Spring Muskrat Special

We require immediately **200,000 SPRING MUSKRATS** and will pay the highest market valuations for all we can obtain. The present market prices are as follows :

LARGE, 85c. to 80c. MEDIUM, 65c. to 60c. SMALL, 45c. to 40c.

Badly Shot, Kitts and Damaged, 25c. to 20c.

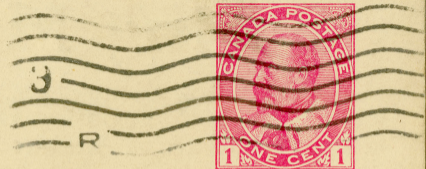

IMPORTANT.—If the market advances we will pay the advance. If the market declines we will give our shippers the above prices until notified.

There is no other house in the world that can handle your shipments better than we can or pay higher prices on our liberal assortments. We advise all trappers and collectors to ship their Muskrats early. The market is now very high and may easily drop. We buy all other legal furs and pay highest market prices.
