# PAINT BOOK

(Circ. 1895)

15°

**IF THEY'RE BALL BAND THEY'RE ALL RIGHT.**

*Do you use warm footwear in the cold months to keep your feet warm? If you do, you have heard of "BALL-BAND" Knit Boots, Felt Boots, Lumbermen's Socks, Rubbers to go over them, Rubber Boots, and Arctics.*

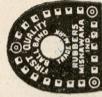

*Now if you do not see illustrated here what you want, ask the dealer whose name is on the back of this booklet concerning something in "BALL-BAND" footwear that you do want.*

*We make hundreds of styles, but can only show a few of them here. We sell direct to the Dealer, leaving out the middle man (the wholesaler) entirely. There is a big advantage to you in this. We produce more goods of this class than any other factory in the world and are the acknowledged leaders in our line, so of course are imitated by many manufacturers.*

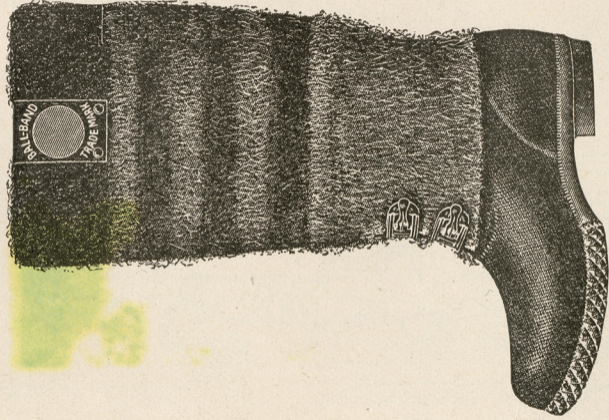

*Our trade mark is a red ball and our trade name "BALL-BAND." Look for them when you buy, for "BALL-BAND" goods are better than any others at the same price, hence you get your money's worth only when you buy "BALL-BAND" They are not made or controlled by a trust.*

**MANUFACTURED BY**

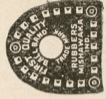

**MISHAWAKA WOOLEN MFG. CO., Mishawaka, Indiana.**

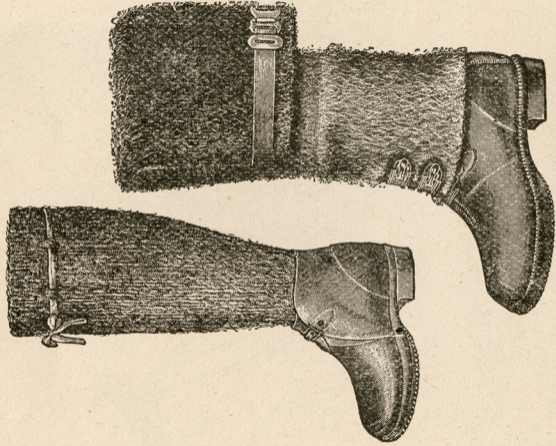

Color the whole picture; be sure to paint the little circle in the "ear straps" red, also circle in heel at top of page. That is the trademark of "BALL-BAND" goods.

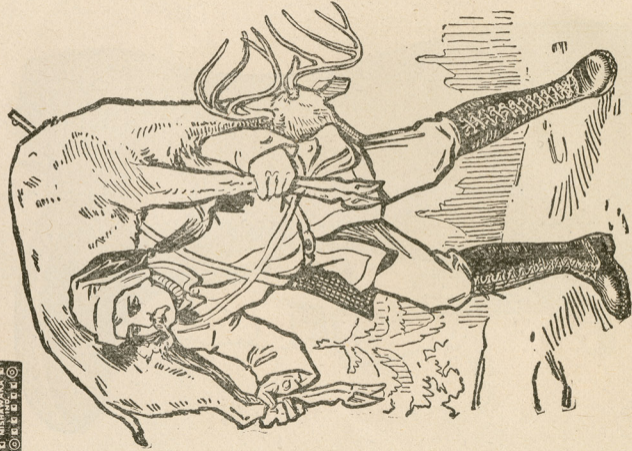

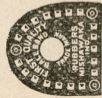

This shows our "BALL-BAND" Knit Boot with Snow-Excluder, which goes down over the rubber to exclude all snow or any particles that might get into the rubber at the top. This is the very best thing of the kind that has ever been produced. They are inferior imitations though, if they haven't "BALL-BAND" trade-mark on them.

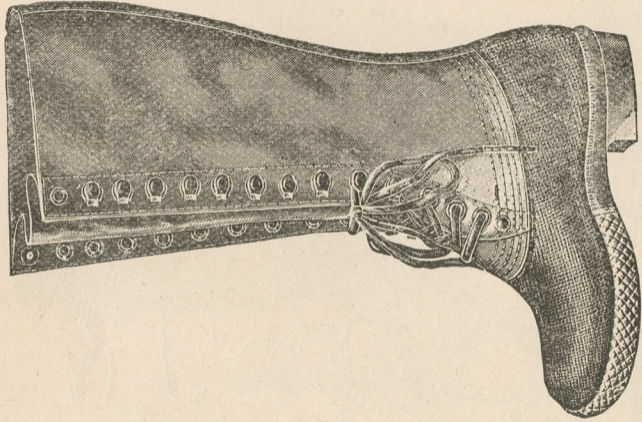

Color this picture with the paints. Notice how the children's feet and limbs are protected. Color circle in heel red, at top of page.

A "crying need" supplied. Your children always get "soaking wet" and cold when playing in the snow, unless protected with these goods.

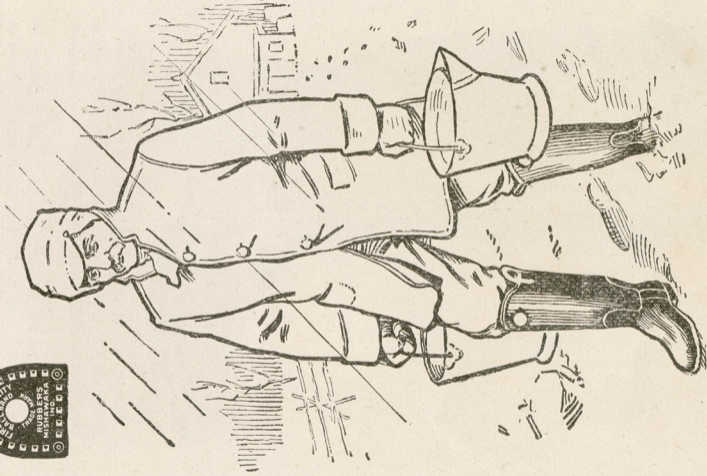

To be painted with water colors. In the heel at top of page, paint the circle or trademark red.

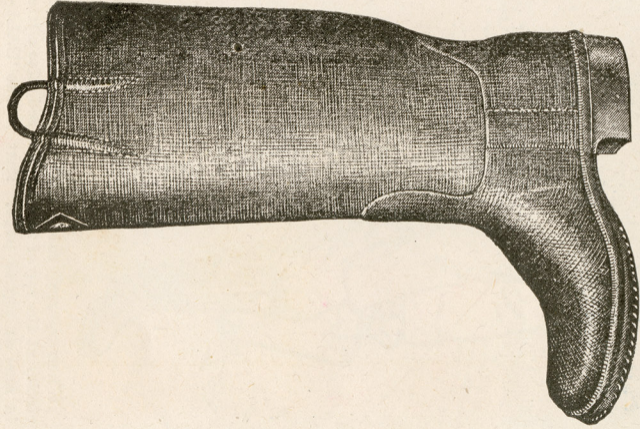

**“BALL-BAND” Rubber Shoes with leather tops are made in different heights, to suit the wearer.**

When coloring this picture, paint the little circles at the top of the boots in red, also circle in heel at top of page. That is the "BALL-BAND" trademark.

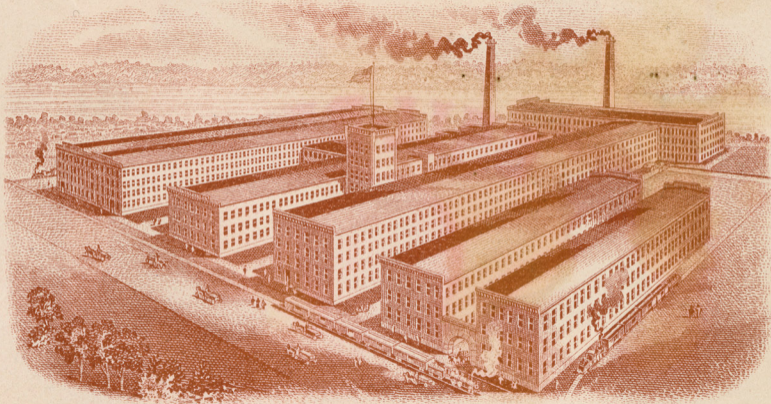

We make a large variety of rubber boots. They all have the little red ball on the front of the knee. Any that do not are not "BALL-BAND."

If you want rubber boots with rubber in them, use "BALL-BAND" Boots and refuse to have others claimed to be "as good as."

5/80

WHERE BALL BAND FOOT WEAR

IS MANUFACTURED.

**Use these paints same as you would a box of Water Colors.**

**DIRECTIONS.**—Moisten a camel's hair brush with water and use same as ordinary paints.
