SCRIBBLING BOOK.

M. SHEWAN, JR.
Bookseller & Stationer,
150 KING STREET EAST, TORONTO.

"I was born in old England
"in merry York shire"

In the hamlet of
Throughton a short distance from
the village of Todmorden on the
boundary line between York shire and
Lancashire on the 11th of May 1811
My Father was a small Cotton
Manufacturer and also occupied
and owned a small farm -

At that time there was no power
looms the manufacturer only spinning
the cotton and the weavers taking the
yarn home wire into Calico by hand
looms every small stream that
afforded a power sufficient to drive
spinning and carding machines were
utilized. This was before the advent
of steam after carding and spinning
the yarn was given out to weavers who
took it home and wore it into Calico and
returned it to the "Cotton Masters, who
took it to Manchester or Halifax, to

[The page contains extremely faint, illegible handwriting, likely bleed-through from the reverse side. The text is mirrored and difficult to decipher.]

large caps & tules - who bleached and
printed and fitted it for exportation
in this way the manufacturing Super
any of England had its origin

When I was seven years
old in the year 1818 My Father and
emigrated to Canada bringing all
Family with him or rather following
after him as he sailed from the port
of Sunderland in April for Quebec
and the Family from Liverpool in
June for New York. His family con-
sisted of 5 Sons and two daughters
and a son in Law John Eastwood and
two children By Thomas John Joseph
William and Charles Betty Easton
and Mary - The reason of My Father
Taking a different route and at a dif-
ferent time from his family was. Skilled
Manufactures were not allowed to
leave the country and he had to do it
Cautiously and proceed them in
order to prepare a home for them
Mr Eastwood had come the preceding
year and after travelling about
Crosby

had fixed upon the vicinity of
Niagara Falls as a desirable
place to bring his family —

My oldest brother Thomas remained
in England to settle some business
and joined us at the falls the following
year

on leaving the port of Liverpool
~~our~~ vessel the Aberona of Portland
400 Tons register got out of the
Channel and ran aground and
when tide went out we was left
high and dry a quarter of a mile
or more from the river the sailors
and some of the Passengers got
down onto the sand carried the
Anchor a good distance from the
ship so that when the tide came in
they could have a purchase to pull
her off and after some difficulty
we succeeded in doing so soundly
the pumps it was found she was ma-
king water fast the crew remonstrated
with the Captain and refused to go to sea
with the ship in that condition so the
Captain was constrained to return to

Liverpool and put Her on the dry
dock for repairs which detained
us for several days some of the
passengers refusing to continue
the voyage in that ship -

After knocking about the ocean
for seven weeks was taken to the
Port of Portland though the ship
had sailed from Liverpool to New
York here we was detained some
time until a vessel could be found
to take us to New York which soon
left us at Perth Amboy and was
obliged to get another vessel to
bring us to New York From thence
we proceeded up the Hudson River
in a sloop to Albany a voyage of
several days thence by teams to
Saranacotady where we shipped off
in Durham boats on the Man-
hatten River to Oneida Lake -
thence down Wood Creek to Oswego
this journey took us nearly three weeks
Here we shipped on board a Lake
Ontario Steamer for Lewiston

On the Niagara River, and had
a most tempestuous and dan-
gerous voyage of four days and
at Lewiston on the 12 day of August
and on the following day was ferried
over the River to Queenston on which
day an Elephant was on exhibition
the first I believe in Canada and
was viewed by great crowds from
thence we proceeded to Lundy's Lane
where my Brother in Law John Easton
had rented a house for us my
Father was at that time in Mot-
= real purchasing ground to open
a Store which he did at the corner
of Lundy's Lane and the Queenston road
which is now called Drummond.
Since the following year when
my Brother Thomas joined us
the Family was divided and my
Father Mother and Brother John
and Sister Mary removing to the
Falls to a Distillery rented from
one

Christopher Buxton, this was
at that time the only building
near the falls and is now and
has been for many years used
as museum -

Here we remained two years
I going to Drummond Hill to
School and also attending a
Sunday School taught by Mr.
Thomas Clark of the firm of Clark
& Street. While living here my
father purchased lot No 7 in
first concession of Scarborough from
a man who resided in Niagara
but whose name I have forgotten.

Father and Brother Thomas
came over in a small schooner
the only mode of crossing the lake
at that time to see the falls and on
their return was overtaken by a
storm which drove them to Kings
Island which took them three weeks
to return to the Niagara River so long
had they been away that it was feared

[The page contains extremely faint, illegible handwriting, likely bleed-through from the reverse side. The text is mirrored and difficult to decipher.]

They had been lost the remnant
at the Distillery at the Falls for two
years and during that time the
stave at Johnsons Corner now
Lawsonville was carried
only by my Brother Thomas and
John Eastwood and during that
time John Eastwood purchased
from the heirs of Isaac Skinner
who had been killed at the
battle of Shippaway during the
late American war. The property
at the Don then known as the Don
Mills consisting of a Grist mill
and Saw Mill of the most prime
discription My Father purchasing
Ten acres of the same on which in
1821 He commenced erecting a
Brewery Malt House and Distillery
and in 1822 we all removed over
part of the Family residing at the
Don and Brother Thomas in year

He had previously married a
Miss Mary Wilson of Stamford
Brother Joseph being with him
on the West Side of the Mark-
Square which was then an open
square with a small wooden
market House in the center
The present St Lawrence Arcade
is Brother Joseph working at
the tin Smith business Father
Mother Sister Mary Brothers
John & Charles and self residing
at the Don Currey on the Brewery
and Distillery and Thomas buying
grain and selling beer in York
where we soon established a pros-
perous business At this time I
was a boy and went to York to
School where Colburn Street is now
(Taught by Thomas Appletan) it was
then a common

The first part of the paper is devoted to a
general history of the country from the
discovery of it by Columbus in 1492 to
the present time. It contains a full
and accurate description of the
climate, soil, and natural resources
of the country, and a list of the
principal cities and towns. It also
contains a list of the principal
rivers and lakes, and a list of the
principal mountains and hills. It
also contains a list of the principal
plants and animals, and a list of the
principal minerals. It is a very
interesting and valuable work, and
is highly recommended to all who
are interested in the history and
geography of the country.

I find I have advanced to fast
and must now return to the
Falls at the time I used there it
was a comparative uselessness
The space between the perpendicular
Rock and Reservoir in was thick
with wood with Cedar and Elm
of a large growth and the only road
to the ferry was by Common rungs
lashed attached to Cedar roots at the
Top end that on the Canada side was
about thirty feet long on the America
side not quite so long as the perpendicular
Rock was not quite as high the paths
from the foot of the ladders to the Reservoir
edge was very rough and uneven
obstructed by logs and rocks yet this
was the only road for delicate Ladies
to get to the ferry and their luggage
had to be carried on the backs of the
ferry men to and from their Boats
and when Rich. Sutherland Rose owned
Came which was quite frequently in
the summer season it was quite a

[The page contains extremely faint, illegible handwriting, likely bleed-through from the reverse side of the paper. The text is mirrored and difficult to decipher.]

to ferry men and guides. For many
a fifty cents I received for showing
a party of tourists The Table rock &
the banks on both sides were then
thickly wooded and large numbers
of Osage and bald headed Eagles
were at all times sailing above the
River or perched in the tops of the
Cedar and Elm trees looking out
for fish and water fowl that were
killed coming over the falls and upon
which they subsisted as well as many
poor families in the neighbourhood who
draw a good part of their supplies from
the same source, I have Rowed after
a dark and windy night in the fall
of the year as many as twenty wild
ducks perched up in the eddies and
along the side of the River in the morning

There is a rock not more
then two hundred yards below the fall
called the Sturgeon rock and almost
any day could be seen Sturgeon lying

from the top of the bank frequently
my Father would go to the top of the
bank and look down and if there
was a Sturgeon in would go to the
ladder and down to the rock and
surrey often spear one of thirty or
forty pounds weight perhaps the
same thing is done now but the
most singular thing is that during
my residence at the falls I never
saw or heard of one being seen
at any other place or any other
disruption of fish being seen there
Though at other places in the
cays under the foam that collected
in considerable quantities surrey large
Black Bass and Pickers were
caught by hook and line William
Forsyth who kept the only Hotel
for the accommodation of Tourists
kept his son Sam constantly fishing
to supply his table with fish as
most of his guests were from the
south and Roman Catholics

The text on this page is extremely faint and illegible, appearing as a series of light-colored scribbles and ghosting of words. It is likely bleed-through from the reverse side of the paper. No specific text can be transcribed.

He also kept two or three four
Horse Stages running to Queenston
and Niagara and Fort Erie to bring
and carry away parties visiting
the falls some years afterwards
some Hotels and more convenient
to the falls were built and his
was sold for a private residence
to Buchanan the British minister
at New York. There was only one
Hotel at that time at Manchester
on the American side of the river
In the spring of 1821 when I was
ten years old my Father and
Brother Joseph took me to assist
them to drive a drove of cattle
from the Falls to York we had a
yoke of oxen and an ox cart and
fourteen or fifteen head of cattle
collected in payment of store bills
&c to transfer to the Don where the

The first thing I noticed when I stepped
out of the plane was a warm blanket of
sun on my face. The air was crisp and
clean, a stark contrast to the humidity
of the city I had just left. The landscape
was a mix of rolling hills and small
towns, each with its own unique
charm. The people were friendly and
welcoming, making me feel like I had
found a new home. The food was
delicious and full of flavor, a true
taste of the region. It was a wonderful
experience, one I will never forget.

Family was preparing to move to
The first day we made a traverse
kept by a man named Hill -
below the mountain the next
day we passed the forty mile
creek now called Greenby and
Stoney Creek and turned off there
to the Lake shore and crossed
Burlington Beach and forced
the outlet of Burlington Bay by
wading not far from ~~the~~
where the Burlington Canal is now
situated at ~~stopped~~ at was then
the Beach Hotel situated at or
near where Wellington Square is
now situated and continued our
journey through woods to Dundas
Street which was then being settled -
being partly through new clearings and
partly through the unbroken forest we
passed the 12 + 16 mile creeks which

Faint, illegible handwriting, likely bleed-through from the reverse side of the page. The text is mirrored and difficult to decipher.

Crossed Dundas Street in deep
gullies with very steep and narrow
roads dug out of the side of the
Hill and very wide bridges over
with round poles across the stream
where we crossed the Credit was
an unbroken wilderness no house
or settlement within miles of either
side of it when now the village of
Springfield exists it was nearly
dark when passed the Credit and
no place to stop for some miles hence
we was lighted the greater part of
the distance by burning log heaps on
on either side of the road until we
arised at Phillips Cods In where
we stopped all night, The next day
being Saturday we passed through
Little York and arised at the Don
Mills just before dark.

Here we found John Eastwood and

and my sister Betty who had
preceeded us by way of the Lake from
Niagara. On the following day
Sunday I accompanied some men
to visit a Family of new comers in
the neighbourhood who had only
moved in a few days and had
just erected a small log shanty
during the previous night it being
very windy and some large elm
trees over hanging the shanty the in-
-mates became frightened and left
the house and had only just secured
a safe distance when down came a
large elm tree across the shanty -
completely flattening it to the ground and
when we arrived there the family were
busy removing the tree and restoring
the shanty to its original shape
I remained at the Don Mills one
week when my father wrote me to

York and put me on board a
small Schooner owned and sailed
by the Whites for Niagara on
the following morning when I awoke
I found the vessel tied up at Navy
Hall and after putting up breakfast
of sassafras tea and ship bread & butter
I started on foot for the fall where
I arrived some time after mid day

I remained with my Mother
Sister Mary and Brother John at the
Distillery during the summer attending
the School on Drummond Hill -
In the fall Brother Joseph and I
started for York with another drove
of Cattle and Hogs and two Horses
on this occasion we reached the first
day The forty mile Creek or as it is
now called Grimby and put up at a
well known Tavern of those days kept
by a man named Anderson The
next day we made Dundas Street
crossing the beach as formerly and put
up at Hopkins Tavern the following day
our Hogs became foot sore and unable

To haul and was obliged to leave
them on the way at Ephraim Post
Tavern on Dundas Street in the
Township of Invergowrie we however
made the Don Mills on that day
where I remained with John
Eastwood and sister Betty until
mother and the remainder of the
family removed from the Falls during
The winter Mother reeling in a large
brewing kettle purchased from Clark
& Street and which was used for my
a year in the Don Brewery and was
afterwards sold to Alexander Wilson
for a Dye Kettle in his woolen factory

After I grew up to mans-
estate I was appointed path master on
the old Don Mills Road which office I held
almost continuously until I left the
neighbourhood and removed to the High-
land Creek in 1847 - In the year 1841
the Inhabitants of the Don became dissatisfied
with the Toll gate placed at the Don Bridge
in consequence of as much Toll being charged
for Teams coming down the Don Mills Road
and Travelling less than half a mill on the

Kingston Road as those travelling
five miles on said Road And
began to look about for some other
way of reaching the City and having
procured permission from John
Scadding to open up and construct
a Road leading off from the Don Mills
Road at a point where the above men-
tioned Road crosses the first concession
of York where a natural gully exists
leading down the high bank to the River
Don And in December of 1841 the
inhabitants turned out with men and
teams and commenced the construction
of the Road down to the Don under my
superision and continued at it from
day to day as voluntary labour until
a passable road was made down to the
Don and up the hill on the West side
bounding what is now the Necropolis
during the winter timber was procured
and preparations for erecting a bridge
over the River and in the spring the
Road was opened for traffic passing
down Sumach Street to King Street the
Hospital or Parke Reserve was at that
time covered with wood

I remember working a week
putting in a culvert and pulling
up a swail without seeing a single
person but those that were with me.
After using this Road for two or three
years it was thought desirable to plank
it and a portion of the mill road and
to put a toll upon it to defray the expense.
As there was then no law authorizing
joint Stock Companies a number of
the inhabitants entered into a partnership
= ship under a deed of copartnership
and planked the Road and erected a
toll gate at the bottom of the Hill near
the river, we afterwards planked a
Street from the top of the Hill to Parlia-
= ment Street which we named Bown
Street in honor of the man who gave the
land this the Corporation thought
proper to change to Winchester Street
Immediately after this the Cemetery was
opened and Parliament Street Planked
by the Corporation in 1832 the
Road from the Forks of the Don to Milnes
Mill was opened and made a public
Road for the benefit of the upper Don
settlement.

The following is a list of the names of the persons who have been appointed to the various positions in the office of the Secretary of the Board of Education for the City of New York, for the year 1932.

In 1820 when I first came to the
Don Mills the Roads being so
bad it was the usual custom to
raft the lumber from the tail
of the saw mill to the town of
York at that time the volume
of water was so large that the
rafts were built at the tail of
the mill containing from 1500 to
2000 feet by laying the boards
cross ways and diagonally upon
each other and a man standy
on each end with a pole in
his hand descended the rapids
to dead water where the raft
was left and another boat down
and so on until there was ac-
cumulated sufficient to make one
large raft of many thousand feet
when they was put together and
taken down the stream into the
Bay and thence along the shore to

The first thing I felt when I
got up in the morning was
that I was not alone. I
felt the presence of someone
else in the room. I
looked around and saw
nothing. I felt a chill
run down my spine. I
tried to ignore it, but
it kept coming back.
I decided to investigate.
I went to the door and
opened it. I saw a
shadow in the hallway.
I called out, but there
was no answer. I
went back to my room
and locked the door.
I tried to go to sleep,
but I couldn't. I
kept hearing footsteps
in the hallway. I
got up and looked
out the door. I
saw nothing. I
went back to bed.
The next morning, I
woke up with a
headache. I
felt like I had
been through
something. I
looked at my
clock. It was
8:00. I
got up and
went to the
bathroom. I
saw a note
on the floor.
It was a
piece of paper.
I picked it
up and read
it. It was
a letter from
my mother.
She was
telling me
that she
was coming
to visit me.
I was
glad to hear
that. I
called her
and told
her the
news. She
was
excited.
I
was
glad to
hear that.
I
was
glad to
hear that.

The most convenient point
for landing from whence I was
drawn by Teams to where it was
wanted as a load I was very
fond of accompanying the men
is this service and here often
sailed on rafts from the Don
Mills to York over ground
that would scarcely float
a shingle at the present time.

In the Spring of the year the
Pikes were literally alive with
suckers where they were caught
and carried away by the wagon
loads. And in the autumn
salmon were almost as nu-
-merous weighing from 10^{lb} to 20^{lb}
each and as a Cherry when they
first came into the stream they
were caught with a light Jack
and spear the suckers with
nets. We have had several

[The text on this page is extremely faint and illegible, appearing as a series of light grey smudges and ghosting of words.]

Does that in their day would
Catch salmon on the rapids
and carry and drag them to
those where the water was
not deep and injud the spot
as much as any by hand,

In deed they frequently watched
the rapids during the night and
and often in the morning we found
salmon they had caught during the
night.

In the spring vast quantities
of Pigeons used to be flying to
their breeding grounds and for
days and even weeks the scene
was almost darkened by the
immense flocks that were flying
and at street corners and points
of hills people assembled with
guns and poured into the flocks

as they passed the deadly
shot killing great numbers of
them Wild Ducks also were
flying past certain points
morning and evening going
and returning to and from the
feeding ground to Lake and
marsh to spend the night

Toronto Bay was covered
with acres of ducks at all-
times when not frozen over and
Ashbridges Bay and the marsh
literally alive with them

no uncommon thing for Mr
Thomas Bright to bag 30 or 40 in
an after noon after his business at
the market was over and many
others as well as him

On the 7th day of December
1887 was a memorable day
for Canada. The Rebels under
Mr Rensie Lount and Gibson
were assembled at Mount-
Cornerys Tavern on Eglinton
menacing the City of Toronto
During the night previous
or early in the morning of
that day Sir Allen McNab
had arrived from Hamilton
with several hundred of
the men of Gorse and many
had arrived from all over
and assembled at the
Parliament buildings foot
Street Toronto. I walked
into the city from the Don
and on arriving at the
Parliament found the men

[The page contains extremely faint, illegible handwriting, likely bleed-through from the reverse side of the paper. The text is mirrored and difficult to decipher.]

assembling and army
preparatory to a march
to dislodge the insurgents
at Montgomerys under
the command of Sir Francis
Bond Head Governor and
Sir Allen McNab on arrival
There I immediately went
into the building to procure
a gun and equipment and
having secured one and was
passing out I was met by
Sir John Beverley Robinson
the Chief Justice of Upper Canada
who stopped me and said
he was in search of a reli-
-able man to take charge
of the powder magazine in
the basement of the building
and requested me to do so

I went with him down
stairs and he put me
in charge with instructions
to hand out to parties apply-
ing for it to some I gave
a pint cup full and some
Captains of Companies I
gave a keg and they took it
and divided it amongs them
selves in this way I was
employd until the men had
all marched away up York
Street. I was then asked
by some person in authority
(I do not remember who at the
present time) to go to a plun-
bers shop on
and assist in running balls
which I did and remained
there all day and made 1.

two patient piles full
of musket balls at night
when I left to come home
I met some of the men
returning with several
wounded men in carts
on arriving at the Don
Bridge I found a strong
guard and Centry refused
w^hat one pass I then turned
up a bush Road where the
present River Street is located
and came up by Castle Frank
and the flats to opposite the
Brewery where I halloved
and one of the men boote a
horse and I roade behind him
over the River Hall to meet
my wife all safe

[The page contains extremely faint, illegible handwriting, likely bleed-through from the reverse side. The text is mirrored and difficult to decipher.]

In June 185~~0~~⁴⁸ when The
Post Union wharf company was
building their wharf and a
number of men were impled
there by William Fisher the
contractor William Hetherington
who had purchased a lot
from Thomas Adams and built
a house and was the owner
of a small schooner lay
at anchor off the place where
the wharf was being erected
with his son and one sailor
when his wife came to the Lake
bank and signalled him to come
to dinner the wind at the time
blowing off the shore a gale
they accordingly all three got
into a small scow or punt
without any oars simply a

rescue some shipwrecked sailor
in the Mackinow Straits - -

An episode in the life
of the William Smith of Toronto
Tanner. He and his wife were
both at times in the habit of go-
=ing on a drunken spree. I have
myself put a fifteen barrel of
beer up by his bedside so that
He could reach the tap without
getting out of bed where he
lay and drank for days and
weeks - at a time his wife.

would go off to the Taverns
and spree and drink for days
together on one of these drunk
=ing bouts she took a small
Trunk containing £500 as in
cash several notes of hand a
gold watch and chain several

Arrested by Bowdler and sent
to a nobleman's house and escorted
several prisoners and escorted
in a coach from home some
days carrying the trunk with
them from place to place and
finally on arriving at London
opening the trunk found only a
pair of buck teeth. The head of
Governor Keppel by the name of
Sherburn taken up and put
on his trial for robbery but
there was no proof to convict
him and he was discharged.
At that time the Hospital
Reserve consisting of some
Lieutenant Sherburne the 2nd in rank
was an ensign in the 2nd
regiment of foot the 1st of the
17th regiment of foot after the

Articles of Jewelry and valu-
= uables with Her and visited
several Taverns and remain-
= ed away from home several
days carrying the trunk with
Her from place to place and
finally on arriving at home
opening the trunk found only a
few Buck Bats She had a
Tavern Keeper by the name of
Sherborn taken up and put
on his trial for robbery but
there was no proof to convict
him and he was discharged

At that time the Hospital
Reserve extending from Par-
= liament Street to the Don was
was an unbroken forest there
a few wood paths through it

Smith's

Loss of the contents of the
Trunk and when the Don
Mills Road Company were
grading and forming -
Pasleurnment Street to receive
the covering of plank with
which it was covered it had
been needed any at one place
to make a cutting of three or
four feet deep and one day
a Teamster of the Messrs Fayla
a Coloured man was driving
a load of wood along the road he
observed something shining
in the face of the cutting but
being too indolent to dismount
from his load of wood deferred to
his return to make an exam-
-tion when doing so he found
that a crew on climbing up the

that a man can be learning up the
two when living in the frame
to the extent to make an exam
from the two of good papers
to see too much to see over
in the face of the cutting but
there is no doubt a drawing
a good paper along the way to
a cabinet even more so
a number of the other papers
from feet deep and one day
to make a cutting of the
been made up of one thin
which it was given it
the cutting of the
for treatment that to occur
growing and forming
this part of the
to make one when the
two of the contents of the

Cutting had I scraped the
crystal off a gold watch
and behind it was Mr Smith
Julesey which had lain buried
for so many years Mr & Mrs
Smith were both dead but their
son John laid claim to the
property and proved it the No
of the watch being recorded
in the books of Charles Clark
- intromener who had repaired
it and taken down the No
again ^(this is repeated) so do not print
when I was a boy of
seven years old I accoun-
tained my father and
brother Joseph from New-
-para Falls to Little York
and the Don Mills. This

was in 1820 We had
a yoke of oxen and an ox
cart Ten or Twelve head of
cattle Cows and Steers and
heifers and one Horse which
I and Joseph road alternate-
ly but mostly me as I could
not drive the oxen as well as
Joseph and followed up the
cattle Father when not wanted
to drive the cattle were in the
cart

The first day we made a
way side Tazewell some
miles short of the Forty mile
Creek kept by one Hill
The second day we crossed

Burlington beach ends
put up at the Beach Hotel
There was no Bridge over
the outlet of Burlington Bay
and we had to wade through
the water the first day we
came down Dundas Street
to Phillips Couerps on this side
of the Credit where we stayed
all night the next day we
passed through Little York and
reached the Don Mills where
my Brother in Law John East-
wood was living and
where my Father intended
building a Brewery Joseph
returned to the Falls in a

day or two but I remain
at the Dock some time longer
when my Father took me to
York and put me on board
of a small Schooner called the
Nesice sailed and owned by
The McInnes we left York
about mid day and on the
following morning when I
awoke the vessel was made
fast to the Dock at Naneydale
Niagara after break fast
of salted Tea and biscuits
I started to walk along the
River to Queenston and then
The Cippawa Road to the falls
which I reached about mid
day

any or two books I examined
at the time I was there
before my father took care to
of the and for me and
of the book I discovered
some of the names of
the alphabet the left side
about six or seven
following covering when I
was for the better than
part with the book of
signatures after each page
of chapters for and
I started to write
never to be written and
The signature book with
which I searched about

The above mentioned journey
was performed in the month
of May when there was plenty
of grass for the animals &
we got them into good pas-
-turage at night and during
the day they fed a little on
Road sides -

In October Joseph and my
I again made the same
journey with a drove of cattle
and a number of Hogs on
his occasion over first night
stopping place was The forty
mile creek as it was then
called Gosnoby now and
our next was at a then

famous Hurlbery is well
kept by H. J. Sumner on the
following day our Hogs
had become foot sore and
unable to travel and we
left them with one Munn
an Inn Keeper a little west
of the Credit and made a
few miles farther then Cody
for the night and the fol-
-lowing day reached the Iron
mills where I found the
Brewery erected and almost
ready for work I remained
here with my Father and
Brother in Law John Eastwood
in the winter the remnants
of the Family came from the

of the family came from the
in the winter the temperature
was then in the 40's. The
have with my father and
ready for work I remember
Brewery erected and about
with others, found the
a turning day reached the
for the night and the for
from miles farther than any
of the great and several
an iron keeper at the end
left them with one woman
have been foot race and
falling very far off
help by the woman on the
famous history the year

My Brother John made
several journeys with the
Team conveying the household
goods & on one occasion
he bore the large copper kettle
the purchase from Clark and
Street of the Falls and in
which was conveyed the bed
and bedding and my Mother
occupying a seat amongst
them some years afterwards
this kettle was found to be
too small for the increased
business and was sold to
Alexander Milne for a dye
kettle in his woollen factory
on the Don where it is now
1889 in use -

1887 in
the Don where it is
found in the
dark green
leaves and
flowers and
to walk for the
first time
from some

An episode
In 1822 or there the household
at the son was disturbed in the
middle of the night by the
howling & crying of the dog
a barking and at other times
rather a fierce mastiff
but now was completely
frightened & crouched
against the door on opening
the door was seen four dead
& dying sheep that had just
been killed by the wolves
in the morning we found
the sheep everywhere &
completely stumped, the same
night our neighbor Samuel
Snickler lost fourteen sheep
no doubt killed by the same
pack of wolves
