BUCKINGHAM'S DYE

FOR THE WHISKERS

Is, in Four Respects, Superior to any
Similar Preparation.

1st. It will uniformly color the whiskers and mustache a rich and *natural* brown or black, as may be desired.

2d. The color so produced cannot be rubbed or washed off,—it is permanent,—and when the whiskers are dry they will not soil anything with which they come in contact.

3d. It is a single preparation, more convenient to apply, and much cleaner, than any other whisker dye.

4th. It contains no deleterious ingredients, and is absolutely safe and harmless.
