	724,710	724,710
Buildings	190,422	153,339
Roadways, driveways and grading	811,166	811,166
Equipment	696,118	678,424
Illuminated fountain	61,930	61,930
	2,484,346	2,429,569

4. Pension plan liability—Seasonal employees

During the previous year, the right for seasonal employees to participate in the Public Service Superannuation Plan has been recognized. However, the method of contribution from both the employees and the Commission with respect to past services has not been determined and accordingly no liability has been recorded in the accounts.

The Commission is of the opinion that the total of its contributions will not exceed \$50,000. Upon determination of the method of payments of the contributions with respect to past service, the Commission will record its contributions as an expense in the year paid.

5. Contingencies

(a) During the year, the Commission received a request from Quebec City for the payment of a grant in lieu of taxes amounting to \$1,684,000 for the 1980 and 1981 fiscal years. The legal advisers of the Commission believe that the Municipal Grants Act, 1980 and the preliminary Regulations in connection with grants to municipalities by Crown Corporations still provide for certain exceptions so that the Commission should be affected little or not at all. The Commission is unable to determine how this claim will be settled and did not include a provision for a liability that could arise from it.

Any liability that could result from the subsequent settlement of this claim will be provided for by a supplementary appropriation.

(b) At March 31, 1981, a claim had been instituted against the Commission in the amount of \$50,000 as a result of an accident on its property. The outcome of this claim is uncertain but the Commission is confident that the claim will not result in any important disbursement. Consequently no provision has been established.

NATIONAL CAPITAL COMMISSION
(Established by the National Capital Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE PAUL COSGROVE, P.C., M.P.,
MINISTER OF PUBLIC WORKS,
OTTAWA, ONTARIO.

I have examined the balance sheet of the National Capital Commission as at March 31, 1981 and the statements of operations, proprietary interest and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

The Commission has retained unexpended balances of parliamentary appropriations for operating expenditures of \$2.9 million in the current year and \$2.6 million in the preceding year and included these amounts as a component of equity instead of recording them as a current liability. Current liabilities and the working capital deficiency are therefore understated by \$5.5 million at March 31, 1981 (1980 - \$2.6 million) and the equity of Canada is overstated by \$5.5 million.

In my opinion, except for the improper disclosure of unexpended appropriations as equity rather than liabilities to Canada, as referred to in the preceding paragraph, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1981 and the results of its operations and the changes in its

financial position for the year then ended in accordance with the accounting policies set out in Note 2, applied on a basis consistent with that of the preceding year.

I further report that in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers except for the retention of the unexpended balance of parliamentary appropriations for operating expenditures which should be returned to the Consolidated Revenue Fund in accordance with the provisions of the Appropriation Act and Section 30 of the Financial Administration Act. Furthermore in 1980-81, the \$2.6 million unexpended balance of the 1979-80 appropriations was used to repay loans from Canada instead of repaying lapsed funds.

KENNETH M. DYE
Auditor General of Canada

Ottawa, Ontario
June 12, 1981

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981

1. Objectives of the Commission

The National Capital Commission was established by the National Capital Act, 1958 and is an Agency Corporation under the Financial Administration Act. The objects and purposes of the Commission are to prepare plans for and assist in the development, conservation and improvement of the National Capital Region in order that the nature and character of the seat of the Government of Canada may be in accordance with its national significance.

2. Significant Accounting Policies

(a) Basis of Accounting

Revenues and expenditures of the Commission are recorded on an accrual basis.

(b) Capital Assets

(i) Real Property

Acquisitions of real property are presently charged to operations when incurred and also recorded as capital assets at the end of each year, at cost. The cost of real property does not include interest on loans to finance the acquisitions thereof.

Gains or losses on disposal of property are reflected in the Statement of General Fund Operations and the assets are credited with the cost of the property disposed.

Prior to March 31, 1974 full proceeds from disposal of part of the property were credited to the assets account. Properties acquired prior to March 31, 1974, and retained by the Commission, are being restated at historical cost and the prior years' adjustment is presented in the Statement of Proprietary Interest.

(ii) Equipment, Furniture and Vehicles

Equipment, furniture and vehicles are recorded in the accounts at cost. The replacements are funded by parliamentary appropriations provided for operating expenditures.

Losses arising from destruction or disposal are charged to proprietary interest in the current year.

(iii) Depreciation

Depreciation on capital assets is not recorded in the accounts.

(c) Capital Projects

The National Capital Act defines capital projects as expenditures for the acquisition of property, for contributions, or for other works, and requires that each be specifically approved by the Governor-in-Council. Projects are financed through the National Capital Fund and through sales of property originally acquired through the National Capital Fund. In the latter case, only the cost portion of the proceeds is used to finance capital projects and reduce the amount required from the Fund. Only those projects producing Commission-held real property are capitalized; studies and contributions to the works of other authorities are not capitalized.

Effective April 1, 1981, the Commission's capital projects will be financed by a vote for capital expenditures. With the proclamation of the Adjustment of Accounts Act, the approval of the Governor-in-Council for each capital project is no longer required.

The Commission also makes expenditures for acquisitions of real property out of the loans from Canada referred to in Note 5.

NATIONAL CAPITAL COMMISSION—Continued

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981—Continued

(d) Operating Supplies, Small Tools and Nursery Stock

Operating supplies and small tools are carried at most recent cost. Nursery stock is valued at estimated replacement cost less an allowance for overhead, balling and packaging expenses.

(e) Pension Plan

The Commission's employees participate in the Public Service Superannuation Plan, which is administered by the Government of Canada. Contributions to the plan are made by both the employees and the Commission, and are recorded on a current basis.

(f) Employee Termination Benefits

Severance pay generally accrues to employees over their service period and is payable on their separation or retirement. Provision for these benefits is recorded as a liability of the Commission.

3. Cash on Deposit in the National Capital Fund

The National Capital Fund is a special account in the Consolidated Revenue Fund of Canada. Amounts are paid from this fund to the Commission from time to time as required to finance the cost of capital projects. Payments are made by the Minister of Finance on the recommendation of the Minister responsible for the Commission.

The Adjustment of Accounts Act resulted in the elimination as at March 31, 1981, of the National Capital Fund and the deletion of the Account balance in the Consolidated Revenue Fund of Canada of \$9,911,000. After providing for outstanding liabilities pertaining to capital projects, the balance of National Capital Fund cash in the hands of the Commission at March 31, 1981 amounted to \$3,214,526. This sum is shown as a current liability and will be refunded to Canada in 1981-82.

4. Capital Assets—Real Property

The following are the major categories of real property at March 31:

	1981	1980
	\$	\$
Greenbelt	46,124,440	45,187,290
Parkways	61,020,339	59,838,827
Parks	32,017,079	30,259,803
Bridges and approaches	24,373,898	23,171,762
Historic sites	11,966,709	11,519,559
Recreational facilities	4,048,905	3,699,480
Rental and agency properties	139,192,005	136,664,092
Unsettled expropriations, estimated	3,516,896	3,051,845
Administration and service buildings	7,609,478	8,044,784
	329,869,749	321,437,442
Less provision for transfers at less than cost	3,422,013	3,422,013
	326,447,736	318,015,429

The provision for transfers at less than cost pertains to property to be transferred in accordance with the agreements detailed below:

- (a) agreements with the railway companies resulting from the relocation of the Ottawa area railway facilities;
- (b) agreement with the Province of Quebec for lands to be given free of charge for approaches to the Macdonald-Cartier Bridge;

(c) agreement with the Province of Quebec for the transfer of lands for \$1 used as a right-of-way for Highway 550;

(d) agreement with the Province of Ontario for the transfer of lands for \$1 used as a right-of-way for Highway 417.

5. Loans from Canada

The Commission purchases real property out of funds advanced from the Consolidated Revenue Fund of Canada by way of loans as authorized by Parliament, upon terms and conditions approved by the Governor-in-Council.

On disposal of properties financed by loans, the loan terms require that the relevant loans be repaid in full, and that any excess proceeds be applied to other loans.

Interest on loans from Canada is payable semi-annually at rates varying from 4.75% to 10.125% and averaging 6.4%. No dates for repayment of principal are specified except that loans and interest are required to be repaid at the time of disposal.

Effective April 1, 1974, payment of interest on loans borrowed for the purpose of acquiring in the Greenbelt had been deferred until March 31, 1981. At March 31, 1981 the accrued interest of \$14,560,591 and loan principal of \$38,192,772 were written off and deleted by Canada pursuant to Section 8 of the Adjustment of Accounts Act.

6. Commitments

(a) Subject to being provided with future funds by Parliament, the Commission is committed to make contributions to other levels of government:

(i) to the Province of Quebec one-half of the cost of a road network within the National Capital Region. The Commission's commitment is \$150 million of which \$73.0 million has been expended. Further expenditures of \$2.9 million for related works are recoverable from provincial and municipal governments.

(ii) to the Province of Quebec and the Outaouais Regional Community, one-third of the cost of a regional sewage disposal system. The Commission's commitment is \$52.4 million of which \$37.1 million has been expended.

(iii) to the Regional Municipality of Ottawa-Carleton and the City of Ottawa, one-half of the cost of the development in the Rideau Street area. The Commission's commitment is \$8.4 million of which \$2.2 million has been expended.

(b) The Commission has entered into agreements for leases and computing services. Annual payments under these agreements are approximately as follows:

	\$
1981-82	1,202,000
1982-83	1,096,000
1983-84	1,145,000
1984-85	1,222,000
1985-86	290,000
	4,955,000

7. Contingent Liabilities

(a) Litigations

(i) Legal action has been taken against the Commission claiming \$18 million for wrongful termination of certain agreements.

(ii) Legal action has been taken against the Commission and others, claiming damages estimated at \$1.6 million for nuisance during the construction of a collector sewer on Commission property.

No provision for these contingencies has been made in the accounts.

NATIONAL CAPITAL COMMISSION—Concluded**NOTES TO THE FINANCIAL STATEMENTS****MARCH 31, 1981—Concluded****(b) Agreement with a Province**

In 1961 the Commission entered into an agreement whereby the Province of Ontario established and maintains 6,557 acres of forest. When the agreement expires in 2011, or is terminated, the Commission will reimburse the Province for the excess of expenses over revenue, or the Province will pay the Commission the excess of revenue over expenses. At March 31, 1980, expenses exceeded revenues by \$0.8 million, and are not reflected in the accounts of the Commission.

8. Prior Years' Adjustments

Balances at beginning of both years in the Statement of Proprietary Interest have been adjusted to reflect the restatement to historic cost of properties retained after sales made prior to March 31, 1974 (Note 2(b)(i)).

Balances at beginning of both years in the Statement of National Capital Fund Operations have been adjusted to reflect the restatement of \$3.0 million prior years' expenditures as advance contributions for sewage disposal rather than as amounts recoverable.

9. Related Party Transactions

During the year, in the normal course of operations, the Commission exchanged lands with a department of the Government of Canada. Lands with a market value of \$3.2 million were received in exchange for lands of equal value, and no funds were received or disbursed.

10. Comparative Figures

Certain figures for 1980 presented for comparative purposes have been restated to conform to the 1981 presentation.

NATIONAL CAPITAL COMMISSION

AUDITOR GENERAL OF CANADA

THE HONOURABLE PAUL COSGROVE, P.C., M.P.
MINISTER OF PUBLIC WORKS,
OTTAWA, ONTARIO

I have examined the balance sheet of the National Capital Commission as at March 31, 1980 and the statements of operations, proprietary interest and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As explained in Note 2(a)(iii) to the financial statements, the Commission does not provide for depreciation on capital assets. Such assets include all or portions of balances representing parkways, bridges and approaches, recreational facilities, property held for development, administration and service buildings, vehicles, machinery, equipment and furniture.

In addition, as described in Note 2(d) to the financial statements, the unexpended balance of \$2.6 million relating to the Commission's 1979-80 appropriation from Parliament for operating expenditures (Vote 65) has been retained by the Commission. This amount is shown on the balance sheet as a deferred liability under the caption "General Fund". In my view, any part of the appropriation received by the Commission which it does not expend during the fiscal period covered by the vote should be returned to the Consolidated Revenue Fund and not used to fund future years' expenditures. The amount in question should therefore be shown as a current liability and the Commission's failure to follow this presentation in its balance sheet results in an understatement of the current liabilities and working capital deficiency of \$2.6 million respectively as well as an improper disclosure as "General Fund" of an amount actually due to Canada.

BALANCE SHEET AS AT MARCH 31, 1980

ASSETS	1980	1979	LIABILITIES	1980	1979

The accompanying notes are an integral part of the financial statements.

Approved on behalf of the Commission:

C. M. DRURY
Chairman

GUY LEMAY, M.D.
Commissioner

In my opinion, except for the effect of not recording depreciation on capital assets and the improper classification and disclosure of the current liability payable to Canada in respect of a parliamentary appropriation, referred to in the preceding two paragraphs, these financial statements give a true and fair view of the financial position of the Commission as of March 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers with the exception of the treatment by the Commission of the unexpended balance of its 1979-80 appropriation of \$2.6 million described above. In my view, this treatment is contrary to the provisions of the Appropriation Act and of Vote 65, through which Parliament has authorized the funding of the Commission's operating expenditures, as well as the provisions of the Financial Administration Act.

M. H. RAYNER
Acting Auditor General of Canada

Ottawa, Ontario
November 21, 1980

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1980

1. Objectives of the Commission

The National Capital Commission was established by the National Capital Act, 1958 and is an Agency Corporation under the Financial Administration Act. The objects and purposes of the Commission are to prepare plans for and assist in the development, conservation and improvement of the National Capital Region in order that the nature and character of the seat of the Government of Canada may be in accordance with its national significance.

2. Significant Accounting Policies

(a) Capital Assets

(i) Real Property

Capitalization of Costs

Real property is recorded in the accounts at cost or nominal value. The nominal value represents the original cost of property acquisitions less proceeds from sale of part of the property. The cost of real property does not include interest on loans used to finance the acquisition thereof nor the grants in lieu of taxes thereon.

Proceeds from Sales

Full proceeds from sales up to March 31, 1974 were recorded as reductions to real property costs. Properties retained are now being restated at historic cost and the prior years' adjustment presented in the statement of proprietary interest.

Gains or losses on sales of property since March 31, 1974 are reflected in the Statement of General Operations and the assets are credited with the cost of the property sold.

(ii) Equipment, Furniture and Vehicles

Equipment, furniture and vehicles are recorded in the accounts at cost. The replacements are funded by parliamentary appropriations provided for operating expenditures.

Losses arising from destruction or disposal are charged to proprietary interest in the current year.

(iii) Depreciation

Depreciation on capital assets is not recorded in the accounts.

(b) Capital Projects

The National Capital Act defines capital projects as expenditures for the acquisition of property, for contributions, or for other works, and requires that each be specifically approved by the Governor-in-Council. Projects are financed through the National Capital Fund and through sales of property originally acquired through the National Capital Fund. In the latter case, only the cost portion of the proceeds is used to finance capital projects and reduce the amount required from the Fund. Only those projects producing Commission-held real property are capitalized; studies and contributions to the works of other authorities are not capitalized.

The Commission also makes expenditures for acquisitions of real property out of the loans from Canada referred to in Note 5.

(c) Operating Supplies, Small Tools and Nursery Stock

Operating supplies and small tools are carried at most recent cost. Nursery stock is valued at replacement cost less an allowance for overhead, balling and packaging expenses.

(d) General Fund

At March 31, 1980, the unexpended balance of the General Fund amounted to \$2,603,381. In accordance with the National Capital Act and the Financial Administration Act,

NATIONAL CAPITAL COMMISSION—Continued

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 1980—Continued

these funds have been retained by the Commission. In prior years, such funds were returned to the Consolidated Revenue Fund.

3. Cash on Deposit in the National Capital Fund

The National Capital Fund is a special account in the Consolidated Revenue Fund of Canada. Amounts are paid from this fund to the Commission from time to time as required to finance the cost of capital projects. Payments are made by the Minister of Finance on the recommendation of the Minister responsible for the Commission.

4. Capital Assets—Real Property

The following are the major categories of real property at March 31:

	1980	1979
	\$	\$
Greenbelt	45,190,342	44,618,097
Parkways	59,885,777	58,172,049
Parks	30,302,447	28,807,501
Bridges and approaches	23,179,745	21,333,981
Historic sites	11,519,559	10,530,719
Recreational facilities	3,699,480	3,488,084
Rental and agency properties	136,542,491	143,068,469
Unsettled expropriations, estimated	3,051,845	2,540,917
Administration and service buildings	8,044,784	6,861,290
	<u>321,416,470</u>	<u>319,421,107</u>
Less provision for transfers at less than cost	3,422,013	7,829,634
	<u>317,994,457</u>	<u>311,591,473</u>

The provision for transfers at less than cost pertains to property to be transferred in accordance with the agreements detailed below:

- (a) agreements with the railway companies resulting from the relocation of the Ottawa area railway facilities;
- (b) agreement with the Province of Quebec for lands to be given free of charge for approaches to the Macdonald-Cartier Bridge;
- (c) agreement with the Province of Quebec for the transfer of lands for \$1 used as a right-of-way for Highway No. 550;
- (d) agreement with the Province of Ontario for the transfer of lands for \$1 used as a right-of-way for Highway 417.

5. Loans from Canada

The Commission purchases real property out of funds advanced from the Consolidated Revenue Fund of Canada by way of loans as authorized by Parliament, upon terms and conditions approved by the Governor-in-Council.

These terms require that full proceeds on disposal of loan-financed properties be applied first to repay the relevant loans and then to reduce other loans. Except in the case of LeBreton Flats, relevant loans are repayable in full at the time of disposal.

Interest on loans from Canada is payable semi-annually at rates varying from 4% to 10.125% and averaging 6.3%. No dates for repayment of principal are specified except that loans and interest are required to be repaid at the time of disposal.

Effective April 1, 1974, payment of interest on loans borrowed for the purpose of acquiring property in the Greenbelt has been deferred until March 31, 1981. At March 31, 1980 the accrued interest payable on loans of \$38,311,606 amounted to \$12,483,933.

6. Commitments

- (a) Subject to being provided with future funds by Parliament, the Commission is committed to make contributions to other levels of government:
 - (i) to the Province of Quebec one-half of the cost of a road network within the National Capital Region. The Commission's share is currently estimated at \$150 million of which \$64.0 million has been expended after provision for an estimated amount recoverable of \$3.2 million which is included in amounts recoverable from Provincial and Municipal governments;
 - (ii) to the Province of Quebec and the Outaouais Regional Community, one-third of the cost of a regional sewage disposal system. The Commission's commitment is \$40 million of which \$22.2 million has been expended after provision for an estimated amount recoverable of \$2.8 million which is included in amounts recoverable from Provincial and Municipal governments;
 - (iii) to the Province of Ontario and the Regional Municipality of Ottawa-Carleton, one-third of the cost of a regional sewage disposal system. The Commission's commitment is \$17.0 million of which \$16.0 million has been expended;
 - (iv) to the Regional Municipality of Ottawa-Carleton and the City of Ottawa, one-half of the cost of the development in the Rideau Street area. The Commission's commitment is \$8.4 million of which \$0.1 million has been expended.

- (b) The Commission leases facilities under the terms of various rental agreements. Annual rental payments for these operating leases are approximately as follows:

	\$
1981	840,000
1982	883,000
1983	910,000
1984	932,000
1985	982,000
	<u>4,547,000</u>

7. Contingent Liabilities

- (a) Legal action has been taken against the Commission and others, claiming damages estimated at \$1.6 million for nuisance during the construction of a collector sewer on Commission property.
- (b) In 1961 the Commission entered into an agreement whereby the Province of Ontario established and maintains 6,557 acres of forest. When the agreement expires in 2011, or is terminated, the Commission will reimburse the Province for the excess of expenses over revenue, or the Province will pay the Commission the excess of revenue over expenses. At March 31, 1980, expenses exceeded revenues by \$0.9 million and are not reflected in the accounts of the Commission.

8. Prior Years' Adjustments to Real Property

Proprietary interest balances as previously reported for both years have been restated to reflect the restatement to historic cost of properties retained after sales made prior to March 31, 1974.

9. Comparative Figures

Certain figures for 1979 presented for comparative purposes have been restated to conform to the 1980 presentation.

NATIONAL CAPITAL COMMISSION—*Concluded***NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1980—*Concluded*****10. Subsequent Events**

The Adjustment of Accounts Act, given royal assent on July 10, 1980, provides for:

- (a) the write-off and deletion from the accounts of Canada of the aggregate amount of principal and interest outstanding as at March 31, 1981 in respect of loans made to the National Capital Commission to acquire property in the Greenbelt, and
 - (b) the repeal as of March 31, 1981 of that portion of the National Capital Act which established and governed the National Capital Fund, and the deletion from the accounts of Canada of the amount outstanding as at March 31, 1981 in respect of the National Capital Fund.
-

NATIONAL HARBOURS BOARD*(Established by the National Harbours Board Act)*

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.,
 MINISTER OF TRANSPORT,
 OTTAWA, ONTARIO.

I have examined the balance sheet of the National Harbours Board as at December 31, 1980 and the statements of operations and deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Board as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Board, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Significant accounting policies

(a) Financial Statements

The financial statements of the National Harbours Board include the accounts of all the ports and other facilities under its administration.

(b) Investments

Funds are invested in Government of Canada direct and guaranteed securities which are shown at amortized cost, with premiums or discounts amortized over the periods to maturity.

(c) Fixed assets and depreciation

The Board's policy is to capitalize expenditures which provide long-term benefit as well as assets transferred to the Board from the Crown.

Assets are recorded at cost except for those transferred to the Board from the Crown which are recorded at values established at the time of transfer (appraisal or fair market value). Grants towards capital projects received from the Crown (which are not capital contributions) and third parties are credited directly against the cost of the related fixed assets. Depreciation has been calculated on the straight-line method for the full year, commencing with the year the asset becomes operational, using rates based on the estimated useful lives of the assets.

Expenditures for maintenance and repairs are charged to operating expenses as incurred.

(d) Appropriations from Parliament

Amounts receivable or received by the Board from parliamentary appropriations to cover certain ports' operating losses, excluding non-cash expenses, are reflected in the Statement of Operations and Deficit.

NATIONAL HARBOURS BOARD—Continued

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1980—Continued

(e) Pension Costs

All permanent employees of the Board are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the plan are required from both the employees and the Board. These contributions represent the total liability of the Board and are recognized in the accounts on a current basis.

(f) Insurance

The Board assumes substantially all risks against fire and general perils, as well as for workmen's compensation claims. Any costs arising from these risks are recorded in the accounts in the year incurred.

(g) Grants in lieu of municipal taxes

Grants in lieu of municipal taxes are based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Government of Canada Department of Finance. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(h) Employee benefits

The Board accrues in its accounts annually the estimated liabilities for severance pay, annual leave, sick leave and overtime compensatory leave, which are payable to its employees in subsequent years under its collective agreements, or in accordance with Board policy.

2. Long-term accounts receivable

Long-term accounts receivable become due over periods from one to twenty-seven years at interest rates varying from 5 ¼% to 8%.

3. Debentures of Saint John Harbour Bridge Authority

The Saint John Harbour Bridge Authority is indebted in the amount of \$14,687,000 (1979—\$14,757,000) to the Board which in turn is indebted to the Government of Canada by the same amount, in accordance with the provisions of Vote L106b, Appropriation Act. No. 7, 1967, 1967-68, c. 8. The interest and repayment terms of the parliamentary advances to the Board are identical to those of the debentures of the Authority. Under the terms of the agreement between the Government of Canada and the Authority, the Government has, in effect, guaranteed the repayment of both principal and interest on the debentures. Therefore, both the debentures receivable and advances and loans payable to the Government have been offset against each other and are not reflected as a separate asset and liability on the balance sheet. Interest income and expense of \$1,007,000 (1979—\$1,011,000) have been similarly offset and do not appear in the Statement of Operations.

On April 1, 1980, a submission was presented to Treasury Board to transfer the loan from the accounts of the National Harbours Board to the Government of Canada Department of Finance.

4. Fixed assets

(a) Summary—Depreciation rates, cost and accumulated depreciation

	Rate of depreciation	(\$000's)			
		1980	1979	1980	1979
		Cost	Accumulated depreciation	Net	Net
Land		104,235		104,235	103,146
Dredging	2.5-6.7%	33,558	20,171	13,387	8,287
Berthing structures		240,821	126,079	114,742	113,577
Buildings	2.5-10%	147,537	78,970	68,567	68,166
Utilities	3.3-10%	29,416	12,511	16,905	15,797
Roads and surfaces	2.5-10%	40,643	20,533	20,110	15,328
Machinery and equipment	5-20%	64,177	47,756	16,421	15,471
Office furniture and equipment	20%	1,387	1,251	136	130
Works under construction		53,490		53,490	54,016
		<u>715,264</u>	<u>307,271</u>	<u>407,993</u>	<u>393,918</u>

(b) Land transfer

In 1979, the Board effected a land transfer with Canada Mortgage and Housing Corporation and, as at December 31, 1980, had still to transfer eight acres of land valued at \$1,204,000 in order to complete the transaction. The cost of the land not yet transferred has not been relieved from the accounts and the related liability of \$1,204,000 is included in accounts payable.

(c) Grants

During the year, the Board received grants towards the construction of capital projects totalling \$4,761,000 (1979—\$5,761,000), of which \$4,656,000 (1979—\$5,518,000) was from the Federal Government. These grants have been credited directly against the cost of related fixed assets.

(d) Capital expenditures

Contractual obligations for the completion, construction and purchase of fixed assets are estimated at \$20,813,000. Of this amount, it is estimated that \$12,035,000 will be expended in the year ending December 31, 1981 and the balance in subsequent years.

5. Accounts payable and accrued liabilities

Included in accounts payable and accrued liabilities in the amount of \$29,478,000 (1979—\$30,898,000) are amounts for deferred revenues and for the current portion of long-term liabilities.

	(\$000's)	
	1980	1979
Deferred revenues	3,998	3,862
Current portion of long-term liabilities	2,011	1,083

6. Financing provided by province

Under an agreement dated July 13, 1972, the Province of New Brunswick advanced \$25,000,000 to partially finance the construction of Rodney Terminal, Saint John, which is owned by the Board.

NATIONAL HARBOURS BOARD—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 1980—*Concluded*

An agreement, effective January 1, 1976, calls for payments equal to 50% of the net operating income, as defined in the agreement, from the terminal, until the province's capital investment, without interest, is repaid.

7. Loans from Canada

	(\$000's)	
	1980	1979
Interest bearing loans from Canada	25,684	320,667
<i>Less: current portion</i>	546	
	25,138	320,667
Non-interest bearing loans from Canada	317,739	
Interest on loans not due and payable.....	157,462	
Interest in arrears		136,898
	500,339	457,565

Pursuant to Order in Council (P.C. 1981-117) dated January 15, 1981, interest bearing loans from Canada as at December 31, 1980 in the amount of \$343,423,000 were replaced with interest bearing loans from Canada of \$25,684,000 and non-interest bearing loans from Canada of \$317,739,000 having an indefinite due date and requiring no principal repayments. Interest on loans of \$157,462,000 to December 31, 1980 is to be treated as a debt which is not due and payable.

Interest bearing loans from Canada have interest rates varying from 6.25% to 12.43%, blended annual principal and interest repayment requirements of \$2,745,203, and mature December 31, 2000.

Principal repayment requirements over the next five years amount to \$545,844 in 1981, \$588,920 in 1982, \$635,677 in 1983, \$686,460 in 1984 and \$741,646 in 1985.

8. Adjustment to contributed capital

In 1973, an amount of \$1,510,534 provided by a lessee towards the cost of a new container terminal was recorded as contributed capital. In 1980, a judgment was rendered against the Board which required that this amount be repaid to the lessee. This amount has been transferred from contributed capital and included in accounts payable.

9. Contingent liabilities

Claims aggregating approximately \$13,077,000 in respect of lawsuits, guarantees, employee agreements, damage allegedly suffered on the Board's property and sundry other matters in dispute have been received by the Board but are not reflected in these financial statements. In the opinion of the Board and its legal advisors, the Board's position is defensible and the final outcome of such claims should not result in any material financial liability.

10. Comparative figures

The 1979 figures have been reclassified in order to conform with this year's presentation.

NORTHERN CANADA POWER COMMISSION
(Established by the Northern Canada Power Commission Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JOHN CARR MUNRO, P.C., M.P.,
MINISTER OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT,
OTTAWA, ONTARIO.

I have examined the balance sheet of Northern Canada Power Commission as at March 31, 1981 and the statements of operations and deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

RHÉAL CHATELAIN
*Senior Deputy Auditor General
for the Auditor General of Canada*

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981

1. Authority and objective

The Northern Canada Power Commission, a Schedule C corporation, was formerly the Northwest Territories Power Commission established in 1948 and now operates under the Northern Canada Power Commission Act.

The objective of the Commission is to provide utility services on a self-sustaining basis in the Northwest Territories, the Yukon Territory and, with the approval of the Governor in Council, at certain other locations in Canada.

2. Statement of accounting policies

The financial statements have been prepared by management in conformity with generally accepted accounting principles considered to be appropriate in the circumstances, and have been applied on a basis consistent with that of the preceding year. A summary of significant accounting policies of the Commission is presented as follows to assist the reader in interpreting the financial statements.

Property and equipment

Property and equipment, with the exception of that gifted to the Commission by Canada and others which have been recorded at nominal value, are carried at cost less accumulated depreciation. Costs of additions, betterments and major renewals are capitalized. In addition to direct payments for goods and services, project costs include interest at prevailing rates on loan funds used to finance construction during the construction period and a share of engineering and general administration which is directly attributable to the capital projects.

Gains or losses on disposal of property and equipment resulting from exceptional circumstances such as the disposal of assets which have not entered the production cycle, are written off against operations in the year that the losses are recognized. For normal retirements, the cost of assets retired less salvage proceeds is charged to accumulated depreciation with no gain or loss being reflected in operations.

Depreciation

Depreciation on property and equipment in service prior to March 31, 1977, financed by loans from Canada, excepting the Head Office building, is calculated as an amount equivalent to the principal portion of the repayment of the associated loan. The associated loans are being repaid by the annuity method over the estimated economic life of the assets. Assets placed in service subsequent to March 31, 1977 are depreciated on a straight line basis. Straight line depreciation is charged over the estimated economic life of the Head Office building and on assets purchased from internally generated funds.

Depreciation rates for the various classes of assets are based on estimated economic lives, which, for the principal classes of assets are:

Hydroelectric plants	30 - 50 years
Diesel engines and associated equipment	10 - 15 years
Fuel storage equipment	20 years
Buildings	20 - 30 years
Heating systems	20 years
Transmission and distribution systems	20 - 30 years
Office and general equipment	10 - 15 years
Motor vehicles	4 years

Valuation of inventories

Inventories are valued at average cost using the principle of first in, first out. Provision is made for decline in value of slow-moving inventory.

NORTHERN CANADA POWER COMMISSION—Continued

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981—Continued

3. Fixed assets in service

Details of fixed assets in service at cost are as follows:

	1981	1980
	\$	\$
Electric power plants	161,276,000	160,052,000
Transmission and distribution systems.....	35,180,000	33,813,000
Other utilities	5,053,000	5,155,000
Staff accommodation.....	3,821,000	3,872,000
Warehouses, motor vehicles and general facilities.....	6,361,000	6,291,000
	<u>211,691,000</u>	<u>209,183,000</u>

4. Loans from Canada

The Commission receives funds for capital expenditures by way of interest bearing loans from Canada. Interest at prevailing rates is accrued during the course of construction of a project and added to the amount borrowed. The total loan, including accrued interest is repaid on terms and conditions as approved by Governor in Council.

The Commission also received a working capital loan of \$7,500,000 in 1979. Terms and conditions provide for principal repayment by 10 equal annual instalments of \$750,000 commencing on March 31, 1990. The loan is interest free but should any instalment become due and unpaid, interest at then current rates is applicable until the date of payment.

At March 31, 1981, loans for capital expenditures carried interest rates ranging from 4.125% to 13.75% with a weighted average interest rate of 8.5%.

Loans due Canada mature as follows:

	Principal
	\$
1982.....	5,726,000
1983.....	5,906,000
1984.....	6,277,000
1985.....	6,708,000
1986.....	7,152,000
1987 - 2024.....	161,082,000
	<u>192,851,000</u>
Deduct current portion	5,726,000
	<u>187,125,000</u>
Advance: project investigation	50,000
	<u>187,175,000</u>

In 1981 the Commission borrowed \$5,000,000 (\$4,000,000 in 1980) from Canada at an interest rate of 13.75% and paid \$22,524,000 (\$21,819,000 in 1980) to Canada comprising principal of \$6,163,000 (\$5,541,000 in 1980) and interest of \$16,361,000 (\$16,278,000 in 1980).

5. Due to Canada—Overdue instalments and related interest

This item represents principal, \$2,203,000, and interest, \$6,989,000, on instalments which fell due on March 31, 1977 and which remain unpaid.

6. Hydro investigation studies

The Commission, with the approval of the Governor in Council, is carrying out special investigation studies on the hydro-generation potential of the mid-Yukon for which it will receive payments not exceeding \$3,150,000. The studies are to be completed by September 30, 1983 and any undisbursed funds are to be refunded to Canada. If these studies result in the provision of electricity for consumption, the funds provided for the studies will become repayable, with accrued interest, to Canada.

The Commission has received accumulated payments of \$1,250,000 to March 31, 1981 (\$1,000,000 to March 31, 1980) for the special investigation studies and has incurred accumulated expenditures of \$1,215,000 (\$728,000 in 1980). The unexpended balance of \$35,000 is included as an account payable at March 31, 1981 (\$272,000 at March 31, 1980).

The Commission also received \$36,000 in 1981 for projects investigated but not proceeded with, and refunded to Canada \$230,000 received in the previous year for investigation studies which were not undertaken on Waste Heat Recovery Systems.

7. Pensions

During the year the Commission made payments of \$460,000 (\$402,000 in 1980) in respect of current contributions to the Public Service Superannuation Account (PSSA) of the Government of Canada. The PSSA is actuarially valued every five years. The Commission's contributions and liabilities are limited to the current portion, and no estimate of the Commission's share of actuarial deficiencies has been made.

8. Engineering and general administration

Engineering and general administration is net of amounts charged to capital and recoverable projects. Allocations to capital and recoverable projects totalled \$662,000 in 1981 (\$504,000 in 1980).

9. Interest expense

Interest expense relates to long-term debt and is net of amounts charged to capital projects and interest earned from short-term investments. Interest charges totalling \$138,000 were capitalized at a rate of 8% for 1981 (\$111,000 at 8% for 1980). Interest earned on short-term investments amounted to \$2,352,000 in 1981 (\$2,215,000 in 1980).

10. Contingent liabilities

Recognition of lawsuits against the Commission at March 31, 1981 has been made in the accounts in an amount which the Commission considers adequate to provide for any settlements which may arise out of such claims.

11. Commitments

Estimated cost to complete capital projects under construction is approximately \$32,100,000 at March 31, 1981 (\$1,500,000 at March 31, 1980).

12. Insurance

The Commission purchases catastrophe insurance on specified assets as protection against major losses up to \$15,000,000. Business liability insurance coverage is maintained in an amount considered necessary to provide adequate protection to the Commission. Other coverage in effect includes fleet, aircraft, airstrip, boiler and comprehensive general liability insurance. Special coverage on major projects under construction is purchased by the Commission, or by its contractors if required by the Commission.

13. Related party transactions

Audit and legal services

In addition to the transactions with the Government of Canada referred to in Notes 4, 5, 6, and 7, the Commission receives audit and legal services without charge from the Office of the Auditor General of Canada and the Department of Justice (Canada).

Commission members

The Commission consists of a chairman and four additional members appointed by the Governor in Council. The Chairman is the chief executive officer of the Commission.

Economic dependence

The Commission has a significant amount of transactions with Canada and its agencies, the same with territorial and municipal governments of the Northwest Territories and Yukon Territory and large industrial consumers and supplies. These transactions comprise:

	1981	1980
	\$	\$
Sale of power and heat		
Federal, territorial, municipal govern- ments and agencies.....	24,288,000	21,127,000
Large industrial consumers	24,871,000	22,093,000
Purchase of fuel		
Federal, territorial governments and agen- cies	3,836,000	3,146,000
Accounts receivable, at March 31		
Federal, territorial, municipal govern- ments and agencies.....	3,262,000	3,531,000
Large industrial consumers.....	2,651,000	1,661,000
Accounts payable, at March 31		
Federal and territorial governments.....	1,733,000	1,714,000

14. Income tax

As a Schedule C Crown corporation, the Commission is exempt from income tax.

NORTHERN TRANSPORTATION COMPANY LIMITED
(Incorporated under the Canada Business Corporations Act)

AUDITORS' REPORT

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

We have examined the consolidated statement of financial position of Northern Transportation Company Limited as at December 31, 1980 and the consolidated statements of operations, deficit and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the Company as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the method of recording charges to the insurance investment fund as explained in Note 6 to the financial statements, on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under our notice have been within its statutory powers.

MICHAEL H. RAYNER
Acting Auditor General of Canada
Ottawa, Ontario

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS AT DECEMBER 31, 1980**
1. Corporate objective

The primary objective of the Company is to provide an economic, reliable and comprehensive transportation service on a profit-oriented commercial basis throughout Northern Canada and the Arctic. This objective also recognizes the Company's undertaking to provide a high level of service to its customers and a challenging and rewarding work environment for its employees.

2. Accounting policies

The consolidated financial statements as at December 31, 1980 have been prepared in accordance with generally accepted accounting principles. The following accounting policies are considered significant:

Basis of consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries, Grimshaw Trucking and Distributing Ltd., and Yellowknife Transportation Company Limited, both of which are wholly owned. All significant inter-company transactions have been eliminated on consolidation.

Operating and general supplies

Inventories of operating and general supplies are valued at the lower of cost or estimated replacement cost.

Insurance investment fund

As part of its insurance program, the Company maintains umbrella insurance coverage in respect of physical loss or damage to property and equipment. In addition, a fund is being accumulated to underwrite the aggregate deductible amount and the uninsured portion of any losses. The total amount of the fund, the proceeds of which are invested in short-term bank deposits, is related to the annual aggregate deductible amount under the umbrella program and will not exceed \$4.5 million.

Leases

Leases are classified as either capital or operating. A lease that transfers substantially all of the benefits and risks incident to the ownership of property is classified as a capital lease. At the inception of a capital lease, an asset and an obligation are recorded at an amount equal to the lesser of the present value of the minimum lease payments and the property's fair value at the beginning of such lease. All other leases are accounted for as operating leases wherein rental payments are charged to operations as incurred.

Property and equipment

Investment in property and equipment is recorded at cost. The costs of major additions and replacements, including assets under capital lease, are capitalized. Maintenance, repairs and minor replacements are charged to operations. Gains or losses realized on retirement or disposal are also reflected in operations.

Depreciation

Boats and barges are depreciated on a "unit of production" basis taking into account the estimated ton-mile productive capacity of each vessel over a 15-year period with a minimum charge of four per cent per annum calculated on a maximum useful life of 25 years. The cost of other depreciable assets, including assets under capital lease, is amortized on a straight-line basis over an estimated useful life of 10 to 20 years for

NORTHERN TRANSPORTATION COMPANY LIMITED—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS AT DECEMBER 31, 1980—Continued

buildings, other structures and site development, and 5 to 10 years for other equipment.

Pension plan

A contributory, defined benefit, final average earnings pension plan covers all regular full-time employees of Northern Transportation Company Limited. The assets of the plan are held by an independent corporate trustee. Current service costs are funded and charged to operations as they accrue. Unfunded liabilities and plan improvement costs, as determined by actuarial valuation, are funded by annual payments which are charged to operations over periods recommended by the consulting actuary and as required by the Pension Benefits Standards Act.

Income taxes

The tax allocation method is used in providing for income taxes. In calculating taxable income, regulations permit the deduction of expenses which may not correspond with amounts recorded in the financial statements. Income taxes charged to operations, therefore, may differ from those currently payable. Such differences are outlined in Note 5 to the financial statements.

3. Freightage revenue

Included in freightage revenue is a subsidy of \$844,000 (1979—\$800,000) from Canada and the Government of the Northwest Territories for the resupply service to the Keewatin and Great Bear Lake areas.

4. Other expense—Net

	1980	1979
	(\$000's)	
Expense		
Interest on long-term debt.....	2,970	3,081
Income		
Interest earned.....	2,512	1,557
Gain on disposal of property and equipment.....	289	316
Other.....	104	90
	<u>2,905</u>	<u>1,963</u>
	<u>65</u>	<u>1,118</u>

5. Income taxes and extraordinary item

The undepreciated capital cost of property and equipment for income tax purposes exceeds the net book value of depreciable assets, and this excess is available to reduce the taxable income of current and future years. During the year, income taxes otherwise payable of \$1,975,000 (1979—\$1,067,000) were eliminated as a result of claiming \$4,117,000 (1979—\$2,320,000) of this excess. These reductions of income taxes have been shown as an extraordinary item in the Statement of Operations. An amount of approximately \$9,463,000 (1979—\$13,580,000) is available for reduction of income taxes in future years.

6. Prior period adjustment

As outlined in the accounting policies to the financial statements, the Company maintains an insurance investment fund. In prior years, contributions to this fund were charged against operations. In order to comply with current generally accepted accounting principles, the Company has discontinued charging additions to the fund against operations effective for the year ended December 31, 1980.

As a result of this change, the deficit as at January 1, 1980 has been reduced by \$2,349,000, of which \$521,000 is applicable to 1979 and \$1,828,000 to prior years.

For comparative purposes, the financial results for the year ended December 31, 1979 have been reclassified to conform to the current year's presentation.

7. Bank indebtedness

Accounts receivable are assigned as collateral security.

8. Property and equipment

	1980	1979
	(\$000's)	
Land.....	1,759	1,617
Boats and barges.....	57,692	57,826

Issued and fully paid		
250,520 shares to Canada.....	25,052	25,052

NORTHERN TRANSPORTATION COMPANY LIMITED—Concluded**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS AT DECEMBER 31, 1980—Concluded****11. Operating lease obligations**

Certain land and real estate is leased under long-term contracts and commitments in respect of rental payments are: 1981—\$642,000; 1982—\$623,000; 1983—\$447,000; 1984—\$340,000; 1985—\$340,000 and subsequent years—\$1,116,000.

12. Pension plan

At December 31, 1978, the present value of the unfunded liability, as determined by actuarial valuation, was \$1,004,000. This liability is being retired by annual payments at least equal to \$110,000 through 1991.

13. Related party transactions

The Company is 100% owned by Canada. During the year, the Company had significant transactions with the Government of Canada and its agencies, the Government of the Northwest Territories and several federal Crown corporations.

PACIFIC PILOTAGE AUTHORITY
(Established by the Pilotage Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Pacific Pilotage Authority as at December 31, 1980 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Nature of activities

The Pacific Pilotage Authority was established on February 1, 1972, pursuant to the Pilotage Act. The objects of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act further provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

Pilotage services on the Fraser River are provided by employee pilots and in other coastal waters under a contract with a local association of licensed pilots.

2. Significant accounting policies

(a) Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful life of the asset as follows:

Buildings	20 years
Pilot boats	20 years
Pilot boat under capital lease	20 years
Equipment	10 years
Leasehold improvements	7 years

(b) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972 plus the cost of any fixed assets financed from parliamentary appropriations are shown as contributed capital.

PACIFIC PILOTAGE AUTHORITY—*Concluded*

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1980—*Concluded*

(c) Capitalized lease

The Authority leases a boat from Canada under a long-term financing lease. Under the terms of the lease agreement, the Authority assumes the right and obligation of ownership. As a result, the lease is treated as a purchase and the principal portion of the lease payment is capitalized and depreciated over the estimated useful life of the boat.

The corresponding liability is reduced by the principal portion of the lease payment and the interest portion is expensed in the year to which it relates.

(d) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period.

(e) Employee benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. This liability is recorded in the accounts as the benefits accrue to the employees.

(f) Income tax

Under the provisions of the Income Tax Act, the Authority is not subject to federal income tax.

3. Capital lease agreement

The Authority leases a pilot boat under a long-term financing lease. The payments required under the lease are as follows:

	1980	1979
	\$	\$
8% lease agreement, due April 1988 payable in blended annual payments of \$32,229.....	257,833	290,062
Less: amount representing interest	72,624	88,730
Principal amount of capital lease	185,209	201,332
Less: current portion	17,412	16,122
	<u>167,797</u>	<u>185,210</u>

Upon maturity of the lease, the Authority has the option to purchase the boat for \$1.

4. Long-term commitments

The Authority has entered into an operating lease for the services of a manned pilot boat with a guaranteed annual rental of \$58,000, plus operating expenses to 1990. The Authority has the option to purchase this boat, at any time, at a price to be determined when the option is exercised.

5. Contingencies

In connection with its operations, the Authority is involved in certain pending or threatened litigation. It is the opinion of management, based on legal counsel, that these actions will not result in any material liabilities to the Authority.

6. Remuneration of members and officers

The remuneration of members as members amounted to \$44,575 (1979—\$32,825) and the remuneration of officers as officers amounted to \$55,894 (1979—\$49,991). The Authority has 7 members and 2 officers. One officer is also a member.

PETRO-CANADA

AUDITORS' REPORT

TO THE HONORABLE MARC LALONDE, P.C., M.P.,
MINISTER ENERGY, MINES AND RESOURCES CANADA,
HOUSE OF COMMONS,
OTTAWA, CANADA

We have examined the consolidated balance sheet of Petro-Canada as at December 31, 1980 and the consolidated statements of earnings and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the corporation as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report as required by Section 77(1) of the Financial Administration Act that, in our opinion, proper books of account have been kept by the corporation and the transactions that have come under our notice have been within the powers of the corporation.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1980**

(tabular amounts shown in thousands of dollars)

1. Summary of Significant Accounting Policies

(a) Basis of Consolidation

The consolidated financial statements include the accounts of Petro-Canada and its subsidiary, Petro-Canada Exploration Inc. ("PEX"), and all of its subsidiaries ("the Corporation").

The excess of the consideration paid for the shares of subsidiaries over the underlying net book values at the dates of acquisition is attributed to the related assets acquired.

(b) Inventories

Inventories are valued at the lower of cost and net realizable value.

(c) Investments

The Corporation accounts for investments in companies over which it has significant influence on the equity method. Other long-term investments are accounted for by the cost method.

(d) Property, Plant and Equipment

The Corporation follows the full cost method of accounting for oil and gas properties whereby all costs relating to the exploration for and development of oil and gas reserves are capitalized. Such costs include those related to lease acquisitions, geological and geophysical activities, carrying charges

PETRO-CANADA—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1980—Continued

of non-producing properties, drilling both productive and non-productive wells and overhead related to exploration. Separate cost centres have been established for non-frontier Canada, each of five Canadian frontier areas and each foreign area in which the Corporation has an interest. Costs incurred in non-frontier Canada and in producing foreign cost centres are depleted separately on the unit of production method based on estimated proven oil and gas reserves. For purposes of calculating depletion, natural gas production and reserves are converted to equivalent units of crude oil based on the relative energy content of each commodity.

Annual costs incurred in the other cost centres are amortized on a straight line basis over the period during which exploration activity in each cost centre is expected to continue. Where exploration proves to be successful, amortization is suspended and the unamortized balance of the cost centre is depleted on the unit of production method when production commences. Where exploration proves to be unsuccessful and the cost centre is condemned or abandoned, the unamortized balance of that cost centre is charged to earnings at that time.

Costs of property, plant and equipment associated with the Syncrude Project and related leases are accumulated in a separate cost centre and are depreciated on the unit of production method. Expenditures on other bituminous sands leases are also accumulated in separate cost centres and are amortized, depleted or otherwise charged to earnings in accordance with the policy described in the preceding paragraph.

Substantially all of the Corporation's exploration and production activities related to oil and gas are conducted jointly with others. Only the Corporation's proportionate interest in such activities is reflected in the financial statements.

The interest cost of debt attributable to the construction of major new facilities is capitalized during the construction period.

Depreciation of plant and equipment (except as noted above) is provided on either the unit of production or straight line methods as appropriate. Straight line depreciation rates range from 4% to 25%.

(e) Deferred Charges

The Corporation is deferring costs incurred on feasibility studies involving economic evaluation and preliminary engineering relating to:

- (i) Production of hydrocarbons from conventional heavy oil deposits
- (ii) Polar Gas Project
- (iii) Arctic Liquefied Natural Gas Project
- (iv) Other—Transportation and refining

When production or commercial activity of a particular project commences the applicable expenditures are transferred to Property, Plant and Equipment and are charged to earnings based on the estimated useful life of the project. In the event that a decision is made not to proceed with a particular project, all associated costs are charged to earnings at that time.

The costs of the Polar Gas Project relate to feasibility studies in connection with a gas transmission system from the Arctic Islands to Eastern Canada. Under the participation agreement, subject to the project's feasibility and approval by the necessary regulatory authorities, the participants shall be entitled to have the costs they have incurred treated as an

equity investment in a company incorporated to construct and operate the transmission facilities, or be reimbursed out of any financing of such company.

Certain costs relating to the Corporation's marketing program are deferred and amortized on a straight line basis over five years.

Debt issue expense is amortized on a straight line basis over the life of the debt. The amortization is included with interest on long-term debt in the consolidated statement of earnings and retained earnings.

(f) Research Costs

Research costs are charged against earnings as incurred.

(g) Income Taxes

The Corporation makes full provision for income taxes deferred as the result of claiming tax depreciation, exploration, development and other costs which exceed the related amounts charged to expense in the financial statements.

(h) Translation of Foreign Currency

Current assets and current liabilities are translated at the rate of exchange in effect at the close of the year. The resulting gains and losses are included in earnings. Long-term assets, liabilities and preferred shares issued by a subsidiary are translated at rates in effect at the dates the assets were acquired, the obligations incurred or the capital stock issued. Revenue and expense items are translated at the average rates in effect during the year with the exception of depletion, depreciation and amortization which reflect rates in effect when the assets were acquired.

2. Inventories

Inventories consist of:

	1980	1979
Foreign crude oil	51,356	
Domestic crude oil, refined products and merchandise	43,796	25,022
Materials and supplies	32,062	26,206
	<u>127,214</u>	<u>51,228</u>

3. Investments

The Corporation's investments consist of:

	1980	1979
At equity		
Westcoast Transmission Company Limited	163,012	157,516
Panarctic Oils Ltd.	117,598	108,553
Pacific Northern Gas Ltd.	2,559	2,287
Other, at cost	8,648	7,530
	<u>291,817</u>	<u>275,886</u>

Westcoast Transmission Company Limited

At December 31, 1980, the Corporation held 35.2% of the total outstanding common shares of Westcoast Transmission Company Limited. Westcoast has reserved common shares for issuance to holders of share options and share purchase warrants which, if issued, would reduce the Corporation's interest to 31.1%.

The value assigned to the investment in Westcoast exceeds the underlying net book value at the dates of acquisition by \$33,388,000. This excess is being amortized over the estimated useful lives of the underlying assets to which it is attributed by charges against the Corporation's share of Westcoast's net earnings.

PETRO-CANADA—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1980—Continued

Westcoast is a regulated utility and is subject to regulatory directives which may change the components of the cost of service. Changes resulting from such directives do not have a direct effect on net earnings due to rate of return on rate base considerations which are also taken into account in the regulatory process.

At December 31, 1980, the quoted market value of the Corporation's investment in Westcoast was \$189,333,000 (1979—\$184,560,000).

Panarctic Oils Ltd.

At December 31, 1980, the Corporation held approximately 45% of the issued common shares of Panarctic Oils Ltd. These shares are not traded on the open market and therefore do not have a quoted market value. The activities of Panarctic are in the exploratory stage and all expenses less sundry income have been capitalized; the company is deemed not to have earned a profit or sustained a loss. The Corporation is committed to expenditures of approximately \$6,000,000 in connection with the ongoing financing of Panarctic.

4. Property, Plant and Equipment

Property, plant and equipment consists of:

	1980		1979	
	Cost	Accumulated Depreciation, Depletion and Amortization	Net	Net
Oil and gas				
Canada				
—Non-frontier areas	2,205,664	229,371	1,976,293	1,850,057
—Frontier areas	376,338	58,510	317,828	214,185
Foreign	93,881	9,987	83,894	67,866
Bituminous sands				
—Syncrude Project and related leases	293,135	10,273	282,862	280,427
—Other bituminous sands leases and expenditures thereon	41,639	6,301	35,338	19,603
Refining and marketing				
Natural gas liquids	61,742	7,776	53,966	44,816
Pipelines, and other property and equipment	89,790	10,480	79,310	65,793
	<u>3,290,266</u>	<u>339,525*</u>	<u>2,950,741</u>	<u>2,668,322</u>

*Consists of depreciation—\$56,464,000, depletion—\$207,396,000 and amortization—\$75,665,000 (at December 31, 1979—\$26,998,000, \$127,670,000 and \$44,411,000 respectively).

5. Deferred Charges

Deferred charges consist of:

	1980	1979
At cost:		
Heavy oil projects	7,090	12,647
Polar Gas Project	15,372	13,501
Arctic Liquefied Natural Gas Project	10,899	7,502
Other	6,631	3,582
Net of amortization		
Debt expense	434	585
Marketing program	1,117	
	<u>41,543</u>	<u>37,817</u>

6. Long-Term Debt

Long-term debt consists of:

	Maturity	1980	1979
In Canadian dollars			
Bank Income Debentures	1983	140,000	180,000
6.25%—14.75% mortgages ..	1985	1,549	1,640
Other long-term debt, non-interest bearing	1987	2,800	3,200
In United States dollars			
9% unsecured notes (\$60,000,000 US)	1996	71,116	71,078
8.45% unsecured notes (\$30,000,000 US)	1987	35,539	35,539
5.25% unsecured notes (\$22,100,000 US)	1985	26,351	30,817
5.75%—6.25% mortgages (\$3,734,000 US)	1988	4,485	5,096
6.5% secured notes (\$97,700 US)	1982	1,235	2,136
		<u>283,075</u>	<u>329,506</u>
Less portion due within one year		61,668	47,270
		<u>221,407</u>	<u>282,236</u>

Bank Income Debentures

The Bank Income Debentures are held by a Canadian chartered bank and bear interest at approximately 50% (1979—52%) of the bank's prime lending rate as announced from time to time. No deduction is allowed under the Income Tax Act for interest expense relating to the Bank Income Debentures (Note 9).

While the Bank Income Debentures are not secured by any charge against the assets of the Corporation, there are certain restrictions with respect to the disposition or encumbrance of the investment by the Corporation in PEX.

Repayment of long-term debt

Annual repayments of the 9% and 8.45% unsecured notes will commence in 1981 and 1982 respectively. All the other issues are currently subject to minimum annual repayments.

The repayment of long-term debt in each of the next five years is as follows:

1981—\$61,668,000, 1982—\$66,353,000, 1983—\$56,406,000, 1984—\$16,338,000, 1985—\$16,127,000.

7. Preferred Shares Issued by a Subsidiary

The preferred shares issued by PEX consist of 12,500,000 floating rate, cumulative, redeemable, non-voting, preferred shares issued at \$100 US per share to a group of Canadian chartered banks.

The shares are redeemable, at the option of PEX, at \$100 US per share, plus accrued dividends except that to the extent shares in excess of 3,125,000 are redeemable prior to November 10, 1981, such excess shares are redeemable at a premium of \$2 US per share.

Cumulative dividends, payable quarterly, are based on a percentage of, at the option of PEX, either the United States Base Rates, or the London Inter-Bank Offered Rates of the banks. At December 31, 1980, the dividend rate was approximately 10% per annum.

Under the terms of an agreement between the banks and the Corporation, in the event that PEX does not exercise its option to redeem the shares over a ten year period beginning December 31, 1983, or in the event of certain occurrences under the provisions of the agreement, the banks have the option to require the Corporation to purchase the shares at \$100 U.S. per share, plus accrued dividends.

PETRO-CANADA—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 1980—Continued

8. Capital

Authorized:

The initial authorized capital of the Corporation was \$500 million divided into 100 common shares of the par value of \$5 million each. This was increased to 116 common shares on the acquisition of the capital stock of Panarctic Oils Ltd. previously owned by the Government of Canada.

Pursuant to the Petro-Canada Act, and subject to certain conditions and limitations as to the aggregate amount, the authorized capital of the Corporation is increased by the issue of preferred shares. Accordingly, at any time, the authorized and issued preferred shares are identical. The preferred shares have a par value of \$1 each, are redeemable at par at the option of the Corporation, carry no stated rate of dividend and are non-cumulative.

Issued (to the Government of Canada):

	1980		1979	
	Number of Shares	Consideration	Number of Shares	Consideration
Common Shares				
Balance at beginning of year	116	580,000	88	440,000
For cash			28	140,000
Balance at end of year	116	580,000	116	580,000
Preferred Shares				
Balance at beginning of year	343,799,853	343,800	337,799,853	337,800
For cash	80,000,000	80,000	6,000,000	6,000
Balance at end of year	423,799,853	423,800	343,799,853	343,800

9. Income Taxes

The provision for income taxes of \$155,464,000 (1979—\$121,968,000) represents an effective rate of 48.8% (1979—48.2%) on earnings before income taxes of \$319,150,000 (1979—\$253,022,000). The provision has been computed as follows:

	1980	1979
Earnings before income taxes	319,150	253,022
<i>Add (deduct)</i>		
Royalties and other payments to Provincial Governments	213,231	227,020
Federal allowances		
Resource allowance	(132,791)	(123,288)
Tax depletion	(94,730)	(77,978)
Frontier exploration allowances	(5,198)	(28,603)
Non-deductible interest on Bank Income Debentures (Note 6)	12,879	13,385
Non-taxable portion of capital gains	(39)	(14,966)
Amortization of excess of attributed value over book value of assets acquired on purchase of subsidiary companies	48,520	63,141
Equity in earnings of affiliates	(16,026)	(15,580)
Other	(4,326)	(662)
	<u>340,670</u>	<u>295,491</u>
Combined Canadian Federal and Provincial income tax at 48.8% (1979—47%)	166,247	138,881
Deduct tax rebates and credits		
Provincial income tax rebate plans	(10,783)	(13,327)
Federal investment tax credit		(3,586)
Provision for income taxes	<u>155,464</u>	<u>121,968</u>

10. Comparative Figures

Certain reclassifications have been made to the 1979 comparative figures to conform with the current year's presentation.

11. Commitments and Contingent Liability

Commitments

In addition to commitments incurred in the ordinary course of business the Corporation has, at December 31, 1980, the following undertakings:

- The Corporation has entered into an agreement to participate in the construction of a new Calgary office complex and has also entered into an agreement to participate in the construction of an offshore drilling vessel. These projects will require a commitment by the Corporation of approximately \$183,600,000, which is expected to be financed by mortgage borrowings. In addition the Corporation has agreed to enter into long-term leases with respect to the use of the offshore drilling vessel and the occupancy of the office complex.
- The Corporation has leased certain offshore drilling vessels for periods of one to four years. The lease rentals will amount to approximately: 1981—\$65,800,000, 1982—\$123,000,000, 1983—\$96,700,000 and 1984—\$65,200,000. These vessels will be used by the Corporation in exploration projects carried out during the Canadian drilling season and the lease rentals will be shared with other participating companies. Further it is planned to sublease the drilling vessels while they are not being used in such projects.
- The Corporation is a participant in a project operated by Syncrude Canada Ltd. to produce synthetic crude oil from the Athabasca Oil Sands. Associated with the Syncrude Project are facilities which are not owned by the participants, consisting of a steam and electricity generating plant, a field gas supply pipeline and a pipeline to transport plant product to Edmonton. The Corporation, together with the other participants, has minimum usage commitments relating to these facilities.

Contingent liability

On January 9, 1980 Atlantic Richfield Company served the Corporation and PEX with a Statement of Claim requesting that the Corporation cause PEX to pursue a monetary claim for \$12,039,000 against the Government of Saskatchewan with respect to payments made by it under certain Saskatchewan legislation (subsequently determined to be unconstitutional) prior to the time the shares of PEX were acquired by the Corporation from Atlantic Richfield Company. The Statement of Claim asks the court, inter alia, for certain injunctive relief and general damages in the amount of \$20,000,000.

Prior to the service of the Statement of Claim, PEX had executed an assignment and quitclaim agreement with the Government of Saskatchewan pursuant to which the payments made under the unconstitutional legislation were applied in satisfaction of an assessment under the Oil Well Income Tax Act, 1978 for the same period as the payments previously made.

In the opinion of management, based on the advice of counsel, no provision for the claim is required in the accounts of the Corporation.

PETRO-CANADA—Concluded

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1980—Concluded

12. Segmented Information

The Corporation operates principally in the following business segments:

Business Segment	Operations
Natural resources	Exploration, development and production activities for crude oil, natural gas, field liquids, sulphur, oil sands, coal and minerals.
Refined oil products	Refining crude oil into oil products, distribution and marketing of these and purchased refined oil products.
Natural gas liquids	Extraction of liquids from natural gas; transportation, distribution and marketing of the natural gas liquids.

The financial results of operations by business segment are as follows:

	1980			
	Natural Resources	Refined Oil Products	Natural Gas Liquids	Total
Sales to customers	508,866	251,086	215,446	975,398

Other identifiable assets include cash and short-term deposits, investments in other companies, general corporate assets and miscellaneous corporate ventures.

13. Subsequent Event

Pursuant to an agreement with the majority shareholder of Petrofina Canada Inc., dated February 2, 1981, the Corporation has agreed to make an offer to acquire all of the issued and outstanding common shares of petrofina Canada Inc. for an initial aggregate consideration of approximately \$1.46 billion. The agreement, which is subject to certain conditions, rulings and approvals, provides for the acquisition of not less than 51% of the shares in 1981. The balance may be acquired during 1982 and 1983 and the agreement provides for an escalation of the purchase price for such shares in recognition of an interest factor. Funds for the acquisition will be provided from a combination of government and bank financing.

ROYAL CANADIAN MINT*(Incorporated under the Royal Canadian Mint Act)*

AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1980
WERE NOT AVAILABLE AT DATE OF PRINTING

THE ST. LAWRENCE SEAWAY AUTHORITY

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO

I have examined the balance sheet of The St. Lawrence Seaway Authority as at March 31, 1981 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

Ottawa, Ontario

THE ST. LAWRENCE SEAWAY AUTHORITY—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

As at March 31, 1981 the Authority held the following fixed assets:

1. Objectives and operations

The St. Lawrence Seaway Authority was established under The St. Lawrence Seaway Authority Act and is classified as a proprietary Crown corporation under Schedule D of the Financial Administration Act.

The Authority was established to construct and operate a deep waterway between the Port of Montreal and Lake Erie together with such works and other property, including bridges incidental to the deep waterway, as deemed necessary by the Governor in Council. The Authority recognizes revenues based upon the shipping season which normally corresponds to the Authority's fiscal year commencing April 1. In the event that the season opens prior to April 1, the revenues earned are deferred until the commencement of the new fiscal year. Expenses which are largely period related are recognized when incurred.

The Authority is operated by three members and its transactions must be approved by a quorum consisting of the President (or Acting President) together with one other member. On January 31, 1980 the Authority had two vacancies and approval of transactions after that date remained outstanding pending the appointment of an additional member.

On July 3, 1980 a President was appointed by Order in Council thus reinstating the existence of a quorum. All transactions that have taken place during the period February 1 to July 3, 1980 have since been reviewed, ratified, confirmed and approved by the Authority.

2. Significant accounting policies and financial information

(a) Investments

The investment in wholly-owned subsidiaries is recorded at cost. The accounts of the subsidiaries have not been consolidated in these financial statements because the equity of the subsidiaries does not accrue to The St. Lawrence Seaway Authority and because the management of The St. Lawrence Seaway Authority does not control the resources of the Great Lakes Pilotage Authority Ltd. Separate financial statements for the subsidiary companies are available to the public. Summary financial information is also included in Note 4.

The investment in Canada bonds is recorded at cost. All gains or losses, including any premium or discount on acquisition, are recognized when the bonds are sold.

(b) Fixed assets

All expenditures for additions, replacements or major improvements which increase the capacity of the deep waterway system are capitalized. Expenditures for repairs and maintenance are charged to operations as incurred. The cost of assets sold, retired, or abandoned, and the related accumulated depreciation are removed from the accounts on disposal. Gains or losses on disposals are included in the statement of operations.

Depreciation is recorded on a straight-line method based on the estimated useful lives of the assets.

	Depreciation Rate	Cost	Accumulated Depreciation	Net Book Value
		\$	\$	\$
Land		31,509,980		31,509,980
Buildings	2%	11,939,259	5,296,241	6,643,018
Channels and canals	1%	243,075,545	51,290,642	191,784,903
Locks	1%	228,242,860	68,775,099	159,467,761
Bridges	2%	39,577,372	18,733,820	20,843,552
Tunnels	2%	46,469,412	7,667,453	38,801,959
Movable equipment	2-20%	11,583,971	5,842,262	5,741,709
Interest during construction ..		32,822,016		32,822,016
Remedial works—expenditures on properties owned by others, relating to Seaway construction ..	1%	134,018,970	17,278,433	116,740,537
Works under construction ..		5,587,838		5,587,838
		<u>784,827,223</u>	<u>174,883,950</u>	<u>609,943,273</u>

No depreciation has been provided on the amount of \$32,822,016 which represents interest which had been capitalized during construction of the Welland Modernization Project. It is anticipated that the interest will be cancelled and reversed in the near future as part of the second phase of the refinancing of the Authority.

(c) Income taxes

The Authority, as a Schedule D Crown corporation, is subject to the provisions of the Canadian Income Tax Act. The Authority has approximately \$20,750,000 of tax loss carry forwards available to apply against taxable income of future years up to March 31, 1982.

Reported income differs from taxable income because of timing differences, principally depreciation claimed for accounting purposes which exceeds the capital cost allowances claimed for tax purposes. The tax effect of this difference has not been recorded in the accounts.

The Authority also has investment tax credits of approximately \$508,000 available to reduce future taxes payable. These tax credits expire in varying amounts up to March 31, 1986.

The Authority is not subject to the provisions of any provincial income tax Act.

(d) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to employees.

(e) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. These contributions represent the total liability of the Authority and are recognized in the accounts on a current basis.

(f) Grants in lieu of taxes

Grants in lieu of municipal and school taxes are recorded when paid.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Concluded*NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981—*Concluded*

3. Refinancing

On April 1, 1977, loans from Canada of \$624,950,000 were converted to equity by parliamentary appropriation. The unpaid interest on these loans is reflected on the balance sheet as deferred interest. This deferred interest, on which no further accrual of interest is required, is not classified as a current liability because it is the intention of the Authority to seek approval from Parliament to have the unpaid interest forgiven.

A parliamentary appropriation authorizing the 1977 conversion of loans from Canada to equity also authorizes the Minister to fix, from time to time, the amount that shall be paid by the Authority annually out of its toll revenue as a return on capital. No return on capital has been required to be paid for this fiscal period.

4. Financial information of subsidiaries

The investment in wholly-owned subsidiaries consists of the cost of the shares of the following subsidiaries:

	\$
Great Lakes Pilotage Authority, Ltd. (G.L.P.A.).....	1,500
The Jacques Cartier and Champlain Bridges Incorporated (J.C.C.B.)	100
The Seaway International Bridge Corporation, Ltd. (S.I.B.C.).....	8,000
	<u>9,600</u>

Summary financial information for these companies for their most recently completed fiscal year is as follows:

	G.L.P.A. Dec. 31/80	J.C.C.B. Mar. 31/81	S.I.B.C. Dec. 31/80
	\$	\$	\$

Expenses	9,572,329	12,435,667	916,519
Bridge user charge paid to the Authority.....			70,493
Net income (loss) for the year	<u>40,267</u>	<u>(6,102,642)</u>	

5. Agreements of sale

The Authority has entered into long-term contractual agreements for the sale of a parcel of land and for the recovery of costs associated with the construction of certain facilities.

These amounts are being paid in annual instalments in accordance with the terms of the contractual agreements and bear interest at rates varying from 5¼% to 5½%.

6. Contingent liabilities and commitments

In connection with its operations, the Authority is the claimant or defendant in certain pending or threatened claims and lawsuits. It is the opinion of management that these actions will not result in any material liabilities to the Authority.

Contractual expenditures, committed but not expended, at March 31, 1981 amounted to \$3,034,487.

THE SEAWAY INTERNATIONAL BRIDGE CORPORATION, LTD.
(Incorporated under the Canada Business Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of The Seaway International Bridge Corporation, Ltd. as at December 31, 1980 and the statements of operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1980

1. Nature of activities

The Seaway International Bridge Corporation, Ltd. was incorporated for the purpose of operating and managing the international toll bridge system between Cornwall, Ont., and Rooseveltown, N.Y., on behalf of The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation.

2. Significant accounting policies

(a) Depreciation

Depreciation of equipment is based on the estimated useful life of the assets calculated on a straight-line method at the following rates:

Automotive	20%
Office and Shop	10%
Toll equipment	10%

(b) Employee termination benefits

Employees of the Corporation are entitled to specified benefits on termination as provided for under the conditions of employment. The liability for these benefits is recorded in the accounts as the employees become entitled to the benefits.

(c) Pension plan

All employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Corporation. These contributions represent the total pension liability of the Corporation and are recognized in the accounts on a current basis.

(d) Deferred income

Unredeemed toll tokens are recorded as deferred income.

3. Bridge user charge

By agreement between The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation, the annual income from the bridge system after all operating expenses, is distributed as a bridge user charge, first to the Authority to offset the amortization of the cost of the North Channel Bridge together with interest, then to the Corporation to offset the amortization of the Racquette River Bridge, and the balance, if any, is then divided equally between both parties.

All bridge user charges since the commencement of operations have been paid to The St. Lawrence Seaway Authority.

4. Debentures payable

The debentures due on December 31, 2012 are non-interest bearing and are payable to the Saint Lawrence Seaway Development Corporation.

5. Reclassification of comparative figures

The comparative figures disclosed in the previous year's financial statements have been reclassified in order to conform with this year's presentation.

TELEGLOBE CANADA

AUDITOR GENERAL OF CANADA

THE HONOURABLE FRANCIS FOX, P.C., M.P.,
MINISTER OF COMMUNICATIONS,
OTTAWA, ONTARIO

I have examined the balance sheet of Teleglobe Canada as at March 31, 1981 and the statements of income, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances, except as explained in the following paragraph.

As described in Note 4 to the financial statements, partnership accounts in respect of the Commonwealth Telecommunications Organisation's financial arrangements have been finalized only to March 31, 1975 under the current Agreement. For those years in respect of which accounts have not been finalized, the Corporation has included estimated amounts recoverable from the partnership in income, and has provided in its liabilities for the excess of provisional settlements received over the estimated recoverable amounts. However, available information is not adequate to enable me to assess the probable results of the final settlements for those years. Consequently, I am unable to determine whether adjustments to current liabilities, income tax, retained earnings, net income and funds derived from operations might be necessary.

In my opinion, except for the effects of adjustments, if any, which I might have determined to be necessary if I had been able to satisfy myself with respect to the estimated recoverable amounts and the excess of provisional settlements received over the estimated recoverable amounts described in the previous paragraph, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

Balance, end of year	199,626	170,206

The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1981

1. Nature of activities

Teleglobe Canada, created by the Teleglobe Canada Act, is mandated to establish, maintain and operate Canada's international telecommunication services and to coordinate these services with those of other countries.

2. Significant accounting policies

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in Canada. Significant accounting policies of the Corporation are as follows:

(a) Fixed assets

Fixed assets are stated at acquisition cost, which includes salaries, wages and employee benefits related to construction activities. Fixed assets owned jointly are accounted for proportionally to the Corporation's share. In addition, for major capital projects, an allowance for funds used during construction is added to the cost of the assets acquired.

The Corporation was designated by the Government of Canada to be the Canadian signatory to the International Telecommunications Satellite Organization (INTELSAT) Operating Agreement and accounts for its ownership in the international satellite system on a joint-venture basis. Periodically, each signatory's ownership share is adjusted to conform to its percentage of total use of the system. The Corporation's ownership share as at March 31, 1981, is 2.873088 per cent (1980—2.545520 per cent). Teleglobe's proportionate interest in INTELSAT is reported as fixed assets in the space segment class at depreciated cost.

TELEGLOBE CANADA—Continued

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1981—Continued

(b) Allowance for funds used during construction

The Corporation provides for a return on capital invested in new facilities under construction. To this end, it includes an allowance for funds used during construction as an item of income during the construction period and also as an addition to the cost of these facilities. Such income is not realized currently but will be realized over the service life of the facilities. The rate applied in determining the allowance is based on the interest rate established by the Minister of Finance for long-term Government loans to Crown corporations.

(c) Depreciation

Fixed assets are depreciated over their respective estimated service lives, using the straight-line method. Where assets are taken out of service prior to the expiry of their estimated lives, any undepreciated balances, less salvage values, are charged to depreciation. However, in the event of a satellite launch failure, costs are depreciated over the life of the group of satellites. No depreciation is charged on major capital projects until construction has been completed.

The estimated service lives for determining depreciation on the various classes of fixed assets are:

	Years
Buildings	20—40
Leasehold improvements	over the term of the lease
Furnishings	8—10
Cable systems	20—25
Terminal, transmission and switching equipment	3—14
International satellite system space segment	4—12
Other plant and equipment	5—25

(d) Foreign exchange

Current assets and current liabilities in foreign currencies are translated to Canadian dollars at exchange rates prevailing at the balance sheet date. Other assets are translated to Canadian dollars at historical rates. Revenues and expenses are translated at average monthly exchange rates for the month in which the transactions are reflected in the accounts except for depreciation which is translated at rates prevailing when the related assets were acquired. Currency gains and losses are reflected in Other income-net.

(e) Revenues

Public services include telephone, telex and telegraph traffic. Public service revenues reflect the Corporation's portion of amounts billed to domestic and foreign subscribers by domestic carriers and foreign administrations. Estimates are included to provide for that part of revenues for which connecting carriers and administrations have yet to report to the Corporation.

Revenues from other services are derived primarily from the leasing of circuits to other administrations and private users. Revenues from INTELSAT represent the Corporation's share of revenues derived from its ownership in the international satellite system, less its share of operating expenses excluding depreciation in the amount of \$1,969,000 (1980—\$1,675,000).

(f) Income tax

The Corporation, being a Federal Crown corporation, is not subject to provincial income tax.

The Corporation records income taxes on the tax allocation basis which recognizes the income tax effect on transactions when they are recorded in accounting income, regardless of when such items are recognized for tax purposes.

(g) Commonwealth Telecommunications Organization (CTO)

The Corporation is the designated Canadian participant in the CTO, the purposes of which are to promote the development and efficient operation of the Commonwealth external telecommunication system and to provide for the administration of collaborative financial arrangements. The financial agreement provides that the aggregate expense incurred by all partners, in the provision and operation of each facility within the Commonwealth system, is apportioned to partners based on the use they make of each facility. Use of the system is measured in terms of number of units of traffic carried over each facility within the system.

Provisional settlements are effected between partners during each financial year on the basis of estimated traffic volumes and system costs. Final settlements can only be effected after the close of each year on the basis of audited data submitted by each partner. Since all of this data is not available to the Corporation, final settlements cannot be accurately predicted. Therefore, Teleglobe Canada follows the practice of recording estimated recoverable costs in each financial year. Adjustments are recorded in its accounts as additional information becomes available and at the time final settlements are made.

(h) Pension plan

All employees of the Corporation employed in Canada are covered by the pension plan administered by the Government of Canada. The employees and the Corporation are required to contribute equally to the cost of the plan for current services. These contributions represent the total liability of the Corporation in this matter and are recognized in its accounts on a current basis.

(i) Retirement benefits

A benefit equivalent to 50 per cent of accumulated unused sick leave days, calculated at the salary in effect at the time of retirement, is payable to employees upon retirement. The current cost of the benefit is expensed in the year in which it is earned by employees.

(j) Retirement compensation benefit

On November 1, 1974, the Corporation replaced its post-retirement life insurance plan by a retirement compensation benefit, for all employees on staff at that date. The cost of this benefit is recognized in the accounts in the year in which payments are made. The maximum liability of the Corporation under this scheme, should all entitled employees retire while in the service of the Corporation, amounts to \$2,042,100 (1980—\$2,166,500).

(k) Deferred charges

Deferred charges represent the cost of the supergroup circuits interconnection incurred during the construction of the Laurentides earth station. This cost is amortized over a period of 5 years at \$284,000 per year.

TELEGLOBE CANADA—Continued

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1981—Continued

3. Fixed assets

- (a) The main classes of fixed assets as at March 31 are as follows:

	1981 (in thousands of dollars)		1980	
	Cost	Accumulated depreciation	Net	Net
Land	3,478		3,478	3,450
Buildings and leasehold improvements	24,228	8,581	15,647	14,549
Furnishings	4,561	1,447	3,114	2,509
Cable systems	82,224	49,066	33,158	39,356
Terminal, transmission and switching equipment	111,645	55,392	56,253	53,864
International satellite system space segment	22,498	13,069	9,429	4,862
Other plant and equipment	17,902	9,910	7,992	5,799
Construction in progress	45,490		45,490	38,690
	<u>312,026</u>	<u>137,465</u>	<u>174,561</u>	<u>163,079</u>

- (b) Fixed assets are owned outright by the Corporation or owned jointly with other telecommunications entities, as follows:

	1981		1980	
	(in thousands of dollars)			
Owned outright	205,654	195,017		
Owned jointly (Corporation's share)	106,372	87,118		
	<u>312,026</u>	<u>282,135</u>		

- (c) Construction in progress includes an amount of \$14,294,000 (1980—\$11,427,000) for the international satellite system (INTELSAT).

4. Commonwealth Telecommunications Organisation (CTO) financial arrangements

- (a) Final settlements of partnership accounts

As at March 31, 1981, the Governments of 26 Commonwealth countries are signatories to the CTO Financial Agreement, 1973. Due to the fact that some partners are delinquent in submitting audited statements of incurred expenses and traffic volumes, it has only been possible to finalize partnership accounts up to March 31, 1975 under the current Agreement.

During the year, the Corporation submitted its audited accounts for the year ended March 31, 1979 under the current Agreement which commenced April 1, 1973.

As at March 31, 1981, the Corporation had received provisional settlements amounting to \$79,486,000 for the six years for which these accounts remain unfinalized.

- (b) Estimated amount due to CTO Partners

The estimated amount due to CTO Partners as at March 31, 1981 represents the difference between the provisional settlements received for the six years then ended and the estimated amounts recoverable for these years.

- (c) Estimated amount recoverable from CTO Partners

The estimated amount recoverable from CTO Partners reflected in the statement of Income comprises:

	1981	1980
	(in thousands of dollars)	
Adjustment relating to the years for which accounts have been finalized	3,107	
Adjustment based on additional information received and relating to the years for which the accounts remain unfinalized	3,030	8,696
Estimated amount recoverable for the current year	10,407	12,668
	<u>16,544</u>	<u>21,364</u>

- (d) Under the 1973 Agreement, an estimated amount of \$3,200,000, representing adjustments to leased circuits revenues from foreign administrations for the four years ended March 31, 1979, was included in income for the year 1979-80.

5. Long-term debt

Loans from the Government of Canada bear interest at rates ranging from 3 1/2 per cent to 6 3/4 per cent.

Maturities by year and interest rates are:

	(in thousands of dollars)				
	3 1/2— 4%	4 3/8— 5%	5 1/2— 6%	6 1/8— 6 3/4%	Total
1981-82	100	922	1,500	485	3,007
1982-83	104	968	1,581	517	3,170
1983-84	108	1,017	1,665	552	3,342
1984-85	112	875	310		1,297
1985-86	116	920	326		1,362
1986-98	1,749	1,365	102		3,216
	<u>2,289</u>	<u>6,067</u>	<u>5,484</u>	<u>1,554</u>	<u>15,394</u>
Less: instalments due within one year	100	922	1,500	485	3,007
	<u>2,189</u>	<u>5,145</u>	<u>3,984</u>	<u>1,069</u>	<u>12,387</u>

6. Commitments

- (a) Construction in progress

As at March 31, 1981, the estimated cost of completing construction projects, planned and in progress, amounts to approximately \$348,459,000, of which \$59,800,000 relates to the year ending March 31, 1982. Contractual commitments outstanding as at March 31, 1981 amount to approximately \$22,096,000.

- (b) Long-term leases

The Corporation is a party to certain long-term leases for property and facilities used in the course of its activities. As at March 31, 1981, the aggregate minimum annual rentals which will be paid in the following years are:

	(in thousands of dollars)
1981-82	10,503
1982-83	9,957
1983-84	9,989
1984-85	5,327
1985-86	4,879
1986-91	1,559

Rental expenses under such leases for the year ended March 31, 1981 are \$10,051,000 (1980—\$7,333,000).

TELEGLOBE CANADA—Concluded

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1981—Concluded

(c) Agreement with the Department of Transport

Under the terms of an agreement between the Corporation and the Department of Transport, the Corporation charters the cableship/icebreaker C.C.G.S. John Cabot on a cost reimbursement basis for periods of actual usage. This agreement is cancellable on 12 months' notice. During the year, the Corporation expensed an amount of \$1,977,000 (1980—\$3,019,000).

(d) INTELSAT commitments

As at March 31, 1981, the Corporation's share of INTELSAT's outstanding commitments is approximately \$22,225,000 based on INTELSAT's audited financial statements as at December 31, 1980.

7. Other income—Net

	1981	1980
	(in thousands of dollars)	
Allowance for funds used during construction	1,787	2,207
Interest on Government of Canada bonds and discount on Treasury bills	1,346	653
Interest on other temporary investments	10,257	9,331
Other interest	1,611	1,346
Loss on foreign exchange	(151)	(859)
Profit (loss) on disposal of fixed assets	45	(107)
	<u>14,895</u>	<u>12,571</u>

8. Interest expense

	1981	1980
	(in thousands of dollars)	
Interest on long-term debt	890	1,036
Other interest	384	1,931
	<u>1,274</u>	<u>2,967</u>

9. Income tax

	1981	1980
	(in thousands of dollars)	
Current	32,623	28,322
Deferred	2,562	2,785
	<u>35,185</u>	<u>31,107</u>

10. Comparative figures

Certain comparative figures for 1980 have been restated to conform to the financial statement presentation adopted for the year 1981.

URANIUM CANADA, LIMITED
(Continued under the Canada Business Corporations Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE MARC LALONDE, P.C., Q.C., M.P.,
MINISTER OF ENERGY, MINES AND RESOURCES,
OTTAWA, ONTARIO.

I have examined the balance sheet of Uranium Canada, Limited as at December 31, 1980 and the statement of operations of accounts administered for Canada and the statement of account due to Canada for assets administered for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1980 and the results of the operations administered by the Corporation for the account of Canada and the account due to Canada for assets administered for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of accounts have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

RHÉAL CHATELAIN

Due to Canada, end of the year	94,187,720	85,793,800

The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Objective of the Corporation

The objective of the Corporation is to negotiate, execute and perform agreements for the purchase, stockpiling and sale of uranium concentrates and to do or procure the doing of anything necessary or incidental thereto, all subject to the approval of the Governor in Council.

2. Significant accounting policies

(a) Services provided without charge

Administrative services are provided to Uranium Canada, Limited (UCAN) without charge by the Department of Energy, Mines and Resources and are not recorded in the accounts of the company.

(b) Inventories

Inventories are carried at the lower of cost and net realizable value. Warehousing and other carrying charges are borne directly by Canada and are not reflected in these accounts.

(c) Foreign exchange

Transactions effected in US funds have been recorded at the rate of exchange prevailing on the dates of the transactions.

Asset accounts have been translated into Canadian funds at the rates prevailing at December 31. Gains or losses on foreign exchange are included in the Statement of Operations.

3. Long-term receivables

(a) Long-term loans of uranium receivable

Agreements have been entered into by Canada and UCAN to loan uranium from the stockpile with repayment to be made in kind. The concentrates on loan have been recorded at inventory cost.

The agreement with Eldor Resources Limited (Eldor), a wholly-owned subsidiary of Eldorado Nuclear Limited, provides for a loan of up to 770 tonnes of uranium (U) all of which had been delivered to Eldor by May 16, 1979. Eldor repaid 192.3 tonnes in 1980. As collateral for the loan, Eldor has given Canada and UCAN a debenture of \$200 million which is secured by a fixed and floating charge on all of its assets and undertakings, both present and future. If Eldor is unable to meet its obligations to return borrowed concentrates on schedule, UCAN has access to Eldor's undivided one-sixth equity interest in the Key Lake, Saskatchewan joint venture.

On January 5, 1979 Canada and UCAN entered into an agreement with Ontario Hydro granting the latter options to borrow up to three hundred tonnes U in the first borrowing period ending January 16, 1979, and 500 tonnes U in the second borrowing period ending December 31, 1979. Three hundred tonnes were borrowed by Ontario Hydro in accordance with the first option but no borrowings were made against the second option. Ontario Hydro repaid the uranium loan in full on November 18, 1980.

(b) Long-term interest receivable

The loan agreement with Eldor provides for an interest charge calculated on the quantity of uranium borrowed, the current market price of the uranium prevailing at the time of borrowing and the appropriate Crown corporation borrowing rate.

Interest payments are to be made on the last business days of June and December in each year following achievement of commercial production at Key Lake. Accordingly, the total interest accrued as at December 31, 1980, amounting to \$18,147,966 (1979 total \$7,986,430) has been shown as a long-term receivable.

4. Price and quantity adjustments on prior years' sales

Final deliveries of uranium to complete the 1972 sales agreements with Spanish electric utilities were made in 1978. In the current and prior year final adjustments were made to prices and quantities shipped.

5. Selling expenses

Selling expenses include weighing and sampling costs on the return of uranium concentrate loans, surcharges on defective concentrate lots and adjustments to prior years' commissions.

6. Adjustment to prior years' cost of uranium concentrates sold

Revisions made during the year to the average unit cost of the uranium stockpile resulted in an adjustment to the cost of uranium concentrates sold as reported in prior years.

7. Subsequent event

Vote L107c, Appropriation Act No. 4, 1980-81, which was passed by Parliament on March 25, 1981, authorized the transfer by the Minister of Energy, Mines and Resources to Eldorado Nuclear Limited of the title in the uranium stockpile, including any outstanding obligations under the loan agreement between

URANIUM CANADA, LIMITED—*Concluded*

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1980— *Concluded*

UCAN and Eldor Resources Limited and the interest accrued under the agreement.

In order to effect this transfer, title to the assets, which was originally held by Canada, will be returned to Canada. As beneficial ownership has always been retained by Canada, the transfer between UCAN and Canada will not involve any exchange of consideration.

The following pro forma Balance Sheet reflects how the transfer would have affected the Corporation's Balance Sheet as at December 31, 1980, had the transfer been made on that date.

BALANCE SHEET AS AT DECEMBER 31, 1980

VIA RAIL CANADA

(Incorporated under the Canada Business Corporations Act)

AUDITORS' REPORT

TO THE HONOURABLE
THE MINISTER OF TRANSPORT,
OTTAWA, CANADA.

We have examined the balance sheet of Via Rail Canada Inc. as at December 31, 1980 and the statements of income and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these financial statements are properly drawn up so as to give a true and fair view of the state of affairs of the Corporation as at December 31, 1980 and the results of its operations and the changes in financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under our notice have been within the powers of the Corporation.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Operating agreements

(a) Railway Passenger Services Contract

The Corporation has entered into an agreement with the Government of Canada whereby the Corporation is to provide services, activities, functions and undertakings relating to the provision, management and operation of railway passenger service in Canada.

The agreement also provides that the Minister of Transport and the Corporation shall enter into Subsidiary Service Request agreements with respect to specified intercity rail passenger services (rationalized services). The first such service request to provide a Western Transcontinental Railway Passenger Service became effective for the period from October 29, 1978. On April 1, 1979 agreements were entered into for most intercity rail passenger services presently being provided in Canada. Accordingly, the comparative amounts for 1979 include 9 months of operations for all services except for the Western Transcontinental.

(b) Canadian National Railway Company and Canadian Pacific Limited

The Corporation has entered into operating agreements with the railroads for the use of tracks and facilities, provision of operating train personnel and rolling stock servicing. Agreements have also been entered into for the refurbishing of passenger cars and locomotives. The costs relating to these agreements are to be determined in accordance with the regulations of the Canadian Transport Commission. The Corporation incurred certain management expenses and operating costs on behalf of the railroads for those rail services which were not subject to a subsidiary service request during the period from January 1 to March 31, 1979. By agreement the Corporation allocated to the railways \$17,904,000 of revenues collected and charged the railways \$14,256,000 for expenses incurred on their behalf.

2. Summary of Significant Accounting Policies

(a) Revenue Recognition

Net income from contracts with the Government of Canada for intercity rail passenger services will be recognized on the completed contract basis. All losses will be recognized when known.

Passenger revenue is determined from gross sales less an estimated amount for advance ticket sales carried forward as a current liability.

(b) Adjustments of Operating and Refurbishing Costs

Charges from the contracting railways in respect to the operating and refurbishing agreements and amounts recoverable from the railways for costs incurred by the Corporation on behalf of the railways during the period to March 31, 1979 are recorded based on incurred and estimated expenses determined in accordance with the agreements and the regulations of the Canadian Transport Commission. The estimates will be subject to adjustment following submission to and approval by the Canadian Transport Commission of the actual costs incurred each year by the parties concerned.

(c) Property and Equipment

Property and equipment are accounted for in accordance with the regulations of the Canadian Transport Commission which include the capitalization of the initial costs of refurbishing and rebuilding of rolling stock and locomotives not previously owned and which is designed to improve the standards required and to extend the useful lives of the assets concerned.

VIA RAIL CANADA — *Concluded*NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980—*Concluded*

The cost of assets retired or disposed of, less salvage, is charged to accumulated depreciation in accordance with the group method of depreciation.

(d) Depreciation

Depreciation of passenger cars and locomotives is calculated on a straight-line basis in accordance with the group method at rates designed to write off locomotives and other rolling stock over their estimated useful lives.

No depreciation is provided on initial purchase of office furniture and equipment. Cost of replacements will be expensed as incurred.

Leasehold and infrastructure improvements are amortized over the terms of the leases or with reference to the estimated useful life, as appropriate.

No depreciation is provided for projects in progress.

(e) Capitalized Interest on Progress Payments for Purchase of Equipment

Interest on advances for purchase of equipment is capitalized to properly reflect the total cost thereof. The rates used to calculate interest correspond to the rates paid for capital funds.

(f) Deferred Charges

Deferred charges relate to the costs incurred for the development of an automated reservations and ticketing system which are being amortized over a period of 7 years.

(g) Income Taxes

The tax allocation basis of accounting for income taxes is followed whereby tax provisions are based on accounting income and taxes relating to timing differences between accounting and taxable income are deferred.

3. Progress Payment

During the year the Corporation made an advance payment of \$25,000,000 on a contract in progress. This advance will bear interest if certain conditions are not met and in the event of default the repayment is guaranteed by a third party.

4. Property and Equipment—At Cost

	1980	1979
	\$	\$
Passenger cars and locomotives.....	143,968,000	102,279,000
Stations	1,330,000	639,000
Office furniture and equipment.....	1,908,000	727,000
Leasehold and infrastructure improvements	8,926,000	5,414,000
	<u>156,132,000</u>	<u>109,059,000</u>
Accumulated depreciation and amortization	15,312,000	9,807,000
	<u>140,820,000</u>	<u>99,252,000</u>
Progress payments for purchase of equipment	50,864,000	10,969,000
	<u>191,684,000</u>	<u>110,221,000</u>

The purchase price of \$52,023,000 recorded for the passenger cars and locomotives acquired from the Canadian National Railway Company under a conditional sales agreement may be subject to adjustment following review by the Canadian Transport Commission. Determination of the adjustment, if any, has not yet been finalized.

5. Long-term Debt

The long-term debt consists of the balance of purchase price due to Canadian National Railway Company for equipment acquired, with interest at 10%, repayable in monthly instalments of \$723,000 to and including April 1, 1984. Title to the equipment purchased remains with the vendor until full payment has been made.

6. Contributed Surplus

Contributed surplus represents advances received from the Government of Canada for capital expenditures.

7. Pension plan

A condition precedent to the establishment of the Corporation was that those employees engaged by the Corporation previously employed by either Canadian National Railway Company or Canadian Pacific Limited would be fully protected in as far as their pension benefits accrued under the Pension Plans of their former employers. During 1980 agreement was reached with the railways and funds were transferred to the Corporation's Pension Plan which was established from January 1, 1979. An actuarial valuation of the pension plan is in the process of completion. For 1980 contributions to the plan in respect of current service and anticipated unfunded liability in respect of past service amounted to \$6,463,000 (1979—\$7,947,000).

8. Related Party Transactions

VIA Rail Canada Inc. is a Crown Corporation with all of the issued shares owned by the Government of Canada.

In the normal course of business the Corporation contracted for services from other Crown Corporations which in 1980 amounted to \$281,763,000.

9. Commitments

As at December 31, 1980 the Corporation had outstanding commitments for the purchase of fixed assets and infrastructure improvements amounting to approximately \$50,000,000.

10. Leases

The Corporation has certain lease commitments for the rental of buildings and equipment with aggregate net rentals of approximately \$1,812,000 per annum expiring at various dates to 1989.
