# Ellis' Faultless Quality Diamonds

THE PRINCES' GATES

We exhibited this year, at the Canadian National Exhibition, The Princes' Gates, done in Diamonds. Over 7,400 diamonds were used, varying in size from those weighing 1/50th of one carat to one superb gem weighing over 5 carats. This display was made as a striking demonstration of Buying Power and buying power always means Value.

FOR centuries the Diamond has been regarded as the most precious of all precious stones. A thousand tales of romance and of love are buried in their blue-white depths. In years long past diamonds were the treasures of kings and princes. Today—the young man of very modest means can adorn his fair lady's finger with this gem. Small though it may have to be to come within the limits of his purse, it may still be a perfect stone—even those of very modest means can own an "Ellis Faultless Quality" diamond.

In the old Dutch City of Amsterdam (the Diamond City of the world) Ellis Brothers yearly make

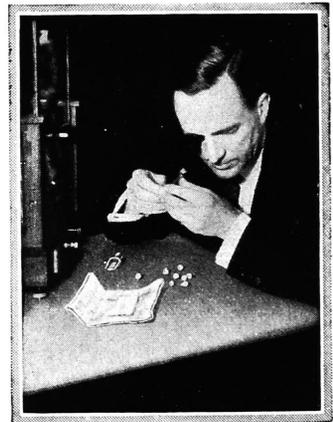

the selection of their incomparable diamonds. Year after year shrewd and skillful buyers select the stones that are required to supply the demands of thousands of Ellis customers throughout Canada and the United States.

No one should purchase a diamond without expert assistance, such as this firm provides, for the reason that there are many imperfect diamonds on the market and frequently the imperfections are so slight as to be only detectable by an expert. Microscopic specks, bubbles, or black carbon spots all come under the heading of imperfections. These, as well as slight variations in colour, detract materially from the value of a diamond and imperfections of cutting and polishing not only effect the value, but the brilliancy of the stone as well. A diamond may be of finest color and flawless, yet be undesirable if it lack brilliancy. The fire or brilliancy of a diamond is its one imperishable quality which time cannot dim. If diamonds were not brilliant no one would wish to possess them. "Ellis Faultless Quality" diamonds are of superb brilliancy, and this quality is one which even the layman will quickly appreciate on comparison with other diamonds.

Years ago, in order to closely associate our business with the idea of perfection in diamonds, we established the term "Ellis Faultless Quality" which has always stood for, and always will stand for, a diamond of blue-white color, maximum brilliancy, and with no imperfections whatsoever.

Contrary to popular belief this supreme quality in diamonds may be had at reasonable prices. "Ellis Faultless Quality" diamonds are not dear—they are sold at prices no higher than are often charged for inferior stones. Our large buying power, together with direct importation from the original source of supply in Amsterdam, permits the elimination of all intervening profits with the result that we enjoy advantages in buying which are not possible for the average dealer. This enables us to offer the very best in quality at the lowest possible price.

And we believe the steady growth of this business, particularly the Diamond Department, is excellent evidence of the soundness of this policy.

Our Diamond expert examining stones in Amsterdam.

In ordering a diamond you may safely leave the question of its quality to us, and, as to value, you may rest assured that quality considered, you will receive the most that your money can buy. But, if for any reason at all, the article does not suit, it may be returned inside of thirty days and the money will be promptly refunded in full.

We are, at all times, glad to send diamond rings on approval when the usual bank or business reference is supplied.

Also, upon request at time of purchase, we give our diamond guarantee (shown on this page) which provides for cash refund or exchange for other merchandise. We believe no fairer arrangement is offered by any house.

# Sterling Silver English Dresserware

## Exquisite in Design—Substantial in Weight—Unexcelled in Finish

### The Cheltenham

We illustrate on this page, four attractive designs of Sterling Silver Dresserware: The Cheltenham, The Renfrew, The Clarendon, The Willingdon. Each of these patterns may be had in all the pieces shown as in The Cheltenham.

We particularly call attention to the new shape Lady's Cloth Brush shown in the centre of the page, No. 3513. This can be had in any of these four patterns, as well as the regular style, No. 3507.

Ellis Bros. Silver Dresserware is noted for its generous weight of silver, fine quality of bristles, in the brushes and excellent steel in the manicure pieces, as well as the particularly fine decorated hand-engraving. Each of these patterns may be purchased a piece at a time, until a full set, which you will be proud to own, is collected. We engrave one script or Old English letter, on each piece free of charge.

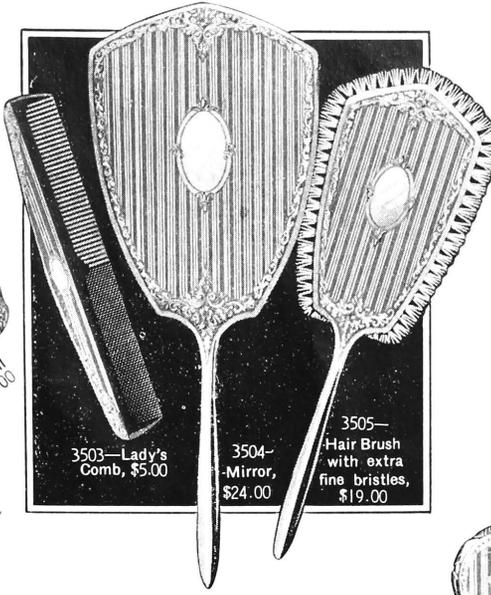

A more appropriate and useful gift for a lady could hardly be conceived. The Ellis gift box adds prestige to the gift.

## A Few Pieces from The Ellis Antique Shop

The Sheffield Reproductions shown on this and the opposite page are all of highest grade English manufacture. The finish and workmanship is of very superior quality. Many of the pieces have applied silver mounts, as formerly found only in real old Sheffield. The extra heavy deposit of silver on these pieces insures many years of wear. The quality of these pieces is not to be compared with inferior grades of similar design often offered at lower prices.

All of these pieces, although of English manufacture, can be shipped anywhere in the United States from our New York office at the same prices as shown here.

## Rings For Women

6602—A genuine, large amethyst of rich, vibrant colouring has here an elaborate 14k. white gold setting. Little wonder it is classed among our "super values" when its price is but \$8.50

6603—Synthetic emeralds are not only beautiful, they are very popular with the younger set. The daughter in her late teens or twenties will love to possess this ring of 14k. white gold, delicately fashioned and set with one large emerald. \$10.00

6604—All the flashing, changing hues of the sea are imprisoned in this lovely aquamarine—a genuine stone of exceptional brilliance, in a hand-engraved, 14k. white gold setting, \$15.00

6605—When we say "Ellis Faultless Quality" we have said all that spells perfection in diamonds, even in the smaller stones. Such is this dainty solitaire diamond—its blue-white brilliance enhanced by the 18k. white gold setting. \$25.00

6606—The bloodstone is a lasting favourite where a man's ring is concerned. Here is a very fine stone, in a good-looking conservative setting of 14k. gold. Rare value at \$10.00

6607—This handsome bloodstone, in itself an excellent specimen, becomes still greater value by reason of the very heavy 14k. gold setting. A real gift for the man—and only \$15.00

6608—The ever-popular Signet Ring is here shown in an exceedingly smart, massive setting of 10k. gold with the new white gold top, \$8.00

6609—A genuine amethyst ring in a 14k. gold setting with angular lines and sternly masculine engravings, is popular with the modern man. Very low-priced at \$10.00.

6610—If he is a Mason make him doubly proud of it with this richly-engraved 14k. gold ring, in which the emblem is diamond-set. \$20.00

# DISTINCTIVE RINGS of ELLIS SUPER VALUE

The Rings illustrated on this page are chosen from an exceptionally fine collection of exclusively styled but moderately priced designs. When we say they are "Super Value" we mean that they are better than the usual "best value" obtainable at the price. In many cases they even are much lower-priced than regular comparative qualities; made possible by our tremendous buying power.

Ellis values are backed by a reputation extending over three generations—add to this our guarantee of "satisfaction or money back" and you will realize why Catalogue Shoppers from coast to coast choose Rings at Ellis Bros.

*We engrave one script or Old English initial free of charge on gold signet rings. Prices for engraving more elaborate monograms and for engraving on stone will be found on Page 9 of this catalogue.*
