From the Most Hon. The Marquis of Lorne,  
Ex-Governor-General of Canada:

"I cannot understand how any one  
with an ounce of foresight in his com-  
position can fail to value ACCIDENT  
INSURANCE."

Published in *Golden Opinions*, in England, in 1891.

Accident insurance was in its infancy  
when the above opinion was written.  
There has been an enormous develop-  
ment of the principle within the past  
decade, and old methods have given  
place to new.

**THE ONTARIO ACCIDENT INSURANCE  
COMPANY** led the way in Canada in  
adopting (particularly in connection with  
its personal Policies) new and desirable  
features. The Company introduced the  
system (now so popular throughout the  
Dominion) of paying immediate cash for  
schedule injuries without reference to the  
extent or duration of disability, and was  
the first Canadian Accident office to pay  
indemnity for disability caused by dis-  
ease. The Company's progress has  
been continuous from its inception, and  
no office has gained more rapidly in  
public favor and financial strength.

The Company's plans cover the entire  
field.

## BOUND TO GET THERE.

Persistent pushing is the fore-runner of prosperity. The hustler gets there.

The laggard gets no where. The largest factor in persistent pushing of any business is good printing. Use printers' ink, but use it wisely. Poor printing fails of its purpose every time. You are always sure of a well-executed job, be it large or small, when your order is placed with us.

### Friday, Sept. 8th.

**Review Day**—The last but by no means the least important day of Canada's Great Exposition for 1899. Everything will remain intact the whole day and all the special attractions and features of other days will remain until 10 p.m., except live stock, which can be removed after 4 p.m. only. This should be one of the best days to view the exhibits, as the large crowds of previous days are somewhat lessened on this day, although everything and every department is just as good and as attractive as on any day of the Fair. In addition to all the features of previous days, a Grand Review of all the Prize Horses and Cattle is presented in front of the Grand Stand at 2 p.m., affording one of the greatest and most interesting sights of the whole Exposition. A procession over two miles in length of the finest horses and cattle in the land passes the Stand, after which the usual entertainment (see page 7), will be given by the great company of specialty performers. Running Horse Races, Open Handicap, half-mile and 150-yard heats, and Half-Bred's Race, 1½ miles, Roman Hippodrome Races, Exhibition by the Royal Canadian Dragoons, etc. The Exhibition Music Hall Vaudeville Show open from 1 to 10 p.m., "the Plaisance," etc., etc. Music by the Governor-General's Body Guard and Exhibition Bands.

**Evening**—Illumination of grounds, and all buildings open till 10 p.m. All the special features and entertainments complete in front of the grand stand, as on previous evenings, and described on pages 7 and 8. The Exhibition Music Hall, Plaisance, Band Concerts, etc.

### Saturday, Sept. 9th.

**Exhibitors' Day Only**—The public not admitted. The Exhibition will be considered officially closed at 7 a.m., after which exhibitors may remove their exhibits. The Treasurer will be ready to pay prizes at 9 a.m., and all who can make it convenient to do so are requested to call for their awards before leaving the grounds.

N.B.—Many other special features will be added to the above programme between the time of its issue and the opening of the Exhibition.

## The Visitors' Guide

Be sure to time your visit so as to stay in the city one night to take in the great evening entertainment in front of the grand stand, the beautiful fireworks, which exceed anything to be seen on this continent, the brilliant military and naval spectacles of the Battles of Omdurman in Egypt and Iloilo in the Philippines, or the monster Tattoo on the opening night. Tickets for the evening entertainment in front of the grand stand can be purchased during the day at any of the grand stand ticket offices.

*If you desire to see the Exhibition with comfort, come the first week. If you want to see it with crowds, come the second. The whole equally good both weeks, as all the attractions are secured for the full term of the Exhibition. There is no best day; every day will be a great day.*

Everyone should take two or three days to view the Exhibition. It cannot be fully seen and appreciated in one day.

If you cannot all leave home at once, let part of your family come the first week, and the other part the second.

If you require hotel accommodation, consult the list in this book. If you prefer a private boarding house, any number will be found all over the city at from \$3 to \$5 per week. Or ask for the city free Information Bureau, which will be furnished to assist visitors in this respect.

If you want information whilst in the city, seek it from a policeman, or in any store, the proprietors of which will be glad to furnish you with it.

Admission to the Exhibition is by ticket only, no money taken at the gate. Have your 25c. ready and avoid delay in getting change at the ticket office. Everyone should have their own ticket on going to a turnstile, and do not hang on to your girl's—or wife's—arm, as only one can pass through the stile at the same time.

All railway tickets issued for the Exhibition are good to return up to the 11th of September.

Come, and bring your families and have an enjoyable time.

A Parcel Office for checking Parcels and Bicycles is located just inside the Western entrance.

Cheap excursions will be run to Niagara Falls from Toronto during the Exhibition, for the convenience of visitors. You can go in the morning, have six hours at the Falls, and return the same evening, and a delightful two hours' sail across Lake Ontario.
