To His Excellency

The Right Honourable Edward Schreyer,
C.C., C.M.M., C.D.,
*Governor General and
Commander-in-Chief of Canada.*

MAY IT PLEASE YOUR EXCELLENCY:

The undersigned has the honour to present to Your Excellency the Public Accounts of Canada for the year ended March 31, 1981.

All of which is respectfully submitted.

Allan J. MacEachen,
Minister of Finance.

OTTAWA, SEPTEMBER 15, 1981

*To The Honourable Allan J. MacEachen,
Minister of Finance.*

In accordance with the provisions of Section 55(1) of the Financial Administration Act, Revised Statutes of Canada, 1970, c. F. 10, I have the honour to transmit herewith the Public Accounts of Canada for the year ended March 31, 1981, to be laid by you before the House of Commons.

Respectfully submitted,

Jean-Jacques Blais,
Receiver General for Canada.

OTTAWA, SEPTEMBER 15, 1981

*To The Honourable Jean-Jacques Blais,
Receiver General for Canada.*

Sir:

I have the honour to submit the Public Accounts of Canada for the year ended March 31, 1981.

Under Section 55(1) of the Financial Administration Act, Revised Statutes of Canada, 1970, c. F. 10, the Public Accounts for each fiscal year shall be prepared by the Receiver General and shall be laid before the House of Commons by the Minister of Finance on or before the thirty-first day of December next following the end of that year, or if Parliament is not then sitting, within any of the first fifteen days next thereafter that Parliament is sitting.

This annual report is presented in three volumes:

Volume I—A survey of the transactions for the year including summary statements; the financial statements of Canada on which the Auditor General has expressed an opinion, namely, the statements of transactions, of revenue and expenditure on a gross and net basis, of the assets and liabilities of Canada and of the use of appropriations together with related notes; the observations by the Auditor General on the financial statements of Canada; analyses of budgetary revenue and expenditure, and of asset and liability accounts together with those statements required by the Financial Administration Act to be published in the Public Accounts and various other schedules and statements.

Volume II—Details of the financial operations of the Government, segregated by department.

Volume III—The financial statements of Crown corporations and the auditors' reports thereon.

Respectfully submitted,

D. H. W. Kirkwood,
Deputy Receiver General for Canada.

OTTAWA, SEPTEMBER 15, 1981

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 55 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the Accounts of Canada and from more detailed records maintained in departments and agencies. The Accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department is responsible for the accuracy of its accounts and maintains detailed records of the transactions in those accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years. The report also includes the financial statements of those Crown corporations and other bodies whose accounts are maintained separately from the Accounts of Canada. The financial year of a number of these corporations and other bodies is the calendar year rather than the fiscal year of the Government.

Format of the Public Accounts

The Public Accounts is produced in three volumes.

Volume I

Volume I presents a summary and analysis of the financial transactions of the Government. The content of the sections of Volume I can be summarized as follows:

SECTION 1: summary statements of the financial transactions of the Government of Canada on both a Public Accounts and an Extended National Accounts basis;

SECTION 2: audited financial statements of the Government of Canada, prepared in accordance with Section 55 of the Financial Administration Act;

SECTION 3: observations by the Auditor General on the financial statements;

SECTION 4: review of budgetary revenue;

SECTION 5: review of budgetary expenditure;

SECTION 6: analysis of loans, investments and advances;

SECTION 7: analysis of specified purpose accounts;

SECTION 8: analysis of other assets and other liabilities;

SECTION 9: analysis of foreign exchange accounts;

SECTION 10: analysis of unmatured debt;

SECTION 11: analysis of other accounts reported on the Statement of Assets and Liabilities;

SECTION 12: supplementary information required by the Financial Administration Act; and,

SECTION 13: other miscellaneous information.

Volume II

Volume II presents the financial operations of the Government, segregated by department. It contains financial operations of individual departments and their associated agencies, and additional information and analysis.

(a) DEPARTMENTAL FINANCIAL OPERATIONS

In a fashion similar to the Estimates, Volume II uses a uniform set of statements to present each department's financial operations. In most respects, the level of detail is the same as in the Estimates, and provides the following information:

(i) Use of Appropriations

This is the principal departmental statement. It is a summary of the use of the authority given by Parliament in appropriation acts and other statutes. It displays, by program:

- the wording of the relevant appropriations or statutes;
- the amount authorized under each appropriation or statute;
- the total use made during the year of the authorized amounts;
- unexpended balances (amounts lapsed and carried forward) or amounts overexpended; and,
- total use for the previous year.

(ii) Total Cost of Programs—Budgetary

This table shows the total calculated cost for each program, by adding to budgetary expenditure, the values of services provided by other departments, and of accommodation provided by the reporting department and by the Department of Public Works, and by deducting non-tax receipts credited to revenue.

The total calculated program cost is also reflected in the Estimates and in the Public Accounts in the "Programs by Activity" table.

(iii) *Programs by Activity—Budgetary*

This is a comparison of budgetary appropriations with actual expenditures and the imputed costs and revenues referred to in (ii). The table displays total program expenditures by activity and type of vote, and total cost of programs by type of vote. It is related to the "Program by Activities" table displayed in the Estimates.

(iv) *Grants and Contributions*

This table displays details of amounts appropriated for grants and contributions, by class of recipients and by program, and the payments.

(v) *Budgetary Expenditure by Program and Standard Object*

This table presents expenditure by standard object and relates to the "Objects of Expenditure" table shown in the Estimates.

(vi) *Budgetary Expenditure of Major Capital Projects*

This table presents, by activity within each program, the estimated total cost of each major capital project, together with the related current year estimates and expenditures, and the total expenditure to date.

(vii) *Revenue*

Each department displays summary and detailed statements of revenue collected as part of its operations.

(viii) *Revolving Funds*

The commercial orientation of a revolving fund is reflected in the balance sheet and statement of operations, or income and expenditure, presented each year. A revolving fund's minimum goal is the recovery of cost, and most commercial accounting conventions are used to measure cost.

(ix) *Other Organizations*

To further the objectives of the Government and of departments, various boards, agencies, commissions and accounts have been created by appropriation acts and other legislation. Financial statements for these organizations and accounts are also shown.

(b) **ADDITIONAL INFORMATION AND ANALYSIS**

Further details are provided, in Volume II, to supplement the statements already presented. This supplementary information includes:

- accounts receivable and deletions (Section 32);
- professional and special services (Section 33);
- construction and acquisition of land, buildings, machinery and equipment (Section 34);
- payments of damage claims, ex gratia payments, federal court awards and nugatory payments (Section 35);
- selected miscellaneous payments and federal-provincial shared-cost programs by province (Section 36);
- grants and contributions (Section 37); and,
- miscellaneous statements by department (Section 38).

Volume III

Volume III contains the financial statements of those Crown corporations which are permitted by legislation to keep their own accounts. These are Schedules C and D (agency and proprietary) corporations, as well as the Bank of Canada and The Canadian Wheat Board which, although not designated as Crown corporations, act as agents of Her Majesty. The activities of Schedule B (departmental) corporations are reported by the responsible departments in Volume II, either under departmental budgetary expenditure or in separate reports.

INTRODUCTION

In this section, the financial transactions of the Government of Canada are set out in summary form, with comparative figures for the previous four years. The financial transactions are first presented according to the accounting policies explained in Note 1 to the audited financial statements in Section 2 of this volume, and referred to as the Public Accounts presentation; the second presentation is on the National Income and Expenditure Accounts basis, extended to encompass other financial transactions affecting the Consolidated Revenue Fund. This second form of presentation is hereafter referred to as the Extended National Accounts presentation.

This section is intended to provide an overview of the Government's financial operations, both on the Public Accounts basis and on the Extended National Accounts basis. The Public Accounts presentation reflects the accounting procedures and conventions which have been adopted in providing Parliament with an accounting of the source and use of financial resources. The National Accounts transactions block of the Extended National Accounts presentation is designed primarily to facilitate economic analysis of the federal Government sector on a basis consistent with that used in measuring income and expenditure flows in the economy as a whole. The remaining blocks show the relation between the traditional budget balance on the National Accounts basis and the Government's overall financial requirements, debt transactions and cash position.

Public Accounts Presentation

The "Summary Statement of Transactions" table provides aggregate data on the major categories of transactions under four main headings: budgetary, non-budgetary, foreign exchange and unmatured debt. The resulting cash position at the end of the period is also shown.

The form of presentation is broadly consistent with the tables presented in the Budget Speech, the presentation in the Department of Finance's Economic Review and the Statement of Financial Operations published each month in the Canada Gazette, and is compatible with the form of presentation in other sections of the Public Accounts.

Figures on budgetary expenditure in the Public Accounts presentation of this section for 1976-77 to 1978-79 inclusive have not been adjusted to take account of minor changes in departmental responsibilities which may have occurred; thus, components are not strictly comparable from one year to the next. However, the statements have been adjusted to reflect changes which have a material impact on year-over-year comparisons. Contracting-out payments which were formerly part

of fiscal transfers in the Department of Finance have been recorded as part of the Canada Assistance Plan throughout the period in line with current practice; similarly guaranteed loans have been recorded as part of education support whereas they had previously been recorded as expenditures of the Department of Finance. The write-offs in 1977-78 of loans to Atomic Energy of Canada Limited, developing countries and the Canadian Dairy Commission have been reallocated to the individual years to which the transactions relate.

Non-budgetary transactions have been redefined to include subscriptions and notes payable to international organizations other than the International Monetary Fund. These transactions had previously been recorded as foreign exchange transactions.

Extended National Accounts Presentation

The presentation of the Government's financial transactions on an Extended National Accounts basis in the Public Accounts was first introduced for the year ended March 31, 1977. This form of presentation is consistent with the tables presented in the Budget Speech.

As in the Public Accounts presentation, the transactions are categorized under four main headings: the traditional National Income and Expenditure Accounts which are referred to herein as National Accounts transactions, loans and other transactions, foreign exchange and unmatured debt transactions. The resulting cash position at the end of the period is also shown. It may be noted that starting with the line entitled "financial requirements (excluding foreign exchange)", the Extended National Accounts presentation is identical to the Public Accounts presentation.

The total for loans and other transactions will differ from the non-budgetary transactions in the Public Accounts presentation due in part to differences in coverage. Loans to certain agencies such as Atomic Energy of Canada Limited, as well as advances to certain special funds, are excluded in arriving at the total of loans and other transactions on the Extended National Accounts presentation, as transactions of these agencies and special funds are included in National Accounts transactions. Similarly, the receipts and disbursements of Government pension and social security accounts, such as the Unemployment Insurance Account, are included in National Accounts transactions whereas they appear in the non-budgetary section in the Public Accounts presentation. In determining the surplus or deficit of National Accounts transactions on a National Accounts basis, certain revenue items—such as corporate income taxes—are reflected on an accrual as opposed to a cash basis. The loans and other transactions section includes the adjusting entry required to convert from the accrual basis of revenue and expenditure to a cash basis.

SUMMARY STATEMENT OF TRANSACTIONS—PUBLIC ACCOUNTS PRESENTATION

Total financial requirements, excluding foreign exchange transactions, amounted to \$10,117 million for the year ended March 31, 1981. The budgetary deficit of \$12,668 million was offset by \$2,551 million of non-budgetary transactions. Foreign exchange transactions provided a \$1,157 million source of funds. Total financial requirements were \$8,960 million in 1980-81. These transactions, together with the \$11,153 million increase in unmatured debt, resulted in cash balances of \$5,931 million at March 31, 1981, up \$2,193 million from the \$3,738 million balance at the beginning of the year.

The audited statements, presented in Section 2 of this volume, reflect the change in the level of the provision for the valuation of assets in the particular years in which the provision was adjusted. The adjustment of the provision does not affect financial requirements since this is internal to the Government. Table 1.1.1. presents the transactions on a his-

torical basis consistent with the Statement of Transactions in Section 2.

In order to provide a historical series on a consistent accounting base the provision has been reallocated to the year to which the funds applied. Table 1.1.2 presents the financial transactions on a reallocated basis as described below. With respect to the Government's share of unemployment insurance costs, the net requirements of revolving funds, the undisbursed balances of appropriations to special accounts and the unamortized portion of bond flotation costs, the amounts have been recorded as expenditure of the departments to which they relate in the year the funds applied. That portion of the general provision which relates to loans, investments and advances has also been reallocated to the years to which it applies, but has not, however, been identified with any particular department. The allocation of this provision by fiscal years is shown in Table 1.3.

I. Budgetary Transactions

A. Revenue

Total budgetary revenue grew by \$6,453 million, or 16.1%, to a level of \$46,507 million in 1980-81. Increased personal and corporate income taxes and higher sales taxes were the major contributors to the \$5,742 million increase in total tax revenue. The growth in non-tax revenue was from increases in Bank of Canada profits and Exchange Fund Account profits.

Personal income tax revenue showed strong growth for the second year in a row, increasing by \$3,029 million or 18%. This increase reflects strong growth in the personal income tax base. Per capita income growth exceeded the indexing factor for 1980. The introduction of the spousal salary deduction for unincorporated businesses is estimated to have reduced collections by less than \$100 million.

Corporate income tax collections increased by 16.6% in 1980-81. A number of new tax measures were introduced in 1980 which in total increased corporate revenue. These include the small business development bond, reduced write-offs for oil and gas properties and the temporary 5% surtax on corporate

collections. The petroleum and gas revenue tax, introduced in 1980 and levied on net operating income from petroleum and natural gas production, increased revenues by \$27 million.

Revenue from indirect taxes increased by \$1,448 million or 14.1%. More than half of this increase was due to sales tax revenue which grew by 15.6% or \$731 million. Revenue from excise duties and other excise taxes rose by 16.4% and 14.1% respectively, reflecting the 10% increase in taxes and duties on tobacco and alcohol introduced on April 21, 1980. Oil export charge revenues grew by 12.3% as the differential between domestic and international crude oil prices widened. The slow growth in customs import duties reflects the impact of tariff cuts under the Multilateral Trade Negotiations. The first reductions were introduced on January 1, 1980 and further cuts were effective at the beginning of 1981. The natural gas and gas liquids tax introduced in the October 28, 1980 Budget increased revenue by \$187 million.

Return on investments increased by \$786 million or 23.5%. Almost 85% of the growth was due to Bank of Canada profits, Exchange Fund Account profits and interest on bank deposits. These, in turn, reflect higher interest rates, higher cash balances, and Government sales of gold.

II. Non-budgetary Transactions

A. Loans, Investments and Advances

Requirements for loans, investments and advances were only \$523 million in 1980-81 or \$905 million below the 1979-80 level of \$1,428 million. This decrease reflected a reduction of \$747 million in net requirements of lending institutions, principally on account of the Federal Business Development Bank and the Canada Mortgage and Housing Corporation. The Federal Business Development Bank provided a net source of \$101 million in 1980-81 compared to a requirement of \$245 million in 1979-80, for a net reduction of \$346 million. The reduction in loan requirements reflects the federal government's policy of permitting the Bank to obtain its financing from the private sector. Net requirements for the Canada Mortgage and Housing Corporation, at \$66 million in 1980-81, were \$300 million below the 1979-80 level, reflecting the government's policy of shifting requirements from loans to budgetary expenditure. Requirements for Atomic Energy of Canada Limited were \$913 million lower in 1980-81 compared to 1979-80. These reductions have been partly offset by an increase of \$360 million in Petro-Canada's requirements, from \$80 million in 1979-80 to \$440 million in 1980-81.

The reduction in loan requirements for Atomic Energy of Canada Limited includes a write-off of \$627 million. Other write-offs include: Canadian Broadcasting Corporation, \$198 million; National Capital Commission, \$38 million; and Yukon and Northwest Territories, \$151 million. These and other write-offs were offset by a decrease in the allowance for

valuation account and therefore had no impact on non-budgetary requirements. There was, however, a \$307 million reduction in loans resulting from the 1980-81 allocation to the allowance for valuation account.

B. Specified Purpose Accounts

The specified purpose accounts provided a net source of \$2,781 million in 1980-81 or \$734 million above the 1979-80 level of \$2,047 million. This change reflects increases of \$341 million, \$610 million and \$255 million for the superannuation accounts, the provincial tax collection agreements account and other deposit and trust accounts respectively, partly offset by an increased requirement of \$532 million for the Unemployment Insurance Account.

The \$532 million additional requirement for the Unemployment Insurance Account reflects increases of \$602 million and \$237 million in benefit payments and administrative expenses respectively. Government contributions to the Account were \$221 million lower, at \$946 million in 1980-81 compared to \$1,167 million in 1979-80. Employer-employee contributions rose by \$539 million from \$2,860 million in 1979-80 to \$3,399 million in 1980-81.

C. Other Transactions

Other transactions provided a net source of \$293 million in 1980-81 compared to a net source of \$416 million in 1979-80. The \$123 million reduction reflects changes in year-end accounts such as cash in transit, accounts payable and outstanding cheques, warrants and postal money orders.

III. Foreign Exchange Transactions

Foreign exchange transactions include the operations of the Exchange Fund Account to maintain orderly conditions in the exchange markets and to effect payments by various departments for the purchase of goods and services. Also included in foreign exchange transactions are subscriptions and notes payable to the International Monetary Fund. Total foreign exchange transactions gave rise to a source of \$1,157 million in 1980-81 compared to a requirement of \$128 million in 1979-80.

IV. Unmatured Debt Transactions

Marketable bonds payable in Canadian currency increased in 1980-81 by \$7,895 million and Treasury bills by \$5,445

million; net redemptions of Canada savings bonds amounted to \$2,269 million. In total, net unmatured debt payable in Canadian currency increased by \$11,153 million in 1980-81 compared to an increase of \$7,878 million in 1979-80.

V. Cash Balance at End of Period

Financial requirements, including foreign exchange transactions, amounted to \$8,960 million. This was more than financed by an increase of \$11,153 million in unmatured debt transactions. The excess of the increase in unmatured debt over financial requirements resulted in an increase in cash balances at March 31, 1981 of \$2,193 million above the March 31, 1980 level of \$3,738 million.

SUMMARY STATEMENT OF TRANSACTIONS—EXTENDED NATIONAL ACCOUNTS PRESENTATION

The National Income and Expenditure Accounts were developed as a basis for economic analysis of income and expenditure flows in the economy as a whole. The concepts and definitions applied to the Government sector are consistent with those applied to other sectors and follow international practices developed under the aegis of the United Nations. The economic nature of a transaction is the determining factor in its classification within the National Accounts framework. The Extended National Accounts present, in addition to the traditional National Accounts revenue, expenditure and balance shown here under the heading "National Accounts transactions", the items which account for the difference between the

National Accounts budget balance and total financial requirements on a Public Accounts basis.

In 1980-81, National Accounts transactions resulted in a deficit of \$9,864 million. Loans and other transactions gave rise to a requirement of \$253 million. Foreign exchange transactions provided a source of \$1,157 million and unmatured debt transactions provided a source of \$11,153 million. As previously noted, foreign exchange and unmatured debt transactions are identical to those reported in the Public Accounts presentation.

I. National Accounts Transactions

A. Revenue

On a National Accounts basis, total revenue increased by \$7,690 million or 17% to a level of \$52,847 million. Most of the influencing factors behind the growth in revenue on a National Accounts basis were identical to those which contributed to the growth in revenue on a Public Accounts basis. Higher direct taxes on persons and corporations and higher energy taxes are the major factors contributing to the increase in revenue.

The increase in direct taxes on persons was \$3,722 million or 17.9%. Personal income tax revenue grew by 18.2%, contributions to Government pension plans grew by 11.7% and employer-employee contributions for unemployment insurance increased by 18.7%.

Corporate tax liabilities rose by 13.5% or \$996 million in 1980-81. This increase is reflected in the growth of corporate profits on a National Accounts basis over 1980 and in the introduction of a 5% corporate surtax.

The growth in indirect taxes amounted to 21.2% in 1980-81. Increases of \$1,021 million in revenue from the petroleum compensation charges, \$697 million in federal sales taxes, \$162 million in excise duties and \$183 million in customs import duties accounted for approximately 85.0% of this increase in indirect taxes. The natural gas and gas liquids tax, and the special compensation charge, introduced in 1980, provided \$176 million, in revenue.

Investment income increased by 11.7%. Most of the growth was due to an 18.8% increase in interest on public-held funds and a 12.8% increase in interest on loans and advances.

B. Expenditure

Federal government expenditure on a National Accounts basis was \$62,711 million in 1980-81, an increase of \$8,239 million or 15.1% over 1979-80. This compares with growth rates of 10.3% in 1979-80 and 8.4% in 1978-79.

Transfer payments to persons, which rose by \$2,312 million from \$14,933 million in 1979-80 to \$17,245 million in 1980-81, accounted for 28.1% of the total increase in expenditure. Old age security benefits increased by 17.4% or \$1,086 million in 1980-81. This increase was due to the indexing of payments and the increase in the number of recipients. In addition,

unemployment insurance benefits grew by 15.0% or \$597 million for a total of \$4,585 million. Family and youth allowances increased by only \$126 million or 7.3%.

From an amount of \$3,837 million in 1979-80, subsidies increased substantially in 1980-81 by 44.6% to \$5,547 million. The \$1,710 million increase represents 20.8% of the total increase in expenditure. Within this category, the oil price stabilization payments accounted for \$1,529 million or 89.4% of the \$1,710 million increase. This growth in the oil compensation payments to \$3,162 million reflects the widening gap between domestic and international oil prices.

Interest on the public debt rose by \$2,159 million or 25.9% in 1980-81 reflecting higher interest rates and the increase in outstanding debt. Interest on the public debt accounted for 26.2% of the total increase in expenditure.

Goods and services grew by 11.3% to \$14,336 million in 1980-81 compared with increases of 7.0% and 4.7% in 1978-79 and 1979-80 respectively. Non-defence wages and salaries and supplementary labour income amounted to \$6,872 million in 1980-81, an increase of \$627 million or 10.0% over the previous year. Defence wages and salaries grew by 8.8% in 1980-81 to \$1,691 million. Non-wage goods and services rose by \$695 million or 13.7% to \$5,773 million in 1980-81. Expenditures on defence goods and services increased by 17.6% to \$5,180 million accounting for 36.1% of total expenditure on goods and services compared to 34.2% in 1979-80 and 33.9% in 1978-79.

Capital assistance to industry increased by only 5.8% in 1980-81 to \$655 million while current transfers to non-residents dropped marginally to \$778 million or by 2.1%. Gross capital formation decreased by 15.4% or \$141 million to \$775 million.

Transfer payments to other levels of government increased slightly by 5.9% to \$12,876 million in 1980-81 compared with growth rates of 12.3% in 1979-80 and 6.7% in 1978-79. The main programs under the Established Programs Financing grew marginally over the previous year with increases in post-secondary education, hospital insurance and medicare of 5.3%, 0.7%, and 5.3% respectively. This reflects the inclusion of large prior years adjustment payments in 1979-80 and reductions in 1980-81. Payments under the Canada Assistance Plan rose by 16.4% or \$270 million to \$1,917 million in 1980-81, and equalization payments increased moderately by 8.1% to \$3,590 million in 1980-81.

II. Loans and Other Transactions

A. Loans, Investments and Advances

Requirements for loans, investments and advances were \$634 million in 1980-81 or \$675 million below the level of \$1,309 million recorded in 1979-80.

Loans, investments and advances to lending institutions were \$167 million or \$741 million below the 1979-80 level of \$908 million. This reduction was partially offset by an additional \$360 million requirement for Petro-Canada. The write-offs of loans to the Canadian Broadcasting Corporation and the Governments of the Yukon and Northwest Territories were offset by entries to the allowance account. The 1980-81 allowance account also contains a \$307 million credit compared to \$139 million in 1979-80 for an increase of \$168 million.

B. Accrual Accounts

This category reflects mainly the difference between accrued taxes, interest receivable and accounts payable compared to the actual amount of taxes received, interest and accounts paid.

These accrual accounts resulted in a net requirement of \$572 million in 1980-81 compared to a requirement of \$116 million in 1979-80. The \$572 million requirement resulted from a \$693 million requirement in cash in transit.

C. Other Transactions

Other transactions provided a source of \$953 million in 1980-81 compared to a source of \$295 million in 1979-80. The \$658 million change reflects principally a \$610 million additional increase in the outstanding balance of the provincial tax collection agreements account.

PUBLIC ACCOUNTS AND EXTENDED NATIONAL ACCOUNTS RECONCILIATION

While the Public Accounts and the Extended National Accounts presentations result in the same total financial requirement figures, differences exist in the treatment of transactions in arriving at the budgetary surplus or deficit on a Public Accounts basis and the surplus or deficit on an Extended National Accounts basis. These differences are necessarily offset in the non-budgetary components of total financial requirements.

The reconciliation of transactions according to the two systems of presentation is set out in the tables that follow. The major factors which give rise to the need for a reconciliation are listed below.

In the Public Accounts presentation, Post Office revenue and expenditure are considered as budgetary transactions. In the National Accounts presentation, the postal service is considered to be of a business rather than governmental nature and Post Office revenue and expenditure, as such, are not included in the National Accounts presentation. However, the deficit or surplus of the Post Office is treated as a component of the investment income of its 'owner', the Government.

The deficits of Government business enterprises which are outside the Government accounting entity are, for Public Accounts presentation purposes, met through budgetary appropriations and thus recorded as budgetary expenditure. In the National Accounts presentation, these deficits are netted against Government investment income.

Revenue in the Public Accounts is recorded on a cash basis. While the major portion of National Accounts revenue is

accounted for on a cash basis, certain items such as corporate income taxes and the oil export charge are reported on an accrual basis.

Transactions of employee pension accounts and the Unemployment Insurance Account are treated as non-budgetary in the Public Accounts, although the Government's statutory contributions to these accounts and interest payments on the Government's liability to these accounts form part of budgetary expenditure. Employer and employee contributions to these accounts, plus any related interest income, form part of Government revenue in the Extended National Accounts presentation, and benefit payments form part of Government expenditure.

In the Public Accounts presentation, the purchase of capital assets such as buildings and machinery is recorded as a budgetary expenditure in the year of acquisition. Only newly produced capital assets and capital expenditures are included in National Accounts expenditure. Both Government revenue and expenditure include an allowance for the depreciation of capital assets in the latter framework while no such provision is made in the Public Accounts presentation.

The Extended National Accounts universe includes certain Government agencies which are not part of the Public Accounts universe. The actual financial transactions of those agencies form part of Extended National Accounts revenue and expenditure. Transfers and loans to these agencies are thus not accounted for in the Extended National Accounts presentation.

PREFACE TO THE AUDITED FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA

The accounting policies adopted by the Government and summarized in Note 1 to the financial statements are the result of continuing developments over the years and form the basis for the preparation of the financial statements, designed primarily to provide an accounting of the financial resources appropriated by Parliament. The fundamental requirement to report compliance with legislative authority results in the presentation of financial information in a manner significantly different from that found in the private sector. The accrual basis of accounting used in the private sector best reflects the costs incurred to earn revenues; the policies followed by the Government, under which revenue is on the cash basis and the use of appropriations is on generally the accrual basis, best accommodate reporting to Parliament.

The four financial statements in this section, together with the accompanying notes, are presented for audit in compliance with Section 55 of the Financial Administration Act. These statements form the basis of the Government's accounting for the management of the financial authorities granted by Parliament. Other sections in this volume, together with Volumes II and III of the Public Accounts, are designed to provide information supporting the financial statements.

The first financial statement is the Statement of Transactions, which summarizes all transactions of the Government, as defined in Note 1 (ii), and shows how the financial requirements were met, and the effect of all transactions on the cash balance. The financial transactions are classified into four main categories: budgetary, non-budgetary, foreign exchange and unmatured debt.

The first category, budgetary transactions, consists of all the transactions which enter into the calculation of the annual surplus or deficit of the Government, and includes the receipts from tax and non-tax revenue together with the expenditures authorized by Parliament. Revenue is recognized only when received and does not include amounts due but not collected. Budgetary expenditure, however, is recorded largely on the accrual basis and includes charges for work performed, goods received, services rendered, transfer payments made, amortization of the actuarial deficiencies of the three main superannuation accounts, a provision for estimated losses on realization of recorded assets and accruals for interest on unmatured debt. Fixed assets, which include land, buildings, works and equipment, are not capitalized but are charged to budgetary expenditure at the time of acquisition or construction. Budgetary expenditure does not include amounts payable or accrued at the year end, for contributions paid from statutory appropriations, employee termination benefits, unpaid annual vacation entitlements and the indexing of pensions.

The second category, non-budgetary transactions, includes loans, investments and advances made by the Government, the Government's liability to outside parties from its role of administrator of certain public monies received or collected for special purposes, and other liabilities recorded as a result of the budgetary accruals mentioned above. These transactions account for the change in the financial claims due to or by the Government, in accordance with the accounting policies referred to in Note 1 to the financial statements.

The third category, foreign exchange transactions, reflects transactions with the Exchange Fund Account, required to protect the external value of the Canadian dollar, together with an accounting of the net position of the Government with respect to the International Monetary Fund. Foreign exchange transactions also include unmatured debt payable in foreign currencies.

The fourth category, unmatured debt transactions, represents the extent to which financial requirements have been met through the increase in unmatured debt, that is the net changes in the amounts owing for such debt instruments as marketable bonds, Canada savings bonds and Treasury bills. Unmatured debt transactions exclude unmatured debt payable in foreign currencies.

The second statement is the Statement of Revenue and Expenditure. This statement gives a more detailed accounting of the budgetary transactions summarized in the Statement of Transactions. The annual surplus or deficit represents the difference between the expenditures and the revenues of the year in accordance with the accounting policies previously described.

The third statement is the Statement of Assets and Liabilities. Since this statement is based on the Government's accounting policies, it does not parallel the conventional balance sheet presented in the private sector. More particularly, fixed assets having been accounted for as expenditures, are recorded at the nominal value of \$1, and revenues not yet received, such as uncollected taxes, are not recorded as financial claims. The effect of inflation on the economic value of the Government's reported assets and liabilities has not been reflected. It is generally recognized that inflation tends to reduce the value of financial assets and liabilities while at the same time increasing the recorded value of fixed assets. Thus it should be noted that the difference between the reported assets and liabilities is simply the aggregate of budgetary surpluses and deficits determined in accordance with the accounting policies of the Government; in no way does this difference reflect the Government's net worth.

The fourth statement is the Statement of Use of Appropriations, which summarizes, by department, the use, during the year, of parliamentary appropriations for budgetary expenditure and loans, investments and advances.

Notes to the Financial Statements of the Government of Canada

I. Significant Accounting Policies

The accounting policies of the Government of Canada are based on concepts embodied in the British North America Act, the Financial Administration Act and other legislation.

i. Basic concepts

The two basic concepts on which the Government's accounting system is based are found in the British North America Act: first, the concept of the Consolidated Revenue Fund, which emanates from the requirement that all duties and revenues received, other than those reserved to the provinces, "shall form One Consolidated Revenue Fund"; second, the concept that the balance of the Fund, after certain prior charges, "shall be appropriated by the Parliament of Canada".

Parliament provides authority to make payments out of the Consolidated Revenue Fund in annual appropriation acts and other statutes (referred to as statutory appropriations). Spending authority granted in appropriation acts is for stated purposes and maximum amounts. Unless provided for in vote wording, unused spending authority granted in appropriation acts lapses at the end of the year for which granted. Spending authority provided by statutory appropriations is for specified purposes and for such amounts and such time as the acts prescribe. Spending authority provided by statutory appropriations does not lapse at the end of the year in which granted.

ii. Government of Canada as an accounting entity

For purposes of maintaining the Accounts of Canada and preparing the Public Accounts as required by the Financial Administration Act, the Government of Canada is defined as all the departments named in Schedule A of the Act; any division or branch of the Public Service, including a commission appointed under the Inquiries Act, designated by the Governor in Council as a department for purposes of the Financial Administration Act; the staffs of the Senate, the House of Commons, and the Library of Parliament; and, any corporation named in Schedule B of the Financial Administration Act.

In accordance with the above definition, the corporations named in Schedules C and D of the Financial Administration Act are excluded from the Government of Canada as an accounting entity; therefore, their financial statements are not consolidated with those of the Government. The financial statements of these Crown corporations are presented in Volume III of the Public Accounts.

In addition, certain accounts and funds have financial statements which are not combined with those of the Government, but appear separately in Volumes I and II. These accounts and funds include the Exchange Fund Account, the Canada Pension Plan Account, the Unemployment Insurance Account and other similar accounts.

iii. Classification of financial transactions

The financial transactions of the Government as recorded in the Accounts of Canada and reflected in the Public Accounts are classified into budgetary, non-budgetary, foreign exchange and unmatured debt transactions.

In general terms, budgetary transactions enter into the calculation of the annual surplus or deficit and are disclosed on the Government's Statement of Revenue and Expenditure. All other transactions lead to the acquisition or disposal of financial claims or to the creation or discharge of financial obligations, and are disclosed on the Statement of Assets and Liabilities.

For purposes of accounting and reporting, the Public Accounts uses the classification in force at the end of the year to which the report refers, and presents figures for the previous year adjusted where necessary to provide consistency.

iv. Budgetary revenue

Budgetary revenue consists of all tax and non-tax receipts which affect the deficit or surplus of the Government and includes revenue internal to the Government.

The Government generally reports revenue in the year in which it is received, with refunds of revenue allocated to the year in which they are actually paid.

Revenue is reported after deducting refunds paid and excludes amounts receivable, taxes collected on behalf of provinces, receipts from contributors to the Canada Pension Plan, the Unemployment Insurance and the superannuation accounts, and receipts and revenues credited to other asset and liability accounts.

In the Statement of Revenue and Expenditure, revenue is reported both gross and net. The difference between the two is revenue credited to appropriations, and postal receipts used to defray postal expenditures.

v. Budgetary expenditure

Budgetary expenditure consists of all charges to budgetary appropriations which affect the deficit or surplus of the Government. Such charges include those for work performed, goods received, services rendered, and transfer payments made, during the year, and, expenditure internal to the Government.

Expenditure excludes pensions paid under the Canada Pension Plan, superannuation and other pension accounts, Unemployment Insurance payments other than benefits to fishermen, payments financed from undisbursed balances of appropriations to special accounts and payments charged to other asset and liability accounts.

In the Statement of Revenue and Expenditure, expenditure is reported both gross and net. The difference between the two is revenue credited to appropriations, and postal receipts used to defray postal expenditures.

vi. *Assets*

Assets are defined as the financial claims acquired by the Government of Canada on outside organizations and individuals as a result of events and transactions prior to the accounting date.

However, as a result of the Government's accounting policies described above, and in accordance with the provisions of the Financial Administration Act and other legislation, certain financial claims are not reported on the Statement of Assets and Liabilities. The most important of these are accounts receivable for tax and non-tax revenue.

vii. *Liabilities*

Liabilities are defined as financial obligations to outside organizations and individuals as a result of events and transactions prior to the accounting date.

However, as a result of the Government's accounting policies described above, and in accordance with the provisions of the Financial Administration Act and other legislation, certain financial obligations are not reported on the Statement of Assets and Liabilities. These include amounts for: contributions paid from statutory appropriations; annual vacation and benefits payable upon termination of employment; and, actuarial liabilities arising from the indexing to the cost of living, of superannuate pensions and annuities.

viii. *Fixed assets*

The fixed assets of the Government, which include land, buildings, works and equipment, are charged to budgetary expenditure at the time of acquisition or construction. Their existence, however, is acknowledged on the Statement of Assets and Liabilities by reporting them at the nominal value of \$1.

ix. *Accumulated deficit*

The accumulated deficit consists of the annual surpluses and deficits since Confederation, together with the write-off of certain amounts charged directly to this account.

x. *Valuation of assets and liabilities***ASSETS**

Assets are recorded at cost and are subject to annual valuation to reflect reductions from the recorded value to the estimated realizable value.

LIABILITIES

Liabilities are recorded in the amounts ultimately payable except for liabilities for the superannuation accounts of the Canadian Forces, the Public Service and the Royal Canadian Mounted Police, and the Government Annuities Account, which are valued on the actuarial basis.

The Canada Pension Plan Account and the Supplementary Retirement Benefits Account are not maintained on the actuarial basis. The Canada Pension Plan Act limits payments from the Consolidated Revenue Fund to the balance in the Canada Pension Plan Account.

xi. *Translation of foreign currency transactions*

Foreign currency transactions are translated and recorded in Canadian currency equivalents at the exchange rates prevailing at the transaction dates.

Assets and liabilities resulting from foreign currency transactions are, in turn, reported at year-end closing rates of exchange; net gains are credited to revenue while net losses are charged to expenditure.

2. Changes in Accounting Policies

On July 10, 1980, Royal assent was given to an Act to adjust the Accounts of Canada and to make related amendments to certain other acts. As a result, the following changes in accounting policies occurred:

i. *Revolving funds*

The non-budgetary authorities for all working capital advances to revolving funds, departments and agencies were terminated. Certain revolving fund operations were continued under non-lapsing budgetary authorities; the remainder has been integrated with other budgetary operations.

As a result of these adjustments, working capital advances to revolving funds of \$811 million have been deleted by a charge to departmental expenditure, and revenues and expenditures resulting from the operations of revolving funds have been included in gross reported revenue and gross departmental expenditure of the Government.

ii. *Government's cost of paying unemployment insurance benefits*

The Act also amended the Unemployment Insurance Act to require that the Unemployment Insurance Account be credited commencing April 1, 1980, with the Government's cost of paying benefits on a current fiscal year basis rather than on a lagged calendar year basis. This change has eliminated the need to make non-interest bearing advances to the Account.

As a result of this adjustment, non-interest bearing advances of \$1,013 million and an allowance for the Government's cost of paying benefits of \$532 million have been deleted by a charge to departmental expenditure.

iii. *Other internal accounts*

Certain other assets and liabilities amounting to \$124 million have also been deleted by a charge to departmental expenditure. Assets deleted were unamortized bond flotation costs of \$140 million, while liabilities deleted were undisbursed balances of appropriations to special accounts of \$16 million.

Since 1979, the amounts deleted under this legislation have been fully provided for in the Accounts of Canada. Accordingly, their deletion has had no effect on the deficit for the current or prior year. However, reported revenue and departmental expenditure for the current year are not comparable with amounts reported for the prior year since the effects of the adjustments described above have not been applied retroactively. The Government's stated accounting policies do not provide for retroactive restatement because it is necessary to report expenditure in accordance with authority granted by

Parliament. Had the effects of the adjustments been applied retroactively, it is estimated that revenue and departmental expenditure would have been reported as follows (actual amounts reported are also shown for comparison):

	(in millions of dollars)			
	As reported		If restated retroactively	
	1981 ⁽¹⁾	1980	1981 ⁽¹⁾	1980

Total departmental expenditure	66,691	53,645	64,211	53,953
Provision for valuation	- 3,202	478	- 722	1,548
Total gross expenditure	63,489	54,123	63,489	55,501
Gross revenue	50,821	41,335	50,821	42,713
Deficit	12,668	12,788	12,668	12,788

⁽¹⁾ It should be noted that the gross expenditure includes the value of loans deleted during the year. The loans include: Canadian Broadcasting Corporation, \$198 million (Communications); Atomic Energy of Canada Limited, \$690 million (Energy, Mines and Resources); Northwest and Yukon territories, \$148 million (Other departments—Indian Affairs and Northern Development).

3. Allowances for Valuation

As stated in Note 1(x), assets are subject to annual valuation to reflect reductions from the recorded value to the estimated realizable value. The \$5,502 million allowances reported on the Statement of Assets and Liabilities at March 31, 1980 has been reduced to \$2,300 million at March 31, 1981. The change in allowances of \$3,202 million is reported on the Statement of Revenue and Expenditure as the provision for valuation.

The decrease in allowances for loans, investments and advances represents the difference between loans deleted during the year and the additional allowances resulting from the annual valuation.

As a result of the changes in accounting policies stated in Note 2 above, no allowances were required in 1981 for accounts internal to the Government and for the Government's cost of paying unemployment insurance benefits. The following table summarizes the allowances for valuation:

	(in millions of dollars)		
			Net increase or decrease (-)
	1981	1980	
Loans, investments and advances	2,300	3,000	- 700
Other assets and liabilities (accounts internal to the Government)		1,970	- 1,970
Government's cost of paying unemployment insurance benefits on a current fiscal year basis		532	- 532
	2,300	5,502	- 3,202

4. Contingent Liabilities of the Government of Canada

A contingent liability is a potential liability which may become an actual liability should certain events occur. The

contingent liabilities of the Government consist of explicit guarantees by the Government, and potential losses arising from pending and threatened litigation relating to claims and assessments in respect of breach of contract, damages to persons and property, and like items.

The contingent liabilities of the Government as at March 31, 1981 amounted to \$4,171 million and are summarized in the following table:

	(in millions of dollars)	
	1981	1980
i) Explicit guarantees by the Government:		
Obligations of entities that are not agents—		
Borrowings by Crown corporations	189	530
Borrowings by other than Crown corporations	1,335	1,245
Other explicit guarantees	919	721
ii) Pending and threatened litigation	1,728	1,482
	4,171	3,978

Details can be found in Section 11 of this volume.

5. Financial Information Regarding Agent Crown Corporations

All assets and liabilities of agent Crown corporations are assets and liabilities of the Government, due to the agency relationship. However, in accordance with the accounting policies of the Government, the accounts of agent Crown corporations are not consolidated with those of the Government and only the financial transactions between the Government and agent Crown corporations are recorded in the Accounts of Canada.

Although borrowings by agent Crown corporations from lenders other than the Government are considered direct liabilities of the Government, such borrowings are not included in the Accounts of Canada since they are intended to be, and in practice are, repaid directly by the corporations.

The following table summarizes financial information regarding agent Crown corporations as at March 31, 1981. The information has not been audited since certain of these corporations have financial year-ends other than March 31.

Details can be found in Section 6 of this volume.

6. Insurance Programs

Certain agent Crown corporations operate insurance programs. In the event that such corporations did not have sufficient funds to meet their obligations, the Government would provide the required financing through appropriations, either budgetary or non-budgetary.

The following table summarizes information regarding such insurance programs. The information has not been audited since the corporations have financial year-ends other than March 31.

7. International Development Assistance—Loans and Subscriptions

i. Loans to developing countries

Included in loans to National governments of \$2,942 million (\$2,713 million in 1980) are loans to developing countries in the amount of \$2,149 million (\$1,896 million in 1980). These loans are part of Canada's international development assistance program and are either interest-free or bear interest at rates that were more favourable than those prevailing in Canada at the time the assistance was provided. The balances outstanding at March 31, grouped by term, are:

Term	Grace period before repayment commences	Interest rate	(in millions of dollars)	
			1981	1980
20 years	5 years	5%	19	
25 years	5 years	6%	2	2
30 years	7 years	3%	168	137
30 years	7 years	*	2

40 years	10 years	*	1	1
50 years	10 years	*	1,953	1,752
			2,149	1,896

* Interest-free.

During the year, loan interest and commitment/service charges of \$3.9 million (\$2.5 million in 1980) was received from developing countries. Details can be found in Sections 6 and 13 of this volume and in Section 8 of Volume II.

ii. Subscriptions and loans to international organizations

Included in Loans, investments and advances—International organizations of \$2,255 million (\$1,966 million in 1980) are subscriptions to the capital of the International Development Association and loans to other international financial institutions of \$1,877 million (\$1,606 million in 1980). These subscriptions and loans are also part of Canada's development assistance program. These institutions make loans to developing countries on terms similar to the loan assistance set out above. Subscriptions to international organizations do not provide a return on investment. They are repayable on termination of the organization or on Canada's withdrawal therefrom. Details can be found in Sections 6 and 13 of this volume.

**OPINION OF THE AUDITOR GENERAL
ON THE
FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA**

I have examined the following financial statements of the Government of Canada for the year ended March 31, 1981:

- Statement of Transactions;
- Statement of Revenue and Expenditure;
- Statement of Assets and Liabilities; and
- Statement of Use of Appropriations.

My examination was made in accordance with generally accepted auditing standards and included such inquiries, tests and other procedures as I considered necessary to enable me to report as required by Section 6 of the Auditor General Act.

In my opinion, these financial statements present information in accordance with the stated accounting policies of the Government of Canada as set out in Note 1 to the financial statements. Further in my opinion, except for the changes in accounting policies relating to revolving funds and the Government's cost of paying unemployment insurance benefits, the effect of which is described in Note 2, the accounting policies are consistent with the preceding year.

I have the following reservations concerning certain of the stated accounting policies of the Government of Canada.

- In accordance with Notes 1(vi) and (x) to the financial statements, the full amounts of special assistance loans to developing countries and subscriptions to the special development funds of international financial institutions are recorded as assets. As described in Note 7, most of the loans are repayable over 50 years without interest, with no payments for the first 10 years. Loans with similar terms are made from the special development funds of international financial institutions. These loans and subscriptions by their terms confer financial benefits, the cost of which, in my opinion, should be included in the Statement of Revenue and Expenditure in the year of the transactions by providing an allowance against the loans and subscriptions. This allowance would be taken into revenue over the next 30 to 50 years in the case of loans, and over a longer period in the case of subscriptions. I have estimated that the adoption of such a practice would reduce reported assets and increase accumulated deficit by approximately \$3.4 billion as at March 31, 1981 (\$3.0 billion as at March 31, 1980).
- As stated in Note 1(vii), certain financial obligations are not recorded. I have estimated that recorded liabilities and accumulated deficit would be increased by approximately \$5.6 billion as at March 31, 1981 (\$4.7 billion as at March 31, 1980) if financial obligations at that date related to contributions paid from statutory appropriations, employee termination benefits and the indexed portion of pensions for persons now retired were recorded. This estimate does not include unrecorded financial obligations related to earned and unpaid annual vacation leave and the indexed portion of pensions for persons not yet retired. In my opinion, all these financial obligations should be appropriately recorded and reported in the financial statements to provide a more complete disclosure of liabilities.

Additional information and comments on these reservations are included in my observations on the financial statements in Section 3 of this volume.

Observations by the Auditor General on the Financial Statements of the Government of Canada

Introduction

I have examined the financial statements of the Government of Canada for the year ended March 31, 1981, which together with my opinion, are included in Section 2 of this volume. These financial statements are the Statement of Transactions, the Statement of Revenue and Expenditure, the Statement of Assets and Liabilities, and the Statement of Use of Appropriations.

My examination was made in accordance with generally accepted auditing standards and included such inquiries, tests and other procedures as I considered necessary to enable me to report as required by section 6 of the Auditor General Act. This section provides that:

“The Auditor General shall examine the several financial statements required by section 55 of the Financial Administration Act to be included in the Public Accounts, and any other statement that the Minister of Finance may present for audit and shall express his opinion as to whether they present fairly information in accordance with stated accounting policies of the federal government and on a basis consistent with that of the preceding year together with any reservations he may have.”

My opinion includes two reservations concerning certain of the stated accounting policies of the Government of Canada. These reservations were included in the Auditor General's opinion last year. The observations that follow provide additional explanatory information on the reservations.

The observations also deal with the reporting of summary financial information to Parliament. In these observations, I comment on the need for generally accepted accounting principles appropriate for governments, the need for improved disclosure in explanatory notes to the financial statements, the need to reconsider the current and potential use of financial statements for government and the information they should display, and the need for strong central direction by the Comptroller General of Canada.

International Development Assistance—Loans and Subscriptions

In accordance with Notes 1(vi) and (x) to the financial statements, the full amounts of special assistance loans to developing countries and subscriptions to the special development funds of international financial institutions are recorded as assets. These loans and subscriptions by their terms confer financial benefits on developing countries, the cost of which is not included in the Statement of Revenue and Expenditure in the year the loans and subscriptions are made. If this cost were so recorded, reported assets would be decreased and accumulated deficit increased by approximately \$3.4 billion as at March 31, 1981 (approximately \$3.0 billion as at March 31, 1980).

Canada provides assistance to developing countries by making grants and contributions and special assistance loans to them and by subscribing to special development funds of international financial institutions. The grants and contributions and the loans and subscriptions all confer financial benefits on developing countries. The grants and contributions, because they are not repayable or otherwise recoverable, are made under budgetary authority, recorded as expenditure and included in the deficit. The loans and subscriptions, because they are repayable or considered to be eventually realizable, are made under non-budgetary authority and recorded as assets.

Special assistance loans and subscriptions to special development funds are, like grants and contributions, an important part of Canada's official program of assistance to developing countries. Over the past 12 years, such loans and subscriptions increased from an accumulated balance of approximately \$200 million before 1969 to approximately \$4,000 million at March 31, 1981. During the same period, approximately \$5,000 million of assistance was provided to developing countries in the form of grants and contributions.

The amount of special assistance loans included in loans to national governments at March 31, 1981 is \$2,149 million. Of these loans, \$1,953 million are repayable over 50 years without interest, with no payments for the first 10 years. Additional information concerning these special assistance loans is presented in Note 7 to the financial statements and on pages 6.29 and 6.30 of Section 6 of this volume. At March 31, 1981, subscriptions to special development funds of international financial institutions amounted to \$1,877 million. These special development funds make loans to developing countries with terms similar to the special assistance loans made by Canada. The terms of these subscriptions provide that, on withdrawal from or termination of the special development funds, Canada will receive a pro-rata share of the funds' assets. Because of the nature of such assets, it would take many years for Canada to realize its share on termination or withdrawal. Additional information concerning these subscriptions is also presented in Note 7 to the financial statements, and on pages 6.31 through 6.33 of Section 6 of this volume.

As described above, amounts expended by the Government in the current and prior years in respect of special assistance loans and subscriptions to special development funds will be recovered or realized without interest over a significant number of years. Since interest is not provided, the Government is not compensated for the use of its funds over the period the loans and subscriptions are outstanding. Since the Government is not compensated for the use of its funds, the present value of the amounts to be recovered or realized in the future is much less than the amounts expended today.

As stated in the Study of the Accounts of Canada: "Ideally, the Government's Statement of Assets and Liabilities should come as close as possible to reflecting the true economic value of the assets and liabilities recorded on it". For example, a Treasury bill, which does not bear interest, is recorded as a liability by the Government at an amount determined by discounting (expressing at present value) future payments of principal at a rate set by public auction at the date of issue. The difference between the amount payable and the amount at which the Treasury bill is recorded—the discount—is the amount of compensation the Government pays for the use of borrowed funds. This compensation is included in interest on the public debt over the period the bill is outstanding.

Sometimes a market value for financial claims and obligations is not available, and an alternative approach is required. For example, when a loan is made to a Crown corporation by the Government, it is recorded as an asset at the amount advanced. To compensate for the use of its funds, the Government charges interest on the loan. In the absence of a market-determined interest rate, the Government calculates an arbitrary rate by reference to its cost of borrowing. Accordingly, the amount at which the loan is recorded is equal to the present value of future repayments of principal and interest, discounted at this rate to the date of issue.

Special assistance loans and subscriptions to special development funds should be similarly recorded at their present value through discounting, at an appropriate rate, amounts that will be recovered or realized in future years. As with loans to Crown corporations, the selection of an appropriate rate is, to some extent, arbitrary. However, it would seem reasonable to determine a rate by reference to the Government's cost of borrowing in the same manner as rates are set for loans to Crown corporations.

Discounted at the Government's long-term borrowing rate for the year of the transactions, the amount that will be recovered or realized in future years in respect of special assistance loans or subscriptions to special development funds is approximately \$600 million at March 31, 1981. In my opinion, this is the amount at which these loans and subscriptions should be recorded in the accounts of Canada at the year end. The difference of \$3,400 million between the amount at which they are currently recorded (\$4,000 million) and the amount at which they should be recorded (\$600 million) represents the cost to the Government of the benefit conferred on developing countries by the terms of these loans and subscriptions. This cost should be recorded by providing an allowance against the loans and subscriptions. This allowance, in the case of loans, would be taken into revenue over the next 30 to 50 years, their terms to maturity. In the case of subscriptions, the allowance would be taken into revenue commencing in the year of Canada's withdrawal from, or the termination of, the special development funds. The period over which the allowance would then be taken into revenue

would correspond to the maturity of the loans outstanding in the funds at the time of such termination or withdrawal.

In its Report dated February 21, 1979, the Standing Committee on Public Accounts recommended that the Office of the Comptroller General expedite a study to establish an appropriate basis for valuing loans to developing countries and subscriptions to international financial institutions, and that it report back to the Committee as soon as possible. The Committee also recommended that appropriate information regarding the loans and subscriptions be disclosed in the notes to the financial statements. As mentioned earlier, Note 7 to the financial statements provides such additional information. The Government has considered what basis is appropriate for valuing such loans and subscriptions and has concluded that, because they are financial claims on outside organizations and therefore assets as defined in Note 1(vi), they should be recorded at cost. In the Government's view, cost is the full amount expended in respect of the loans and subscriptions rather than the present value of amounts that will be recovered or realized in future years. Although there is general agreement that benefits are conferred, the Government considers that the cost of such benefits is indirectly recognized in the accounts and included in the deficit in future years as costs of financing the amounts expended are incurred, and that it is sufficient to disclose the terms of loans and subscriptions outstanding at the year end in a note to the financial statements.

In my opinion, the cost of benefits conferred by the terms of special assistance loans to developing countries and subscriptions to special development funds of international financial institutions should be recorded in the accounts of Canada and included in the Government's Statement of Revenue and Expenditure in the year the loans and subscriptions are made. In addition to recognizing such costs at the time the benefits are conferred, this would result in loans and subscriptions being reported at amounts that more closely reflect their economic value.

Unrecorded Liabilities

The Government has defined liabilities as financial obligations to outside organizations and individuals as a result of events and transactions prior to the accounting date. However, under its stated accounting policies and provisions of the Financial Administration Act and other legislation, certain financial obligations that fit this definition have not been recorded. These unrecorded liabilities include financial obligations at the year end related to contributions paid from statutory appropriations, employee termination benefits, and actuarial liabilities arising from the indexing to the cost of living of superannuation annuities (pensions) for former public service employees (including Canadian Forces and Royal Canadian Mounted Police) or their survivors. My Office has estimated that these unrecorded liabilities amount to approximately \$5,600 million at March 31, 1981 (\$4,700 million at March 31, 1980). In addition to these estimated amounts, there are other financial obligations, related to earned and unpaid annual vacation leave and the indexed portion of pensions for persons not yet retired, that also fit the Government's definition of liabilities but are not recorded.

Following is a summary of those unrecorded liabilities which have been estimated:

	(in millions of dollars)	
	1981	1980
Amounts related to contributions paid from statutory appropriations		
Subsidies under the Railway Act	200	170
Other		30
	<u>200</u>	<u>200</u>
Employee termination benefits	1,200	1,200
Present value of indexed portion of pensions for persons now retired	4,200	3,300
	<u>5,600</u>	<u>4,700</u>

The liability for subsidies under the Railway Act has been estimated by the Canadian Transport Commission. The liability for employee termination benefits, and the present value

of the indexed portion of pensions for former public service employees (including Canadian Forces and Royal Canadian Mounted Police) or their survivors, were estimated by the Department of Insurance based on methods and assumptions used by the Department for purposes of current actuarial reports on the Government's superannuation accounts.

Unrecorded liabilities for earned and unpaid annual vacation leave have not been estimated by my Office because the information required was not readily available during our audit. However, based on annual salary and wage costs, they are also likely to be substantial. The Government should estimate these unrecorded liabilities at the end of each fiscal year by reference to personnel and other records maintained by departments and agencies.

With respect to the indexing of employee pensions, determination of an appropriate liability is somewhat more complex. As a minimum, the liability should include the present value of the indexed portion of pensions for persons now retired. This minimum liability would not include provision for any further increases in these indexed benefits related to increases in the cost of living in future years. The \$4,200 million estimate by the Department of Insurance referred to above has been prepared on this basis. This estimate is also presented on page 7.7 of Section 7 of this volume.

The liability for indexing employee pensions should include some provision for the indexed portion of benefits for persons who have not yet retired and for future indexing for persons now retired as discussed in the preceding paragraph. However, the determination of appropriate amounts is a matter requiring further study. The additional liability may be significant. In my opinion, the Office of the Comptroller General, in consultation with other members of the accounting profession with background in pension issues and with the Chief Actuary of the Department of Insurance, should examine alternative methods of accounting for pension costs and obligations and determine an appropriate basis of recording and disclosing actuarial liabilities and related pension costs arising from the indexing to the cost of living of superannuation annuities.

Based on the definition of liabilities as financial obligations to outside organizations and individuals as a result of events and transactions prior to the accounting date, the exclusion from reported liabilities of the significant financial obligations described above results in an incomplete reporting of liabilities as defined. This directly affects the reported accumulated deficit and financial position at the year end. In my opinion, financial obligations at the year end related to contributions paid from statutory appropriations, employee termination benefits, earned and unpaid annual vacation leave, and actuarial liabilities arising from the indexing to the cost of living of superannuation annuities should be appropriately recorded in the accounts of Canada and reported in the financial statements to provide a more complete accounting and disclosure of liabilities.

Reporting of Summary Financial Information to Parliament

In his 1979 and 1980 observations on the Government's financial statements, the Auditor General called attention to the need for:

- generally accepted accounting principles appropriate for governments;
- improved disclosure in explanatory notes to the financial statements;
- reconsideration of the current and potential use of financial statements for government and the information they should display; and
- strong central direction by the Comptroller General of Canada.

In the following sections of this observation, I comment on each of these matters.

Need for government accounting principles

The Government of Canada prepares its financial statements in accordance with stated accounting policies. These accounting policies are primarily based on concepts found in the British North America Act, as described in Note 1(i), together with other legislative provisions and administrative conventions that have evolved over the years. However, there are no generally accepted government accounting principles to provide objective standards of good accounting and reporting practice to which readers of the financial statements could refer and against which the statements could be audited.

In 1976, the Canadian Institute of Chartered Accountants (CICA) created a Study Group to catalogue existing practices in legislative accounting, reporting and auditing and to review underlying objectives and concepts. For the most part, members of the Study Group were drawn from the federal and provincial governments, including representatives from this Office and from the Office of the Comptroller General of Canada. In 1980, the Study Group issued its report, entitled *Financial Reporting by Governments*. In the Report, the Study Group concluded that there is a need for generally accepted reporting standards for federal and provincial governments to achieve consistency in financial reporting and comparability between governments.

The Study Group also concluded that the CICA should take the initiative in encouraging the establishment of a body to work toward the development of generally accepted government reporting standards. In June 1981, the CICA announced the establishment of a new Government Accounting and Auditing Committee to recommend accounting and auditing principles and practices for use by governments. I am pleased to report that senior personnel from both this Office and the Office of the Comptroller General of Canada are members of this committee.

Need for improved disclosure in notes to financial statements

As in prior years, important summary information relevant to the Government's financial position and its revenues and expenditures is excluded from the notes to the financial statements in Section 2 of Volume 1 of the Public Accounts. Although there is selective referencing of amounts in the financial statements to summary information in other sections of this volume, this summary information is presented in the midst of other more detailed information which may inconvenience and confuse a reader who is looking for a complete overview of the Government's financial position, revenues and expenditures.

For example, in response to a recommendation of the Standing Committee on Public Accounts in its Report dated February 21, 1979, the Government introduced Note 7 to the financial statements to summarize the terms and conditions of international development assistance loans and subscriptions. Although it is my view that the cost of the financial benefit conferred by these loans and subscriptions should be recorded in the accounts of Canada in the year the loans and subscriptions are made, Note 7 does provide important summary information related to significant components of loans to national governments and subscriptions to international organizations as reported on the Statement of Assets and Liabilities.

I would encourage the Government to develop similar notes for other significant balances reported in the audited financial statements in Section 2. This would permit readers to have ready access to the summary information they need to understand the statements without having to constantly refer to information presented in the various other sections of Volume 1. Since most of the information required to do so is currently available, much can be accomplished with little effort.

Need to reconsider purposes of financial statements

The current and potential use of summary financial statements and the information they should display need to be reconsidered. The nature and extent of information reported in financial statements and how it is presented depend on the objectives that the statements are designed to satisfy. Although the financial statements included in Section 2 of this volume are entitled "The Financial Statements of the Government of Canada", they include only government departments as defined in the Financial Administration Act. Because many activities of government are carried out by organizational units other than government departments, significant assets, liabilities, revenues and expenditures are excluded from the existing financial statements. There is a need for summary financial statements that provide a comprehensive and complete summary of the Government's financial position and its revenues and expenditures.

In his 1980 observations, the Auditor General stated that the Office of the Comptroller General planned to study the purposes of summary financial reporting for the Government and the feasibility of developing comprehensive financial statements. We have been advised by the Comptroller General that this important study has commenced.

Need for central direction

Under the Financial Administration Act, the Treasury Board, the Minister of Finance and the Receiver General for Canada all have certain responsibilities for developing accounting policies and preparing the Government's financial statements. The development of generally accepted government accounting principles and comprehensive summary financial statements will require strong central direction and leadership within the Government of Canada. In 1979 and 1980, the Auditor General recommended that central direction should be provided by the Comptroller General of Canada and that the Treasury Board should be given primary responsibility for the Government's accounting and financial reporting policies. Appropriate amendments to the Financial Administration Act have not yet been made to vest this responsibility and authority in the Treasury Board and the Comptroller General.

BUDGETARY REVENUE

Budgetary revenue consists of all tax and non-tax receipts which affect the deficit or surplus of the Government and includes revenue internal to the Government.

The Government generally reports revenue in the year in which it is received, with refunds of revenue allocated to the year in which they are actually paid.

Revenue is reported after deducting refunds paid and excludes amounts receivable, taxes collected on behalf of provinces, receipts from contributors to the Canada Pension Plan, the Unemployment Insurance and the superannuation accounts, and receipts and revenues credited to other asset and liability accounts.

Revenue for a year therefore includes receipts credited to the Receiver General by the Bank of Canada and the chartered banks by March 31, and amounts received in Government offices by March 31, but not deposited until April or not credited to the Receiver General until April. Revenue also includes the amounts received in the mail on the first working day of April except where it is clear that it was the remitter's intention to discharge an obligation arising in the new year.

The yield from tax revenue is affected by changes in tax rates, by changes in the base on which taxes are calculated and by variations in economic conditions. Income tax liability

relates to the income of a taxation year but the system of collecting personal and corporation income taxes by payroll deductions and instalments, results in a distribution of receipts throughout the year.

Tax revenue increased by \$5,742 million in 1980-81 compared to an increase of \$4,256 million in 1979-80.

The major tax changes which had an impact on this year's tax revenue are:

- small business development bond;
- temporary 5% corporate surtax;
- increased levies on alcoholic beverages and tobacco;
- deductibility of spouses' salaries by unincorporated businesses;
- reduced write-off for oil and gas properties;
- introduction of the natural gas and gas liquids tax; and,
- multilateral trade negotiations, tariff reductions.

Under fiscal arrangements that became operative in 1962, the federal Government entered into tax collection agreements to collect the provincial personal income taxes of all provinces except Quebec and the provincial corporation income taxes of all provinces except Ontario and Quebec.

Personal and corporation income taxes collected by the federal Government on behalf of the provinces, and subsequently remitted to the provinces, are not included in the tables shown hereunder.

Personal Income Tax

In 1980-81, personal income tax was the largest source of Government revenue.

Corporation Income Tax

Corporation income tax was the second largest source of Government revenue.

Non-Resident Income Tax

Revenue, in this category, is derived from tax withheld from dividends, interest, rents, royalties, alimonies and income from estates and trusts paid to non-residents.

Excise Taxes and Duties

Excise taxes and duties totalled \$11,714 million, 25% of total budgetary revenue.

From a revenue standpoint, the general sales tax, totalling \$5,429 million, was the most important tax levied under the Excise Tax Act. Included in excise tax is \$842 million in oil export charge, applicable to exports imposed under the Excise Tax Act.

Excise duties, which totalled \$1,042 million, are levied on alcoholic beverages (other than wines) and tobacco products. (Additional taxes on tobacco products and taxes on wines are levied under the Excise Tax Act).

Receipts from the gasoline tax were \$453 million. Under certain conditions, the amounts received may be refunded to purchasers. As of March 31, 1981, \$558 million was received and \$105 million refunded and charged to revenue.

The yield from other excise taxes levied under the Excise Tax Act, other than the general sales tax, the oil export charge and the gasoline tax was \$573 million.

Return on Investments

Return on investments consists of interest derived from loans and advances, and from transfer of profits, surpluses and dividends.

Return on investments regarding assets as presented on the Statement of Assets and Liabilities, is summarized in Table 4.4. Additional details are given in Section 13 of this volume and in the departmental sections of Volume II.

RECEIPTS AND REVENUES
CREDITED TO APPROPRIATIONS

Receipts and revenues arising from the activities of particular programs, which are credited to the appropriations for those programs, and which are not included in budgetary revenue, totalled \$4,148 million in 1980-81 compared to \$1,135 million in 1979-80. The net increase of \$3,013 million resulted mainly from net voting authorities of revolving funds which were established as budgetary rather than non-budgetary as of April 1, 1980.

Receipts and revenues credited to appropriations are summarized by department and selected classification and by source in Tables 4.6 and 4.7.

BUDGETARY APPROPRIATIONS

Part of the expenditures of the public service is defrayed from monies granted by Parliament in annual appropriation acts; however, substantial payments are made under authority of other acts which authorize expenditures for specified purposes and for such amounts and during such time as the acts may prescribe. The spending authority granted in the annual appropriation acts differs from that granted in "statutory" authorities in that it is usually for a specific amount and of definite duration and, unless there is provision to the contrary

in the wording of a vote, any unused balance lapses at the end of the year for which it is granted.

Table 5.1 presents a summary of budgetary expenditure made under annual appropriations and various statutory authorities for the year ended March 31, 1981. Table 5.2 provides details by department for the year. A statement of use of appropriations by department, as examined by the Auditor General, is presented in Section 2 of this volume. In addition detailed information on budgetary appropriations and expenditure is given in the departmental sections of Volume II.

TABLE 5.1

BUDGETARY APPROPRIATIONS AND EXPENDITURE—ANNUAL AND STATUTORY (in millions of dollars)

Statutory		37,720	36,587			1,133
Total	21	64,131	62,377	668	47	1,154

⁽¹⁾ Represents total departmental expenditure and does not take into consideration the provision for valuation which is not allocated to individual departments.

⁽²⁾ Available for expenditure in 1981-82.

⁽³⁾ This amount is \$3 million lower than amounts approved in appropriation acts. A transfer from budgetary to non-budgetary appropriations, as authorized by the Canadian Film Development Corporation Act, accounts for the decrease.

Spending authority of \$21 million was brought forward from 1979-80 in accordance with provisions of the original appropriations. Budgetary expenditure during 1980-81, as approved in appropriation acts, totalled \$25,790 million, consequently, \$642 million was unspent at the close of the year. Of this amount, \$668 million lapsed, \$47 million was overspent and \$21 million is available for expenditure in 1981-82 in accordance with provisions of the original appropriations.

Budgetary expenditure in 1980-81 under the authority of statutes authorizing payments from the Consolidated Revenue Fund for specific purposes without further appropriations, amounted to \$36,587 million, accounting for approximately 59% of the total budgetary expenditure of \$62,377 million. For revolving funds which continued operating under non-lapsing budgetary statutory authorities, \$1,133 million was unspent and therefore available for expenditure in future years.

The Estimates and appropriations for 1980-81, covering budgetary expenditure (other than statutory), were as follows:

(2) Represents total departmental expenditure and does not take into consideration the provision for valuation which is not allocated to individual departments.

(3) Includes \$21 million brought forward from 1979-80 and excludes \$3 million resulting from a decrease in appropriations as authorized by the Canadian Film Development Corporation Act.

BUDGETARY EXPENDITURE

Budgetary expenditure consists of all charges to budgetary appropriations which affect the deficit or surplus of the Government. Such charges include those for work performed, goods received, services rendered, and transfer payments made, during the year, and, expenditure internal to the Government.

Expenditure excludes pensions paid under the Canada Pension Plan, superannuation and other pension accounts, Unemployment Insurance payments other than benefits to fishermen, payments financed from undischarged balances of appropriations to special accounts and payments charged to other asset and liability accounts.

In this section, the expenditure is analysed in several different ways:

- (1) by function, i.e. broad policies;
- (2) by program, i.e. purpose;
- (3) by type, i.e. operating, capital, and grants and contributions; and,
- (4) by standard object, i.e. productive resources acquired or transfer payments made.

These analyses do not take into account the provision for valuation reflected in Sections 1 and 2 of this volume.

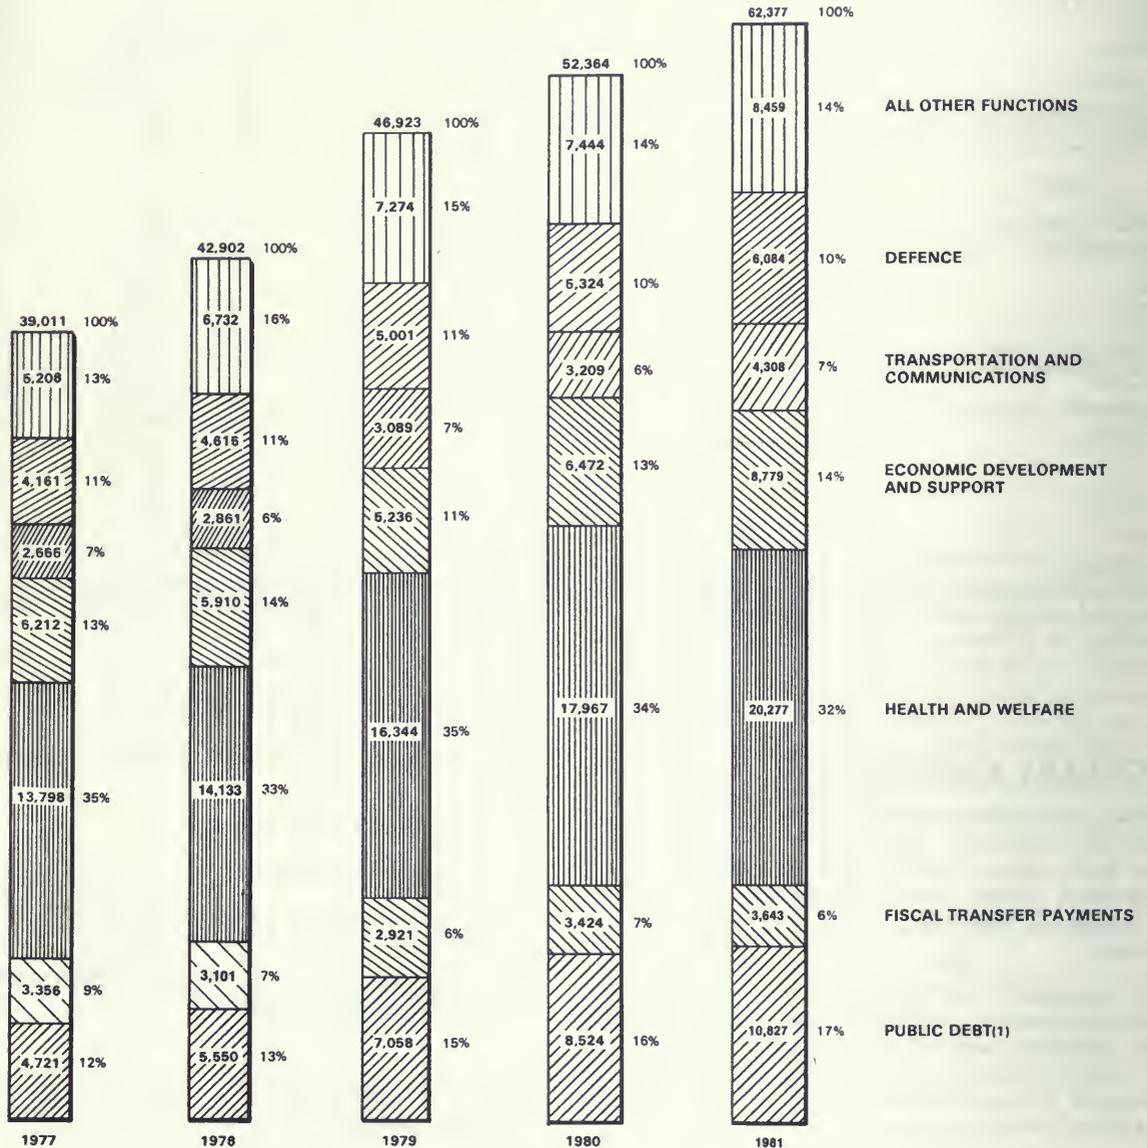

Expenditure by Function

The functional presentation of expenditure reflects the broad policies pursued by the Government. These functions, which are reflected in Table 5.3, are primarily services provided to the people of Canada or to other governmental jurisdictions within Canada.

The largest category of expenditure under the functional classification is health and welfare, which accounted for \$20,277 million, or 33% of total expenditure.

Expenditure by Type

Expenditure may be classified under three major types: operating, capital, and grants and contributions. Operating expenditures consist of expenditures incurred in conducting the administrative and operating activities of the program; capital expenditures are for the construction and acquisition of fixed

assets and the acquisition of equipment; grants and contributions represent payments other than for goods and services made for the purpose of furthering program objectives.

A comparative summary of expenditure by type is presented in Table 5.5.

Expenditure by Standard Object

The object presentation of expenditure is related to the goods and services acquired and transfer payments made by the Government.

A comparative summary of expenditure by standard object is presented in Table 5.6. Additional details are given in Volume II.

Grants, contributions and other transfer payments were the largest category and accounted for \$33,611 million or 54% of total budgetary expenditure. Payments included fiscal transfer payments to provinces, \$3,652 million; payments under the Public Utilities Income Tax Act, \$136 million; payments

under the Hospital Insurance and Diagnostic Services Act, \$2,482 million; family allowance payments, \$1,851 million; guaranteed income payments, \$1,918 million; spouse's allowance payments, \$178 million; old age security payments, \$5,322 million; Canada Assistance Plan payments, \$1,941 million; and, post-secondary education payments, \$1,605 million.

Salaries and wages accounted for \$8,271 million or 13% of total expenditure. The increase of \$995 million was due mainly to higher salary rates.

Public debt charges totalled \$10,687 million or 17% of the total expenditure. The increase of \$2,163 million was due to an increase in unmatured debt and to higher interest rates.

SUPPLEMENTARY STATEMENTS

Interest on the Public Debt

Interest on the public debt consists of interest on unmatured debt and specified purpose accounts.

The increase of \$1,733 million in interest on unmatured debt reflects an increase in unmatured debt which rose from \$72,121 million at March 31, 1980 to \$83,149 million at

March 31, 1981 and an increase in interest rates. The increase in interest on specified purpose accounts was due mainly to increases of \$307 million in respect of the superannuation accounts.

A comparative summary of interest on the public debt is presented in Table 5.7.

Details of interest on the public debt can be found in Section 13 of this volume.

Expenditure under Statutory Authority

The spending authority provided by statutory appropriations is for specified purposes and for such amounts and such time as the acts prescribe. This spending authority does not lapse at the end of the year in which it was granted. Expenditure under such authority accounts for more than half of the total budgetary expenditure each year.

In 1980-81, expenditure under statutory authority amounted to \$36,587 million, accounting for 59% of the total budgetary expenditure of \$62,377 million.

Table 5.8 presents a comparative summary of these statutory expenditures.

LOANS, INVESTMENTS AND ADVANCES

Loans, investments and advances is a category of assets representing financial claims and equity held by the Government of Canada issued under parliamentary appropriations. Some of these appropriations permit repayments to be used for further loans and advances. Many appropriations are non-lapsing, that is, the unexpended balances may be carried forward from year to year. Details of the use of these non-budgetary appropriations, for loans, investments and advances, can be found in the departmental sections of Volume II.

Loans, investments and advances are recorded at cost and are subject to valuation to reflect estimated losses on realization. Foreign currency transactions are translated and recorded in Canadian currency equivalents at the exchange rates prevailing at the transaction dates. Loans, investments and advances resulting from foreign currency transactions are, in turn, reported at year-end closing rates of exchange; net gains are credited to revenue as premium and discount on exchange, while net losses are charged to budgetary expenditure as a statutory item in the Department of Finance.

An allowance has been established to reflect estimated losses on realization of financial claims held by the Government. This allowance has been authorized by the Minister of Finance under Section 54(2)(b) of the Financial Administration Act (see the notes to the audited financial statements in Section 2 of this volume).

Revenue received during the year, on loans, investments and advances, is credited, when received, to return on investments. Details of return on investments, for loans, investments and advances, are disclosed in Section 13 of this volume. In

accordance with stated accounting policies, accrued interest and interest due but not received are not recorded as revenue. Table 6.14 gives details of recorded uncollected interest.

Gross transactions and year-end balances of loans, investments and advances are presented as follows:

- Crown corporations and agencies;
- provincial and territorial governments;
- national governments including developing countries;
- international organizations;
- Veterans' Land Act Fund advances;
- Government controlled corporations;
- private sector enterprises; and,
- miscellaneous.

Transactions and balances are further summarized in Sections 1 and 2 of this volume.

Some tables in this section present the continuity for each account by showing the opening and closing balances, as well as receipts and other credits and payments and other charges, i.e. inflow and outflow of transactions. In addition, the term "accounts without current transactions" has been included in some tables in order to provide a link with figures published in the previous year's edition of the Public Accounts to show net transactions in accounts which were closed out in the previous year.

CROWN CORPORATIONS AND AGENCIES

Loans to, and investments in, Crown corporations represent the balance of financial claims held by the Government against Crown corporations for working capital, capital expenditure and other purposes, investment in the capital stock of corporations and advances to corporations for reloaning.

A Crown corporation is ultimately accountable, through a Minister of the Crown, to Parliament, for the conduct of its affairs and includes the corporations named in Schedules B, C and D of the Financial Administration Act. Most of the Crown corporations listed in the Schedules to the Financial Administration Act are agents of Her Majesty, in the right of Canada. This power is granted in any one of the following ways:

- (i) designation as an agent of Her Majesty by Parliament through the special act of incorporation;

- (ii) statutory authorization as an agent of Her Majesty; and,
- (iii) proclamation as an agent of Her Majesty by the Government Companies Operation Act.

Financial statements of Crown corporations and agencies listed in Schedules C and D of the Financial Administration Act can be found in Volume III. Information on Schedule B corporations can be found in the departmental sections of Volume II.

Lending Institutions

Table 6.2 presents a summary of the balances and transactions for the various types of loans, investments and advances which were made to Crown corporations and agencies engaged in lending activities.

Canada Mortgage and Housing Corporation

The Corporation was established under the Canada Mortgage and Housing Corporation Act to promote the construction of new houses, the repair and modernization of existing houses, the improvement of housing and living conditions in Canada and to promote the development of communities through the provision of infrastructure facilities.

The Corporation is an agent of Her Majesty, reports through the Minister of Public Works and is classified as a proprietary corporation in Schedule D of the Financial Administration Act.

During the year, the Corporation received financial assistance authorized by budgetary appropriations amounting to \$1,058 million. It paid interest of \$831 million and transferred \$8 million of profit to the Government.

Capital stock

The Government's investment in the capital of the Corporation is authorized by Section 17 of the Canada Mortgage and Housing Corporation Act.

Housing

Advances have been made to enable the Corporation to lend money under the following sections of the National Housing Act: Section 15, to a limited-dividend company for construction of a low-rental housing project; Section 16, to an incorporated company engaged in the mining, lumbering, logging or fishing industries for construction of low or moderate-cost housing projects in areas or localities that are adjacent to or connected with the operations of the borrower; Section 58, to a person unable to obtain a loan from an approved lender for

construction of a house or housing project; and, Section 59, to an Indian for the construction of housing projects on Indian reserves.

During the year, additional advances were authorized by Vote L40, Appropriation Acts No 1 and No 2, 1980-81.

The advances bear interest at rates varying from 5.813% to 13.014% per annum, are repayable over periods ranging from 18 to 50 years and mature at various dates between September 30, 1997 and September 30, 2030.

Real estate

Section 55 of the National Housing Act authorizes advances for the acquisition and construction of real estate by the Corporation.

During the year, additional advances were authorized by Vote L35, Appropriation Acts No 1 and No 2, 1980-81.

The advances bear interest at rates varying from 9.547% to 10.867% per annum, are repayable over a period of 50 years and mature September 30, 2030.

Joint projects

Section 40 of the National Housing Act authorizes advances for the purpose of undertaking projects jointly with the government of any province. Provision is made for repayment of all or any part of the outstanding principal advances under this section without notice or bonus, if the Corporation so desires.

During the year, additional advances were authorized by Vote L40, Appropriation Acts No 1 and No 2, 1980-81.

The advances bear interest at rates varying from 7.896% to 10.433% per annum, are repayable over periods ranging from 25 to 50 years and mature at various dates between March 31, 2005 and June 30, 2030.

Urban renewal scheme

Advances have been made to enable the Corporation to lend money under Section 26 of the National Housing Act to a province or municipality to assist in the implementation of an urban renewal scheme.

The advances bear interest at rates varying from 5.31% to 8.75% per annum, are repayable over periods ranging from 20 to 50 years and mature at various dates between December 31, 1981 and September 30, 1995.

University housing projects

Advances have been made to enable the Corporation to lend money under Section 48 of the National Housing Act to a university for construction of a university housing project, or for the acquisition of existing buildings, and their conversion into a university housing project.

The advances bear interest at rates varying from 5% to 10.054% per annum, are repayable over periods ranging from 20 to 50 years and mature at various dates between September 30, 2012 and March 31, 2030.

Sewage treatment projects

Advances have been made to enable the Corporation to lend money under Section 53 of the National Housing Act to any province, municipality or municipal sewerage corporation for the purpose of assisting in the construction or expansion of a sewage treatment project.

The advances bear interest at rates varying from 5% to 10.376% per annum, are repayable over periods ranging from 18 to 50 years and mature at various dates between September 30, 1993 and September 30, 2010.

Mortgage and loan purchase fund

Advances have been made to enable the Corporation to lend money under Section 10(1)(b) of the National Housing Act to holders of National Housing Act insured mortgages.

The payment of an advance shall not be greater than the amount by which \$100,000,000 exceeds the total amount of advances charged to the mortgage and loan purchase fund, less the total amount of moneys paid by the Corporation pursuant to Section 10(2) of the National Housing Act.

The advances bear interest at rates which are equal to the average accepted 91-day Treasury bill tender rate as announced by the Bank of Canada on behalf of the Minister of Finance immediately prior to the date of the advance, plus ¼ of 1%. They are repayable over periods ranging from 20 to 50 years and mature on March 31, 1985.

During the year, the Corporation paid interest of \$1 million and transferred surplus of \$7 million to the Government.

Uranium Canada, Limited

The Corporation was established under the Canada Corporations Act to provide for the acquisition and sale of uranium concentrates. The final sale and shipment from the joint venture stockpile was made on July 1, 1977, thereby exhausting the joint venture stockpile.

The Corporation is an agent of Her Majesty, reports through the Minister of Energy, Mines and Resources and is classified as an agency corporation in Schedule C of the Financial Administration Act.

During the year, the Corporation received financial assistance authorized by budgetary appropriations amounting to \$26,174.

The Government's investment in the capital of the Corporation is recorded in this account.

VIA Rail Canada Inc

The Corporation was established under the Canada Business Corporations Act to revitalize passenger rail services in Canada and to manage and market them on an efficient commercial basis, reducing the financial burden on the Government of Canada.

The Corporation is not an agent of Her Majesty, reports through the Minister of Transport and is classified as a proprietary corporation in Schedule D of the Financial Administration Act.

During the year, the Corporation received financial assistance authorized by budgetary appropriations amounting to \$452 million.

The Government's investment in the capital of the Corporation is recorded in this account.

Loans, Investments and Advances to Crown Corporations

Table 6.4 presents a summary of the loans, investments and advances made by the Government to Crown corporations as

well as the financial assistance authorized by budgetary appropriations. It also includes the related return on investments, and accrued and capitalized interest.

Government of Canada Equity in Crown Corporations and Agencies

Total Government equity in Crown corporations is represented in the following table by loans, advances and shareholder's equity as recorded in the Accounts of Canada and/or the audited financial statements of Crown corporations, at their respective year ends, after adjustments for transactions with the corporations from their year-end dates to March 31. These financial statements are included in Volume III of the Public Accounts.

Unrecorded Government equity is divided into three headings. The first one pertains to loans and advances, and consists of capitalized interest shown in the corporate financial statements under loans payable to Canada and accrued interest usually shown as accounts payable and accruals under current liabilities. The second heading, shareholder's equity, includes

that portion of the equity of the corporation which is not recorded in the Accounts of Canada, such as retained earnings, accumulated deficits and contributed surpluses. An example of a contributed surplus would be the cost of fixed assets acquired by the corporation, financed through parliamentary appropriations and charged to budgetary expenditure in the Accounts of Canada. Under this second heading are also included certain amounts, such as receivables from, and payables to the Government, deferred federal taxes, premiums on shares and other Crown corporations' balance sheet accounts which are considered as equity adjustments for consolidation purposes. The third heading, other unrecorded equity, consists primarily of insurance funds as described in footnotes (1) and (9). These funds are free from outside party claims and are not included in the equity accounts of the two corporations involved. Other amounts included under this heading include liabilities to Canada for capitalized leases and amounts received through parliamentary appropriations.

Total recorded loans, investments and advances—Crown corporations and agencies, Table 6.1			23,627,391,988					

- (1) Canada Mortgage and Housing Corporation—Other unrecorded equity consists of \$331,774,000 for December 31, 1980 balances in insurance and guarantee funds. Insurance in force and claims in process for payment under the insurance funds amounted to \$54,600 million and \$170 million respectively as at December 31, 1980.
- (2) Export Development Corporation—Loans and advances recorded by the Government include loans administered by the Export Development Corporation but receivable through the corporation from foreign governments and foreign companies.
- (3) Canadian National Railways—Recorded shareholder's equity includes a premium of \$19,452,732 representing the excess of previous year's depreciation not charged to CNR's retained earnings over the Government's investments in Canadian Government Railways and Canadian National Railway Company. These investments were charged to budgetary expenditure by the Government of Canada and credited to shareholder's equity by CNR. Consequently, after the capital revision of Canadian National Railways, the recorded capital stock of the Corporation is \$19,452,732 less than the recorded investment of the Government. Accordingly, unrecorded shareholder's equity is being reduced by this deficiency.
- (4) Bank of Canada—Recorded shareholder's equity includes \$920,000 representing a premium paid in respect of the acquisition in 1938 of shares held by the public. Consequently, unrecorded shareholder's equity has been reduced by \$920,000.
- (5) Canadian National (West Indies) Steamships, Limited—Total Government equity includes a receivable of \$470,400 due since 1963 from Cuban interests.
- (6) Eldorado Nuclear Limited—Recorded capital stock includes a premium of \$1,660,797 representing the capital deficit (after adjustments) shown in the balance sheet of Eldorado Mining and Refining Limited as at December 31, 1944 but not reflected in subsequent balance sheets of Eldorado Mining and Refining (1944) Limited. Consequently, unrecorded shareholder's equity has been reduced by \$1,660,797. Total Government equity includes that of Eldorado Aviation Limited, a wholly-owned subsidiary of Eldorado Nuclear Limited.
- (7) The St Lawrence Seaway Authority—Total Government equity includes capital stock of Great Lakes Pilotage Authority Ltd, The Jacques Cartier and Champlain Bridges Incorporated and The Seaway International Bridge, Ltd at a cost of \$1,500, \$100 and \$8,000 respectively. Great Lakes Pilotage Authority Ltd, The Jacques Cartier and Champlain Bridges Incorporated and The Seaway International Bridge, Ltd are wholly-owned subsidiaries.
- (8) Uranium Canada, Limited—Excludes stockpiling of uranium concentrates.
- (9) Canada Deposit Insurance Corporation—Other unrecorded equity consists of premiums credited to the Deposit Insurance Fund plus adjusted accumulated net earnings. The deposits with member institutions insured by the Corporation totalled \$96,078 million as at April 30, 1980.

PROVINCIAL AND TERRITORIAL GOVERNMENTS

This category records loans to provinces made under relief acts and other legislation.

Federal-provincial employment loans program

Loans have been made to provinces, provincial agencies and municipalities for the purpose of assisting in the creation of employment. The loan authority provides for the forgiveness of that portion of the principal amount equal to 75% of normal direct on-site payroll costs incurred and paid before June 30, 1972.

The loans bear interest at rates varying from 6.34% to 7.41% per annum and mature at various dates between December 4, 1982 and November 30, 1994. Individual loans have repayment periods ranging from 10 to 20 years and are repayable as follows:

- (a) in annual instalments; or,
- (b) at maturity.

Special development loans program

Loans have been made to provinces, provincial agencies and municipalities for the purpose of assisting in the creation of employment.

The loans bear interest at rates varying from 5.57% to 7.54% per annum and mature at various dates between April 1, 1981 and March 30, 1993. Individual loans have repayment periods ranging from 10 to 20 years and are repayable as follows:

- (a) in annual or semi-annual instalments; or,
- (b) at maturity.

Winter capital projects fund

Loans have been made to provinces, provincial agencies and municipalities for the purpose of assisting in the creation of employment. There is provision for the forgiveness of that portion of the principal amount equal to 50% of normal direct on-site payroll costs for the duration of the loan program plus 50% for the periods December-May 1973, 1974 and 1975. Vote L13a, Appropriation Act No 1, 1974, authorized in fiscal years subsequent to March 31, 1976, the consolidation of any loan made pursuant to that authority which may include the amount of interest accrued thereon to the date of consolidation.

The loans bear interest at rates varying from 7.01% to 9.84% per annum and mature at various dates between September 30, 1981 and February 28, 1999. Individual loans have repayment periods ranging from 5 to 20 years and are repayable as follows:

- (a) in annual instalments; or,
- (b) at maturity.

Atlantic Development Board carry-over projects

Loans have been made to finance certain water projects that were carried over from the Atlantic Development Board. Loans were made pursuant to terms and conditions of agreements entered into between Canada and the provinces in the Atlantic region, with the approval of the Governor in Council. The department's policy on water projects and such agreements included a forgiveness provision which is found in some agreements to reflect recognition of a shortfall in the use of available capacity in the early years of such projects.

During the year, repayments included forgiveness of principal to Nova Scotia, \$75,155.

The terms and conditions of loans, with their year-end balances, are categorized into two main groups:

- (a) 28 year loans, bearing interest at the rate of 7.5% per annum, due on various anniversary amortization dates, and maturing July 31, 1999, \$52,661; and,
- (b) 30 year loans, bearing interest at rates varying from 7.161% to 8.5% per annum, due on various anniversary amortization dates, and maturing at various dates between November 21, 1998 and April 1, 2006, \$6,686,083.

Atlantic Provinces Power Development Act

Loans have been made to the Atlantic provinces to assist in the generation of electrical energy by steam driven generators

in the provinces, and the control and transmission of electric energy.

The loans bear interest at rates varying from 4.5% to 8.5% per annum, are repayable over periods ranging from 29 to 40 years in annual equal instalments due March 31 of each year and mature at various dates between March 31, 1992 and March 31, 2014.

Special areas and highways agreement

Loans and advances have been made to finance development of community and industrial infrastructure projects for special areas and for highway development pursuant to terms and conditions of agreements entered into between Canada and the provinces, with the approval of the Governor in Council.

Advances

The amounts shown as advances represent outlays made on incomplete projects. When a project is completed, the advances are transferred to the loan account.

Upon completion of projects, accrued interest is calculated and added to the amount of advances being transferred to loans for repayment. This is in accordance with the terms and conditions of the agreements entered into between Canada and the provinces with the approval of the Governor in Council.

Loans

This account records amounts transferred from the advances account whenever projects are completed.

The loans bear interest at rates varying from 5.768% to 10.071% per annum, are repayable over periods ranging from 5 to 30 years in annual equal instalments due March 31 of each year and mature at various dates between March 31, 1984 and March 31, 2009.

Regional electrical interconnections

Loans have been made to assist in financing regional electrical interconnections under agreements with the Provinces of Manitoba, New Brunswick, Nova Scotia and Prince Edward Island and the Government of Canada.

During the year, additional loans were authorized by Vote L40, Appropriation Acts No 1 and No 2, 1980-81.

The loans bear interest at rates varying from 9% to 13.75% per annum for an average yield of 9.286%, are repayable over periods ranging from 29 to 31 years in annual instalments and mature at various dates between December 31, 2008 and October 31, 2009.

Federal-provincial fiscal arrangements

These amounts represent overpayments in respect of provincial equalization entitlements under the Federal Provincial Fiscal Arrangements Act and the Federal Provincial Fiscal Arrangements and Established Programs Financing Act. These overpayments are non-interest bearing and are recovered in the subsequent year.

Mainland Investments Limited

Loans have been made to the Province of Nova Scotia for the purchase of shares of the capital stock of Mainland Investments Limited (formerly Metropolitan Area Growth

Investments Limited) in accordance with an agreement entered into between Canada and Nova Scotia pursuant to Section 8 of the Department of Regional Economic Expansion Act.

The loans bear interest at the rate of 7% per annum and are repayable over a 15 year period. During the first 5 years, interest only is payable and during the subsequent 10 years, annual equal instalments are required of principal and accrued interest due on March 30 of each year, maturing February 28, 1988.

Loading ramp, Yarmouth, NS

Loans have been made to the Province of Nova Scotia for the construction of an end-loading ramp at Yarmouth, Nova Scotia.

The loans bear interest at the rate of 8% per annum, are repayable over a 15 year period in semi-annual instalments due September 14 and March 14 of each year and mature on September 14, 1985.

Comprehensive development plan agreement

Loans have been made to Prince Edward Island to assist in financing the realization of a comprehensive and co-ordinated development plan of the province pursuant to an agreement entered into with the province whose territory has been designated a "special rural development area".

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) repayable over a 30 year period, bearing interest at rates varying from 6.688% to 9.375% per annum, due in equal instalments at various anniversary dates, and maturing at various dates between March 25, 2000 and March 27, 2005, \$4,891,000; and,
- (b) repayable over a 30 year period, bearing interest at rates varying from 6.688% to 9.375% per annum in annual equal instalments due March 31 of each year and maturing at various dates between March 31, 2001 and March 31, 2005, \$7,199,289.

Town of Oromocto

Capital assistance loans have been made to the Town of Oromocto, New Brunswick.

The loans bear interest at rates of 5.25%, 5.375% and 5.625% per annum, are repayable over a 20 year period in semi-annual equal instalments and mature at various dates between January 1, 1985 and April 1, 1986.

Quebec Autoroute 13

Loans have been made to the Province of Quebec to assist in financing the construction of Autoroute 13.

The loans were repaid in full during the year.

Agricultural service centres

Loans and advances have been made to assist provincial and municipal authorities to construct or expand water supply and waste disposal facilities in key agriculture service centres, which are essential to rural adjustment and urban development in the agricultural portion of the Prairie region.

During the year, additional loans and advances were authorized by Vote L15, Appropriation Acts No 1 and No 2, 1980-81.

Advances

The amount shown as advances represent outlays made on incomplete projects. When a project is completed, the advances are transferred to the loan account.

Upon completion of projects, accrued interest is calculated and added to the amount of advances being transferred to loans for repayment. This is in accordance with the terms and conditions of the agreements entered into between Canada and the provinces with the approval of the Governor in Council.

Loans

This account records amounts transferred from the advances account whenever projects are completed.

The terms and conditions of the loans, with their year-end balances, are as follows:

China

An interest-free loan to China was authorized under the Export Credits Insurance Act.

Greece

An interest-free loan to Greece was authorized by PC 1932-2630. Partial settlement has been negotiated as at April 1, 1981 and parliamentary authority to write-off the balance during 1981-82 is being sought.

Jamaica—Economic assistance

Loans have been made to the Government of Jamaica to provide for economic assistance. The maturity date under the agreement was May, 1977 but was extended to August 9, 1981. Interest at 8.875% per annum is payable annually.

United Kingdom

The United Kingdom Financial Agreement Act, 1946

Under authority of the United Kingdom Financial Agreement Act, a credit of \$1,250,000,000 was extended to the

Government of the United Kingdom which might be drawn on at any time prior to December 31, 1951. The purpose of the credit was to facilitate purchases by the United Kingdom of goods and services in Canada and to assist in making it possible for the United Kingdom to meet transitional post-war deficits in its current balance of payments, to maintain adequate reserves of gold and dollars and to assume the obligations of multilateral trade. No interest was to be payable in respect of any period prior to January 1, 1951. The amount of the credit drawn by December 31, 1951 was to be repaid in 50 annual instalments beginning on that date with interest at the rate of 2% per annum. The loan matures December 31, 2000.

Deferred principal

The agreement, as amended in 1957, provides for the deferment of interest in respect to the year 1956 and of seven instalments of principal and interest after December 31, 1956, under certain conditions. Interest for 1956 and interest and principal for 1957, 1964, 1965, 1968 and 1976 were deferred. The maturity of the deferrals shall commence December 31, 2001 and continue annually to December 31, 2006.

Developing countries—Special loan assistance

Special loan assistance is given to developing countries. During the year, additional loans to Turkey were authorized by Votes L30, L35, and L35b, Appropriation Acts No 1, No 2 and No 3, 1980-81 and to Jamaica by Votes L40, L30c and L40c, Appropriation Acts No 1 and No 4, 1980-81.

The terms and conditions of loans to developing countries, with their year-end balances, are categorized into seven main groups:

- (a) 20 year maturity, 5 year grace period at 5% interest per annum, maturing September 2000, \$18,958,697;
- (b) 25 year maturity, 5 year grace period at 6% interest per annum, maturing March 2001, \$1,673,789;
- (c) 30 year maturity, 7 year grace period at 3% interest per annum, maturing at various dates between March 1997 and September 2011, \$168,538,287;

- (d) 30 year maturity, 7 year grace period interest-free, maturing March 2010, \$1,960,057;
- (e) 35 year maturity, 5 year grace period interest-free, maturing at various dates between April 2001 and November 2005, \$3,820,444;
- (f) 40 year maturity, 10 year grace period interest-free, maturing March 2008, \$861,654; and,
- (g) 50 year maturity, 10 year grace period interest-free, maturing at various dates between March 2003 and March 2031, \$1,953,618,922.

Maturity means the interval to final repayment while grace period refers to interval to first repayment of principal.

These amounts are reported later in this section under the heading "International Organizations".

North Atlantic Treaty Organization—Damage claims recoverable

Article VIII of the NATO Status of Forces Agreement signed April 4, 1949, as amended, deals with claims for damages to third parties arising from accidents in which a member of a visiting force is involved. This account is debited with the amount chargeable to other states, of such claims for damages which took place in Canada, and is credited with recoveries.

The advances bear no interest and have no specific repayment terms.

INTERNATIONAL ORGANIZATIONS

This category records Canada's subscriptions to the capital of the Asian Development Bank, the Caribbean Development Bank, the Inter-American Development Bank, the International Bank for Reconstruction and Development (i.e. World Bank), the International Development Association and the International Finance Corporation. It also includes loans and advances to other international organizations.

The net position of the Government vis-à-vis the international organizations has been obtained by deducting from the subscriptions, the non-interest bearing notes issued by Canada to these organizations. These notes, payable on demand, represent Canada's investment in these organizations which has not yet been called by them.

Table 6.9 presents a summary of the balances and transactions for this account.

⁽¹⁾ The subscriptions to the Association and the loans to the international financial institutions are used to lend funds to developing countries at rates favourable to the borrowers. In addition, as described earlier in this section, under the heading "National Governments including Developing Countries", special loan assistance amounting to \$2,149 million has also been provided to developing countries.

Asian Development Bank

This account records Canada's subscriptions to the capital of the Asian Development Bank as authorized by various appropriation acts.

As at year-end, total authorities granted were for the purchase of 8,740 paid-in shares and 36,403 callable shares. Instalment payments for the paid-in shares may be made in cash or in non-interest bearing, non-negotiable demand notes. These non-interest bearing notes payable on demand are deducted from the subscriptions to show the net position of the Government vis-à-vis the Bank.

As at March 31, 1980, the foreign currency balance of \$93,470,380 US was translated into Canadian dollars at the year-end closing rate of exchange (\$1 US/\$1.1962 Cdn).

During the year, transactions included additional subscriptions in cash and in non-interest bearing notes payable on demand and an adjustment due to revaluation.

As at March 31, 1981, Canada's instalment payments amounted to \$101,290,543 US for 8,092 paid-in shares. This foreign currency balance was translated into Canadian dollars at the year-end closing rate of exchange (\$1 US/\$1.1844 Cdn). The 36,403 callable shares are subject to call by the Bank under certain circumstances. Canada's commitment for the callable shares has a current value of \$439,147,590 US valued at \$520,126,405 Cdn at the year-end closing rate of exchange.

Caribbean Development Bank

This account records Canada's subscriptions to the capital of the Caribbean Development Bank as authorized by various appropriation acts. During the year, additional subscriptions of 117 paid-in shares were authorized by Vote L50, Appropriation Acts No 1 and No 2, 1980-81.

As at year-end, total authorities granted were for the purchase of 1,234 paid-in shares and 4,477 callable shares. Canada may issue, as payment for the shares so purchased, pending cash requirements by the Bank, non-interest bearing, non-negotiable demand notes. These non-interest bearing notes payable on demand are deducted from the subscriptions to show the net position of the Government vis-à-vis the Bank.

As at March 31, 1980, the foreign currency balance of \$6,737,454 US was translated into Canadian dollars at the year-end closing rate of exchange (\$1 US/\$1.1962 Cdn).

During the year, transactions included additional subscriptions in cash and in non-interest bearing notes payable on demand and an adjustment due to revaluation.

As at March 31, 1981, Canada's instalment payments amounted to \$7,443,168 US for 1,234 paid-in shares. This foreign currency balance was translated into Canadian dollars at the year-end closing rate of exchange (\$1 US/\$1.1844 Cdn). The 4,477 callable shares are subject to call by the Bank under certain circumstances. Canada's commitment for the callable shares has a current value of \$27,004,144 US valued at \$31,983,708 Cdn at the year-end closing rate of exchange.

Inter-American Development Bank

This account records Canada's subscriptions to the capital of the Inter-American Development Bank as authorized by

various appropriation acts. During the year, additional subscriptions were authorized by Vote L51a, Appropriation Act No 1, 1980-81.

As at year-end, total authorities granted were for the purchase of 7,554 paid-in shares and 63,692 callable shares. Instalment payments for the paid-in shares may be made in cash or in non-interest bearing, non-negotiable demand notes. These non-interest bearing notes payable on demand are deducted from the subscriptions to show the net position of the Government vis-à-vis the Bank.

As at March 31, 1980, the foreign currency balance of \$73,814,336 US was translated into Canadian dollars at the year-end closing rate of exchange (\$1 US/\$1.1962 Cdn).

During the year, transactions included additional subscriptions in the form of non-interest bearing notes payable on demand and an adjustment due to revaluation.

As at March 31, 1981, Canada's instalment payments amounted to \$79,628,910 US for 6,590 paid-in shares. This foreign currency balance was translated into Canadian dollars at the year-end closing rate of exchange (\$1 US/\$1.1844 Cdn). The 63,692 callable shares are subject to call by the Bank under certain circumstances. Canada's commitment for the callable shares has a current value of \$768,348,442 US valued at \$910,031,894 Cdn at the year-end closing rate of exchange.

International Bank for Reconstruction and Development (World Bank)

This account records Canada's subscriptions to the capital of the International Bank for Reconstruction and Development as authorized by various appropriation acts. Canada has subscribed for 11,122 shares of the Bank of which 10% has been paid by cash and notes. The remaining 90% is represented by a guarantee subject to call by the Bank only when required to meet obligations of the Bank for funds borrowed or loans guaranteed by it and not for use by the Bank in its lending activities or for administrative expenses.

As at March 31, 1981, the foreign currency balance was translated into Canadian dollars at the year-end closing rate of exchange (\$1 US/\$1.1844 Cdn).

International Development Association

This account records Canada's subscriptions to the International Development Association as authorized by various appropriation acts. The subscriptions to the Association, which is part of the World Bank Groups, are used to lend funds to developing countries for development purposes at rates highly favourable to the borrower (no interest with a 50 year maturity and 10 years grace).

During the year, additional subscriptions in the form of non-interest bearing, non-negotiable demand notes were authorized by Votes L18b and L18c, Appropriation Acts No 3 and No 4, 1980-81. The non-interest bearing notes payable on demand are deducted from the subscriptions to show the net position of the Government vis-à-vis the Association.

International Finance Corporation

This account records Canada's subscriptions to the capital of the International Finance Corporation, which is part of the World Bank Groups, as authorized by various appropriation acts.

At the year-end, total authorities granted were for the purchase of 20,952 paid-in shares.

As at March 31, 1980, Canada's total instalment payments amounted to \$14,010,000 US for 14,010 paid-in shares. This foreign currency balance was translated into Canadian dollars at the year-end closing rate of exchange (\$1 US/\$1.1962 Cdn). During the year, transactions included an instalment in the amount of \$3,470,000 US for a total of 3,470 paid-in shares.

As at March 31, 1981, Canada had purchased a total of 17,480 paid-in shares. Canada is liable to purchase 3,472

paid-in shares with a current Canadian dollar value of \$4,112,237.

The paid-in subscriptions of \$17,480,000 US have been translated into Canadian dollars at the year-end closing rate of exchange (\$1 US/\$1.1844 Cdn).

International financial institutions

This account records loans for assistance to international financial institutions as authorized by various appropriation acts. During the year, additional loans were authorized by Votes L45 and L45c, Appropriation Acts No 1 and No 4, 1980-81, respectively.

The balances of loans to various international financial institutions are as follows:

Common Fund for Commodities

This account was established by Vote L47b, Appropriation Act No 3, 1980-81, to make payments and issue guarantees and promissory notes in the current and subsequent fiscal years to purchase shares in the first account of the Common Fund for Commodities in accordance with the terms and conditions of the agreement establishing the Common Fund for Commodities.

Payments, guarantees and promissory notes shall not exceed \$10,380,000 US.

International Tin Council

This account records Canada's subscriptions to the International Tin Council as authorized by a previous appropriation act. The subscriptions, made in the form of non-interest bearing, non-negotiable demand notes, are for the investment in the buffer stock established under the Fifth International Tin Agreement.

Subscriptions have been made in the form of non-interest bearing demand notes, which are deducted from the subscriptions to show the net position of the Government vis-à-vis the Council.

International Natural Rubber Agreement

This account was established by Vote L46b, Appropriation Act No 3, 1980-81, to make payments and issue guarantees, in the 1980-81, 1981-82, 1982-83, 1983-84, 1984-85 and 1985-86 fiscal years, for participation in the natural rubber buffer stock in accordance with terms and conditions of the International Natural Rubber Agreement, 1979.

Payments and guarantees shall not exceed \$12,500,000.

International organizations and associations

These items represent the historical value of payments made by the Canadian Government to working capital funds maintained by international organizations of which Canada is a member. Participation in the financing of these working capital funds, on the basis of the scale of assessments, is prescribed by financial regulations for membership in the organizations. Payments into the funds are not subject to interest or repayments schedules, but are recorded by the organizations as credits from member states. Payments by Canada were authorized by various appropriation acts.

During the year, additional advances to the working capital funds of the United Nations organizations, the Berne Union of the World Intellectual Property Organization, the Paris Union of the World Intellectual Property Organization and the Inter-

national Atomic Energy Agency were authorized by Votes L11a, L13b, L14b, and L17c, Appropriation Acts No 1, No 3 and No 4, 1980-81.

During the year, Canada made a payment of \$96,000 US valued at \$113,280 Cdn to the United Nations organizations; a payment of \$1,400 US valued at \$1,666 Cdn to the International Atomic Energy Agency; a payment of 18,726 Swiss Francs valued at \$12,523 Cdn to the Berne Union of the World Intellectual Property Organization and a payment of 22,594 Swiss Francs valued at \$15,110 Cdn to the Paris Union of the World Intellectual Property Organization, and received a refund of \$150 US valued at \$180 Cdn from the International Civil Aviation Organization as a result of adjustments in the assessed share required from each member state.

This account also records payments and the balance outstanding on United Nations bonds purchased by the Canadian Government in September 1962. The bonds yield interest at the rate of 2% per annum and are repayable over a 25 year period by annual instalments in amounts ranging from 3.1% to 5.1% of the amount subscribed. During the year, Canada's investment of \$2,071,680 US as at April 1, 1980, was reduced by a payment of \$280,800 US valued at \$336,455 Cdn. Payments and other charges amounting to \$20,570 represent a valuation adjustment of Canada's foreign investment of \$1,790,880 US translated into Canadian dollars at the year-end closing rate of exchange (\$1 US/\$1.1844 Cdn).

**VETERANS' LAND ACT FUND
ADVANCES**

Advances have been made, under Parts I and III of the Veterans' Land Act, for the acquisition of land, permanent improvements, removal of encumbrances, purchase of stock and equipment and protection of security and, under Part II of the Act, for the purchase, subdivision and development of land and for progress payments to veterans during construction and completion of unfinished houses after termination of the construction contract, etc. On completion of the construction contract for each house, Canada Mortgage and Housing Corporation will place or arrange to have placed a mortgage on the property and reimburse the Fund the full cost of that property. The total amount outstanding at any time is not to exceed \$605,000,000.

A provision equal to 1/10 of the benefits to veterans is established each year. This annual provision is charged to budgetary expenditure and credited to the allowance for conditional benefits account. The allowance for conditional benefits account represents the accumulated net provisions for benefits to veterans in the form of forgiveness of loans authorized by the Veterans' Land Act. These benefits come into effect only after certain conditions are fulfilled by the veterans. At the end of 10 years, the conditions having been met, the accumulated provision is charged to the allowance for conditional benefits account and credited to the veteran's loan account.

Table 6.10 summarizes the balances and transactions for advances to the Veterans' Land Act Fund.

GOVERNMENT CONTROLLED CORPORATIONS

This category records loans, investments and advances to Government controlled corporations. The terms and conditions of the loans are governed by the Governor in Council or an appropriation act. For the purposes of this category, a Govern-

ment controlled corporation is a business corporation, other than a Crown corporation, in which the Government of Canada has a controlling interest.

Table 6.11 presents a summary of the balances and transactions for the various types of loans, investments and advances that were made to Government controlled corporations.

Canadair Limited

The Corporation was established by letters patent, granted under the Canada Corporations Act, to manufacture and sell aircraft.

Capital stock

The Government has purchased shares of the capital stock and notes of the Corporation.

The Government purchased 251,700, 4¼% non cumulative, \$100 par value preferred shares for \$25,170,000 and 3,102,206 common, no par value shares for \$21,448,550. This represents 100% of the shares.

Loans

Loans have been made to the Corporation for the financing of water bomber aircraft, such loans to be recovered on the sale of such aircraft.

The loans are interest-free and are repayable only if and when the aircraft concerned are sold. Because of this condition, no periods for repayment have been set up.

Canada Development Corporation

The Corporation was established under the Canada Development Corporation Act to assist in the creation or development of businesses, resources, properties and industries in Canada. The Minister of Finance may subscribe to purchase and hold shares of the Corporation for the Government of Canada.

The Government has purchased, pursuant to Section 35 of the Act, 30,711,990 no par value common shares.

The Government's holding of shares represents 89.5% of the common shares outstanding and 48.6% of the voting rights.

Consolidated Computer Incorporated

The Corporation was established by letters patent, granted under the Ontario Corporations Act, to manufacture and sell computer parts.

The Government has purchased 10,869,333 non-assessable no par value common shares for \$16,304,000. Of these shares, 2,543,665 were exchanged with Fujitsu Ltd of Japan for the provision to the Corporation of technical, manufacturing, marketing and financial assistance. The Government also holds 60,000 non-voting convertible no par value special shares and 1,040,000 non-assessable no par value common shares which were acquired as compensation for an insurance loss paid out under the provisions of the General Adjustment Assistance Program. This represents 49% of the total corporate shares outstanding. The Government of Ontario owns 16% of the outstanding shares with the remaining 35% being owned privately.

The de Havilland Aircraft of Canada Limited

The Corporation was established by letters patent, granted under the Ontario Corporations Act, to manufacture and sell aircraft.

Capital stock

The Government has purchased 31,999 non-assessable, class "A", no par value shares and 10,000 class "B", no par value common shares for \$40,498,903. This represents 100% of the shares, less one share held by the union.

During the year, an additional payment was made to former shareholders based on a revised net worth as authorized by Vote L32c, Appropriation Act No 4, 1980-81.

Loans

Loans have been made to the Corporation in respect of the costs of rate tooling for the DHC-7 aircraft, such loans to be recovered on the sale of such aircraft. During the year, additional loans were authorized by Vote L45, Appropriation Acts No 1 and No 2, 1980-81.

The loans are interest-free and are repayable only if and when the aircraft concerned are sold. Because of this condition, no periods for repayment have been set up.

PRIVATE SECTOR ENTERPRISES

This category records loans to private sector enterprises. Private sector enterprises are corporations or associations engaged in industrial or commercial operations but which are not controlled by the Government of Canada.

The loan bears interest at the rate of 7.5% per annum, is repayable over a 9½ year period in semi-annual instalments due on June 30 and December 31 and matures December 31, 1981.

Company stock option

This account records the purchase by the General Adjustment Assistance Board and the Enterprise Development Board, on behalf of Her Majesty in right of Canada, of the capital stock of a company in order to exercise a stock option in such company that has been taken by the Board in connection with the provision of a loan, or of insurance of a loan or a letter of credit made or issued to the company in accordance with the General Adjustment Assistance Regulations, the Automotive Manufacturing Assistance Regulations, or under the Enterprise Development Program, where, in the opinion of a Board established pursuant to Section 7 of the Department of Industry, Trade and Commerce Act:

- (i) the value of the capital stock of the company has increased as a result of the assistance provided and the stock option should be exercised, in order to permit Her Majesty in right of Canada to benefit from the increased value of the capital stock of the company; or,
- (ii) the stock option should be exercised, to protect the Crown's interest in respect of the loan made or insurance provided; and,

to authorize the sale or other disposition of any capital stock so acquired.

During the year, additional purchases were authorized by Vote L40, Appropriation Acts No 1 and No 2, 1980-81.

Enterprise development program

This account records loans to:

- (a) a person engaged in a manufacturing or processing activity in Canada where in the opinion of the Enterprise Development Board such loan is required for the purpose of:
 - (i) restructuring operations in order to adapt efficiently to competition from goods imported at such

prices, in such quantities or under such conditions as to cause or threaten serious injury; or,

- (ii) adjusting to changes in conditions affecting access to foreign markets which are attributable to the imposition by a country other than Canada of an import surtax or to the taking by such country of other actions having the same effect;
- (b) a person in respect of whom the Board has authorized the provision of insurance of a loan not exceeding \$200,000 where, in the opinion of the Board, such loan is required for the purpose of preventing a serious delay in implementing a restructuring program;
- (c) a person who has previously obtained assistance in accordance with the Automotive Manufacturing Assistance Regulations, the Pharmaceutical Industry Incentives Development Assistance Regulations or the Footwear and Tanning Industries Assistance Regulations or under the Enterprise Development Program or to any trustee or receiver authorized by law to carry on the business of such person or manufacturer where, in the opinion of the Board, such loan is required for the purpose of protecting the Crown's interest in the assets securing a loan previously made or a loan or letter of credit previously insured, where such a person is unable to obtain sufficient financing on reasonable terms from other sources for such purposes;
- (d) a person in Canada engaged or about to engage in tanning or in the manufacture of footwear who, in the opinion of the Board, requires assistance to establish or restructure his operations in order to meet international competition;
- (e) a person engaged or about to engage in a manufacturing, processing or other commercial activity for the purpose of promoting the establishment, growth, efficiency or international competitiveness of Canadian industry and to foster the expansion of Canadian trade; and,
- (f) a person who has previously obtained assistance under a program of assistance to industry or any trustee or receiver authorized by law to carry on the business of such person for the purpose of protecting the Crown's interest resulting therefrom.

During the year, additional loans were authorized by Vote L35, Appropriation Acts No 1 and No 2, 1980-81.

The loans are repayable over periods ranging from 7 to 20 years, bear interest at rates varying from 8.375% to 12.875% per annum and mature at various dates between November 15, 1985 and April 15, 1990.

No further loans under the Footwear and Tanning component will be made.

Eurocan Pulp and Paper Co Ltd

Loans have been made to Eurocan Pulp and Paper Co Ltd for the construction of a marine terminal at Kitimat, British Columbia. The total amount of loans authorized is \$4,500,000.

The loans bear interest at rates varying from 7.062% to 7.812% per annum, are repayable over a 20 year period in annual equal instalments due March 31 of each year and mature on March 31, 1991.

Footwear and tanning industries adjustment program

Loans have been made under the footwear and tanning industries adjustment program, to assist persons in Canada engaged or about to engage in tanning or in the manufacture of footwear, who have been determined by the General Adjustment Assistance Board to be eligible for assistance to establish or restructure their operations in order to meet international competition.

The loans bear interest at rates varying from 8.7% to 10% per annum, are repayable over periods ranging from 5 to 9 years and mature at various dates between August 15, 1983 and July 15, 1985.

This loan program has been superceded by the enterprise development program and no further loans will be made.

Under authority of Vote 1c, Appropriation Act No 4, 1980-81, loans amounting to \$470,848 were written-off during the year. These loans were originally recorded in 1974-75.

Groundfish processors

Loans have been made to assist processors of groundfish in Canada, which, as determined by the Fisheries Prices Support Board, are unable to obtain sufficient financing on reasonable terms from other sources, to maintain raw fish prices, i.e., prices to primary producers at the 1966-68 level. The total amount of loans authorized is \$6,000,000. The loans bear interest at the rate of 8.75% per annum and are repayable over a 7 year period in annual equal instalments maturing December 1984.

Loans have also been made to ice affected fish plants in Newfoundland, Labrador and North Shore, Quebec to provide advances for working capital assistance to Canadian producers of groundfish products in Newfoundland and Quebec who were affected by severe ice conditions in May and June 1974, in the amount of \$3,000,000. The loans bear interest at rates varying from 8% to 10% per annum and are repayable over a 7 year period in annual equal instalments maturing December 1985.

Haddock fishermen

Loans have been made to Nova Scotia haddock fishermen whose fishery was closed from February 1 to May 31, 1975 pursuant to an agreement under the International Agreement for the Northwest Atlantic Fisheries. The total amount of loans authorized is \$1,650,000.

The loans bear interest at the rate of 8% per annum and are repayable over a 4 year period in annual equal instalments. The loans matured in 1979, but are not yet repaid.

Kennedy Round agreement

Loans have been made under the Adjustment Assistance Program related to the Kennedy Round agreement to assist manufacturers in Canada who have been determined by a board established pursuant to Section 15 of the Department of Industry Act: (a) to be seriously injured or threatened with serious injury by reason of increased imports attributable to Kennedy Round tariff reductions made by Canada resulting in exceptional problems of adjustment, (b) to be unable to obtain sufficient financing on reasonable terms from other sources for

purposes of making the necessary adjustment, (c) to require such loans in order to adapt efficiently to competition from goods imported at such prices, in such quantities or under such conditions as to cause or threaten serious injury; and, (d) to be unable to obtain sufficient financing on reasonable terms from other sources for such purposes. Also to include in the category of persons eligible for loans thereunder, a manufacturer or other person in Canada:

- (a) in respect of whom the General Adjustment Assistance Board has authorized the provision of insurance pursuant to Industry, Trade and Commerce Vote 30c, Appropriation Act No 1, 1968, of a loan therein described for an amount not exceeding \$200,000; and,
- (b) who, in the opinion of the Board, requires such loan to prevent serious delay in implementing the restructuring program approved by the Board.

The outstanding loan bears interest only if the Company generates a profit, is repayable over a 17 year period and matures March 1, 1990.

This loan program has been superceded by the Enterprise Development Program and consequently no further loans will be made.

La Société du Parc Industriel et Commercial Aéroportuaire de Mirabel

The Government has purchased 400 fully paid capital shares of La Société du Parc Industriel et Commercial Aéroportuaire de Mirabel at \$1 par value per share under the authority of the Minister of the Department of Regional Economic Expansion. This represents 40% of authorized shares. The balance of outstanding shares is owned by the Government of Quebec.

Lower Churchill Development Corporation

This account records the Government's investment in the capital of the Corporation. In respect of Canada's participation with the Government of Newfoundland in the development of the hydro-electric power potential of the Lower Churchill River in Labrador, the Government is authorized to purchase approximately 49% of the shares of the Lower Churchill Development Corporation.

During the year, additional shares of the Corporation were authorized to be purchased by Vote L35, Appropriation Act No 1, 1980-81.

The Government purchased 985 class "A" shares, representing 49% of the shares outstanding. The balance of the outstanding shares is owned by Newfoundland and Labrador Hydro.

Mainland Investments Limited

The Government has purchased 5,000 shares of the capital stock of Mainland Investments Limited (formerly Metropolitan Area Growth Investments Limited) at \$1,000 par value per share in accordance with an agreement entered into between Canada and Nova Scotia pursuant to Section 8 of the Department of Regional Economic Expansion Act. This represents 25% of authorized shares.

The Government has also purchased one fully paid and non-assessable common share of Mainland Investments Limited at \$1,000 par value per share in accordance with an

agreement entered into between Canada and Nova Scotia pursuant to Section 8 of the Department of Regional Economic Expansion Act. This represents .005% of authorized shares. The balance of outstanding shares is owned by the Government of Nova Scotia.

Newfoundland and Labrador Development Corporation Limited

Capital stock

The Government has purchased 200 ordinary shares of Newfoundland and Labrador Development Corporation Limited at \$1 par value per share in accordance with an agreement entered into between Canada and Newfoundland pursuant to Sections 5 and 8(3)(c) of the Department of Regional Economic Expansion Act. This represents 40% of authorized shares. The balance of the outstanding shares is owned by the Government of Newfoundland.

Loans

Loans have been made to provide financing and other services to small and medium-sized businesses in Newfoundland.

During the year, additional loans were authorized by Vote L20, Appropriation Acts No 1 and No 2, 1980-81.

The loans bear interest at rates varying from 8.375% to 13.75% per annum with interest only payable annually on March 31 of each year, to the expiry date of the 10 year promissory notes and maturing at various dates between April 13, 1987 and March 31, 1991.

Oil refinery terminal wharf at Come-by-Chance, Newfoundland

Loans have been made for the construction of an oil refinery terminal wharf at Come-by-Chance, Newfoundland. The total amount of loans authorized is \$28,200,520.

Panarctic Oils Limited

Pursuant to Vote 25b, Appropriation Act No 1, 1976, the Minister guaranteed loans from commercial sources to Panarctic Oils Limited, for its exploration program, up to an aggregate principal amount of \$12 million plus interest thereon.

During the year, Her Majesty paid the defaulted loans of the Corporation and received common shares of the Corporation for the amount of the Corporation's indebtedness as of November 30, 1980. Therefore, 4,338,963 common shares, valued at \$4.8333 per share, totalling \$20,971,510, were acquired. This represents 8.22% of the total shareholders' equity.

The relevant shares will be transferred to the Department of Energy, Mines and Resources, and an adjustment in the amount of \$8,406 for the difference between the defaulted payment and the value of the shares received will be made in 1981-82.

Pharmaceutical industry development assistance program

Loans have been made in respect of the pharmaceutical industry development assistance program to companies in Canada for the purpose of improving their ability to manufacture and market lower-priced prescription drugs at competitive prices through reorganization of any of their operations of manufacturing, marketing, distribution and research, and who are unable to obtain sufficient financing on reasonable terms from other sources for such purposes.

The loans bear interest at rates varying from 8% to 8.75% per annum, are repayable over a 10 year period and mature at various dates between October 15, 1982 and April 15, 1984.

No further loans under this program will be made.

Radio Engineering Products Limited

Loans have been made to Radio Engineering Products Limited to provide for working capital in order that the Company could remain viable and complete certain production.

Radio Engineering Products Limited was indebted to Revenue Canada for tax arrears of some \$3,500,000 and to the Department of Industry, Trade and Commerce for approximately \$400,000 under the Defence Industry Productivity Program. At the time of the loans, the Government had acquired control of the Company. In November of 1975, the Company declared bankruptcy and the assets were subsequently disposed of, however, the proceeds were insufficient to return any funds to the Government. Procedures for the formal write-off of these loans have been delayed pending the outcome of a possible lawsuit.

Saint John Harbour Bridge Authority

Advances have been made to the Saint John Harbour Bridge Authority in connection with the financing, construction and operation of a toll bridge across the harbour of Saint John, NB. The total amount of advances in each year is to be based on the difference for the year between the operating and financing costs of the toll bridge and the actual revenue of the Bridge Authority, repayable when the actual revenue of the Bridge Authority for the year exceeds the amount of the

operating and financing costs for such year. The advances bear interest at rates varying from 5% to 12% per annum.

Advances made to enable the Authority to meet payments on Municipal Development and Loan Board loans and/or National Harbours Board loans result in a charge to this account. The deferment of interest on debentures held by Canada also results in a charge to this account. The total amount of loans authorized is \$10,000,000.

Société Inter-Port de Québec

The Government has purchased 400 fully paid capital shares of Société Inter-Port de Québec at \$1 par value per share under the authority of the Minister of the Department of Regional Economic Expansion. Loans can be made to institutions and public authorities in Canada for the purchase of objects in respect of which export permits have been refused under the Cultural Property Export and Import Act or for the purchase of cultural property situated outside Canada that is related to the national heritage.

During the year, additional loans were authorized by Vote L25, Appropriation Acts No 1 and No 2, 1980-81.

Loans have no applicable interest rates and no established due dates.

Parolees—Solicitor General

Loans have been made to parolees to assist in their rehabilitation.

The total amount outstanding at any time is not to exceed \$10,000.

The loans are non-interest bearing and are repayable before the expiration of the parole period or within one year from the date the loans were made, whichever period is the shorter. The repayment of a loan or any part thereof may be forgiven by the Solicitor General if certain conditions are met.

During the year, loans totalling \$6,749 were forgiven pursuant to Vote L103b, Appropriation Act No 4, 1968. These loans were initially recorded in 1979-80 and 1980-81.

Defence production loan account—Supply and Services

This account was established under Section 15.1 of the Defence Production Act to record loans or advances for any purpose other than to assist in the construction, acquisition, extension or improvement of capital equipment or works by any person.

Section 15.2 of the Defence Production Act stated that the aggregate of expenditures charged to the Defence production revolving fund (budgetary account) and to this account shall not at any time exceed by more than \$100,000,000 the aggregate of amounts:

- (a) received from the sale or disposition of materials, substances or defence supplies;
- (b) charged to another appropriation in respect of costs of acquisition, storage, maintenance or transportation of stocks of materials or substances purchased or of stocks of defence supplies acquired, where such materials, substances or defence supplies may be acquired under that appropriation;
- (c) charged to an appropriation or paid by an agent of Her Majesty or by an associated government to pay costs incurred in respect of defence supplies payment for which was made out and charged to the Defence production revolving fund; and,
- (d) received in repayment of a loan or advance previously charged to this account.

A repayment of \$1.7 million owed to this account by CAE Aircraft is tied up in court over a dispute concerning the due date from which interest should be charged. Legal counsel is of the opinion that no loss to the account will be incurred.

Corporation of the City of Montreal—Transport

Loans have been made to the Corporation of the City of Montreal for the construction of vehicular tunnels under the Lachine Canal at Atwater Avenue and at St Remi Street, and provided that the lands upon which the tunnels and approaches are constructed, other than Lachine Canal reserve lands, are to be conveyed to the City upon completion of the tunnels.

Under the agreement, the Corporation was required to reimburse $\frac{1}{3}$ of the cost of construction of the tunnels, with interest at the rate of 3.125% per annum calculated from the date of conveyance of the lands, provided that the amount did not exceed the sums of \$2,000,000 for the Atwater Tunnel and \$1,500,000 for the St Remi Tunnel plus interest, and such amounts were to be repaid in 30 consecutive annual instalments, the first of which was to be due and payable twelve months after the date of conveyance of the lands, namely June 20, 1961, for the Atwater Tunnel and June 12, 1953, for the St Remi Tunnel.

The cost of the construction of the Atwater Tunnel for purposes of the agreement exceeded \$6,000,000 and the share to be reimbursed by the City is \$2,000,000 with interest at 3.125% per annum, maturing on June 20, 1991.

The cost of the construction of the St Remi Tunnel for the purposes of the agreement has been established at \$4,132,353 and the share to be reimbursed by the City was \$1,377,451 plus \$21,738 for supplementary ducts installed at the request of the Montreal Hydro Commission, with interest at the rate of 3.125% per annum, maturing on June 12, 1983.

Debentures of the City of Montreal furnished as security are held in the custody of the Minister of Supply and Services.

Fraser River Harbour Commission—Transport

Loans have been made to the Fraser River Harbour Commission to assist in the development of the harbour. Loans are also made to assist in wharf reconstruction and extension.

The loans bear interest at the rate of 7.5% per annum, are repayable over a 15 year period in semi-annual instalments due June 30 and December 31 of each year and mature on December 31, 1983.

Hamilton Harbour Commissioners—Transport

Loans secured by debentures or promissory notes have been made to the Hamilton Harbour Commissioners to assist in the development of the harbour.

During the year, additional loans were authorized by Votes L40 and L40b, Appropriation Acts No 1, No 2 and No 3, 1980-81.

The total amount outstanding at any time is not to exceed \$4,000,000.

The terms and conditions of the loans, with their year-end balances, are categorized into four groups:

- (a) 20 year loans at 6.062% interest per annum, repayable in semi-annual instalments due June 30 and December 31 of each year and maturing on June 30, 1987, \$461,465;
- (b) 20 year loans at 5.562% interest per annum, repayable in semi-annual instalments due June 30 and December 31 of each year and maturing on June 30, 1987, \$450,231;
- (c) 39 year loan at 4.125% interest per annum, repayable in semi-annual instalments due June 30 and December 31 of each year and maturing on January 31, 2001, \$975,000; and,
- (d) one loan to bear interest from the date construction is substantially completed or April 1, 1983, whichever is earlier, at a rate equal to the then existing rate established by the Minister of Finance in respect of Crown corporations' borrowings, repayable in 40 equal semi-annual instalments, \$1,464,785.

Lakehead Harbour Commission—Transport

Loans have been made to the Lakehead Harbour Commission for expansion of the Keefer terminal.

The loans bear interest at the rate of 7.437% per annum, are repayable over a 15 year period in semi-annual instalments due June 30 and December 31 of each year and mature on June 30, 1989.

Nanaimo Harbour Commission—Transport

Loans have been made to the Nanaimo Harbour Commission to defray the cost of additional berthing facilities at Nanaimo Assembly Wharf.

During the year, additional loans were authorized by Vote L45, Appropriation Acts No 1 and No 2, 1980-81.

The loans were repaid in full during the year.

Port Alberni Harbour Commission—Transport

Loans have been made to the Port Alberni Harbour Commission to finance the construction of a new lumber assembly wharf.

The terms and conditions of the loans, with their year-end balances, are categorized into two groups:

- (a) 20 year loan at 8.062% interest per annum, repayable in semi-annual instalments due June 30 and December 31 of each year and maturing on June 30, 1991, \$355,013; and,
- (b) 20 year loan at 7.187% interest per annum, repayable in semi-annual instalments due June 30 and December 31 of each year and maturing on June 30, 1991, \$1,035,701.

Maritime Employers' Association—Transport

Loans have been made to the Maritime Employers' Association to finance the early retirement of employees.

The loans bear interest at the rate of 10.375% per annum, are repayable over a period of 8½ years in semi-annual instalments due June 30 and December 31 of each year and mature on December 31, 1985.

Commonwealth War Graves Commission—Veterans Affairs

Advances have been made to the working capital fund of the Commonwealth War Graves Commission (formerly the

Imperial War Graves Commission) to maintain graves and cemeteries.

As at March 31, 1981, the balance of the advances was £30,000 UK. This foreign currency balance was converted to \$79,449 Cdn, using the year-end rate of exchange (£1 UK = \$2.6483 Cdn).

The advances are interest-free and have no fixed terms of repayment.

ALLOWANCE FOR VALUATION

In accordance with the comprehensive policy on valuation, which became effective in 1979-80, assets are subject to an annual valuation to reflect reductions from the recorded value to the estimated realizable value.

The allowance for valuation, for loans, investments and advances, amounting to \$3,000 million at the beginning of the year, was reduced by \$1,007 million representing amounts previously provided for and deleted during the year under various parliamentary authorities and was increased by \$307 million to provide a total of \$2,300 million, that is the estimated losses on the realization of the loans, investments and advances included in the Accounts of Canada at the year end.

SUPPLEMENTARY STATEMENT

Recorded Uncollected Interest

In accordance with the Government's stated accounting policies, interest due but not received is not recorded as revenue. In certain cases, this uncollected interest is recorded by being added to the applicable loan and advance account

and credited to a recorded uncollected interest account. Since the Government's policy is to record revenue only when received, the balance of the recorded uncollected interest account is deducted from the loan and advance account to present it on a net basis.

Table 6.14 reports transactions for the year in respect of the recorded uncollected interest.

SPECIFIED PURPOSE ACCOUNTS

Specified purpose accounts represent the recorded value of the financial obligations of the Government of Canada in its role of administrator of certain public monies which are received or collected for specified purpose, under or pursuant to legislation, a trust, treaty, undertaking or contract, and which may be paid out only for a purpose specified in or pursuant to legislation, a trust, treaty, undertaking or contract.

Because of the dedicated purposes of these monies, specific accounts are required to be maintained to provide an accounting mechanism to ensure that the monies are used only for the purposes for which they were received or collected. Legislation relating to some accounts permit investments to be made and in some cases the balances of the accounts earn interest.

This section gives details of specified purpose accounts on which summary information was given in Sections 1 and 2 of this volume.

The Adjustment of Accounts Act amended the Unemployment Insurance Act, requiring that the Unemployment Insur-

ance Account be credited commencing on April 1, 1980, with the Government's cost of paying benefits on a current fiscal year basis rather than on a lagged calendar year basis. This, therefore, eliminated the need for the allowance for the Government's cost of paying unemployment insurance benefits.

Some tables in this section present the continuity for each account by showing the opening and closing balances, as well as receipts and other credits and payments and other charges, i.e. inflow and outflow of transactions. In addition, the term "accounts without current transactions" has been included in one table in order to provide a link with figures published in the previous year's edition of the Public Accounts to show net transactions in accounts which were closed out in the previous year.

The financial statements of the Canada Pension Plan Account and the Canada Pension Plan Investment Fund, the Unemployment Insurance Account, the Government Annuities Account and the Royal Canadian Mounted Police (Dependants) Pension Fund, together with the Auditor General's reports thereon, are presented at the end of this section.

Canada Pension Plan Account

The Canada Pension Plan was established by the Canada Pension Plan Act to provide for the protection of income in the event of retirement, disability or death. The Canada Pension Plan accomplishes this through the payment of retirement benefits, benefits to disabled contributors and their children, survivors' benefits to widows and widowers, orphans' benefits and death benefits to the estates of deceased contributors.

The Government's financial obligation, as the administrator of the Canada Pension Plan, is limited to the balance of the account.

Table 7.2 presents a summary of the balances and transactions in the Canada Pension Plan Account including provincial government securities in the Canada Pension Plan Investment Fund.

- (b) interest received from securities of the Canada Pension Plan Investment Fund, from short term notes and from the average daily operating balance;
- (c) the share of payments made by the Canada Pension Plan and recovered in accordance with an agreement with a province providing a comprehensive pension plan;
- (d) receipts in accordance with reciprocal agreements with other countries; and,
- (e) the sale of short term notes.

Payments and other charges include:

- (a) benefits payable under the Canada Pension Plan as retirement pensions, survivors' benefits payable to widows, disabled widowers and orphans, or as lump sum death benefits, and disability pensions and benefits to children of disabled contributors;
- (b) all amounts paid in accordance with an agreement with a province providing a comprehensive pension plan that are required to be charged to the Canada Pension Plan Account;
- (c) payments that are required to be charged to the Canada Pension Plan Account in accordance with reciprocal agreements with other countries;

(d) the costs of administration of this Act, under the authority of Parliament; and,

(e) the purchase of short term notes.

Funds of the Canada Pension Plan in excess of immediate requirements have been invested in accordance with the provisions of the Canada Pension Plan Act, in securities issued or guaranteed by any province (in approximate ratio of net contributions received from the contributors in each province) and in securities issued by the Government of Canada. On the Statement of Assets and Liabilities of the Government of Canada, the investment in securities issued by the provinces, as charged to the Canada Pension Plan Investment Fund, is deducted from the Canada Pension Plan Account.

The Canada Pension Plan is applicable throughout Canada, except in the Province of Quebec where a provincial plan has been established. However, certain federal employees, such as members of the armed forces, who are resident in the Province of Quebec, contribute to the Canada Pension Plan. The securities of the Province that are purchased by the Plan relate to the contributions of these employees.

Superannuation Accounts

The Government provides pensions to retired employees or their dependants through pension schemes authorized by the Public Service Superannuation Act, the Canadian Forces Superannuation Act and the Royal Canadian Mounted Police Superannuation Act. These pensions are indexed to the cost of living under authority of the Supplementary Retirement Benefits Act. The Government's liabilities in its role as administrator of these pension plans in respect of its employees and certain other contributors are recorded in the relevant superannuation accounts.

Legislation for basic pensions provides for employee contributions (6½% of salary), employer contributions (prior year's employee contributions for members of the Public Service, and approximately 1.8 and 2.0 times current year's employee contributions for members of the Canadian Forces and Royal Canadian Mounted Police respectively), allocation of interest (average market yield of 20 year Canada bonds weighted by the quarterly excess of receipts over disbursements in the three accounts each quarter over 20 years), and actuarial valuation deficiencies (full valuation every 5 years with annual adjustments for authorized salary increases). Legislation for indexing basic pensions does not require actuarial valuations but does provide for additional employee contributions (1% of salary), matching employer contributions and allocation of interest (current rate of 5 year Canada bonds).

Receipts and other credits for the superannuation accounts consist of contributions from personnel, matching contributions from the Government and participating Public Service corporations, transfers from other pension funds and other Government contributions related to interest and actuarial liability adjustments (the latter are not applicable to the Supplementary Retirement Benefits Account). Payments and other charges for the superannuation accounts consist of payments of pensions, death benefits, refunds of contributions and transfers to other plans.

Actuarial valuations are made quinquennially, the next of which will be made as at December 31, 1982 for the Public Service Superannuation Account, December 31, 1980 for the Canadian Forces Superannuation Account and December 31, 1979 for the Royal Canadian Mounted Police Superannuation Account. In accordance with the legislation governing the three superannuation plans, any actuarial deficiency revealed will be credited to the appropriate account as considered necessary in the opinion of the Minister of Finance, charged to unamortized portion of actuarial deficiencies and amortized to expenditure in five equal annual instalments commencing in the year in which the report is laid before Parliament. In addition, the cost of added liabilities under the superannuation acts, created by the authorization of salary increases each year, is credited to the superannuation accounts, charged to unamortized portion of actuarial deficiencies and amortized to expenditure over a period of five years commencing in the year in which the increases are authorized.

Since the quarter ending September 30, 1969, the regulations made pursuant to each of the superannuation acts have provided for the calculation of interest at a rate related to the Canada Pension Plan interest rate. The acts further provide that the amount by which the calculated interest rate (currently about 8.8% per annum) exceeds the amount of interest calculated at the rate used in the latest actuarial report (currently 6.5% per annum for the Public Service, Canadian Forces and Royal Canadian Mounted Police Superannuation Accounts), may be used to reduce the amortization of actuarial deficiencies charged to budgetary expenditure.

Table 7.4 presents a summary of the balances and transactions for the superannuation accounts including the unamortized portion of actuarial deficiencies. Table 7.5 presents an analysis of the actuarial deficiencies.

Table 7.6 presents a summary of transactions in superannuation accounts that resulted in charges to budgetary expenditure. In 1980-81, \$2,863 million was charged to budgetary expenditure on account of superannuation plans. This is composed of Government contributions, \$548 million; amortization of actuarial deficiencies resulting from quinquennial actuarial valuations and salary increases, \$753 million; increased superannuation benefits paid during the year due to indexation in excess of the superannuates' share of contributions to the Supplementary Retirement Benefits Account, \$321 million; and, interest credited to the accounts, \$1,241 million.

Supplementary Retirement Benefits Account

This account was established by the Supplementary Retirement Benefits Act to provide for the payment of increased pension benefits resulting from indexation. Actuarial valuation of the account is not required to be made.

The Chief Actuary of the Department of Insurance has estimated that the actuarial present value of supplementary retirement benefits granted up to March 31, 1981, in respect of retired contributors or their dependants entitled to benefits pursuant to the Public Service, Canadian Forces and Royal Canadian Mounted Police superannuation accounts as at March 31, 1981, was \$4.2 billion. This amount is based on an assumed interest rate of 6.5% and other assumptions as

described in the last actuarial reports on those three superannuation accounts.

Increased superannuation benefits paid during the year due to indexation amounted to \$346 million (\$275 million in 1979-80) of which \$321 million (\$264 million in 1979-80) represents benefits to superannuates in excess of their share of contributions to the account charged to budgetary expenditure. The payments charged to budgetary expenditure on behalf of contributors amounted to \$202 million (\$170 million in 1979-80) for the Public Service Superannuation Account, \$109 million (\$84 million in 1979-80) for the Canadian Forces Superannuation Account and \$10 million (\$10 million in 1979-80) for the Royal Canadian Mounted Police Superannuation Account. Only \$25 million (\$11 million in 1979-80) was charged to the Supplementary Retirement Benefits Account.

Unemployment Insurance Account

The Unemployment Insurance Act provides for a compulsory contributory unemployment insurance program applying to everyone employed, subject to minor exceptions.

The Act authorizes an account in the Accounts of Canada to be known as the Unemployment Insurance Account.

The Act also provides that all amounts received under the Act as or on account of premiums, fines, penalties, interest and repayment of overpayments of benefits, and all amounts collected by the Canada Employment and Immigration Commission for services rendered to other Government departments or agencies or the public, shall be paid into the Consolidated Revenue Fund and shall be credited to the Unemployment Insurance Account; that any other amounts provided out of the Consolidated Revenue Fund for any purpose related to unemployment insurance that is authorized by an appropriation by Parliament and the administration of which falls to the Commission, shall be credited to the Unemployment Insurance Account; that the Minister of Finance may authorize, in accordance with such terms and conditions and at such rates as he may prescribe, the payment of interest on the balance in the Unemployment Insurance Account, and such interest shall be credited to the account; and that there shall be charged to the account all amounts paid as or on account of benefits under this Act and the costs of administration of the Act.

Maximum weekly employee premiums were \$3.92 from April 1, 1980 to December 31, 1980 and \$5.67 from January 1, 1981 to March 31, 1981. For the same periods, maximum weekly benefits were \$174 from April 1, 1980 to December 31, 1980 and \$189 from January 1, 1981 to March 31, 1981.

During the year, an interest bearing loan was made to the Unemployment Insurance Account under Section 137(1) of the Unemployment Insurance Act as a result of deficiencies in contributions from employers and employees. The total amount outstanding at any time is not to exceed \$800,000,000.

This loan bears interest at a rate of 13.75% per annum and is repayable on or before March 31, 1982. The loan is deducted from the balance of the Unemployment Insurance Account to show the net position of the Account.

Government Annuities Account

This account was established by the Government Annuities Act and modified by the Government Annuities Improvement Act which discontinued future sales of annuities. The account is valued on an actuarial basis each year with any deficit or surplus charged or credited to the Consolidated Revenue Fund.

The purpose of the Government Annuities Act was to assist Canadians to provide for their later years by the purchase of Government annuities. The Government Annuities Improvement Act increased the rate of return and flexibility of Government annuity contracts and discontinued future sales of annuities.

Receipts and other credits consist of premiums received, funds reclaimed from the Consolidated Revenue Fund for previously unlocated annuitants, earned interest and items transferred from previous years' revenue to cover the actuarial deficit. Payments and other charges represent matured annuities, the commuted value of death benefits, premium refunds and premium withdrawal payments and any actuarial surplus and unclaimed items transferred to non-tax revenue.

Deposit and Trust Accounts

Deposit and trust accounts is a category of liabilities representing the Government's financial obligations in its role as administrator of certain monies that it has received or collected for specified purposes and that it will pay out accordingly. To the extent that the funds received are represented by securities, these are deducted from the corresponding trust accounts to show the Government's net liability.

Table 7.12 presents a summary of the balances and transactions in deposit and trust accounts.

Commonwealth institute of biological control

This account reflects the financial transactions of the Commonwealth institute of biological control, a scientific institution working on the biological control of harmful insects, which is supported by contributions from member countries of the British Commonwealth and is directed by the Executive Council of the Commonwealth Agricultural Bureau.

Prairie farm emergency fund

The Prairie Farm Assistance Act provides for a levy of 1% to be deducted by all licensed purchasers of grain, the amount so deducted to be transferred to the Canadian Grain Commission for deposit to the credit of a special account known as the Prairie farm emergency fund. The levy is not collected in respect of grain grown by farmers who participate in approved crop insurance programs. Collection of levies was discontinued, effective August 1972.

Western grain stabilization account

The purpose of the Western Grain Stabilization Act is to protect prairie grain producers from unexpected and large income declines, through the stabilization of returns on the production and sale of wheat, oats, barley, rye, mustard seed, rapeseed and flax seed as well as any other seed as may be prescribed which is: (a) produced in the designated area and, (b) named in Schedule 1 to the Canada Grain Act and designated therein as "Canada Western".

This account contains funds for this purpose which are received from:

- (a) levies paid by participating producers—Normally 2% of grain sales proceeds to an annual maximum of \$45,000 eligible proceeds per participant;
- (b) Government contributions equal to levies paid by producers plus an additional 2% of the participating eligible grain sales proceeds of all participants; and,
- (c) interest on the amount standing to the credit of the stabilization account, at rates and in accordance with terms and conditions determined by the Minister of Finance.

Deposit account—Public Archives

This account is provided for the recording of advance payments received in connection with the sale of microfilm and reproductions.

Cultural exchange—Government of Manitoba

This account was established to administer funds for the Government of Manitoba, a scholarship program to encourage French nationals to undertake graduate studies in a university in Manitoba.

Deposit account—Consumer and Corporate Affairs

This account represents sums of monies held in trust to defray the cost of documents purchased on a regular basis. No interest is accrued on the account.

This account is credited with moneys received by the Corporation by way of gift, bequest or otherwise, interest on any securities, rent or sales of any real property acquired by the Corporation by way of gift, bequest or otherwise, and an amount representing interest on the balance from time to time to the credit of the account and to which shall be charged such amounts as are authorized by the Board of Trustees of the Corporation to be expended for the purpose for which such moneys or property were given, bequeathed or otherwise made available to the Corporation. Securities in connection with this account amount to \$2,000 consisting of two Canada savings bonds bequeathed by the late J Dazell McKee and the late Hugh de T Glazebrook. Interest on these securities in the amount of \$75 was credited to the account.

Special operating account—National Library

This account records all monies received for the purpose of the National Library by way of donation, bequest or otherwise. Any amounts required for the purposes of the Act may be paid out of this account or out of any money appropriated by Parliament for such purposes.

Queen's Fellowship fund

This account acknowledges the transfer, from the Canada Council, of the administration and control of the Queen's Fellowship fund. The capital has been invested in bonds of Abitibi Paper Ltd, at 10½% interest, payable semi-annually, due March 1, 1995. The income derived from the investment is used for the payment of scholarships to graduate students in certain fields of Canadian studies.

Trust fund—Social Sciences and Humanities Research Council

This account was established to receive and disburse funds made available for its social sciences and humanities research activities. The account is also used for receipts of private donation and disbursements of these funds for the purposes of special projects.

Special fund—National Research Council

This account was credited with revenue of the National Research Council of Canada derived from laboratory fees, \$4,467,171; capital, \$172,525; information services, \$33,193; sale of publications, \$1,735,526; and, miscellaneous receipts, \$1,334,903 under authority of the National Research Council Act. An amount of \$7,742,242 was charged hereto, of which an amount of \$5,360,584 was credited to National Research Council Vote 5, \$172,525 to National Research Council Vote 10, and, \$2,209,133 to National Research Council Vote 20, to offset expenditures.

Trust fund—Natural Sciences and Engineering Research Council

This account is maintained to record funds received from other governments and organizations to cover expenditures made on their behalf and to record this agency's liability to those other organizations.

Veterans' Land Act trust account general

Receipts and other credits to this account consist mainly of initial and excess payments by veterans and civilian purchasers as provided under the Act, which are held pending approval of sales. Other items included are veterans' sales proceeds held pending redispbursement on their present or second establishment, insurance fire loss proceeds to pay for restoration of fire damage and moneys sent in by veterans and civilian purchasers to be held for payment of taxes and insurance and other related items.

Mackenzie King trust account

The late The Right Hon W L Mackenzie King bequeathed Laurier House, Ottawa, and the sum of \$225,000 to the Government of Canada. The amount of \$225,000 was credited to this account. Interest computed in accordance with the terms of the Laurier House Act is to be credited to the account at the end of each year and charged to interest on public debt. The interest is to be used to assist in the maintenance of Laurier House which is to be preserved as a place of historic interest and also provide accommodation for study and research. Expenditures are to be made by the Dominion Archivist subject to the approval of the Governor in Council.

During the year, interest amounting to \$28,530 was credited hereto. In accordance with the Act, the Dominion Archivist is authorized to expend an annual sum not to exceed 70% of the interest earned on the Mackenzie King trust account in the previous year for the maintenance and upkeep of the buildings on the Laurier House property as well as an annual sum not to exceed 30% of the interest earned on the above account for the maintenance of Laurier House as a museum and study centre and for the provision of sundry purchases therefrom, and that the unspent balance of the interest earned be returned at the end of the year to the Consolidated Revenue Fund.

Custodian administration account

This account was established to record assets transferred from the Custodian of Enemy Property. This special purpose money is to be used to satisfy claims against or expenses of the Custodian.

Federal sales tax collections—Correctional Services

This account is credited with federal sales tax collected on sales made by the Canadian Penitentiary Service and debited with remittances to National Revenue.

Provincial Tax Collection Agreements Account

This account records the excess of collections over payments under provincial tax collection agreements.

Under the Federal-Provincial Fiscal Arrangements Act, the Government of Canada is empowered to enter into an agreement with the government of any province to collect provincial individual and corporation income taxes and to make payments to the provinces with respect to such taxes.

The Government of Canada entered into agreements with nine provinces (Quebec excepted) to collect the provincial individual income tax and with eight provinces (Ontario and Quebec excepted) to collect the provincial corporation income tax, and to pay in equal monthly instalments to each province, the estimated revenue to be produced by the respective provincial taxes.

At the beginning of each year, the Minister of Finance will estimate (subject to revision at any time) the amount of the payment that in his opinion is due to the province in respect of the year ending in that year and will make payments to the province, on the basis of this estimate, in equal monthly instalments. Any adjustment will be made not later than March 31 of the year following that in which the taxation year ends.

Other Specified Purpose Accounts

There are a number of other specified purpose accounts operated by the Government. Transactions on behalf of the Public Service death benefit account, the regular forces death benefit account and the veterans' insurance fund, account for the greater part of the transactions of these accounts.

Table 7.13 presents a summary of the balances and transactions for all other specified purpose accounts.

Crop reinsurance fund

Under the Crop Insurance Act, the Government of Canada is empowered to enter into an agreement with the government of any province to provide contributions and loans in respect of crop insurance.

Section 5(1) of the Act provides authority to establish an account to be known as the crop reinsurance fund, to credit this account with all moneys paid by the provinces for the purpose of reinsurance and to charge this account with all moneys paid to the provinces under the terms of reinsurance agreements.

Annuities agents' pension account

This pension plan was established for annuities agents. During the year, interest amounting to \$2,981, calculated at the rate of 4% per annum, was credited to the account. Contributions from the Annuities Branch as former employer amounted to \$9,460.

Civil service insurance fund

In this account are recorded transactions in connection with insurance contracts made under authority of the Civil Service Insurance Act. Entering into contracts was discontinued in 1954-55 pursuant to Subsection 51(2) of the Public Service Superannuation Act.

During the year, receipts and other credits consisted of premiums, \$43,776; and, an amount of \$316,059 (charged to budgetary expenditure) which represents an adjustment to bring the balance in the fund into agreement with the actuarial valuation as at March 31, 1980. Payments and other charges consisted of death benefits, \$734,435; cash surrender value, \$171,842; annuities, \$52,908; and, premium refunds, \$1,131.

Fishing vessel insurance plan

The fishing vessel insurance plan is administered in accordance with regulations of the Governor in Council, for the purpose of assisting fishermen to meet abnormal capital losses. The account is credited with all amounts received by way of premiums and recoveries and with advances in accordance with the regulations, such advances not at any time to exceed \$150,000. The account is charged with refunds of premiums and payments in settlement of third party vessel collision damage claims against fishermen where the collision involves a vessel insured under the fishing vessel insurance plan. Administration costs are paid from Department of Fisheries and Oceans Vote 1.

Regular forces death benefit account

This account is maintained under the Canadian Forces Superannuation Act. Receipts and other credits consist of: (a) contributions by participants; (b) Government's contribution (1/6 of benefits paid in respect of participants who, at the time of death, were members of the regular forces or who were elective regular forces participants to whom pensions were payable under the Canadian Forces Superannuation Act or the Defence Services Pension Continuation Act); (c) single premiums payable by the Government in respect of regular forces participants who become entitled to a basic benefit of \$500 without contribution; and, (d) interest.

Payments and other charges consist of: (a) benefits paid in respect of participants who, at the time of death, were members of the regular forces or who were elective regular forces participants to whom pensions were payable under the Canadian Forces Superannuation Act or the Defence Services Pension Continuation Act upon their retirement from the regular forces; (b) benefits paid in respect of elective regular forces participants to whom pensions were not payable under the Canadian Forces Superannuation Act or the Defence Services Pension Continuation Act upon their retirement from the regular forces; and, (c) portion of benefit payable for which a single premium has been paid by the Government.

Retirement fund

Contributions are made to the fund in the form of monthly deductions from the salaries of certain prevailing rate or seasonal and certain other employees. Other credits are the accrual of interest at the rate of 4% per annum on the balance to the credit of each contributor, the off-setting charge being to interest on the public debt. Payments and other charges represent payment of the amounts to the employees' credit upon resignation or death, or, if they become contributors to the Public Service Superannuation Account, transfers to that account.

Returned soldiers' insurance fund

This account was established by the Returned Soldiers' Insurance Act, to provide life insurance to veterans of World War I. The account was credited with the amount received as premiums and an amount of \$51,332 (charged to budgetary expenditure) representing an actuarial liability adjustment as at March 31, 1980 and debited with disbursements for death benefits and cash surrender values. The final date on which application for this insurance could have been received was August 31, 1933.

Veterans' insurance fund

This account was established by the Veterans' Insurance Act to provide life insurance for veterans of World War II. The account was credited with the amount received as premiums and an amount of \$812,516 (charged to budgetary expenditure) representing an actuarial liability adjustment as at March 31, 1980 and debited with disbursements for death benefits and cash surrender values. The final date on which application for this insurance could have been received was October 31, 1968.

SUPPLEMENTARY STATEMENTS

Canada Pension Plan Account and Canada Pension Plan Investment Fund

(Established by the Canada Pension Plan)

AUDITOR GENERAL OF CANADA

THE HONOURABLE MONIQUE BÉGIN, P.C., M.P.
MINISTER OF NATIONAL HEALTH AND WELFARE
OTTAWA, ONTARIO

I have examined the statements of transactions of the Canada Pension Plan Account and the Canada Pension Plan Investment Fund for the year ended March 31, 1981. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these statements present fairly the balance in the Canada Pension Plan Account and the investments in the Canada Pension Plan Investment Fund as at March 31, 1981, and the transactions for the year then ended, in accordance with the accounting policies disclosed in Note 2, applied on a basis consistent with that of the preceding year.

As explained in Notes 3 and 4, these statements are not intended to show the adequacy of the balance in the Canada Pension Plan Account to meet, on an actuarial basis, the future obligations of the Plan. Projections by the Chief Actuary

indicate that, if no change is made in the combined employer-employee contribution rate of 3.6%, the annual cost of benefits and expenses would exceed the amount of annual contributions by 1985. If the increase in contribution rate were delayed beyond 1992, the Fund would begin to decline and by the year 2003, would be exhausted. Since a major financial change takes place at each of these dates and as a change in the general level of benefits or in the rate of contributions requires agreement by the Provinces and, unless waived, at least a two-year-and-one-day exposure to Parliament, a decision on long-term financing arrangements needs to be made in the near future.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1981

1. Description of the Plan

The Canada Pension Plan is a compulsory and contributory social insurance plan which enables members of the labour force to acquire and retain protection for themselves and their families against loss of income due to retirement, disability or death. Established in 1965, the Plan applies in all parts of Canada, except for the Province of Quebec which has a parallel plan.

Under existing arrangements, all benefits and all costs incurred in the administration of the program are financed from the contributions made by employees, employers and self-employed persons and the interest earned from the investment of funds.

2. Significant accounting policies

Contributions, interest and benefit payments of the Canada Pension Plan Account are recorded on a cash basis. Contributions are received from the Department of National Revenue—Taxation based on estimates of collections for the current year and adjustments to the estimates of prior years. Expenses include amounts relating to work performed or services rendered prior to March 31.

All securities held are carried at cost, are non-negotiable and have a term of 20 years or such lesser period as may be determined by the Minister of Finance on the recommendation of the Chief Actuary of the Department of Insurance. The securities bear interest based on the average market yield of Canada bonds having 20 years or more to maturity as of the beginning of the month preceding the month in which the securities are issued.

3. Funding of the Plan

When the Canada Pension Plan was introduced, the combined employer-employee contribution rate was set at 3.6% of the Contributory Earnings with the understanding that this would be more than sufficient to meet the costs of benefits and administration for a certain period of time, but not indefinitely. In the initial years, a fund would be built up from which resources would be used to purchase securities of the provinces as well as securities of Canada. However, since the inception of the Plan, it has been recognized that the 3.6% contribution rate would need to be raised at some point in the future.

Under the Canada Pension Plan legislation, the Chief Actuary of the Department of Insurance is required to prepare an actuarial report on the operation of the Act and the state of the Canada Pension Plan Account at least once every five years and to update the latest report whenever legislation affecting the Plan is introduced in the House of Commons. The most recent report, tabled in the House of Commons on December 18, 1978, indicated that if no changes were made to the combined employer-employee contribution rate of 3.6%, the annual cost of benefits and expenses would exceed the amount of annual contributions by the year 1985.

After 1985, a gradually increasing proportion of the interest on investments would be needed to finance pension benefits and expenses, and no further funds, apart from the reinvestment of a portion of interest owned to the Fund, would be available to the provinces as loans. The Fund would continue to grow until 1992 when all of the interest would be needed to meet payments. If the increase in the contribution rate were delayed beyond 1992, the Fund would start to decline and by the year 2003, the fund would be exhausted. The contribution rate would then be required to be adjusted upwards, eventually reaching 8 to 9% by the year 2025.

While the Canada Pension Plan is administered by the Government of Canada, the Government does not have exclusive authority to effect changes to the Plan. Under existing legislation, any proposed enactment to alter the general level of benefits or the rate of contributions requires agreement by at least two-thirds of the ten provinces having an aggregate of not less than two-thirds of the population, and at least a two-year-and-one-day period of exposure to Parliament before coming into force. However, the exposure period to Parliament has been waived on two previous occasions when changes to the Plan have been enacted.

A long-term financing philosophy for the Plan which will include the timing and rate of increase of the contribution rate is being considered by the Provinces and the Federal Government.

Canada Pension Plan Account and Canada Pension Plan Investment Fund—Concluded

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1981—Concluded

4. Balance—Canada Pension Plan Account

The balance in the Account represents the accumulated excess of contributions and interest income over benefits and expenses paid to date. The Plan is not designed to be fully funded on a private sector pension plan basis. However, if the Plan had been designed to be fully funded, the Chief Actuary has estimated, based generally on the same assumptions made in his December 31, 1977 report, that an amount of \$121.2 billion would be required at December 31, 1980 to pay future benefits of all contributors and pensioners in the Plan at that time.

5. Purchase of securities of the provinces and Canada

When the operating balance exceeds the estimated amount required to meet all payments in the following three-month period, the excess is available for purchase of securities of the provinces and Canada.

Provinces are advised monthly of the amount of excess monies in the Canada Pension Plan Account that is available for the purchase of provincial securities. The amount available to each province is the proportion that contributions made to the Plan during the preceding ten years in respect of employment in the province bears to total contributions. Contributions received in respect of employment in the Yukon Territory, the Northwest Territories and from certain other employees outside Canada are invested in bonds of the Government of Canada.

Certain federal employees, such as members of the Canadian Armed Forces, who are resident in the Province of Quebec contribute to the Canada Pension Plan. The securities of Quebec which are purchased by the Plan relate to the contributions of these employees.

6. Interest income

Interest received on investments in securities held by the Canada Pension Plan Investment Fund during the year ended March 31, 1981 is as follows:

	1981	1980
	\$	\$
From securities of the provinces:		
Newfoundland	29,211,827	24,532,970
Prince Edward Island	5,985,877	5,001,351

	1,427,324,566	1,220,714,988
Weighted average rate of interest on securities purchased during the year	12.70%	10.59%

Interest on the operating balance is credited at the end of each month on the average daily balance for the preceding month at rates equal to the average yields at tender on three-month Treasury Bills during the month in respect of which interest is paid, less 1/8 of 1 per cent. During 1980-81 interest was credited at rates ranging from 10.0% to 16.75%.

7. Expenses

The total expenses of the Canada Pension Plan Account represent the amounts charged for services provided by six federal government departments: National Revenue—Taxation (collection of contributions); National Health and Welfare (administration); Supply and Services (accounting and computer services); Public Works (accommodation); Employment and Immigration (assignment of social insurance numbers and maintenance of central index) and Insurance (actuarial services).

Unemployment Insurance Account*(Established under the Unemployment Insurance Act, 1971)*

AUDITOR GENERAL OF CANADA

THE HONOURABLE LLOYD AXWORTHY, P.C., M.P.
 MINISTER OF EMPLOYMENT AND IMMIGRATION
 OTTAWA, ONTARIO

I have examined the balance sheet of the Unemployment Insurance Account as at December 31, 1980 and the statement of revenue and expenditure for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Account as at December 31, 1980 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2, which have been applied on a basis consistent with that of the preceding year.

As explained in Note 6 to the financial statements, the Commission, in 1980, continued its efforts to improve controls over benefit payments by expanding the application of new

systems and other procedures. Any modification or implementation of new systems requires a number of years before results can be noted. As explained in the same note, the study done by my Office has been modified. Therefore, a comparative estimate of overpayments and underpayments, relative to the detailed study of 1978, cannot be determined. However, based on the results of the modified study of claimants who received benefits for 1980, it has been established that overpayments and underpayments not previously identified by the Commission still exist.

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 1980

1. Objective and operations of the Account

The Unemployment Insurance Act, 1971 is administered by the Canada Employment and Immigration Commission. The Commission is listed as a departmental corporation under the Financial Administration Act.

The objective of the Unemployment Insurance Act, 1971 is to provide short-term financial relief and other assistance to workers eligible under this Act. The financial operations relating to this objective are reported through the Unemployment Insurance Account.

The Unemployment Insurance Account is part of the Government of Canada accounting entity. All amounts received under the Unemployment Insurance Act, 1971 are deposited in the Consolidated Revenue Fund and credited to the Unemployment Insurance Account. Benefit payments and administration expenses are paid out of the Consolidated Revenue Fund and charged to the Unemployment Insurance Account.

2. Significant accounting policies

(a) Revenue—Employers' and employees' premiums

Under Part IV of the Unemployment Insurance Act, 1971, the Minister of National Revenue is responsible for collecting employers' and employees' premiums. These premiums are recorded on an estimated basis for the current year and include adjustments between actual and estimated premiums of prior years.

(b) Revenue—Interest and penalties

Interest on the deposit with the Receiver General for Canada and penalties pursuant to Section 47 of the Unemployment Insurance Act, 1971 are recorded on an accrual basis.

(c) Expenditure—Benefits

Benefits represent issued warrants less benefit overpayments identified by the Commission during the year.

(d) Expenditure—Administration

Pursuant to section 135(1)(b) of the Unemployment Insurance Act, 1971, the costs of administering the Act are charged to the Unemployment Insurance Account as determined by Regulations.

3. Accounts receivable from claimants

	1980	1979
	(in thousands of dollars)	
Benefit overpayments and penalties receivable	51,789	50,771
Allowance for doubtful accounts	30,769	28,548
	<u>21,020</u>	<u>22,223</u>
Benefit repayments under section 142 of the Unemployment Insurance Act, 1971	30,400	26,901
	<u>51,420</u>	<u>49,124</u>

During 1980, \$2.7 million (\$3.0 million in 1979) of uncollectable overpayments were written off under authority of section 60(2) of the Unemployment Insurance Regulations.

4. Accounts receivable from (payable to) Canada

	1980	1979
	(in thousands of dollars)	
Government's share in benefits	(27,165)	1,220,196
Employers' and employees' premiums	7,857	18,081
Miscellaneous	(3,324)	8,471
	<u>(22,632)</u>	<u>1,246,748</u>

The decrease of the government's share in benefits results from section 21(1) of the Adjustment of Accounts Act. Beginning in the Government of Canada's fiscal year 1980-81, the government's share has been reimbursed to the Unemployment Insurance Account in the same fiscal year. In previous years, the government's share was repaid in the fiscal year immediately following the calendar year.

Employers' and employees' premiums represent adjustments to estimates.

5. Advances from Canada

This account represents advances made by the Government of Canada under authority of section 137 of the Unemployment Insurance Act, 1971. Advances made during 1980 and 1979 are non-interest bearing and have been repaid pursuant to section 21(2) of the Adjustment of Accounts Act.

6. Estimated overpayments and underpayments of benefits

The Commission is responsible for exercising necessary control to ensure the initial and continuing eligibility of approximately three million individual claimants to whom benefits were paid in 1980, while providing prompt and efficient service to those who are entitled to receive benefits under the Unemployment Insurance Act, 1971.

Because of the large number of claimants to be monitored, control procedures are selective rather than univer-

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 1980—Concluded

sal in application, and the requirement for prompt service has influenced the Commission to rely mainly on control activities which are undertaken after claimants have begun to receive benefits. Under these circumstances, it is therefore possible that some benefits could be paid to claimants who are not entitled to these benefits, or that some benefits could be underpaid to other claimants.

During 1980, to reduce overpayments and underpayments, the Commission continued its efforts to improve internal control and the decision-making process by expanding the application of new systems and other procedures. Any modification or implementation of new systems for applying the Unemployment Insurance Act requires a number of years before positive results can be noted.

As a result of the implementation and modification of systems during 1979 and their continued expanding application in the current year, the Office of the Auditor General has modified its study and a comparative estimate of overpayments and underpayments, relative to the detailed study of 1978, cannot be determined. Based on the results of the modified study of claimants who received benefits for 1980, it was established that overpayments and underpayments not previously identified by the Commission still exist.

For 1978, the statistical sample included expanded procedures to verify the validity of information submitted to the Commission by employers. The results of this study indicated that the total amount of overpayments not previously identified by the Commission was estimated to be \$290 million; underpayments were estimated to be \$67 million.

In the current year, the results of the study indicate again that, in a significant number of instances, the Commission did not adhere to all its administrative procedures in processing continuing benefit payments and that some part of the amounts so paid could represent further overpayments and underpayments.

7. Administration expenditures

During 1980, the Regulations of the Unemployment Insurance Act, 1971, concerning the way in which administration costs should be determined, were amended. In previous years, the administration costs represented the 1976-based cost adjusted for workload index and escalation index. Beginning on April 1, 1980 the cost of administration of the Unemployment Insurance Act, 1971 shall be the actual costs of administering the Commission and the Department, minus the portions unrelated to the administration of the Act. In consequence, the costs of maintaining the National Employment Services are now charged to the Unemployment Insurance Account, whereas these costs were formerly charged to the Appropriations of the Commission and the Department.

The effect of these changes in the current year results in an increase of \$201,162,000 in administrative costs.

8. Government's share in benefits

Because of a change in the Unemployment Insurance Act, 1971 made during the year, the Government was responsible during the first six months (12 months in 1979) for the cost of benefits paid for initial, extended duration of employment, and extended national unemployment rate. The cost of the government share is based on a formula resulting in a rate of 9.33 per cent of those benefits paid in 1980 (12 per cent for the year 1979).

During 1980, as in the previous year, the fishing benefits and the extended benefits for the regional unemployment rate were the sole responsibility of the Government.

The Government's share in fishing benefits (see Schedule) represents the benefits paid minus the fishing premiums which are collected for the Government of Canada.

9. Comparative figures

Certain figures for 1979 have been reclassified to conform to the 1980 presentation.

I have examined the statement of transactions of the Royal Canadian Mounted Police (Dependants) Pension Fund for the year ended March 31, 1981. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the transactions of the Royal Canadian Mounted Police (Dependants) Pension Fund for the year ended March 31, 1981 and the balance of the Fund as at that date, in accordance with the accounting policy described in Note 2, applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENT MARCH 31, 1981

1. Statutory authority

The Royal Canadian Mounted Police (Dependants) Pension Fund was established in the Consolidated Revenue Fund by section 55 of Part IV of the Royal Canadian Mounted Police Pension Continuation Act, R.S., c. R-10. Part IV of the Act provides for members of the Force, other than commissioned officers, appointed before March 1, 1949, to purchase certain survivorship benefits for their dependants by payment of specified contributions. The Fund is to be credited with these contributions together with interest computed quarterly on the balance to the credit of the Fund at the end of the preceding quarter, and charged with contributions withdrawn and pension benefits paid.

Section 56 of the Act directs the Minister of Finance to have an actuarial examination of the Fund made at least once every 5 years. If the actuarial valuation discloses a surplus, the Governor in Council may, by order, increase the benefit payments. If there is an actuarial deficiency, the Governor in Council may direct that there be credited to the Fund out of any unappropriated moneys in the Consolidated Revenue Fund such amount as may be required to reestablish solvency of the Fund.

2. Accounting policy

All transactions of the Royal Canadian Mounted Police (Dependants) Pension Fund are accounted for on a cash basis.

3. Supplementary information

The most recent actuarial examination was made as at March 31, 1980. The valuation disclosed an actuarial surplus of \$1,730,000 of which \$1,048,000 was allocated to the payment of increased pension benefits, retroactive to January 1, 1980.

OTHER ASSETS AND OTHER LIABILITIES

This section presents gross transactions and year-end balances for those accounts reported on the Statement of Assets and Liabilities under "Other Assets" and "Other Liabilities". The establishment and operation of these accounts is authorized by Parliament in annual appropriation acts and other legislation.

Some tables in this section present the continuity for each account by showing the opening and closing balances, as well as receipts, other credits, payments, and other charges, i.e. inflow and outflow of transactions. In addition, the term "accounts without current transactions" has been included in

some tables in order to provide a link with figures published in the previous year's edition of the Public Accounts to show net transactions in accounts which were closed out in the previous year.

OTHER ASSETS

Table 8.1 presents the year-end balances for other assets.

The allowance for valuation, amounting to \$1,970 million at the beginning of the year, was reduced to a nil balance since accounts for which amounts were previously provided for, were deleted during the year, from the Accounts of Canada, pursuant to the Adjustment of Accounts Act.

This account records public moneys received by public officers prior to the closing of the accounts as at March 31st, but not deposited to the credit of the Receiver General for Canada, in the Bank of Canada, until after that date.

Moneys received after March 31 but applicable to the current year

Public moneys received after March 31, but applicable to the year ending on that date, are recorded in this account.

This account intends to accommodate refunds of old year expenditure received prior to the closing of the accounts, and receipts to be credited to asset, liability and (in exceptional cases) revenue accounts where the omission of the credits in the old year would tend to make the accounting incomplete or inconsistent.

This account recorded interest-free advances by the Government of Canada to provide short-term financing until the Unemployment Insurance Account was reimbursed for costs to be borne by the Government.

During the year, this account was deleted pursuant to the Adjustment of Accounts Act.

Working Capital Advances to Revolving Funds, Departments and Agencies

Working capital advances to revolving funds were authorizations by Parliament to draw from the Consolidated Revenue Fund monies for prescribed purposes, up to given maxima at any time, which, together with attendant receipts, were to be expended for those purposes on a continuing basis. Table 8.4 presents a summary of the balances and transactions for these accounts.

During the year, these accounts were terminated pursuant to the Adjustment of Accounts Act and the balances outstanding as at March 31, 1981 were written-off to budgetary expenditure. Eleven of these accounts retained their non-lapsing and net voting authorities and remained as revolving funds. Their transactions are now classified as budgetary.

Interest due

Interest due is the amount of interest on the bonded debt, which is payable by coupon but which has not been paid because the coupons have not been presented for payment.

Interest accrued

Interest accrued is the amount of interest accumulated as at March 31 on the bonded debt and certain liabilities, that is not due or payable until some future date.

Provision for compound and bonus interest on Canada savings bonds

This account records the estimated amount to meet future obligations for additional interest payments, to holders of certain Canada savings bonds.

Matured debt payable in Canadian dollars

This account records the financial obligations represented by certificates of indebtedness issued by the Government of Canada that have become due but that have not as yet been presented for redemption. When matured bonds are outstanding for 15 years after maturity, they are transferred to miscellaneous non-tax revenue. Called bonds are transferred to miscellaneous non-tax revenue 5 years after maturity.

Unamortized Discount on Treasury Bills

This account records the portion of the Treasury bills discount which will be amortized between the year end and the date of maturity of the Treasury bills.

Accounts Payable

This account represents amounts owing at the year end pursuant to a contractual arrangement, or for work performed, goods received, or services rendered, relating to appropriations on which Parliament has imposed an annual ceiling.

Outstanding Cheques, Warrants and Postal Money Orders

This account records the cheques, warrants and postal money orders issued but not yet presented for payment.

Table 8.7 presents a summary of the balances and transactions in this account.

Outstanding cheques

Cheques issued in Canadian dollars and unpaid as at March 31, are recorded in this account. Cheques remaining outstanding for 10 years are transferred to non-tax revenue.

Cheques in foreign currencies are credited at the time of issue to appropriate "cash in Receiver General current deposits accounts".

Warrants for hog and lamb premiums

The balance in this account represents outstanding unredeemed warrants.

During the year, the account was charged with warrants redeemed.

Post Office money orders

This account represents the liability for money orders outstanding at year end.

Post Office outstanding salary warrants

This account represents the liability for salary warrants issued to employees at revenue and semi-staff post offices, who are paid out of postal revenue.

Imprest account cheques

Imprest account cheques issued prior to the current year and unpaid as at March 31, in the current year, with the exception of those outstanding for 10 years or more (which have been transferred to non-tax revenue—Miscellaneous) are recorded in this account. In the year, an amount of \$8,067 was transferred to revenue.

Unemployment Insurance warrants

This account records outstanding Unemployment Insurance warrants.

Undisbursed Balances of Appropriations to Special Accounts

This category recorded the undisbursed balances of appropriations to special accounts from which disbursements may have been made for authorized purposes in subsequent years. They fell into two classes: the first consisted of those cases where Parliament had appropriated monies for specific purposes; the other class consisted of accounts to which was credited, under parliamentary authority, monies arising from the sale of commodities, land and buildings, which were available for the purpose of replacing equipment as authorized by Section 11 of the National Defence Act.

During the year, these accounts were terminated pursuant to the Adjustment of Accounts Act and the balances outstanding as at March 31, 1981 were written-off to budgetary expenditure.

Table 8.8 presents a summary of the balances and transactions in the undisbursed balances of appropriations to special accounts.

National Library of Canada purchase account

Section 12(1) of the National Library Act provided for a special account in the Consolidated Revenue Fund called the National Library purchase account to which any money appropriated by Parliament in any year for the purpose of acquiring books for the National Library was to be credited and from which expenditures may have been made in that or any subsequent year for the acquisition of books, including any cost in connection therewith.

During the year, this account was terminated pursuant to the Adjustment of Accounts Act and the balance outstanding as at March 31, 1981, in the amount of -\$1,003, was written-off to budgetary expenditure.

National Museums of Canada purchase account

Section 10(1) of the National Museums Act provided for an account in the Consolidated Revenue Fund called the National Museums purchase account to which shall have been credited all moneys appropriated by Parliament for the purchase by the Corporation of objects for the collections of the Corporation, moneys received by the Corporation from the sale of objects forming part of the collections of the Corporation, other than objects acquired by way of gift, bequest or otherwise and an amount representing interest on the balance from time to time to the credit of the account and to which shall have been charged such amounts as were authorized by the Board of Trustees to be expended for the purchase of objects for the collections of the Corporation, including any costs in connection therewith.

During the year, an amount of \$2,045,000 provided by Secretary of State Vote 100 was authorized to be credited to the account.

During the year, this account was terminated pursuant to the Adjustment of Accounts Act and the balance outstanding as at March 31, 1981, in the amount of -\$1,536,369, was written-off to budgetary expenditure.

Replacement of material

Section 11 of the National Defence Act provided that the Governor in Council may authorize the Minister of National

Defence to deliver to any department or agency of the Government of Canada any material that had not been declared surplus and that was not immediately required for the use of the Canadian Forces or the Defence Research Board or for any other purpose under this Act, for sale to such countries or international welfare organizations on such terms as the Governor in Council may determine. The proceeds of such sales were to be paid into a special account in the Consolidated Revenue Fund and, subject to the approval of the Governor in Council, were to be used for the procurement of material; and payments out of the special account were to be made by the Minister of Finance on the requisition of the Minister of National Defence.

During the year, this account was terminated pursuant to the Adjustment of Accounts Act.

National capital fund

Section 16(1) of the National Capital Act established this fund and provided that the balance of the National Capital Fund established pursuant to Appropriation Act No 4, 1947-48 be credited thereto.

During the year, Vote 50, Appropriation Act No 1, 1980-81, authorized \$46,911,000 to be credited to the account.

During the year, this account was terminated pursuant to the Adjustment of Accounts Act and the balance outstanding as at March 31, 1981, in the amount of -\$9,911,000, was written-off to budgetary expenditure.

Railway grade crossing fund

This fund was established under authority of Section 18—Part III—of the Railway Relocation and Crossing Act to aid actual construction work for the protection, safety and convenience of the public in respect of railway crossings.

The monies credited to the fund were applied by the Canadian Transport Commission solely toward the cost, not including the cost of maintenance and operation, of: (a) work actually done for the protection, safety and convenience of the public in respect of existing railway crossings at rail level; (b) work actually done in respect of reconstruction and improvement of a grade separation that has been in existence for at

least fifteen years prior to the making of any order by the Commission to apply an amount from the fund for reconstruction or improvement of the grade separation; (c) placing on the sides of railway cars reflective markings of such size, design and colour as may be prescribed by the Commission; and, (d) placing on locomotives revolving lights of such a size, design and colour as may be prescribed by the Commission.

The total amount that may have been applied from the fund toward the cost of placing reflective markings on the sides of railway cars or of placing revolving lights on locomotives shall not have exceeded 80% of the cost thereof as determined by the Commission.

The total amount that may have been applied from the fund toward the cost of work actually done in respect of any one railway crossing shall not have exceeded: (a) in the case of a railway crossing at grade level, the aggregate of 80% of the cost of the work, as determined by the Commission, or \$1,000,000, whichever was the lesser amount, exclusive of the cost of any relocation of a public utility plant that was part of the work; and, (b) in the case of reconstruction or improvement of a grade separation, the aggregate of 50% of the cost of the work, as determined by the

Commission, or \$625,000, whichever was the lesser amount, exclusive of the cost of any relocation of a public utility plant that was part of the work, and, 50% of the cost of any relocation of a public utility plant that was part of the work.

Under the provisions of the Act, any amount appropriated and credited to the fund was to be applied in aid of actual construction work for the protection, safety and convenience of the public in respect of railway crossings.

Vote 110, Appropriation Acts No 1 and No 2, 1980-81 (Canadian Transport Commission) authorized \$10,000,000 to be credited to the Railway grade crossing fund in 1980-81.

Outstanding commitments as of March 31, 1981 amounted to \$18,996,751.

During the year, this account was terminated pursuant to the Adjustment of Accounts Act and the balance outstanding as at March 31, 1981, in the amount of -\$4,733,695, was written-off to budgetary expenditure.

Eldorado Mining and Refining Limited—Unpresented capital stock

The liability of the Government of Canada for the value of paid-up capital stock of the former company which has not been redeemed at the close of the year is recorded herein.

Miscellaneous departmental payroll deductions

Deductions from the salaries or wages of certain employees not paid by Central Pay Office are credited to this account pending transmittal to the department or agency concerned.

Olympic account

This account records transactions in accordance with the Olympic Act. Payments and other charges to the account represent: (a) all administrative, merchandising, distribution, promotion and other costs incurred by Canada in connection with the distribution and sale of olympic coins, as determined

by the Postmaster General; (b) the net costs, as determined by the Minister of Finance, of any redemption of olympic coins; and, (c) all amounts paid to the Olympic Corporation. Receipts and other credits represent: (a) proceeds less production costs derived by Canada from the issue and sale of olympic coins and (b) the amount of the net proceeds derived by Canada from the sale of olympic stamps and postal related products.

During the year, a payment of \$11,000,000 was made to the Olympic Corporation.

Contractors' and other holdbacks

Holdbacks charged to the relevant appropriations of the department concerned and credited to this account under Section 35 of the Financial Administration Act are paid out in accordance with the contracts under regulations of the Treasury Board.

Suspense accounts

Accounts in which transactions are recorded temporarily, pending their ultimate disposition.

FOREIGN EXCHANGE ACCOUNTS

Foreign exchange accounts represent financial claims and obligations of the Government of Canada which are identified with Canada's foreign exchange operations. Financial claims and obligations denominated in foreign currencies are reported at the Canadian dollar equivalent at March 31. Net gains resulting from the translation of the net assets denominated in foreign currencies, to Canadian dollar equivalents as at March 31, are credited to revenue as premium and discount on

exchange, and net losses are charged to budgetary expenditure as a statutory item in the Department of Finance.

Table 9.1 presents the continuity for each foreign exchange account by showing the opening and closing balances as well as receipts and other credits and payments and other charges, i.e. inflow and outflow of transactions. It should be noted, however, that Table 9.1 excludes unmatured debt payable in foreign currencies, amounting to \$4,624 million as at March 31, 1981. Details relating to unmatured debt payable in foreign currencies are presented in Section 10 of this volume.

Exchange Fund Account—Advances

This account includes advances to the Exchange Fund Account for the purchase of gold, foreign currencies, securities and Special Drawing Rights (SDRs).

In 1980-81, payments and other charges consisted of advances to the Exchange Fund Account in the amount of \$26,617 million, an increase in SDR advances in the amount of \$211 million and a revaluation adjustment of \$81 million in respect of holdings of Japanese currency, while receipts and other credits consisted of repayments of advances of \$28,003 million and a revaluation adjustment of \$169 million in respect of holdings of Special Drawing Rights and other foreign currencies, resulting in a net asset decrease of \$1,263 million.

The assets of the Exchange Fund Account, which have been translated to Canadian dollar equivalents at the March 31 closing exchange rates, are presented in Table 9.2. Gold held by the Account is valued at 35 SDRs per fine ounce (\$50.93 Cdn).

The financial statements of the Exchange Fund Account as at December 31, 1980, together with the Auditor General's report thereon, are found at the end of this section.

International Monetary Fund—Subscriptions

This account represents the recorded value of Canada's subscription to the capital of the International Monetary Fund. It has been contributed by payments in Canadian dollars, gold and SDRs. The International Monetary Fund holds a working balance in Canadian dollars equal to one quarter of one per cent ($\frac{1}{4}$ of 1%) of the subscription; this working balance is deposited to the credit of the Fund with the Bank of Canada. The remainder of the Fund's Canadian dollar holdings is maintained in non-interest bearing notes payable on demand.

Transactions with the International Monetary Fund included a subscription increase of \$1,040 million and net revaluation adjustments of \$109 million due to the appreciation of the Canadian dollar to March 31, 1981. Canada's capital subscription is set in SDR units of account so that when the Canadian dollar depreciates, additional Canadian dollars must be supplied to the Fund to maintain the value of Canadian dollar holdings in terms of SDRs and when the Canadian dollar appreciates, the converse applies. Canada's subscription is also revalued to recognize the increase in the Canadian dollar value of that portion of the subscription which is not offset by the International Monetary Fund holdings of Canadian dollars.

International Monetary Fund—Notes Payable

This account records non-interest bearing notes issued by Canada to cover that part of the Canadian dollar holdings of the International Monetary Fund in excess of working balance requirements. These notes are payable on demand and are subject to redemption or re-issue, depending on the needs of the Fund for Canadian currency.

Non-interest bearing notes increased by a net amount of \$715 million during the year; this was mainly due to an increase in Canada's subscription to the Fund, although other countries' dealings in Canadian dollars with the Fund also had an effect.

Special Drawing Rights

When Special Drawing Rights are allocated to Canada by the International Monetary Fund, Canada simultaneously acquires a foreign currency asset and a foreign currency liability. Part of the cumulative value of the SDRs so received is included among advances to the Exchange Fund Account, while the remainder is included as part of our subscription to the Fund. Canada's cumulative allocation appears as a deduction from the above accounts since circumstances could arise whereby Canada could be called upon to repay its allocation, in part or in total.

There was an allocation of SDRs by the Fund to Canada during the year in the amount of \$211 million and the recorded amount of \$1,170 million was decreased due to a revaluation adjustment of \$36 million to reflect current exchange rates resulting in a March 31, 1981 balance of \$1,134 million.

SUPPLEMENTARY STATEMENT

Exchange Fund Account

(Governed by the Currency and Exchange Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE ALLAN JOSEPH MACEACHEN, P.C., M.P.
MINISTER OF FINANCE
OTTAWA, ONTARIO

I have examined the balance sheet of the Exchange Fund Account as at December 31, 1980 and the statement of net income due to the Consolidated Revenue Fund (CRF) for the year then ended. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Account as at December 31, 1980 and the net income due to the Consolidated Revenue Fund for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

Based on this examination, I further report that in my opinion the accounting policies set out in Note 2 to the financial statements are in accordance with the statutory requirements of section 16 of the Currency and Exchange Act, R.S., c. C-39, as amended, except as they apply to the valuation of gold and to the determination, in the net income for the year, of gains and losses on the sale of gold. As explained in Note 2(iv) to the financial statements, section 16

of the Act defines valuation gains and losses, in the determination of net income, as the difference between book and market value of assets and liabilities at the end of an accounting period. Section 16 also defines net income for the year as including interest and discount earned on securities and other income earned in the year, as well as one-third of the current and two immediately preceding years' valuation gains and losses on assets and liabilities.

As described in Notes 2 and 9, gold is not adjusted to its commodity market value (US \$589.50 per fine ounce at December 31, 1980), but is recorded at 35 Special Drawing Rights (US \$44.64 at December 31, 1980), its approximate historical cost. The difference between the market and book value of gold at the time of sale is included with valuation gains or losses and is taken into income in equal amounts over a three year period. In my opinion, Section 16 requires net gains on the sale of gold (1980: \$800.8 million; 1979: \$52.1 million) to be included under other income earned in the year and therefore paid into the CRF within three months after the end of the year. Officials of the Department of Finance have indicated that they will propose amendments to the Currency and Exchange Act stipulating that gold may be valued at other than its commodity market value, provided that the value not exceed the market price, and providing explicitly for the determination of annual net income as it relates to gains and losses on sales of gold in accordance with current accounting policies.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Objective of the Exchange Fund Account

The Exchange Fund Account is governed by the provisions of the Currency and Exchange Act, R.S., c. C-39. The Account is in the name of the Minister of Finance, is administered by the Bank of Canada as fiscal agent and is funded by advances from the Consolidated Revenue Fund which are limited by Order in Council dated March 1, 1979 to \$10 billion.

The principal objective of the Account is to aid in the control and protection of the external value of the Canadian dollar. Accordingly, the Minister acquires for the Account those assets which are deemed appropriate for this purpose in accordance with the Act.

2. Significant accounting policies

(i) Reporting of assets

Securities and Special Drawing Rights reported on the balance sheet are recorded at cost, adjusted for accrued interest and amortized premiums and discounts. Premiums and discounts on securities are amortized over their term to maturity. Gold held by the Account is recorded at 35 Special Drawing Rights (SDRs) per fine ounce, its approximate historical cost. Accrued interest where applicable is included in the reported assets.

(ii) Foreign currencies translation

Foreign currency assets and liabilities are translated to Canadian dollar equivalents at year-end closing exchange rates in the Canadian foreign exchange market. Assets and liabilities denominated in Special Drawing Rights are translated to US dollar equivalents at the year-end US dollar value of the SDR as calculated by the International Monetary Fund, (IMF), and to Canadian dollar equivalents at the year-end closing rate of the US dollar in Canada.

(iii) Investment income

Investment income represents interest as well as amortization of premiums and discounts and related gains or losses realized at the time of sale of securities at market prices. Investment income is recorded as received or as accrued in accordance with the terms of the related securities, and is translated to its Canadian dollar equivalent at the foreign exchange rate prevailing at the date of the income is recorded.

(iv) Valuation gains and losses

Valuation gains and losses represent the increases and decreases in the value of assets and liabilities resulting from the translation of foreign currencies and SDR-denominated assets and liabilities into Canadian dollars during the year and at year-end, as described in (ii) above. Also included are valuation gains and losses on foreign exchange and gold, on the sale of such assets or liquidations of such liabilities. In accordance with the provisions of the Currency and Exchange Act, valuation gains and losses for a year are taken into income in three equal portions over the current and two succeeding years.

Exchange Fund Account—Continued

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 1980—Continued

(v) Services provided without charge

The Bank of Canada provides, without charge, the administrative, custodial and fiscal agency services to carry out the objectives of the Currency and Exchange Act. Any expenses otherwise incurred in the operations of the Account are paid out of the Account and charged against the net income for the year.

3. Cash on deposit in US dollars

	1980	1979
Bonds	5.4	22.2
Accrued interest	0.2	0.5
	<u>5.6</u>	<u>22.7</u>

These bonds are marketable and have an original term to maturity of two years.

7. Special Drawing Rights

Special Drawing Rights were created by the IMF to supplement international reserve assets. SDRs are alloca-

ted to members in proportion to their quotas in the IMF and can be used in transactions and operations between participants in the SDR Department of the IMF or in transactions with the IMF, namely to obtain foreign currencies.

The liability to the IMF in respect of the cumulative allocation is the settlement obligation that would be incurred upon the termination of each country's participation in the Special Drawing Rights Department or on the liquidation by the International Monetary Fund of this Department. SDRs allocated to Canada by the IMF are advanced from the Consolidated Revenue Fund to the Account.

The IMF pays interest (at rates calculated on the basis of short-term money market rates in countries with the largest IMF quotas) on SDRs held by each country and interest is charged on the cumulative allocations of SDRs. Since April 1, 1980, the payment of interest on cumulative allocations has been made directly by the CRF. The effect of this change was to reduce the interest expense of the Account in 1980 by SDR 43.4 million (equivalent to Cdn \$66.2 million).

SDR assets and liabilities of the Account, during the past two years, were affected as follows:

	(in millions of SDRs)	
	1980	1979
Cumulative allocations at the beginning of the year	499.8	358.7
Add: allocation during the year	141.1	141.1

Exchange Fund Account—Continued

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1980—Continued

IMF notes represent Canada's participation in IMF facilities established to assist members with balance of payment needs. These notes are redeemable on demand if Canada represents that it has a balance of payments need and are transferable to other Fund members.

SDR 18.2 million of Oil Facility notes acquired by the Account in the context of Canada's participation in this IMF facility in 1974 and 1975 matured in 1980 after a series of scheduled repayments. These notes had an original term to maturity of five years. Supplementary Financing Facility notes were acquired in 1979 and 1980 and also have a term to maturity of five years.

9. Gold

Transactions in the Account in the past two years were as follows:

	(in thousands of ounces)	
	1980	1979
Holdings at the beginning of the year	22,178	22,130
Purchases		235
Sales	(1,196)	(187)
Holdings at the end of the year	20,982	22,178

Loans receivable of 155 thousand fine ounces (1979: 161 thousand) are included in these holdings. Income accrued from gold loans during the year is included under investment income.

Gains on net sales of gold in 1980 amounting to \$800.8 million (1979: \$52.1 million) are included in valuation gains and taken into income in the current and two successive years. Sales were made to the market and to the Royal Canadian Mint at market-related prices.

In the determination of valuation gains and losses for the year, Section 16 of the Act defines such gains and losses in terms of differences between the book and market value of assets and liabilities at the end of an accounting period. As described in Note 2, for the purposes of this Section, market value is limited to currency exchange market values. Accordingly, gold is not adjusted to its commodity market value, but is recorded at 35 Special Drawing Rights (US \$44.64 at December 31, 1980) per fine ounce. At the year-end the London market price of gold, which varied widely in the course of the year, was US \$589.50 per ounce at the last fixing (1979: US \$524.00).

10. Foreign currency translation

	Canadian dollar equivalent as at December 31	
	1980	1979
US dollar	1.1938	1.1666
Deutsche mark	0.6050	0.6759
Swiss franc	0.6688	0.7315
Japanese yen	0.005875	0.004858

The value of the SDR is calculated by the IMF as a trade-weighted average of the market values of sixteen major currencies (five currencies beginning January 1, 1981). As at December 31, 1980 one SDR was equivalent to US \$1.27541 (compared with US \$1.31733 as at December 31, 1979).

11. Uncompleted contracts valuation adjustments

From time to time the Account enters into short-term swaps with the Bank of Canada under which it sells US dollars to the Bank of Canada and agrees to repurchase these amounts at a later date at predetermined exchange rates. These transactions are undertaken to assist in the Bank's management of chartered bank cash reserves. At the end of 1980 total swaps outstanding amounted to US \$190 million compared with the US \$720 million at the end of 1979.

At year-end the Account also had commitments to sell US \$80.4 million reflecting other uncompleted transactions.

The difference between the Canadian dollar equivalents at the transaction rates and at year-end rates on these commitments is included in US dollar valuation gains and losses.

12. Advances from the Consolidated Revenue Fund

In recent years the proceeds of Government of Canada foreign currency borrowings, in the form of foreign bond and note issues and bank loans, as well as under Standby Credit Arrangements with Canadian and foreign banks have been advanced in foreign currency from the Consolidated Revenue Fund to the Exchange Fund Account. Additions during 1980 of borrowings under Standby Credit Arrangements gave rise to an increase in the US dollar advances from US \$1,800 million at the end of 1979 to US \$2,400 million at the end of 1980. There were no changes during the year in the principal amounts of longer term US dollar, Deutsche mark, Swiss franc and yen borrowings advanced to the Account. However the proceeds of an SDR 141.1 million allocation were advanced

Exchange Fund Account—Concluded

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 1980—Concluded

ced to the Account in January 1980, raising the advances to SDR 640.9 million at that time, while a payment of SDR 169.6 million to the IMF for the partial settlement of an increase in Canada's IMF subscription reduced the level of SDR advances to their year-end level of SDR 471.3 million.

13. Valuation gains and losses

Valuation gains and losses on the Account's assets, and on liabilities relating to advances from the Consolidated Revenue Fund, are as follows:

14. Subsequent events

On January 1, 1981 the International Monetary Fund allocated to Canada an additional 138.4 million Special Drawing Rights equivalent to US \$176.5 million (Cdn \$210.7 million), bringing the net cumulative allocation to Canada to SDR 779.3 million. These SDRs were subsequently advanced by the Consolidated Revenue Fund to the Exchange Fund Account.

15. Outstanding commitment

Under the Royal Canadian Mint "Maple Leaf" coin program, the Mint may buy at market-related prices, up to 2 million ounces of gold in 1981 from the Exchange Fund Account.

UNMATURED DEBT

Unmatured debt represents financial obligations resulting from certificates of indebtedness issued by the Government of Canada that have not yet become due.

The Government's holdings of its own securities have been deducted from unmatured debt to report the amount of the Government of Canada's liabilities to outside parties.

Some tables in this section present the continuity for each account by showing the opening and closing balances, as well as issues and retirements, i.e. inflow and outflow of transactions. In addition, the term "accounts without current transactions" has been included in some tables in order to provide a link with figures published in the previous year's edition of the Public Accounts to show net transactions in accounts which were closed out in the previous year.

Marketable Bonds

Marketable bonds are interest bearing certificates of indebtedness issued by the Government of Canada, and having the following characteristics:

- bought and sold on the open market;
- expressed in Canadian or foreign currency;
- subject to call or redemption by the Government before maturity;
- having various maturity dates;
- interest is payable either in coupon or registered form; and,

—face value is guaranteed at maturity.

Registered marketable bonds are transferable by endorsement and delivery by one holder to another. Bearer marketable bonds do not need to be endorsed.

Table 10.2 presents a summary of the balances and transactions for the marketable bonds. Since most of the marketable bonds are not subject to call or redemption before maturity, exceptions only are noted in the table.

The year-end balances of marketable bonds payable in foreign currencies were translated into Canadian dollars using the closing rates of exchange at March 31, 1981.

Canada Savings Bonds

Canada savings bonds are interest bearing certificates of indebtedness issued by the Government of Canada, and having the following characteristics:

- issued to Canadian residents;
- registered in the name of the holder;
- fixed date of maturity;

- non-marketable;
- redeemable on demand by the holder with accrued interest calculated to the end of the previous month;
- not subject to call before maturity; and,
- term to maturity is seven years or more.

Certain series of Canada savings bonds include provisions for cash bonuses payable at maturity.

Table 10.3 presents a summary of the balances and transactions for Canada savings bonds.

Special Non-Marketable Bonds

Special non-marketable bonds are interest bearing certificates of indebtedness issued by the Government of Canada exclusively to the Canada Pension Plan Investment Fund, and having the following characteristics:

- non-negotiable;

- non-transferable;
- non-assignable;
- term to maturity is 20 years or less;
- interest is payable semi-annually; and,
- redeemable at face value plus accrued interest.

Table 10.4 presents a summary of the balances and transactions for these special non-marketable bonds.

Treasury Bills

Treasury bills are short-term certificates of indebtedness issued by the Government of Canada to pay a sum of money on a given date, and having the following characteristics:

- issued at a discount in lieu of interest payments;
- maturity: 3 months, 6 months and 12 months;
- issued in Canadian currency only;
- transferable; and,

—bought and sold on the open market.

Three-month and six-month bills are usually issued weekly, while other bills are issued every four weeks, usually for periods of one year or less.

The balance at March 31, 1981 consists of \$10,335 million in three-month bills; \$6,935 million in six-month bills; and, \$4,500 million in 364-day bills.

Table 10.5 presents a monthly summary of Treasury bill issues and redemptions.

Notes and Loans Payable in Foreign Currencies

This account records borrowings by the Government of Canada under various agreements with banks in Canada, United States, Germany, Switzerland and Japan.

Transactions during the year consisted of issues and retirements in United States dollars and revaluations of year-end balances. The balances at March 31, 1981 consist of:

- \$300,000,000 US (\$355,320,000 Cdn) in a one-month note from Canadian chartered banks;
- 400,000,000 DM (\$224,520,000 Cdn) four year loan from the Deutsche Bank, Germany;
- 700,000,000 SF (\$429,450,000 Cdn) three year loan and 500,000,000 SF (\$306,750,000 Cdn) five year loan, from various Swiss banks; and,
- 35,000,000,000 Yen (\$195,825,000 Cdn) ten year loan and 35,000,000,000 Yen (\$195,825,000 Cdn) twenty year loan, from various Japanese banks.

The foreign currency balances were translated into Canadian dollars using the closing year-end rates of exchange at March 31, 1981.

Table 10.6 presents a summary of the balances and transactions for the notes and loans payable in foreign currencies.

Interest Rates

Table 10.7 sets out unmatured debt at March 31, for each of the years 1976-77 to 1980-81 inclusive, with the average rate of interest thereon. For purposes of comparison, the unmatured debt is classified as to marketable bonds, non-marketable bonds (includes Canada savings bonds and the

Canada Pension Plan Investment Fund), Treasury bills and notes and loans payable in foreign currencies.

Interest rates on new issues of marketable bonds payable in Canada varied from a low of 8% to a high of 13.75% during the year.

OTHER ACCOUNTS REPORTED ON THE STATEMENT OF ASSETS AND LIABILITIES

This section contains information on accounts reported on the Statement of Assets and Liabilities that are not included elsewhere in this volume. These accounts are:

- cash;
- fixed assets;
- accumulated deficit; and,
- contingent liabilities.

Cash

The Government's cash account represents public moneys on deposit at March 31st, to the credit of the Receiver General for Canada, with banks and other financial institutions.

The cash position of the Government is affected not only by budgetary operations but also by non-budgetary, foreign exchange and unmatured debt operations, all of which must be taken into account when considering the full scope of the Government's financial operations.

Table 11.1 presents a summary of the balances and related transactions in current and special Receiver General deposits. Transactions represent receipts and disbursements.

The year-end balances in foreign currencies have been translated into Canadian equivalents at year-end closing rates of exchange. The foreign currencies held include United Kingdom pounds sterling, United States dollars, Belgian, Swiss and French francs and West German marks.

Receiver General special deposits

These are balances in the hands of fiscal agents of the Government for the purchase or redemption of Government securities and for the payment of interest.

Fixed Assets

Fixed assets are tangible, long-term assets, including major additions or alterations thereto, from which benefits are expected to be derived during their useful life.

The fixed assets of the Government, which include land, buildings, works and equipment, are charged to budgetary expenditure at the time of acquisition or construction in accordance with the accounting policies of the Government of Canada which are described in Note 1 to the audited financial statements (Section 2 of this volume). Their existence, however, is acknowledged on the Statement of Assets and Liabilities by reporting them at the nominal value of \$1.

Accumulated Deficit

The accumulated deficit is the account recording the net sum of annual surpluses and deficits since Confederation, together with certain amounts charged directly to this account. The accumulated deficit is also equal to the excess of recorded liabilities over net recorded assets.

Table 11.4 summarizes the account for the year.

Contingent Liabilities

A contingent liability, as defined in a note to the audited financial statements (Section 2 of this volume), is a potential liability which may become an actual liability should certain events occur.

The details of the contingent liabilities of the Government, referred in a note to the audited financial statements, are provided in the following statement and consist of explicit

guarantees by the Government, and potential losses arising from pending or threatened litigation relating to claims and assessments in respect of breach of contracts, damages to persons and property, and like items.

In certain cases, Parliament has established a limit on the aggregate amount of certain types of obligations of organizations that may be outstanding. The authorized limit in the first column in Table 11.8 refers to that limit for obligations disclosed as contingent liabilities of the Government.

⁽¹⁾ Represents the average percentage over the most recent 5 years of net claims to the amount of outstanding guarantees at March 31.

⁽²⁾ These Acts place limits on the maximum amount of guarantee for loans made by eligible lenders over different time periods. The maximum amount of guarantee per lender is expressed in legislation as a percentage of aggregate loans made to qualified borrowers and vary depending upon the dollar value range of aggregate loans made by each lender.

⁽³⁾ This limit may be exceeded only by the amount of interest paid or payable to banks by organizations in the case of default by producers.

⁽⁴⁾ Less than .1%.

⁽⁵⁾ An agreement with Chrysler Canada Ltd in the amount of \$200,000,000 has been entered into with respect to future loan guarantees. As at the reporting date no loans have been made under the above agreement and consequently no contingent liabilities exist.

Tariff item 41100—1 provides that in the case of the importation into Canada of any goods enumerated in the item, the Governor in Council, on the recommendation of the Minister of Industry, Trade and Commerce, may, whenever he considers that it is in the public interest and that the goods are not available from production in Canada, remit the duty specified in this item applicable to the goods. Remissions of duty are less the duty applicable to the first \$500 of value for duty in respect of each application. The following remissions were granted on the recommendation of the Minister of Industry, Trade and Commerce and the Treasury Board under the provisions of the tariff item, and represent customs duty on machinery and parts as described in the various remission orders and schedules thereto, the amounts shown representing that portion of the remission applicable to the machinery and parts imported during the period April 1, 1980 to March 31, 1981, inclusive:

Tariff item 42701—1 provides that in the case of the importation into Canada of any goods enumerated in the item, the Governor in Council, on the recommendation of the Minister of Industry, Trade and Commerce, may, whenever he considers that it is in the public interest and that the goods are not available from production in Canada, remit the duty specified in this item applicable to the goods. Remissions of duty are less the duty applicable to the first \$500 of value for duty in respect of each application. The following remissions were granted on the recommendation of the Minister of Industry, Trade and Commerce and the Treasury Board under the provisions of the tariff item and represent customs duty on machinery and parts as described in the various remission orders and schedules thereto, the amounts shown representing that portion of the remission applicable to the machinery and parts imported during the period April 1, 1980 to March 31, 1981, inclusive:

PC 1980—3160, November 27, 1980, remission of a portion of the customs duty, sales tax and excise tax paid or payable on goods grown, produced or manufactured in New Zealand.

PC 1981—3/324, February 5, 1981, remission of customs duties paid or payable on O—Cresol Imported by Bakelite Thermosets Limited.

TAXATION

\$

Remissions of income tax:

Anderson, Barbara 1,040

PC 1980—4/3497 recommended that income tax be remitted to Barbara Anderson, Columbia, Maryland, USA in the amounts of \$632 for the 1975 taxation year and \$408 for the 1976 taxation year plus interest payable.

The taxpayer, a non-resident, received alimony from her Canadian resident husband in which he deducted the appropriate non-resident tax.

The Canadian Embassy in Washington provided outdated information to the taxpayer which did not inform her that she was eligible for an election under Section 217 of the Income Tax in respect of these payments.

When the taxpayer discovered this information omission, she filed income tax returns for 1975, 1976 and 1977. As the rules under Section 217 state that such returns are to be filed within six months after the end of the taxation year, only the 1977 income tax return was accepted.

Because the taxpayer was provided with misleading information and has been subject to financial hardship due to family illness, a remission has been recommended for the 1975 and 1976 taxation years.

Cole, George L 14,647

PC 1980—8/2706 dated October 9, 1980, authorized the remission of tax of \$3,149, \$6,806 and \$4,692 plus relevant interest in respect of the 1971, 1972 and 1973 taxation years.

The taxpayer and Mr. Henry Morgan were law partners who were re-assessed for 1971 to 1973. Mr. Morgan filed a Notice of Objection and his re-assessments were reduced to Nil. As Mr. Cole was concerned with personal problems at the time, he did not file a Notice.

SECTION 17(8)—Continued

NATIONAL REVENUE—Continued
TAXATION—Continued

Due to the fact that the taxpayer's 1972 and 1973 returns were statute—barred, a remission is recommended in order to treat both partners equitably.

Crevier, Paul 5,002

PC 1980—9/2706 dated October 9, 1980, authorized the remission of tax of \$3,459 plus relevant interest and a penalty of \$692 in respect of the 1966 taxation year.

The taxpayer and Guy D'Arcy Labrosse were each re-assessed to include income of \$10,492 on their 1966 return. Notices of Objection were posted on the same day but the taxpayer's was refused because it was late. Mr. Labrosse's was accepted because he had moved to Florida and it had been necessary for the Department to mail the re-assessment notice again at a later date. Mr. Labrosse's appeal was settled in his favor.

Since both taxpayers should be treated in similar fashion, a remission is recommended.

Darius—Leut Group Hutterian Brethren Church 28,331,979

PC 1981—767 recommended that federal income tax and interest in the amount of \$28,331,979 be remitted to the Darius—Leut group of the Hutterian Brethren Church for the taxation years 1967 to 1976 inclusive.

In the 1960's the Department devised a formula to allocate a Hutterite Colony's income to individuals rather than to apply tax as a corporation. Most of the Hutterite Colonies accepted this formula with the exception of the Darius—Leut Group who appealed the assessments successfully to the Supreme Court.

This group's position has been that they are a religious group and as such are not taxable. The Department's position has been that they are in the business of farming and have no exempt status.

Because this group, unlike the other colonies, did not take advantage of an amendment to the Income Tax Act for 1977, which allowed them if they so elected, to be taxed as individuals, the income of the Colonies was taxed at corporation rates. This resulted in the federal tax and interest assessed amounted to more than twice the amount than if they had been taxed as individuals.

In view of the problems of compliance with this group, it was proposed that a remission of taxes of approximately 28 million dollars be recommended for the years 1967 to 1976 in order that this group be treated in the identical manner to other similar groups. This 28 million dollars is the difference between the taxes and interest assessed at corporation rates rather than the amount that would have been assessed at individual rates; and such remission would be granted if this group would agree to pay the applicable taxes at individual rates; that outstanding appeals be abandoned and that they would sign a covenant to indicate their willingness to comply with the law from now on. As these conditions have been so agreed, the remission has been recommended.

Employees of M B L International Contractors Inc 50,000

PC 1981—154 dated January 22, 1981, authorized the remission of income taxes and relevant interest paid by employees of the M B L International Contractors Inc. on income earned in Tanzania in the 1978 taxation year.

A District Taxation Office informed the corporation that its employees would be exempt from Canadian income tax while employed in Tanzania. As a result, the corporation did not make tax deductions. Subsequently, the employees were taxed as residents of Canada.

As both employer and employees were misled by the taxation office, a remission of relevant taxes and interest was recommended.

Financial Institution Dividends Remission Order, Revocation

PC 1980—1058 dated April 18, 1980 revoked the Financial Institution Dividends Remission Order PC 1980—313 of January 25, 1980. The required changes respecting term preferred shares were announced in the Finance Minister's Economic Statement of April 21, 1980 and as a consequence the order was revoked. The original order authorized the remission of income tax paid or payable in respect of dividends received on publicly traded shares of a financial institution by a Canadian Corporation for any taxation year after October 23, 1979.

Hein—Werner of Canada Limited 2,301

PC 1980—10/1035 dated April 17, 1980 authorized the remission of \$2,301 in respect of the 1974 Taxation Year.

In the 1974 and 1975 corporation returns the taxpayer incorrectly calculated its manufacturing and processing profits deductions and was assessed as filed.

In July 1977 revised calculations were submitted requesting refunds. On June 20, 1979 the request was resubmitted. On August 2, 1979 the request was granted in respect of 1975 but by then 1974 was statute—barred.

Since National Revenue, Taxation delayed in reassessing, a remission was recommended.

Isolated Post Benefits and Allowances Remission Order 1,605,526

PC 1980—1717 dated June 26, 1980 authorized the remission on income taxes and interest and penalties on benefits and allowances paid to employees in isolated northern posts for the taxation years 1978, 1979, and 1980.

Allowances and benefits such as low-cost housing benefits; subsidized housing, allowance, and travel assistance payments will have tax and penalties remitted for employed persons living north of the 60th parallel or in a location designated as an isolated post by Treasury Board Guidelines.

The remission fulfills a commitment by the Prime Minister to impose a moratorium on the taxation of certain non-salary benefits to Northern residents.

There is no change in the taxability of these benefits under the Income Tax Act.

Leger, Albert 1,850

PC 1980—12/1035 dated April 17, 1980 authorized the remission of \$1,850 income tax in respect of the 1974 Taxation Year.

The taxpayer was a shareholder and employee of Atlantic Roofers Limited. In 1974 he declared a salary income of \$15,250 which included an unpaid bonus of \$10,000. However, the corporation did not earn the expected profits and the bonus was unpaid.

SECTION 17(8)—Continued

NATIONAL REVENUE—Continued
TAXATION—Continued

\$

In February 1979 the taxpayer's representative requested the bonus be deleted. The District Office replied that the request was late filed pursuant to Subsection 164(1). However, it is the Department's practice to reopen prior year returns when reassessment is justified within the limits prescribed in 152(4) rather than 164(1)(b). Since the practice was not followed, a remission of the income tax was recommended.

Malouin, Paul 10,733

PC 1980—8/1764 dated June 16, 1980 authorized the remission of tax to the extent of \$8,265 and penalties to the extent of \$2,468 in respect of the 1973 Taxation Year.

The taxpayer, in 1970 along with partners, purchased land to construct a revenue producing property. Financing was obtained by sale of the property with a redemption right. Due to financial difficulty the project was not completed. The taxpayer and another partner were reassessed on the basis that the profit realized was income and not a capital gain. The other partner successfully appealed the re-assessment.

Due to the fact the taxpayer's 1973 return was statute—barred, a remission was recommended in order to treat both partners equitably and the taxpayer was not a land speculator.

Mineral Resources Taxation Production Profits Remission Order

PC 1980—1423 dated May 29, 1980 revoked the previous order PC 1978—1923 of June 15, 1978 and extended the period of application. This order remits the income tax paid or payable on mining and gas production profits with respect to any taxation year after May 6, 1974 and before 1977. An application in writing must be submitted within one year of the proclamation date in a form satisfactory to the Deputy Minister of National Revenue for Taxation in order to receive a remission.

Mirabel and Pickering Tax on Interest Remission Order

PC 1980—2681 October 9, 1980 amends the original Order-In-Council PC 1980—499 of 8th February, 1980.

Section 2 of the original Order was revoked and new wording substituted in order to replace the year "1973" by the year "1972" in the case of the expropriation at Pickering, Ontario.

Expropriation was finally made on January 30, 1973. The original order refers to expropriation at Pickering as occurring after 1973.

Morgan, Ghislaine L 7,660

PC 1981—13/324 dated February 5, 1981, recommended that federal income tax of \$7,660 plus applicable interest be remitted to Ghislaine L Morgan for the taxation years 1965 to 1975.

The taxpayer who was a citizen of both Switzerland and Great Britain worked in Canada for a period of ten years and left in July 1964 for residence in the United Kingdom.

\$

On March 3, 1965 she was employed by the Canadian High Commission in the United Kingdom until her retirement in 1979. At the start of her employment, she was informed that she was liable for Canadian Tax but exempt from United Kingdom tax.

In 1979, the United Kingdom declared that she had been a United Kingdom resident since 1964 but due to the intervention of the High Commission agreed to commence taxing her as of April 1976. Canadian taxes for 1976 to 1978 were refunded but her additional liability for United Kingdom taxes for this period is \$8,000.

The Canadian income tax returns filed from 1965 to 1975 are statute—barred. In view of the taxpayer receiving incorrect information from Canadian officials, her age, poor health and poor financial circumstances, a remission has been recommended.

Natale, J T 4,543

PC 1980—7/2706 of October 9, 1980 authorized the remission of tax of \$2,283 in respect of the 1969 taxation year and \$2,260 in respect of the 1970 taxation year plus relevant interest payable.

The taxpayer, in 1971, emigrated to California returning to Canada in 1975. While out of the country re-assessments were processed for his returns of 1969 and 1970 and the Notices of Re-Assessment were forwarded to his accountant who neglected to forward them to California.

At the time of his return, the 1969 and 1970 returns were statute-barred. The taxpayer was able to provide information to prove that the re-assessments were incorrect and if he had been resident in the country, would have been appealed.

A remission is recommended due to the fact that the taxpayer did not receive the Notices and the re-assessments were incorrect.

Parkinson, the late Charles Neil

PC 1981—10/54 dated January 8, 1981 authorized the remission of \$944 plus relevant interest for the 1973 Taxation Year.

Remission of income tax was granted to certain minority shareholders of W J Gage Limited on February 1, 1981 PC 1980—19/376. The Taxpayer's name was not included in the schedule even though his situation was identical to the other shareholders.

Accordingly, a remission was recommended.

Persam, Walter R 2,062

PC 1980—11/1035 dated April 17, 1980 authorized the remission of \$2,062 plus relevant interest for the 1973 Taxation Year.

The taxpayer, a former federal government employee, received unearned sick leave amounting to \$6,615 which he reported in 1973. He did not return to work but retired on March 30, 1976 and commenced to receive a disability pension. From November 12, 1973 to March 20, 1976 he received disability benefits based on 75% of his income. Upon retirement he was requested to repay the \$6,615 and his retirement was back-dat-

ed 65 days to use the "back pay" from the superannuation to repay the amount.

National Revenue Taxation informed the taxpayer at the request of the federal department that if he repaid the unearned sick leave less the Federal Tax thereon, a remission would be recommended provided the remitted tax was returned to the federal department. In 1979 the taxpayer advised National Revenue, Taxation that he had repaid the net amount, consequently a remission was recommended.

Interest on loans made to the Canadian National Railway System and Predecessor Companies for capital expenditures and deficits, was never taken into the accounts of the Government but interest amounting to \$530,832,598 was shown on the books of the railway. The total amount of interest calculated up to December 31, 1936 was \$574,781,637. Any claim the Government may have for such interest was transferred to the Canadian National Railways Securities Trust as provided for by the Canadian National Railways Capital Revision Act for 1937.

*Includes Air Canada.

⁽¹⁾ See Accumulated Deficit in Section 11 of this volume.

⁽²⁾ As at the implementation of the Capital Revision Act, 1937.

⁽³⁾ Includes \$89,731,594 repaid prior to the implementation of the Capital Revision Act, 1937 and \$270,037,438 transferred to the Securities Trust pursuant to the said Act.

⁽⁴⁾ Comprised of deficit advances outstanding at the time of implementation of the Capital Revision Act, 1937.

⁽⁵⁾ Includes amounts in respect of the Canadian National Railways and Air Canada operating deficits which also appear under "Cash contributions" above.

⁽⁶⁾ Loans and advances to Canadian National Railways.

⁽⁷⁾ These shares were received in exchange for 180,000 shares of Canadian Northern Railway capital stock valued at \$18,000,000.

⁽⁸⁾ Includes capital loss on retirement of steam locomotives amounting to \$36,555,118 for the years 1956, 1957, 1958, 1959 and 1960 and see Accumulated Deficit in Section 11, Canadian National Railway Stock, for the remainder.

⁽⁹⁾ No par value shares representing the cancellation of \$808 million of loans and advances and of the 1,555,926,732 shares of 4% preferred stock pursuant to amendments to the Canadian National Railways Capital Revision Act and the Railway Act in 1978 and in the 1979-80 fiscal year, the purchase of 23,352 additional common shares and the exchange of 208,722 additional common shares for the value of assets transferred to the Corporation under the authority of PC 1979-1449, and in 1980-81 fiscal year the purchase of 33,000 additional common shares.

⁽¹⁰⁾ See Statement of Contingent Liabilities in Section 11 of this volume.

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 55 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the Accounts of Canada and from more detailed records maintained in departments and agencies. The Accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department is responsible for the accuracy of its accounts and maintains detailed records of the transactions in those accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years. The report also includes the financial statements of those Crown corporations and other bodies whose accounts are maintained separately from the Accounts of Canada. The financial year of a number of these corporations and other bodies is the calendar year rather than the fiscal year of the Government.

Format of the Public Accounts

The Public Accounts is produced in three volumes; **Volume I** presents a summary and analysis of the financial transactions of the Government while **Volume III** contains the financial statements of Crown corporations which are permitted by legislation to keep their own accounts.

Volume II presents the financial operations of the Government, segregated by department. It contains financial operations of individual departments and their associated agencies, and additional information and analysis.

(a) Departmental Financial Operations

In a fashion similar to the Estimates, Volume II uses a uniform set of statements to present each department's financial operations. In most respects,

the level of detail is the same as in the Estimates and provides the following information:

(i) Use of Appropriations

This is the principal departmental statement. It is a summary of the use by department of both the budgetary and non-budgetary authorities given to them by Parliament in appropriation acts and other statutes. It displays, by program:

- the wording of the relevant appropriations or statutes;
- the amount authorized under each appropriation or statute;
- the total use made during the year of the authorized amounts;
- unexpended balances (amounts lapsed and carried forward) or amounts overexpended; and,
- the total use for the previous year.

(ii) Total Cost of Programs—Budgetary

This table shows the total calculated cost for each program by adding to net expenditure the imputed value of services provided by other departments, and of accommodation provided by the reporting department and by the Department of Public Works, and by deducting non-tax receipts credited to revenue.

The total calculated program cost is also reflected in the Estimates and in the Public Accounts in the "Programs by Activity" table.

(iii) Programs by Activity—Budgetary

This is a comparison of budgetary appropriations with actual expenditures and the imputed costs and revenues referred to in (ii). The table displays total program expenditures by activity and type of vote, and total cost of programs by type of vote. It is related to the "Program by Activities" table displayed in the Estimates.

(iv) Grants and Contributions

This table displays details of amounts appropriated for grants and contributions, by class of recipients and by program, and the payments.

(v) *Budgetary Expenditure by Program and Standard Object*

This table presents net expenditure by standard object and relates to the "Objects of Expenditure" table shown in the Estimates.

(vi) *Budgetary Expenditure of Major Capital Projects*

This table presents, by activity within each program, the estimated total cost of each major capital project together with the related current year estimates and expenditures and the total expenditures to date.

(vii) *Revenue*

Each department displays summary and detailed statements of revenue collected as part of its operations.

(viii) *Revolving Funds*

The commercial orientation of a revolving fund is reflected in the balance sheet and statement of operations, or income and expenditure, presented each year. A revolving fund's minimum goal is the recovery of cost, and most commercial accounting conventions are used to measure cost.

(ix) *Other Organizations*

To further the objectives of the Government and of departments, various boards, agencies, commissions and accounts have been created by appropriation acts and other legislation. Financial statements for these organizations and accounts are also shown.

(b) **Additional Information and Analysis**

Further details of certain outlays are provided, in Volume II, to supplement the statements already presented. This supplementary information includes:

- accounts receivable and deletions (Section 32);
- professional and special services (Section 33);
- construction and acquisition of land, buildings, machinery and equipment (Section 34);
- payments of damage claims, ex gratia payments, federal court awards and nugatory payments (Section 35);
- selected miscellaneous payments and federal-provincial shared-cost programs by province (Section 36);
- grants and contributions (Section 37); and,
- miscellaneous statements by department (Section 38).

Summary Tables

The following tables provide summaries of the financial operations contained in the departmental sections.

Table 1 summarizes the appropriations and the use of appropriations. (This statement also appears in Section 2 of Volume I).

Table 2 summarizes expenditure by department and by standard object.

Table 3 summarizes revenue by department and by main classification.

AGRICULTURE

Department

Objectives

ADMINISTRATION PROGRAM

- To provide overall policy direction, administrative support and economic advisory services for all departmental programs.

RESEARCH PROGRAM

- To develop new knowledge and improved technology that will ensure the efficient production of an adequate and appropriate supply of food and agricultural products and assist in maintaining a stable and profitable agricultural industry.

MARKETING PROGRAM⁽¹⁾

- To assist in improving overall Canadian agriculture marketing efficiency, increasing exportation and the utilization of Canadian production, ensuring long term supply of agricultural products.

FOOD PRODUCTION AND INSPECTION PROGRAM⁽²⁾ PROGRAM

- To contribute to the development of optimum agricultural and food production and ensure the continued supply of safe, wholesome, high quality and nutritious food for domestic and export trade.

RACE TRACK SUPERVISION REVOLVING FUND

- To protect the pari-mutuel betting public associated with horse racing.

CANADIAN GRAIN COMMISSION PROGRAM

- To achieve maximum acceptability of Canadian grain in domestic and export markets, in the interests of Canadian agriculture.

Canadian Dairy Commission

Objective

- To achieve a sound, healthy and viable dairy industry.

Canadian Livestock Feed Board

Objective

- To ensure the availability of adequate feed grain supplies and storage space to meet the needs of livestock feeders in Eastern Canada and British Columbia and to contribute to reasonable price stability for such supplies; to assist in equalizing feed grain prices to livestock feeders in Eastern Canada and in British Columbia.

Farm Credit Corporation

Objective

- To provide long-term mortgage credit to farmers and loans to syndicates of farmers and to perform operational and administrative functions related to the organization of Canadian agriculture into economic farm units in the hands of competent operators.

⁽¹⁾ Part of former Food Production and Marketing Program.

⁽²⁾ Includes former Health of Animals Program and part of former Food Production and Marketing Program.

Agricultural Stabilization Board

(Established by the Agricultural Stabilization Act)

AUDITOR GENERAL OF CANADA

THE CHAIRMAN
AGRICULTURAL STABILIZATION BOARD
OTTAWA, ONTARIO

I have examined the statement of expenditure of the Agricultural Stabilization Board for the year ended March 31, 1981. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, the statement of expenditures presents fairly the expenditures of the Board for the year ended March 31, 1981, in accordance with the accounting policies disclosed in Note 2 applied on a basis consistent with that of the preceding year.

Appendix 1—Concluded**Agricultural Stabilization Board—Concluded**NOTES TO FINANCIAL STATEMENT
MARCH 31, 1981

1. Board objectives

The stated objectives of the Agricultural Stabilization Board are as follows:

- To stabilize the prices of agricultural commodities in order to assist the industry of agriculture to realize fair returns for its labour and investment.
- To maintain a fair relationship between prices received by farmers and the costs of goods and services that they buy.

2. Significant accounting policies

(a) Deficiency payments and administrative expenses

Expenditures for the year include all amounts for work performed, goods received or services rendered prior to April 1, 1981. This basis is consistent with that followed by the departments of the Government of Canada.

(b) Services provided without charge

An estimated amount for services provided without charge by Government Departments is included in the statement.

(c) Fixed assets

Purchases of furniture and equipment are recorded as an administrative expense in the year of acquisition.

(d) Employee termination benefits

Termination benefits accrue to employees over their service period. Payments of these benefits are made to the employees on separation or retirement and are expensed by the Board when paid.

(e) Refunds of expenditure

Refunds of expenditure relate to overpayments of deficiency payments and, when received, reduce the cost of the programs.

3. Fraud

As a result of an investigation by the Royal Canadian Mounted Police, thirty-nine persons were charged with fraudulently receiving payments amounting to \$645,531 under the 1977 Potato and 1977 Onion Stabilization Programs. Fifty-six charges were heard in the Quebec Criminal Courts and Orders of Restitution amounting to \$422,981 have been received. Civil action has begun on collecting the balance, although \$23,264 will be processed for write-off since the respective parties have since either died or been declared destitute. Any recoveries will be returned to the Consolidated Revenue Fund.

4. Contingent liabilities

On June 27, 1979, the Board was advised that the Federal Court had ruled in favour of a claimant who had brought suit under the 1975 Apple Program. The Board successful appealed the decision, but the claimant has received leave to appeal to the Supreme Court. If such action is successful, the Board could be liable for an additional payment not to exceed \$58,500. Payment, if any, will be expensed in the year paid.

The Board is currently defending an action by a producer under the 1976 Slaughter Cattle Program as a result of a dispute concerning producer eligibility in excess of the maximum payments allocated for this program. If such action is successful, the Board could be liable for an additional payment amounting to \$156,000. Payment, if any, will be expensed in the year paid. This case is identical to the issue outlined in the preceding paragraph (Apple Program) and is being held in abeyance pending final judicial decision in that action.

5. Financing

Funding to cover deficiency payments is provided by Agriculture Vote 20. The funds provided through this Vote in the year amounted to \$335,724,776 (\$309,930,080 in 1980). Funding to cover administrative expenses is provided by Agriculture Vote 15. The funds provided through this Vote in the year amounted to \$1,246,425 (\$978,983 in 1980).

NOTES TO FINANCIAL STATEMENT
FOR THE YEAR ENDED MARCH 31, 1981

1. Commission's objectives

The Canadian Grain Commission operates under Section 3 of the Canada Grain Act (1970) to establish and maintain high standards of quality for Canadian grain, and to regulate grain handling in Canada so as to achieve maximum acceptability of Canadian grain in domestic and export markets.

2. Accounting policies

Receipts

The revenue accounts of the Commission are maintained on a cash basis which is consistent with that used by departments of the Government of Canada. Receipts are credited to the Consolidated Revenue Fund.

Expenditures

Operating and capital expenditures of the Commission are charged to operations and recovered from parliamentary appropriations provided for that purpose. Expenditure for the year includes all amounts for work performed, goods received or services rendered prior to April 1, 1981. This basis is consistent with that followed by the departments of the Government of Canada. Operating expenditure also includes services provided without charge by Government departments.

3. Canadian Grain Commission Weigh-over Account

The transactions by the Canadian Grain Commission Weigh-over Account for the year ended March 31, 1981 are as follows:

	1981	1980

Appendix 4—Concluded**Race Track Supervision Revolving Fund—Concluded**NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Authority and purpose

The Race Track Supervision Revolving Fund was established under Appropriation Act No. 1, 1970 which authorized the operation of a Fund in the current and subsequent fiscal years in accordance with terms and conditions prescribed by Treasury Board for the purpose of providing race track supervision in Canada. The Fund has been authorized to draw from the Consolidated Revenue Fund up to \$200,000 for working capital should this be necessary and to retain earnings up to \$2 million. An amount of \$879,798, representing net liabilities assumed by the Fund and assets contributed to the Fund, was added to this authority when the Fund became budgetary.

Charges to the Fund are to include administrative expenses of race track supervision and costs of research relating to the use of drugs on horses and race surveillance techniques including the publication, distribution and sale of the results of such research. All revenue from activities approved by Treasury Board are to be credited to the Fund.

2. Fixed assets

- (a) Fixed assets acquired from parliamentary appropriations prior to April 1, 1970, are recorded in the Fund in accordance with Treasury Board Circular 1970-7, at values determined as at that date by officers of the Department. Acquisitions subsequent to April 1, 1970 are recorded at cost.
- (b) Depreciation is charged on a straight line basis using rates of 10% for furniture and equipment, 20% for desk-top computers, 33% for motor vehicles and 10% for buildings.
- (c) Acquisition, depreciation and disposal of assets were \$400,923, \$50,167 and \$24,975 respectively with a loss on disposal of \$456.

Fixed assets	Current year	Previous year
	\$	\$
Furniture and equipment	139,149	59,539
Desk top computers.....	162,864	166,326
Motor vehicles	134,489	89,205
Buildings	150,753	
Land	103,763	
	<u>691,018</u>	<u>315,070</u>
Accumulated depreciation	Current year	Previous year
	\$	\$
Furniture and equipment	43,975	31,338
Desk top computers.....	126,590	135,180
Motor vehicles	77,691	56,911
Buildings	821	
	<u>249,077</u>	<u>223,429</u>

- (d) During the fiscal year, the Division purchased an Equine Research Centre with land valued at \$103,763, buildings at \$70,200 and \$80,553 for partial construction of a new clinic.

3. Vacation pay

No provision has been made for vacation pay earned but not yet taken by employees, estimated at \$132,692 as at March 31, 1981 (\$108,493 at March 31, 1980). This will not be an extra cost to the Fund when in the normal course of operations, vacations are taken in subsequent years and recorded as salaries and wages expenditure.

4. Employee termination benefits

Termination benefits accrue to employees over their years of service with the Government of Canada. Employees leaving Government service generally receive termination benefits at the rate of one week's pay for each complete year of continuous service to a maximum of twenty-eight weeks' pay. However, upon resignation, benefits are generally payable only to those with ten or more years continuous service, and the entitlement is reduced to one-half week's pay for each year of continuous employment to a maximum of thirteen weeks' pay.

Revolving Fund employees, being part of the Public Service, earn termination benefits for their total years of continuous employment in the Fund and elsewhere in the Government. New employees hired from within the Government bring their entitlement with them while employees who leave the Fund for other Government employment take along their termination benefit entitlement.

The Fund records termination benefits when payments are made. No provision has been made for benefits accruing to employees, with an estimated value of \$254,359 as at March 31, 1981 (\$215,998 at March 31, 1980). This consists of one week's pay at current salary rates for each complete year of Government service up to and including March 31, 1980, to a maximum of twenty-eight weeks' pay per employee.

ENDOWMENT ACCOUNT

(Statutory Endowment Fund and Parliamentary Grant)

AUDITOR GENERAL OF CANADA

THE HONOURABLE FRANCIS FOX, P.C., M.P.
 MINISTER OF COMMUNICATIONS
 OTTAWA, ONTARIO
 AND
 CHAIRMAN
 CANADA COUNCIL
 OTTAWA, ONTARIO

I have examined the balance sheets of the Endowment Account and Special Funds of the Canada Council as at March 31, 1981 and the statements of operations and changes in equity of the Endowment Account and Special Funds for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Council as at March 31, 1981 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 applied on a basis consistent with that of the preceding year.

Canada Council—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Objectives and operations of the Council

The Canada Council was established by the Canada Council Act in 1957. It is not an agent of Her Majesty. The objectives of the Council are to foster and promote the study and enjoyment of, and the production of works in the arts and, in particular, but without limiting the generality of the foregoing, the Council may, in furtherance of its objectives:

- (a) assist, co-operate with and enlist the aid of organizations, the objectives of which are similar to any of the objectives of the Council;
- (b) provide, through appropriate organizations or otherwise, for grants, scholarships or loans to persons in Canada for study or research in the arts in Canada or elsewhere or to persons in other countries for study or research in the arts in Canada;
- (c) make awards to persons in Canada for outstanding accomplishment in the arts;
- (d) arrange for and sponsor exhibitions, performances and publications of works in the arts;
- (e) exchange with other countries or organizations or persons therein knowledge and information respecting the arts; and
- (f) arrange for representation and interpretation of Canadian arts in other countries.

2. Significant accounting policies

(a) Accounting basis

The Council's accounts are maintained on an accrual basis except for dividends which are recorded on a cash basis.

(b) Investments

Short-term notes, bonds, debentures and shares are valued at cost. Insured mortgages are valued at amortized cost. The difference between the cost and the face value is amortized on a straight-line basis over the remaining life of the insured mortgages.

(c) Gains and losses on disposal of investments

Net gains on disposal of investments are credited to a Fund capital account entitled "Accumulated net gains on disposal of investments". Net losses on disposal of investments are charged against the above-mentioned account to the extent of the balance available in this account. In the event that losses exceed the balance available in the account, the excess would be charged to operations in the year of realization.

(d) Participation in Endowment Account's investment transactions

The portfolios of three Special Funds (Special Scholarship Fund, Molson Prize Fund, Lynch-Staunton Fund) were merged on October 1, 1980 with the portfolio of the Endowment Fund. The participation of each Fund was originally calculated on the basis of market value. Quarterly adjustments are made to take into consideration any capital withdrawals and additional investments. Interest and dividends received and realized gains or losses on disposal of investments are allocated to each fund based on the percentages established at the beginning of each quarter. The accrued interest allocation is made only at year-end.

(e) Capitalization of income of special funds

The Council capitalizes 10% of the gross revenue net of administration expenses of the Izaak Walton Killam Memorial Fund for Advanced Studies and the Special Scholarship Fund in accordance with advice received from the trustees of these funds in order to preserve the equity of these funds for future beneficiaries. The Council reserves the right, however, to draw at any time on the accumulated income so capitalized for the purposes of the funds.

(f) Grants

Grants approved by Council are charged to expenditure in the year as determined by the Treasurer in consultation with the Arts Division. Cancelled grants approved in previous years and refunds are shown as income in the Endowment Account. For the special funds, such items are deducted from the grants approved during the year.

(g) Works of art

Purchases of works of art are not capitalized, but are charged to programme expenditure in the year of purchase.

(h) Capital assets

Capital expenditures are charged to administration expenditure in the year of purchase and consequently there are no charges for depreciation.

(i) Termination benefits

The Council does not record in its accounts the liability for termination benefits.

(j) Other

Except for the Parliamentary Grant, all monies or properties received by the Council pursuant to Section 20 of the Canada Council Act are accounted for in the special funds statements.

6. Bequests and gifts

The Council has received the following bequests and gifts:

(a) Izaak Walton Killam Memorial Fund for Advanced Studies.

A bequest of \$12,339,615 in cash and securities was received from the estate of the late Mrs. Dorothy J. Killam for the establishment of the "Izaak Walton Killam Memorial Fund for Advanced Studies" to provide scholarships "for advanced study or research at universities, hospitals, research or scientific institutes, or other equivalent or similar institutions both in Canada and in other countries in any field of study or research other than the 'arts' as presently defined in the Canada Council Act and not limited to the 'humanities and social sciences' referred to in such Act".

The bequest contains the following provisions: that the Killam Trust shall not form part of the Endowment Fund or otherwise be merged with any assets of the Council; and that, in the event the Canada Council should ever be liquidated or its existence terminated or its powers and authority changed so that it is no longer able to administer any Killam Trust, the assets forming the Killam Trust must be paid over to certain universities which have also benefited under the will.

The cash and securities received and the proceeds have been invested in a separate portfolio.

(b) Special Scholarship Fund

A gift of what may be approximately \$4,350,000 was received from the late Mrs. Dorothy J. Killam for the establishment of a Special Scholarship Fund. The gift consisted of preferred shares in a Canadian company registered in the name of the Canada Council, redeemable over a period of years. To March 31, 1981, the Council has received proceeds from the redemption of these preferred shares amounting to \$2,235,084. The unredeemed portion of \$2,118,525 is carried on the balance sheet at a nominal value of \$1. These proceeds have been invested and the income therefrom is available to provide fellowship grants to Canadians for advanced study or research in the fields of medicine, science and engineering at universities, hospitals, research or scientific institutions or other equivalent or similar institutions in Canada.

(c) Molson Prize Fund

Gifts of \$900,000 from the Molson Foundation established a capital fund referred to as the Molson Prize Fund. The income of the fund is used for awarding cash prizes to Canadians for outstanding achievement in the fields of the Arts, the Humanities or the Social Sciences that enriches the cultural or intellectual heritage of Canada or contributes to national unity. The value of each prize is \$20,000 or as determined by Council, without restriction as to its use by the recipient.

(d) Lynch-Staunton Fund

An unconditional bequest of \$699,066 from the estate of the late V. M. Lynch-Staunton established a capital fund, the income from which is available for the regular programmes of the Council.

(e) John B.C. Watkins Estate

A bequest was received (carried on the balance sheet at a nominal value of \$1) of the net income from the residue of the estate of the late John B.C. Watkins, which assets are

held in perpetuity by a trust company. The net income is to be used "for establishment of scholarships to be awarded to graduates of any Canadian University who may apply therefor for the purpose of engaging in post graduate studies in Denmark, Norway, Sweden or Iceland and who shall be selected for their outstanding worth or promise by a committee appointed by the Canada Council".

(f) J.P. Barwick Estate

A bequest of what may amount to \$31,500 was made by the late J.P. Barwick. The payment of the bequest is to be postponed during the lifetime of the surviving beneficiary of the residue of the estate. The bequest to the Council is "on condition that such bequest shall be applied for the benefit of the musical division of the arts and for the encouragement of the musical arts to increase the Council's normal budget in the musical division or field of the arts". The bequest is reflected in the balance sheet at a nominal value of \$1.

(g) Edith Davis Webb Estate

A bequest of what may amount to \$400,000 was made by the late Mrs. Edith Davis Webb. The payment of the bequest is to be postponed during the lifetime of the surviving beneficiary of the residue of the estate. The bequest to the Canada Council is "to be used for the purpose of making grants or establishing scholarships for musical study in such manner as the Council shall determine". The bequest is reflected in the balance sheet at a nominal value of \$1.

(h) Vida Peene Estate

A bequest of \$599,671 was made by the late Vida Peene, a past member of the Council. The earnings from this bequest are to be paid annually to several organizations as listed in her will. In the year under review, the earnings from this fund were \$85,018 and this amount was paid out as directed.

(i) Kathleen Coburn

A gift of \$100 was received from Miss Kathleen Coburn, and is part of a promise of a larger bequest, the amount of which cannot be determined at this time. When this bequest is in hand, it will provide for exchanges of scholars between Israel and Canada. The earnings in 1980-81 were \$21.

7. Art Bank

In 1972 the Canada Council Art Bank was established to develop a collection of works of art for use in federal offices and public buildings on a rental basis. Works of art acquired to March 31, 1981 total approximately \$6,552,000 including \$509,820 purchased in 1980-81 (\$509,408 in 1979-80).

8. Long-term lease agreement

On October 8, 1976 the Council entered into a ten-year agreement for office space for the period November 1976 to October 1986. The agreement calls for an annual rental of \$606,450 for the first five years and an annual rental of \$657,975 for the remaining five years.

9. Transactions with Canada

Upon the establishment of the Canada Council in 1957, the Parliament of Canada authorized the creation of an Endowment Fund of \$50,000,000. The activities of the Endowment Account of the Canada Council are dependent on annual parliamentary appropriations and on revenue from the Endowment Fund.

Appendix 2—Concluded

Government Telecommunications Agency Revolving
Fund—ConcludedNOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1981

1. Purpose and authority

The Government Telecommunications Agency Revolving Fund was originally established in 1963 to plan and provide telecommunication facilities and services at the request of federal departments and agencies. The Fund now operates under the continuing authority of the Adjustment of Accounts Act (Bill C-22) and can make payments out of the Consolidated Revenue Fund for working capital, capital equipment and temporary financing of operating requirements, the total of which is not to exceed \$8,000,000 at any time. An amount of \$741,781 representing net assets assumed by the Fund and assets contributed to the Fund was charged against this authority when the Fund became budgetary.

2. Significant accounting policies and practices

Fixed assets

Fixed assets are carried at cost. Depreciation is calculated using the diminishing balance method at the following rates: automobiles (30%), office equipment (20%), furniture and fixtures (10%).

3. Fixed assets and accumulated depreciation

Acquisitions and disposals for the year were \$43,920 and \$7,185 respectively. The reduction in the accumulated depreciation on disposals was \$5,168 and the depreciation for the year was \$25,954.

Fixed assets	Previous year	Current year
	\$	\$
Office equipment	115,040	143,768
Furniture and fixtures	156,570	151,954
Automobiles	8,679	21,302

	<u>156,202</u>	<u>176,988</u>
	<u>124,087</u>	<u>140,036</u>

4. Contingent liabilities

In the course of operations, the Agency enters into contractual agreements relating to the research and technical development of telecommunications activities. As at March 31, 1981, the suspension of one of these agreements may result in a liability to the Agency. As the amount of the liability cannot be determined at this time, no provision has been made in the financial statements. This matter is now before the Contract Settlement Board of the Department of Supply and Services.

5. Reclassification of items in previous period financial statements

Certain 1980 figures in the Statement of Operations and the Balance Sheet have been reclassified to conform to the 1981 presentation.

AUDITOR GENERAL OF CANADA

THE HONOURABLE PAULINE MCGIBBON, C. C.
 CHAIRMAN OF THE BOARD OF TRUSTEES
 NATIONAL ARTS CENTRE CORPORATION
 OTTAWA, ONTARIO

I have examined the balance sheet of the National Arts Centre Corporation as at March 31, 1981 and the statements of income and expense, surplus and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2, applied on a basis consistent with that of the preceding year.

Appendix 3—Continued

National Arts Centre Corporation—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Objectives and operations of the Corporation

The objectives of the Corporation are: to operate and maintain the National Arts Centre; to develop the performing arts in the National Capital Region; and to assist the Canada Council in the development of the performing arts elsewhere in Canada.

In furtherance of its objectives, the Corporation may arrange for and sponsor performing arts activities at the Centre; encourage and assist in the development of performing arts companies resident at the Centre; arrange for or sponsor radio and television broadcasts and the showing of films in the Centre; provide accommodation at the Centre, on such terms and conditions as the Corporation may fix, for national and local organizations whose objects include the development and encouragement of the performing arts in Canada; and at the request of the Government of Canada or the Canada Council, arrange for performance elsewhere in Canada by performing arts companies, whether resident or non-resident in Canada, and arrange for performances outside Canada by performing arts companies resident in Canada.

With a view to achieving the objectives, Her Majesty demised and leased the National Arts Centre building complex to the Corporation for a period of twenty years commencing June 1, 1969. Under the terms of the lease, the Corporation is responsible for maintenance and operation of the building complex, but is not required to pay for the use of the complex. Accordingly, the accounts of the Corporation do not include any charge for rent.

2. Significant accounting policies

(a) Basis of accounting

Revenues and expenditures of the Corporation are maintained on an accrual basis.

(b) Grants

Municipal and specific grants as at March 31 are recorded as revenue where the grantors have made firm commitments to the Corporation.

(c) Fixed assets

The Corporation follows the practice of charging to expense the purchase of fixed assets in the year of acquisition. No depreciation on fixed assets is recorded.

(d) Leasehold improvements

Leasehold improvements are charged to expenditure in the year they are incurred.

(e) Inventories

Inventories are valued at the lower of cost and net realizable value (Restaurants) or replacement cost (Production).

(f) Deferred income

Income from tickets sold prior to March 31 for performances taking place after that date is deferred. Deferred income also includes unredeemed gift certificates, exchange vouchers, credit notes and other income received prior to March 31 and applicable to the next fiscal year. Gift certificates, credit notes and exchange vouchers not redeemed within three years of the current financial year are written off and credited to income. A percentage of those less than three years old is also credited to income.

(g) Pension plan

The Corporation employees participate in the Public Service Superannuation plan, which is administered by the Government of Canada. Contributions to the plan are required by both the employees and the Corporation. These contributions represent the Corporation's total debt and are recorded on a current basis.

(h) Accrued employee termination benefits

Severance pay generally accrues to employees over their service period and is payable on their separation or retirement. These benefits are recorded as a liability of the Corporation.

(i) Cost of performing arts programmes

Direct costs of performing arts programmes are apportioned over the number of performances of the related production. Advances to performing companies and artists under contract and other costs of production in progress are deferred and included in costs relating to future performances.

Direct costs include expenditures directly attributable to the National Arts Centre's performing arts programmes. Indirect costs and common services not attributable to particular performances are charged to general and administrative expenses.

(j) Restaurant operations

Restaurant expenses do not include costs related to building maintenance, public services and capital operating expenditures. These costs are included in general and administrative expenses.

3. Deposit certificates

Deposit certificates include \$50,000 provided as security for the payment of fees to artists as required by a union.

4. Accounts receivable

Accounts receivable as at March 31 include:

	1981	1980
	\$	\$
Customers' accounts.....	450,448	211,213

	<u>639,860</u>	<u>524,404</u>

7. Lease commitments

The Corporation's lease commitments as at March 31, 1981 amounted to \$776,717 and are detailed below:

Fiscal year	Amount \$
1981-82	292,350
1982-83	200,320
1983-84	94,879
1984-85	85,819
1985-86	103,349
	<u>776,717</u>

8. Major repairs to the building and its systems

During the year, Treasury Board approved a submission for major repairs to the building and its systems. The cost of projects is estimated at \$4,981,000. Of this amount, \$400,000 has been approved in 1980-81 Supplementary Estimates "C". The balance of \$4,581,000 has been approved in principle, and is to be provided from, 1981-82 Supplementary Estimates. This parliamentary appropriation and these major repairs are accounted for in the statement of surplus.

9. Contingency

As at March 31, 1981, the Corporation intends to claim the cost of physical damages and other related costs incurred as a result of a flood due to a broken municipal water-main. At the present time, neither the amount of the claim nor the amount likely to be recovered can be determined.

Any settlement resulting from the resolution of the above contingency will be accounted for as a prior period adjustment.

10. Comparative figures

Certain 1980 figures have been reclassified to conform to the 1981 presentation.

11. Supplementary information

For the fiscal year 1980-81, the net cost of the Corporation operations was \$10,230,024 against a parliamentary appropriation of \$10,913,000. As a result, the operating surplus has increased as at March 31, 1981 to \$702,182 from \$119,206 as at March 31, 1980. The Corporation's programming year terminates on August 31, 1981 and it is projecting neither a surplus nor a deficit as of that date.

National Film Board

(Established by the National Film Act)

AUDITOR GENERAL OF CANADA

THE HONOURABLE FRANCIS FOX, P.C., M.P.
 MINISTER OF COMMUNICATIONS AND SECRETARY OF STATE
 OTTAWA, ONTARIO

I have examined the balance sheet of the National Film Board as at March 31, 1981 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Purpose and authority

According to the National Film Act, "The Board is established to initiate and promote the production and distribution of films in the national interest and in particular:

- (a) to produce and distribute and to promote the production and distribution of films designed to interpret Canada to Canadians and to other nations;
- (b) to represent the Government of Canada in its relations with persons engaged in commercial motion picture film activity in connection with motion picture films for the Government or any department thereof;
- (c) to engage in research in film activity and to make available the results thereof to persons engaged in the production of films;
- (d) to advise the Governor in Council in connection with film activities; and
- (e) to discharge such other duties relating to film activity as the Governor in Council may direct it to undertake."

The Board also provides, through the Canadian Government Photo Centre photographic, printing and processing services to government departments, agencies and others.

The Adjustment of Accounts Act received royal assent on July 10, 1980. This Act authorized, effective April 1, 1980, the deletion of:

- The operating account of the Board (maximum \$5,000,000)
- Advances for the purchase of capital equipment for the Canadian Government Photo Centre
- The Canadian Government Photo Centre Revolving Fund (maximum \$750,000)

and replaced these non-budgetary authorizations by a budgetary statutory authority limit of \$12,000,000.

2. Significant accounting policies

(a) Production of films

The cost of films produced for the Board and prints not held for resale are expensed during the year.

Where the Board participates with a co-sponsor in the production of a film, the co-sponsor's contribution is generally applied first against costs, and the balance of costs are expensed during the year.

Where the Board produces a film for a sponsor, the profit or loss is recorded on completion of the film.

(b) Inventories

Work in progress is carried at the actual recoverable cost from sponsors and co-sponsors.

Materials and supplies are carried at the lower of the average cost or replacement value.

Prints from films produced by the Board and held for resale are carried at the average direct cost of production of the prints.

(c) Fixed assets

Fixed assets are carried at cost, and depreciation is calculated on a straight line basis over the estimated useful life

of the assets, generally five to ten years. No depreciation is taken during the year of acquisition.

(d) Employee termination benefits

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

(e) Pension plan

Employees of the Board are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Board. These contributions represent the total liability of the Board and are recognized in the accounts on a current basis.

9. Services provided without charge

During the year ended March 31, 1980, an amount of \$5,766,000 for services provided without charge by government departments was included as expense in the statement of operations, and a corresponding amount was credited in the statement of equity of Canada. For the year ended March 31, 1981, these expenses totalling \$5,991,932 were paid by the Board and were financed through the year's parliamentary appropriations.

10. Reclassification

The accounts of the Board and those of the Canadian Government Photo Centre have been reclassified as at April 1, 1980 using the pooling of interests method. The net assets contributed by the Canadian Government Photo Centre amounted to \$841,589, composed of \$1,203,690 of assets and \$362,101 of liabilities. The 1979-80 comparative figures have been retroactively adjusted and reclassified accordingly, after also giving effect to the Adjustment of Accounts Act.

As at March 31, 1980, the reclassified financial statements were composed of the following:

AUDITOR GENERAL OF CANADA

DR. SEAN MURPHY
 CHAIRMAN OF THE BOARD OF TRUSTEES
 NATIONAL MUSEUMS OF CANADA
 OTTAWA, ONTARIO

I have examined the balance sheet of the National Museums of Canada as at March 31, 1981 and the statements of revenue and expenditure of General, Special Account and Purchase Account, surplus and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 applied, after giving retroactive effect to the change from the cash basis to the accrual basis of accounting as explained in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Objectives and operations of the Corporation

The National Museums of Canada was established by the National Museums Act 1967-68, "...to demonstrate the products of nature and the works of man, with special but not exclusive reference to Canada, so as to promote interest therein throughout Canada and to disseminate knowledge thereof." The Corporation is a departmental Crown corporation which is dependent on annual parliamentary appropriations.

The Corporation is comprised of the National Gallery of Canada, the National Museum of Man, the National Museum of Natural Sciences, the National Museum of Science and Technology, as well as National Programmes, National Museums Assistance and Corporate Administration.

2. Significant accounting policies

(a) Inventories

Publications in process, books, pamphlets, replicas, and other materials held for sale are carried at the lower of cost or net realizable value.

(b) Fixed assets

Fixed assets are carried at cost and are depreciated using the straight-line basis over their estimated useful life as follows:

Discovery Train	3 years
Office equipment and furniture	8 to 10 years
Other equipment	5 to 12 years
Building renovations	25 years

(c) Collections

The Corporation acquires its collections through purchase or by donation in kind. In accordance with policies generally followed by museums, only purchases are accounted for during the year.

(d) Revenue and expenditure

Revenue and expenditure are accounted for using the accrual basis, except for refunds of previous years' expenditures.

(e) Services provided without charge

Amounts for services provided without charge by other government departments are included in the operating expenditure.

(f) Employees' termination benefits

Employees' termination benefits are expensed when paid.

3. Change in accounting policy

The Corporation has changed from the cash basis to the accrual basis of accounting. The change has been applied retroactively. Accounts receivable, inventories, fixed assets and accrued vacation pay are recorded in the balance sheet; yearly acquisitions of fixed assets are capitalized and depreciation of fixed assets is recorded as an expenditure. As a result, assets, liabilities and excess of expenditure over revenue for General and Special Account have been increased as follows:

	1981	1980
	\$	\$
Assets	11,037,530	12,642,994
Liabilities	1,504,003	1,328,947
Excess of expenditure over revenue—General	2,097,529	1,725,433
Excess of expenditure over revenue—Special Account	(317,009)	197,255

4. Accounts receivable

	\$	\$
Trade accounts receivable	358,595	232,354
Less: allowance for doubtful accounts	83,642	41,000
	274,953	191,354

In addition to the trade accounts receivable reflected in the financial statements there is an outstanding amount for refunds of previous years' expenditures of \$238,246. When collected the latter will be transferred to Consolidated Revenue Fund and will not be available for use by the Corporation.

5. Inventories

AUDITOR GENERAL OF CANADA

THE HONOURABLE FRANCIS FOX, P.C., M.P.
MINISTER OF COMMUNICATIONS
OTTAWA, ONTARIO

AND
MR. ANDRÉ FORTIER
PRESIDENT
SOCIAL SCIENCES AND HUMANITIES
RESEARCH COUNCIL
OTTAWA, ONTARIO

I have examined the statement of operations of the Social Sciences and Humanities Research Council for the year ended March 31, 1981. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the results of the operations of the Council for the year ended March 31, 1981, in accordance with the accounting policies set out in Note 2 applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1981

1. Objectives and operations of the Council

The Social Sciences and Humanities Research Council (SSHRC) was established by the SSHRC Act and commenced operations on April 1, 1978. Its function is to promote and assist research and scholarship in the social sciences and humanities. The SSHRC is a schedule B departmental Crown corporation and is funded through parliamentary appropriations which provide for its operating expenditures and its grants and scholarships activities.

The Council administers an academic exchange program for the Department of External Affairs. It also administers an endowment fund known as the Queen's Fellowship Fund, an academic exchange program for the Government of Manitoba and a trust account for other donations received for specific research projects.

2. Significant accounting policies

(a) Expenditure

Operating expenditures are recorded on an accrual basis. Capital expenditures are expensed in the year of purchase. Grants and scholarships expenditures are reported on a cash basis and represent actual disbursements to March 31, 1981.

(b) Revenue

Revenues are recorded on a cash basis.

(c) Services provided without charge

Amounts for services provided without charge by other government departments are included in the operating expenditures of the Council.

(d) Employee termination benefits

Employee termination benefits are expensed in the year of payment.

3. Financing of operations

The above mentioned amounts lapsed in accordance with Section 30 of the Financial Administration Act.

4. Comparative figures

Some of the 1980 comparative figures have been restated to conform with the financial statement presentation adopted for 1981.

5. Supplementary information

(a) Refunds of previous years' expenditures

Refunds of previous years' expenditures amounting to \$199,227 were remitted to the Receiver General for Canada and are not reflected in the statement.

(b) Accounts receivable

The Council does not reflect in its financial statement the accounts receivable from award holders which amount to \$93,873 at March 31, 1981 (\$64,334 at March 31, 1980).

6. Special funds and programs

The Council also administers the following special funds and programs:

(a) Queen's Fellowship Fund

In March 1979, the Council received from the Canada Council the administration and control of the Queen's Fellowship Fund, the interest and future earnings from which are to be used for the payment of fellowships to graduate students in certain fields of Canadian studies.

EMPLOYMENT AND IMMIGRATION

Department

Objective

DEPARTMENTAL ADMINISTRATION PROGRAM

- To ensure that federal labour market, income related and immigration policies and programs are developed and implemented in an effective manner consistent with national economic and social goals and to provide information to the public concerning these policies and programs.

Advisory Council on the Status of Women⁽¹⁾

Objective

- To bring before the government and the public matters of interest and concern to women.

Canada Employment and Immigration Commission⁽²⁾

Objectives

ADMINISTRATION PROGRAM

- To provide efficient and timely support services to the Commission and Department.

EMPLOYMENT AND INSURANCE PROGRAM

- To further the attainment of national economic and social goals by realizing the full productive potential of Canada's human resources, while supporting the initiatives of individuals to pursue their economic needs, and, more generally, their self-fulfillment through work.

IMMIGRATION PROGRAM

- To administer the admission of immigrants and non-immigrants in accordance with the economic, social and cultural interests of Canada.

ANNUITIES PROGRAM

- To administer contracts entered into under the Government Annuities Act.

Immigration Appeal Board

Objective

- To make available to persons who have been ordered removed from Canada or to persons in Canada whose relatives have been refused admission to Canada, an independent court to which they may appeal such decisions, not only on legal grounds, but also on discretionary grounds; and to permit the redetermination of refugee claims.

Status of Women—Office of the Co-ordinator⁽¹⁾

Objective

- To promote equal opportunities for women in all spheres of Canadian life.

⁽¹⁾ The Status of Women Program is now designated as two separate agencies: the Advisory Council on the Status of Women; and, Status of Women—Office of the Co-ordinator.

⁽²⁾ The former Special Program of the Treasury Board Secretariat was transferred to the Canada Employment and Immigration Commission of this reporting department and then to the Citizenship Program of the Department of Secretary of State.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Purpose and authority

This account, established for the purpose of raising sufficient funds through a levy to provide for the payment of any compensation payable with respect to classes of petroleum which are designated in accordance with the provisions of subsection 72(4) of the Petroleum Administration Act, was authorized by Vote L26a, Appropriation Act No 3, 1978-79.

Section 24 of the Adjustment of Accounts Act authorized the Minister to make expenditures up to \$200 million out of the Consolidated Revenue Fund for synthetic petroleum and to spend the revenue received in respect of the petroleum compensation charge and penalty revenue. The authority to make expenditures out of the Consolidated Revenue Fund was increased to \$225 million by Appropriation Act No 3, 1980-81, PC 1980-3423. An amount of \$57,799,712 representing net assets assumed by the Fund was added to this authority when the Fund became budgetary.

2. Significant accounting policies and practices

a) Revenue

Under Part 111.1, Section 65, 12 of the Petroleum Administration Act, as amended, a levy is imposed upon (1) domestic petroleum received for processing or consumption in Canada and (2) foreign petroleum or petroleum products imported into Canada for processing, consumption, sale or other use in Canada at a rate prescribed by order of the Governor in Council. These two types of revenue are accounted for on the accrual basis of accounting.

b) Compensation payments

Under Part IV of the Petroleum Administration Act, as amended, compensation is payable to first users of designated classes of high costs domestic petroleum to reduce the cost to domestic price levels. This type of compensation is accounted for on the accrual basis of accounting.

3. Changes in accounting policies and practices

Administration expenses (exclusive of audit and collection fees) were not charged to the Revolving Fund in the 1980-81 fiscal year. These expenses for 1980-81 were paid from the Energy Administration Vote.

Audit and collection fees were not charged by the Department of National Revenue—Customs and Excise in 1980-81 in accordance with the agreement between Energy, Mines and Resources and the Department of National Revenue—Customs and Excise.

The effect of not charging administration expenses, including audit and collection fees, to the Revolving Fund in 1980-81, was to increase the net revenue by approximately \$70,000.

4. Changes in financial statements presentation

The financial statements presentation for the current period (1980-81) was changed in accordance with the revised policy on Revolving Funds (Treasury Board Circular No 1979-38) and Public Accounts Instructions issued June 1981.

The previous year's statements (1979-80) were reclassified to conform with the new basis.

The following changes were made to the financial statements:

- a) The account Funds on Deposit with Receiver General was reclassified as Accumulated Net Charge Against the Fund's Authority. The effect in the Balance Sheet was to reduce the current assets by \$237,027,442 and \$10,889,845 for the current period and previous year respectively and to decrease the Equity of Canada by the same amounts. The reclassification had no effect on the net revenue for the periods.
- b) As stated in Note 3, no administration charges were charged to the Fund in 1980-81. The accrued expenses and other current liabilities on the Balance Sheet, effecting administrative charges in 1979-80, were grouped together with accounts payable, and the various items shown as administration expenses in the Statement of Operations, were grouped together and shown as one amount for administration charges.

EXTERNAL AFFAIRS

Department

Objectives

CANADIAN INTERESTS ABROAD PROGRAM PROGRAM

—To promote in their international dimensions the national objectives of economic growth, sovereignty and independence, peace and security, the promotion of social justice, quality of life and a harmonious natural environment.

PASSPORT OFFICE REVOLVING FUND

—To provide for the issue of appropriate travel documents to Canadian citizens and to certain permanent residents of Canada who are unable to obtain valid passports from their country of origin.

WORLD EXHIBITIONS PROGRAM

—To present an image of Canada that portrays Canada's industrial, cultural and social development, through participation in World Exhibitions approved by the International Bureau of Exhibitions.

Canadian International Development Agency

Objective

—To support the efforts of developing countries in fostering their economic growth and the evolution of their social systems in a way that will produce a wide distribution of the benefits of development among the populations of these countries, enhance the quality of life and improve the capacity of all sectors of their population to participate in national development efforts.

International Development Research Centre

Objective

—To initiate, encourage, support and conduct research into the problems of the developing regions of the world and into the means of applying and adapting scientific, technical and other knowledge to the economic and social advancement of those regions.

International Joint Commission

Objective

—To implement the powers, responsibilities and functions assigned to the Commission by international agreements; to investigate and recommend upon any questions or matters of difference along the common frontier referred to it by the Governments of Canada and the United States; and to consider and, if appropriate, approve in accordance with the Boundary Waters Treaty of 1909, uses, diversions, or obstructions of waters on either side of the boundary affecting the natural level of flow of waters on the other side.

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1981

1. Purpose and authority

The Passport Office Revolving Fund was established in 1969 to provide for the issue of appropriate travel documents to Canadian citizens and to certain permanent residents of Canada who are unable to obtain valid passports from their country of origin.

The Fund has a continuing non-lapsing authority from Parliament to make payments out of the Consolidated Revenue Fund for working capital, capital acquisitions and temporary financing of accumulated operating deficits, the total of which is not to exceed \$4,000,000 at any time. An amount of \$745,893 representing net assets assumed by the Fund and assets contributed to the Fund was charged against this authority when the Fund became budgetary.

2. Accounting policies and practices

Inventories

The inventory of materials and supplies is carried at cost and the inventory of passports-in-process is valued at average cost for the year.

Fixed assets

Fixed assets are carried at cost. Leasehold improvements are amortized on the straight line basis over the term of the appropriate lease. Other fixed assets are depreciated from the year of acquisition on the straight line basis over their estimated useful lives as follows:

Furniture	16 years
Equipment	
Electronic data processing	5 years
Other equipment	10 years

3. Long term leases

The Passport Office occupies space at fifteen locations under long term leases which expire between October 31, 1981 and March 31, 1986. The annual rental is approximately \$1,062,000.

4. Fixed assets and accumulated depreciation

Acquisition and depreciation for the year were \$78,050 and \$207,922 respectively. Equipment and furniture costing \$28,324 were disposed of. Accumulated depreciation on the disposals amounted to \$18,573.

International Development Research Centre

(Established by the International Development Research Centre Act)

AUDITOR GENERAL OF CANADA

INTERNATIONAL DEVELOPMENT RESEARCH CENTRE
ANDTHE HONOURABLE MARK MACGUIGAN, P.C., M.P.
SECRETARY OF STATE FOR EXTERNAL AFFAIRS,
OTTAWA, ONTARIO.

I have examined the balance sheet of the International Development Research Centre as at March 31, 1981 and the statements of expenditures and revenues, equity and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the International Development Research Centre as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Nature and objectives

The International Development Research Centre is a Corporation, without share capital, established by the Parliament of Canada through the International Development Research Centre Act which received Royal assent on May 13, 1970. The annual grant received from the Parliament of Canada is pursuant to External Affairs Votes 45 and 55 for the years ended March 31, 1980 and 1981 respectively.

The objectives of the Centre are to initiate, encourage, support and conduct research into the problems of the developing regions of the world and into the means for applying and adapting scientific, technical and other knowledge to the economic and social advancement of those regions.

2. Significant accounting policies

The accompanying financial statements have been prepared in accordance with Canadian generally accepted accounting principles. Significant accounting policies are as follows:

Research expenditures

Certain expenditures for development research, research related activities and contract research are charged to the accounts at the time of disbursement and as they become due under the terms of contractual agreements. All research expenditures are recorded in the accounts on an accrual basis.

Appendix 2—Continued

International Development Research Centre—
ContinuedNOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981—Continued

2. Significant accounting policies—Concluded

Foreign currency translation

Monetary assets and liabilities are translated into Canadian dollars at the rate of exchange in effect at year end. Non-monetary assets are translated at rates prevailing at the respective transaction dates.

Foreign currency transactions are translated into Canadian dollars by the use of an average exchange rate which closely approximates the rate in effect at the transaction date. Exchange gains and losses are reflected in the results of operations for the current period.

Contract research revenue

The Centre has entered into agreements to undertake contract research on behalf of various donor agencies. The Centre recognizes contract research revenue at the time related expenditures are incurred. Funds received in excess of contract research expenditures incurred are reflected in current liabilities.

Depreciation and amortization

The methods and rates employed annually to provide for the depreciation and amortization of property and equipment are as follows:

	Method	Rate
Leashold improvements	Straight line	5 to 15 years
Office furniture and equipment	Diminishing balance	20%
Computer hardware and systems software	Straight line	5 years

The Centre has commitments under various contract research agreements totalling \$330,000 which will be met by funds provided under such agreements.

Claims

The Centre is a defendant in actions for damages and costs allegedly sustained by the plaintiffs. Management and counsel are of the opinion that the Centre has defences against all significant claims and accordingly no provision has been made in the financial statements in respect of these claims.

8. Related party transactions

Pension costs

Employees of the Centre are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from the employees and the Centre. These contributions represent the total liability of the Centre and are recognized in the accounts on a current basis.

Income taxes

The Centre is exempt from any liability for income taxes.

CANADIAN SALTFISH CORPORATION		
	Non-budgetary	
L23b	This account was established to record loans made to the Canadian Saltfish Corporation which was established under the Saltfish Act, 1969-70, and was extended by Vote L23b, Appropriation Act No. 1, 1976 to regulate interprovincial and export trade in saltfish in order to improve the earnings of primary producers of cured cod fish. Section 17 of the Act provides that the Governor in Council may authorize the Minister of Finance on such terms and conditions as the Governor in Council may prescribe: (a) to guarantee repayment of loans, and interest thereon, made by any bank to the Corporation; and (b) to make loans to the Corporation. PC 1973-1915 July 1973, authorizes the Minister of Finance to make loans to the Canadian Saltfish Corporation to finance the acquisition of capital assets other than working capital. The maximum amount that may be borrowed from all lenders is \$25,000,000 as indicated in PC 1980-2444 dated September 12, 1980. (Net)	
FRESHWATER FISH MARKETING CORPORATION		
	Non-budgetary	
L30b	This Corporation was incorporated under the Freshwater Fish Marketing Act, 1968-69, to regulate interprovincial and export trade in freshwater fish and to establish the Freshwater Fish Marketing Corporation. For the purpose of enabling the Corporation to carry on its operations under the Act, Section 17 provides that the Governor in Council may authorize the Minister of Finance on such terms and conditions as may be agreed upon, to (a) guarantee repayment of loans, and interest thereon, made by any bank to the Corporation; and (b) to make loans to the Corporation. Vote L20a, Appropriation Act No. 4, 1970, increased the aggregate outstanding at any time of the amounts which may be borrowed from any bank upon the credit of the Corporation and the amounts loaned by the Minister of Finance, under the authority of Section 17 of the Freshwater Fish Marketing Act, from \$5,000,000 to \$10,000,000 and by Vote L30b, Appropriation Act No. 2, 1974, to increase the aggregate outstanding from \$10,000,000 to \$20,000,000, and in PC 1980-2441 dated September 12, 1980 the maximum amount of the aggregate outstanding at anytime during the period ending April 30, 1981 shall not exceed \$18,000,000. INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

Department

Objectives

ADMINISTRATION PROGRAM

- To provide overall policy direction and central advisory and administrative services to Departmental Programs.

INDIAN AND INUIT AFFAIRS PROGRAM

- In keeping with the principles of self-development, access of opportunity, responsibility and joint participation within Canadian society, to assist and support Indians and Inuit in achieving their cultural, social and economic needs and aspirations, and to ensure that Canada's constitutional and statutory obligations and responsibilities to the Indian and Inuit peoples are fulfilled.

NORTHERN AFFAIRS PROGRAM

- To advance the social, cultural, political and economic development of the Yukon and Northwest Territories, in conjunction with the Territorial Governments and through co-ordination of activities of the federal departments and agencies, with special emphasis on the needs of native northerners and the protection of the northern environment.

NATIVE CLAIMS PROGRAM

- To enable native claimants to research, develop and negotiate claims and to achieve land claims resolution.

Northern Canada Power Commission

Objective

- To provide public utilities and distribution systems on a self-sustaining basis in the Northwest Territories, the Yukon Territory and at certain other locations in Canada.

TRADE-INDUSTRIAL PROGRAM—Concluded		
	Non-budgetary	
L16b	Loans, under the Adjustment Assistance Program related to the Kennedy Round Agreements, in the current and subsequent fiscal years and in accordance with terms and conditions prescribed by the Governor in Council, to assist manufacturers in Canada who have been determined by a board established pursuant to Section 15 of the Department of Industry Act:	
	(a) to be seriously injured or threatened with serious injury by reason of increased imports attributable to Kennedy Round tariff reductions made by Canada resulting in exceptional problems of adjustment;	
	(b) to be unable to obtain sufficient financing on reasonable terms from other sources for purposes of making the necessary adjustment;	
	(c) requires such loan in order to adapt efficiently to competition from goods imported at such prices, in such quantities or under such conditions as to cause or threaten serious injury; and	
	(d) is unable to obtain sufficient financing on reasonable terms from other sources for such purposes.	
	Also to include in the category of persons eligible for loans thereunder a manufacturer or other person in Canada:	
	(a) in respect of whom the General Adjustment Assistance Board has authorized the provision of insurance pursuant to Industry Vote 30c, Appropriation Act No. 1, 1968, of a loan therein described for an amount not exceeding \$200,000; and	
	(b) who, in the opinion of the Board, requires such loan to prevent a serious delay in implementing the restructuring program approved by the Board. The total amount authorized is \$20,000,000. (Appropriation Act No. 1, 1974). (Gross)	
L20a	Loans, in the current and subsequent fiscal years and in accordance with terms and conditions prescribed by the Governor in Council, to assist manufacturers of automotive products in Canada, including materials suppliers and tooling manufacturers, affected by the Canada-United States Agreement on Automotive Products to adjust and expand their production, such loans to be made for the purpose of acquisition, construction, installation, modernization, development, conversion and expansion of land, buildings, equipment, facilities or machinery and for working capital. The total authority granted for this purpose is \$107,000,000. (Appropriation Acts No. 3 and 4, 1973). (Gross)	
L27d	Loans to Canadair Limited, in the current and subsequent fiscal years and in accordance with the terms and conditions approved by the Governor in Council, for the financing of water bomber aircraft. The total authority granted for this purpose is \$40,004,000. (Appropriation Act No. 1, 1975). (Gross)	
L30b	Advances to assist Canadian defence industry with plant modernization in amounts not to exceed one-half of the cost of the acquisition of new equipment to defence industry, such advances to be recovered on sale of the equipment to defence industry. (Gross)	
L30	Loans in the current and subsequent fiscal years, in accordance with terms and conditions approved by the Governor in Council to persons described in Industry, Trade and Commerce Vote L20, Appropriation Act No. 3, 1971 and to whom a loan had been made thereunder for the purpose of protecting the Crown's interest in the assets securing such loan, and to further authorize the General Adjustment Board, on behalf of Her Majesty in Right of Canada, to guarantee in the current and subsequent fiscal years, in accordance with terms and conditions approved by the Governor in Council, loans made by private lenders approved by the Board to the said persons described above for the aforementioned purposes. The total amount authorized is \$2,000,000. (Appropriation Act No. 3, 1976). (Gross)	
L32c	Payments in accordance with terms and conditions approved by the Governor in Council for the purchase of shares of capital stock of the De Havilland Aircraft of Canada Limited. (Appropriation Act No. 4, 1980-81). (Gross)	
L35	Loans in accordance with terms and conditions prescribed by regulations of the Governor in Council,	
	(a) for the purpose of promoting the establishment, growth, efficiency or international competitiveness of Canadian industry and to foster the expansion of Canadian trade to a person engaged or about to engage in a manufacturing, processing or other commercial activity; or	
	(b) to a person who has previously obtained assistance under a program of assistance to industry or any trustee or receiver authorized by law to carry on the business of such person for the purpose of protecting the Crown's interest resulting therefrom. (Gross)	
L40	Authority, in accordance with terms and conditions prescribed by regulations of the Governor in Council,	
	(a) to purchase, on behalf of Her Majesty in Right of Canada, capital stock of a company in order to exercise a stock option in such company that has been taken on behalf of Her Majesty in Right of Canada in connection with the provision of a loan, or of insurance of a loan or a letter of credit made or issued to the company in accordance with the General Adjustment Assistance Regulations, the Automotive Manufacturing Assistance Regulation, or under the Enterprise Development Program, where, in the opinion of a Board established pursuant to Section 7 of the Department of Industry, Trade and Commerce Act	
	(i) the value of the capital stock of the company has increased as a result of the assistance provided; and	
	(ii) the stock option should be exercised in order to permit Her Majesty in Right of Canada to benefit from the increased value of the capital stock of the company; and	
	(b) to authorize the sale or other disposition of any capital stock so acquired. (Gross)	
L45	Loans to the deHavilland Aircraft of Canada Limited in accordance with terms and conditions approved by the Governor in Council to finance the rate tooling for the DHC-7 aircraft, such loans to be recovered on the sale of such aircraft. (Gross)

Standards Council of Canada

(Established by the Standards Council of Canada Act)

AUDITOR GENERAL OF CANADA

THE STANDARDS COUNCIL OF CANADA
ANDTHE HONOURABLE HERBERT ESER GRAY, P.C., M.P.,
MINISTER OF INDUSTRY, TRADE AND COMMERCE,
OTTAWA, ONTARIO

I have examined the balance sheet of the Standards Council of Canada as at March 31, 1981 and the statements of operations and retained earnings for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Council as at March 31, 1981 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1981

1. Objectives and operations

The Standards Council of Canada (SCC) was created by Parliament as a statutory corporation under its own act to be the national co-ordinating body for voluntary standardization. The Council carries out its task through the National Standards System, a federation of accredited organizations concerned with standards-writing, certification and testing co-ordinated by the SCC. The System provides a co-ordinated approach to the development and advancement of voluntary standardization in the national interest.

Among its many programs, the Council provides financial assistance to standards-writing organizations, travel assistance to Canadian delegates to international meetings, supports the program for the conversion of standards to the metric system of measurement, operates a self-funded standards sale service for Canadians for international and foreign national standards, and provides for Canadians a free national information service on standards.

2. Significant accounting policies

Statement of changes in financial position

A statement of changes in financial position has not been presented as, in the opinion of management, it would not add significantly to the information to be derived from these financial statements.

Office furniture and equipment

Consistent with accounting principles followed by many non-profit organizations, the Council follows the practice of charging the cost of office furniture and equipment to operations in the year of acquisition.

Foreign exchange

Foreign exchange on purchases of international and foreign national standards is recorded as part of the direct cost of those standards, which is expensed each year. There are no material amounts payable, or receivable in foreign currencies at March 31, 1981.

Parliamentary appropriations

Parliamentary appropriations are recorded in the accounts as they are voted by Parliament. The excess of funds provided over actual net expenses for the year is accumulated in an equity account which is reduced in a year when net expenses exceed the amount voted.

3. GATT Enquiry Point Operating Costs

During the year an agreement was entered into with the Department of Supply and Services, which provides for the Department of Industry, Trade and Commerce to reimburse the Standards Council of Canada for any expenses incurred in establishing and operating the GATT Enquiry Point. At March 31, 1981 the Council had incurred expenditures totalling \$184,182.

Canadian Centre for Occupational Health and Safety
(Established by the Canadian Centre for Occupational Health and Safety Act)

AUDITOR GENERAL OF CANADA

THE COUNCIL OF THE CANADIAN CENTRE FOR
 OCCUPATIONAL HEALTH AND SAFETY,
 AND

THE HONOURABLE GERALD A. REGAN, P.C., Q.C., M.P.,
 MINISTER OF LABOUR,
 OTTAWA, ONTARIO

I have examined the balance sheet of the Canadian Centre for Occupational Health and Safety as at December 31, 1980 and the statements of revenue, expenditure and equity and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Centre as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

MICHAEL H. RAYNER
Acting Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Objectives of the Centre

Pursuant to The Canadian Centre for Occupational Health and Safety Act, the Centre was established on October 1, 1978. The objectives of the Centre are to promote the fundamental right of Canadians to a healthy and safe working environment and to enhance the physical and mental health of workers.

2. Significant accounting policies

Accrual accounting

The Centre follows the accrual basis of accounting to record income and expenditure.

Deferred grant income

The Centre operates on a calendar year and receives an operating grant from Parliament on an April 1 to March 31 basis to coincide with the fiscal year of the government. Accordingly, a portion of grant income of each year is deferred to the subsequent year.

Fixed assets and depreciation

The Centre records the cost of furniture and equipment as an asset and depreciates the assets over their useful life expectancy of five years on a straight line basis. In the year of acquisition or disposition of assets, depreciation is recorded on a monthly basis according to the number of months of ownership.

3. Fixed assets

As at December 31, 1980 the assets of the Centre were recorded as follows:

	Cost	Accumulated depreciation	Net book value
	\$	\$	\$
Office furniture and equipment ..	317,812	17,836	299,976

Medical Research Council

(Established by the Medical Research Council Act)

AUDITOR GENERAL OF CANADA

MEDICAL RESEARCH COUNCIL
ANDTHE HONOURABLE MONIQUE BÉGIN, P.C., M.P.,
MINISTER OF NATIONAL HEALTH AND WELFARE,
OTTAWA, ONTARIO

I have examined the statement of expenditure of the Medical Research Council for the year ended March 31, 1981. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, the statement of expenditure presents fairly the results of the operations of the Council for the year ended March 31, 1981 in accordance with the accounting policies set out in Note 2, applied on a basis consistent with that of the preceding year.

NOTES TO THE STATEMENT OF EXPENDITURE
MARCH 31, 1981

1. Objective of the Council

The Medical Research Council was established under section 3 of the Medical Research Council Act to help attain the quality and scale of research in the health sciences essential to the maintenance and improvement of health services.

The Council is designated as a departmental corporation within the meaning and purpose of the Financial Administration Act and is funded through parliamentary appropriations which provide for its administrative expenditures and grants and scholarships activities.

2. Significant accounting policies

Grants and scholarships

Grants and scholarships are charged to expenditure as cash is disbursed.

Administration

Employee's termination benefits and accrued vacation pay are charged to expenditure when paid.

Acquisitions of furniture and equipment are expensed in the year of acquisition.

All other administrative expenditures are recorded on an accrual basis and include expenses related to work performed, goods received or services rendered prior to March 31.

Services provided without charge

Amounts for services provided without charge by other government departments are included in administration expenditure of the Council.

3. Refunds of previous years' expenditures

Refunds of previous years' expenditures amounting to \$251,488 (1980—\$74,258) were remitted to the Receiver General for Canada and are not reflected in the statement.

4. Trust accounts

In 1974 the Council received \$75,000 from an anonymous donor to establish a fund, the interest from which is to be used for the payment of grants for research in the fields of Dyskinesia and Torticollis. Other donations received during the current year were not earmarked for specific projects. The amounts received, interest earned and grants paid are not reflected in the statement of expenditure. The status of the accounts at March 31 is as follows:

	1981	1980
	\$	\$
Balance at beginning of the year	81,365	78,968
Donations received	5,133	
Interest earned	9,711	8,397

**Board of Trustees of the Queen Elizabeth II Canadian
Fund to Aid in Research on the Diseases of Children**

(Established by the Queen Elizabeth II Canadian Research Fund Act)

AUDITOR GENERAL OF CANADA

THE BOARD OF TRUSTEES

AND

THE RIGHT HONOURABLE PIERRE ELLIOT TRUDEAU, P.C., Q.C., M.P.

PRIME MINISTER

OTTAWA, ONTARIO

I have examined the balance sheet of the Board of Trustees of the Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children as at March 31, 1981 and the statement of revenue and expenditure for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Fund as at March 31, 1981 and the results of its operations for the year then ended in accordance with the accounting policies disclosed in Note 2, applied on a basis consistent with that of the preceding year.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981

1. Objectives of the Fund

The Queen Elizabeth II Canadian Fund was established pursuant to the Queen Elizabeth II Canadian Research Fund Act, R.S., c. Q-1 to assist individuals or organizations to undertake or carry on research into the diseases of children, and the causes, prevention and treatment of such diseases. A Board of Trustees consisting of a Chairman and six other trustees appointed by Her Majesty by commission under the Great Seal, manage and administer the Fund. The Fund was set up by an initial contribution of \$1 million from the Consolidated Revenue Fund and is augmented by gifts or bequests received.

2. Significant accounting policies

Investments in Canada bonds

Investments in Canada bonds are recorded at cost. All gains or losses, including any premium or discount on acquisition, are recognized when the bonds are sold. Interest earned on the bonds is recorded in the accounts on an accrual basis.

Scientist awards

Scientist awards, payable over a five-year period, are provided for in the year the awards are approved. Any subsequent increases granted for existing awards are provided for in the year the increases are approved.

Services provided without charge

The Medical Research Council provides the Board without charge such secretarial and other administrative and technical services and facilities for carrying out the purposes of the Act.

**NOTES TO THE STATEMENT OF EXPENDITURE
 MARCH 31, 1981**

1. Objective

The Economic Council of Canada was established on August 2, 1963 by Act of Parliament under the provisions of the Economic Council of Canada Act, and reports to the Prime Minister through the Privy Council. The objective of the Economic Council is to advise and recommend to the Prime Minister how Canada can achieve the highest possible levels of employment and efficient production in order that the country may enjoy a high and consistent rate of economic growth and that all Canadians may share in rising living standards.

2. Accounting policies

The accounts of the Council are maintained on a cash basis modified to include payments made in April relating to work performed, goods received or services rendered prior to April 1. The accounts are then adjusted, to reflect those payables at year end (PAYE) still unpaid by April 30.

Purchases of furniture and equipment are recorded as an administration expenditure in the year of acquisition.

Reported expenditures also include costs for services provided without charge by government departments.

The accounting policies are consistent with those used by departments of the Government of Canada.

3. Financing

The funds required to finance the transactions of the Council are provided by Privy Council Vote 20 and recorded as expenditure in the Accounts of Canada. During the year, \$7,428,000 (\$8,505,000 in 1980) was provided by this Vote and \$511,691 (\$356,759 in 1980) lapsed in accordance with Section 30 of the Financial Administration Act.

4. Contingent liability

At March 31, 1981, the Council was a defendant in a lawsuit taken by a former term employee alleging breach of certain conditions of the employment contract with the Council. Total damages claimed are \$67,000 plus court costs estimated at \$5,000. The Council is contesting this action.

NOTES TO THE FINANCIAL STATEMENTS**Note 1 Purpose and authority**

The Construction Services Working Capital Advance was replaced by the Construction Services Revolving Fund as at April 1, 1980. The purpose of the Fund is to provide construction services to other federal departments and agencies, to other governments, or to private sector tenants of federal property; to provide, on a cost recovery basis, interim financing and financial control, construction supervision and other related services on federal and non-federal projects undertaken on behalf of federal departments and agencies, other governments or private sector tenants of federal property.

The Adjustment of Accounts Act (Bill C-22) authorized the operation of the Construction Services Revolving Fund in the current and subsequent years with a statutory authority limit of \$55 million.

Note 2 Significant accounting policies and practices

The Construction Services Revolving Fund provides interim financing on a cost recovery basis. The recoveries are always equal to the expenditures; hence no profit is realized.

- To facilitate the use of scientific and technical information by the government and people of Canada.

Natural Sciences and Engineering Research Council

Objective

- To promote and support the development and maintenance of research and the provision of highly qualified manpower in the natural sciences and engineering.

Science Council of Canada

Objective

- To assess Canada's scientific and technological requirements, to increase public awareness of these requirements and of the interdependence of various groups in society in the development and use of science and technology, and to advise the Government on the best use of science and technology.

⁽¹⁾ Effective July 31, 1980 (PC 1980-2127), part of the Department of Communications Vote 1 related to the Interdepartmental Committee on Space Secretariat was transferred to this department.

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1981

SCIENCE COUNCIL OF CANADA

AND

THE HONOURABLE JOHN ROBERTS, P.C., M.P.
MINISTER OF STATE FOR SCIENCE AND TECHNOLOGY
OTTAWA, ONTARIO.

I have examined the statement of expenditure of the Science Council of Canada for the year ended March 31, 1981. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances

In my opinion, this financial statement presents fairly the results of the operations of the Council for the year ended March 31, 1981 in accordance with the accounting policies set out in Note 2, applied on a basis consistent with that of the preceding year.

1. Objective

The objective of the Science Council is to assess Canada's scientific and technological requirements, to increase public awareness of these requirements and of the interdependence of various groups in society in the development and use of science and technology, and to advise the Government on the best use of science and technology. The Council is a department Crown corporation of Canada.

2. Accounting policies

Operating expenditure includes the cost of work performed, goods received or services rendered prior to March 31, 1981.

Acquisitions of furniture and equipment are charged to expenditure in the year of acquisition.

Included in the reported expenditure are estimated amounts for services provided without charge by other government departments and agencies.

3. Financing of operations

The amount required to finance the transactions of the Council was provided under Science and Technology Vote 35—program expenditures.

In accordance with Section 30 of the Financial Administration Act, \$67,764 (1980—\$56,075) lapsed in respect of this appropriation.

NOTES TO THE STATEMENT OF EXPENDITURE
MARCH 31, 1981

1. Objective

The Natural Sciences and Engineering Research Council (NSERC) was established on May 1, 1978. The Council is a departmental Crown corporation of Canada.

The objective of the Council is to promote and support the development and maintenance of research and the provision of highly qualified manpower in the Natural Sciences and Engineering.

2. Accounting policies

Grants and scholarships are charged to expenditure as cash is disbursed.

Operating expenditure includes liabilities for work performed, goods received or services rendered prior to March 31, 1981.

Acquisitions of furniture and equipment are charged to expenditure in the year of acquisition.

Included in the reported operating expenditure are estimated amounts for services provided without charge by other government departments and agencies.

3. Financing of operations

The amounts required to finance the transactions of the Council were provided under Science and Technology Vote 25—Operating expenditures, and Vote 30—Grants and contributions.

In accordance with Section 30 of the Financial Administration Act, \$351,121 (1980—\$72,635) lapsed in respect of Vote 25 and \$344 (1980—\$4,792) in respect of Vote 30.

4. Refunds of prior years' expenditures

During the year, the Council recovered prior years' expenditures of \$285,099 (1980—\$244,153) for grants and scholarships no longer required for approved research. The recoveries were received and subsequently remitted to the Receiver General for Canada. These amounts are not reflected in the Statement of Expenditure.

5. Future payments approved

The continuation of payments extending in future years for grants and scholarships awarded in 1980-81 and previous years amount approximately as indicated under (a). New grants and scholarships to be awarded in 1981-82 and the continuation of payments extending in future years amount approximately as indicated under (b). The award of these grants and scholarships is subject to the provision of funds by Parliament and annual approval by Council.

SECRETARY OF STATE

Department

Objectives

ADMINISTRATION PROGRAM

- To provide overall executive and policy direction and central control and support services.

OFFICIAL LANGUAGES PROGRAM

- To promote, facilitate and encourage the acquisition and use of the two official languages in Canadian society thereby reinforcing the equality of status of the two official languages.

ARTS AND CULTURE PROGRAM⁽¹⁾

- To formulate and develop policies and programs for the achievement of national arts and cultural objectives and to promote effective inter-agency, inter-departmental and inter-governmental co-operation in the achievement of these objectives.

EDUCATION SUPPORT PROGRAM

- To ensure the co-ordinated development, formulation, implementation and review of federal education policies and programs in support of national objectives.

TRANSLATION PROGRAM

- To provide translation and interpretation services in all languages in accordance with the needs of Parliament, the government and its agencies and, more especially, to contribute to the implementation of the official languages policy by making available the translation and interpretation services guaranteed by this policy.

CITIZENSHIP PROGRAM⁽²⁾

- To promote and assist the development of effective Canadian citizenship, and to co-ordinate the formulation and development of national strategies and policies affecting citizenship.
- To provide for payment of contributions to OPCAN.

Public Service Commission

Objectives

PROGRAM

- To ensure that appointments to and promotions within the Public Service of Canada meet the needs of the Federal Public Service and are made on the basis of merit, without discrimination on the ground of sex, race, national origin, color, religion, marital status or age.

STAFF DEVELOPMENT AND TRAINING REVOLVING FUND

- To provide, in response to departmental and agency demands, development and training courses, and related consultative services.

Representation Commissioner⁽³⁾

Objective

- To ensure a fair representation, by province, of the people of Canada in the House of Commons.

⁽¹⁾ Includes the operations related to the Lieutenant-Governors which were previously reported under the Department of Governor General and Lieutenant-Governors.

⁽²⁾ The former Special Program of the Treasury Board Secretariat was transferred to the Canada Employment and Immigration Commission of the Department of Employment and Immigration, and then to this reporting department.

⁽³⁾ The Representation Commissioner was terminated due to the repeal of the Representation Commissioner Act. Part of the Representation Commissioner was transferred to the Chief Electoral Officer of the Privy Council.

Note: Effective July 31, 1980 (PC 1980-2128), the Canada Council, Canadian Broadcasting Corporation, Canadian Film Development Corporation, National Library, National Museums of Canada, Public Archives and part of the Arts and Culture Program were transferred to the Department of Communications.

Effective December 18, 1980 (PC 1980-3474), the National Arts Centre Corporation, National Film Board and Social Sciences and Humanities Research Council were transferred to the Department of Communications.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981

1. Purpose and authority

The Staff Development and Training Revolving Fund was established in 1971 and was authorized by Vote L120, Appropriation Act No. 3, 1971, for the purpose of providing training and development by the Staff Development and Training Branch.

The Fund has a continuing non-lapsing authority from Parliament to make payments out of the Consolidated Revenue Fund for working capital and temporary financing of accumulated operating deficits, the total of which is not to exceed \$4,500,000 at any time.

An amount of \$1,915,571 representing net liabilities assumed by the Fund was charged to this authority when the Fund became budgetary. Furthermore, Vote 115a provided authority to write-off \$724,987 which represents a portion of the accumulated deficit.

2. Significant accounting policies and practices

(a) Year-end accruals

The accounts of the revolving fund are presented on the accrual basis with the exception of the liability for employee termination benefits, and the liability for vacation pay which are not recorded in the books of account. The liability for vacation pay is not considered material.

(b) In accordance with the Adjustment of Accounts Act, the Public Service Commission Staff Development and Training Account in the Accounts of Canada was terminated as at March 31, 1980 and the amount of \$1,915,571 outstanding at that date was deleted from the Accounts of Canada on March 31, 1981. This deletion from the Accounts of Canada is not reflected in the financial statements of the Staff Development and Training Revolving Fund.

3. Comparative figures

The expenditures for the fiscal year include an amount of \$1,430,096 for accommodation. In 1979-80, the Staff Development and Training Revolving Fund was exempted from these charges estimated at \$1,298,000.

4. Contingent liabilities

A contingent liability of \$33,000 has been identified as a result of an adjustment claim presented by Crawley & McCracken Company Ltd for a loss incurred in providing services to the Contract Settlement Board on October 30, 1980 and no decision has yet been taken.

SUPPLY AND SERVICES

Department

Objectives

SERVICES PROGRAM

- To provide in the most economical manner to the government as a whole and to client departments and agencies, a broad range of administrative management and advisory services in order to improve government efficiency and reduce costs.

SUPPLY PROGRAM

PROGRAM

- To encourage research and development in the private sector which contributes to departmental programs and to provide free and subsidized distribution of saleable government publications in accordance with established policies.

SUPPLY REVOLVING FUND

- To acquire and provide in the most economical manner goods and services required by departments and agencies, taking into account the contribution of procurement to the realization of national objectives.

DEFENCE PRODUCTION REVOLVING FUND

- To acquire, store, maintain, transport and dispose of stocks of defence supplies or other designated materials pursuant to the Defence Production Act.

Canadian Arsenals Limited

Objective

- To maintain an efficient Canadian manufacturing capability for certain military materiel for Canadian defence needs.

Royal Canadian Mint

Objectives

- To produce and arrange for the production and supply of coins of the currency of Canada;
- To produce coins of the currency of countries other than Canada;
- To melt, assay, refine, buy and sell gold, silver and other metals for the account of Canada; and
- To make medals, plaques and other things as are incidental to the powers of the Mint.

Statistics Canada⁽¹⁾

Objectives

- To collect and provide statistical information needed for understanding the Canadian economy and Canadian institutions and for the development of economic and social policies and programs; to collaborate with other departments and agencies of the federal government, provincial and municipal governments and with businesses and individuals on the development of methodology and its application and on the production of new and expanded statistical information to meet their particular requirements.
- To provide government departments and agencies and other users with special statistical services which are not a part of the Statistics Canada Program.

⁽¹⁾ Effective June 30, 1980 (PC 1980-1620), Statistics Canada was transferred from the Treasury Board Secretariat to this reporting department.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981

1. Purpose and authority

The objective of the Fund is to acquire and provide in the most economical manner goods and services required by departments and agencies taking into account the contribution of procurement to the realization of national objectives.

The Supply Revolving Fund was authorized by Supply and Services Vote L6, Appropriation Act No. 1, 1975. Amendments to the appropriation authorized that the operations of the Supply Revolving Fund be combined with the operations of the Printing Revolving Fund effective April 1, 1975, with the Publishing Revolving Fund effective April 1, 1976 and with the Expositions Revolving Fund effective April 1, 1977.

The Supply Revolving Fund has an authorized working capital limit of \$150,000,000. An amount of \$44,171,345 representing net assets assumed by the Fund and assets contributed to the Fund was charged against this authority when the Fund became budgetary.

Appendix 1—Concluded**Supply Revolving Fund—Concluded****NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981—Concluded****2. Significant accounting policies****(a) Revenue and expense**

Revenue and expense are recorded on the accrual basis of accounting with the following variations:

- (i) The accrual policy for recording certain revenue in the Science and Engineering Procurement Service is based on detailed and validated statistical analysis of the procurement workload. This policy was implemented to avoid expensive record keeping while respecting the need for adherence to the generally accepted accounting principle of matching cost and revenue. Contracts ranging in value from \$200,000 to \$1,000,000 require 18 months on average to complete and revenue is recorded evenly over 18 months commencing the month the contract is awarded. Contracts with a value in excess of \$1,000,000 require 36 months on average to complete and revenue is recorded evenly over 36 months commencing the month the contract is awarded. Certain other large contracts are administered on a project management basis and the actual cost of the project is recorded as revenue in each accounting period over the entire life of the project. Management recognizes that some revenue is earned prior to contract award date but is of the opinion that the accounting principle of matching cost and revenue is not seriously violated since on average, revenue will be accruing on other contracts that have been completed.
- (ii) Employee benefits are expensed in the period in which the payments are made. The unaccrued liability at March 31, 1981 has been estimated at \$17,368,991 for employee termination benefits (\$14,637,711 in 1980) and \$4,442,559 for vacation pay (\$4,030,307 in 1980).

For consolidation purposes, sales and cost of sales in the amount of \$34,247,843 (\$27,402,950 in 1980) have been eliminated.

(b) Depreciation

Depreciation is calculated on a straight-line basis over the established useful life of the fixed assets, generally 5 to 10 years.

(c) EDP equipment contracts receivable

The Treasury Board, on March 2, 1976, authorized the Supply Revolving Fund to purchase designated EDP equipment approved by Treasury Board for client departments. The capital, interest and any other costs are recoverable from departments over a one to five year period. These transactions have been recorded as accounts receivable (title to the equipment remains with the Supply Revolving Fund) and the original cost of the equipment, less capital repayments due or paid by client departments to March 31, 1981, has been shown as current and long term assets on the Balance Sheet.

(d) Inventories

Inventories are valued at cost.

3. Change in accounting policies and procedures

In accordance with the Treasury Board Directive No. 1979-36, the capital assets policy was revised effective April 1, 1980. The minimum cost of each item of asset for capitalization purposes was raised from \$150 to \$500. Certain items, such as shelvings, were excluded.

The net book value of assets acquired prior to April 1, 1980 costing between \$150 and \$500 each along with other adjustments to fixed assets were charged to the Statement of Operations and shown as an extraordinary item for a total value of \$1,181,149.

4. Insurance

The Supply Revolving Fund does not carry insurance on either its own property or the property of others held in its warehousing operations. This is in accordance with the Government's policy of self insurance.

5. Fixed assets and accumulated depreciation

Acquisition and depreciation for the year were \$1,837,679 and \$1,915,613 respectively. An amount of \$1,029,814 representing depreciation of fixed assets (\$739,603) and amortization of leasehold improvements (\$290,211) was charged to the cost of sales.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1981

1. Purpose and authority

The Defence Production Revolving Fund has been authorized by Section 15 of the Defence Production Act. It was established in 1951 for the purpose of:

- financing the stockpiling of defence supplies or strategic materials;
- making loans or advances to aid in defence procurement such as working capital loans as advance payments on contracts but not including loans or advance payments for capital purposes; and
- permitting initial payments for defence supplies which can be promptly billed to a government department, agency or an associated government in advance of delivery of goods.

The Adjustment of Accounts Act (Bill C-22) had the effect of creating a separate Defence Production Loan Account for loans or advances authorized under Defence Production Act, item (b) above.

The Fund and the Defence Production Loan Account have a continuing non-lapsing authority from the Adjustment of Accounts Act to make payments out of the Consolidated Revenue Fund, the total of which is not to exceed at anytime by more than \$100 million the aggregate of amounts received on these two accounts. An amount of \$15,408,997 representing net assets assumed by the Fund was charged against this authority when the Fund became budgetary.

2. Significant accounting policies

Progress payments

Progress payments and accrued liabilities to suppliers for defence supplies requisitioned by government departments and agencies and/or for stockpiled inventories, which are in progress and located on the supplier's premises, are recorded as progress payments to suppliers. Under the terms of the contracts, the suppliers are liable to the Fund until delivery takes place.

Progress billings

Billings to customers for defence supplies requisitioned which have not yet been delivered are recorded in the accounts as progress billings to customers.

Inventories

Inventories are valued at cost.

3. Long-term receivables

In accordance with the terms of an agreement, collection of the long-term receivable is dependent on the recipient's ability to make sales. Should the sales be insufficient to retire the debt, any balance owing will be recovered from the Department of National Defence.

4. Restatement of prior year's figures

The 1980 figures have been restated to conform to the 1981 presentation.
