P R E F A C E .

THIS little Work is intended as a sequel to my "FIRST BRITISH SPELLING BOOK," and is published with a view to its being used by Children who are not far enough advanced to understand the contents of the more expensive and difficult Expositors now in use.

The arrangement for that purpose has been simplified, by selecting words in which none of the sounds of the letters are lost, and omitting others where explanation would be necessary on the part of the teacher to render their pronunciation thoroughly understood.

In avoiding this difficulty to children in their first attempt to learn the meaning of words, and, at the same time, giving the concise and clear meaning to some of the most useful words in our language, I hope I have attained the objects I had in view—that of adding another easy stepping stone to aid children in the pursuit of knowledge, and of lessening materially the labour of the teacher.

T. H. KEBLE.
