3. The privilege of pre-emption granted by the late regulations to lessees and to their assigns whose leases expired previous to the 1st day of January, 1841, as also to occupants of Clergy lots

without authority prior to the same date, shall not be considered to extend to such lessees or their assignees, or to such occupants, as do not on or before the 1st January, 1847, make application to the Commissioner of Crown Lands for the purchase of the Clergy lots which they respectively occupy, and who do not, on or before that day, pay all rents which may be due, according to the present regulations.

## GUIDE TO THE NUMBERS OF THE HOUSES.

---

The numbers are those put upon the houses in chalk, by Mr. George Walton, in conformity with a plan adopted by the Corporation,—as follows :

All those streets which run the full length of the City, and cross Yonge Street, are divided into two, East and West ; the numbers of both divisions begin at Yonge Street, and strike off East and West ; thus the store of Messrs. Ridout Bros., is No. 1 King Street East ; and that of Messrs. Sutherland, the opposite corner, is No. 1 King Street West ; the next houses each way, are Nos. 3 East and West, respectively—the odd numbers being on that side, and the even ones on the opposite ; thus Betley & Brown's Establishment is No. 2 King Street East ; and that of Messrs. Lynes & Brown, No. 2 King Street West, and so on.

In all the streets running in the same direction as King, although not crossing Yonge Street, the numbers begin at the end nearest Yonge Street, and rise as they advance East or West.

In all the streets running East and West, parallel with the Bay, the odd numbers are on the North side, and the even ones on the South ; and in all those running North and South, at right angles with the former, the odd numbers (beginning at the end at or nearest the Bay) are on the West side, and the even ones on the East.

By the plan of the Corporation, where vacant lots occur, a given space is allowed for a number, to prevent any disturbance of the order arising from the erection of new houses upon such lots. In some instances, this plan has not been strictly adhered to ; indeed it was almost impossible for a person, without accurately measuring the ground, to place the numbers properly ; but they are sufficiently correct for all the purposes of this work.
