## Acknowledgements

This project was made possible by the generous financial support of the Federal Ministry of Employment and Immigration's Summer Canada Student Employment Program (1982) and the Federal Ministry of Employment and Immigration's Summer Canada Program Grant (1983). These programs gave four students the opportunity to acquire the research skills needed to compile this bibliography.

The researchers, Lori Hennigar, Marilyn Manserra, Vivian Snead and Sherri Somerville, deserve a special commendation for their efforts in obtaining the information for inclusion in the bibliography. Many hours were spent in various institutions in Metropolitan Toronto.

We wish to extend our gratitude to Mr. Richard Schofield, the Archivist of the City of Scarborough's Board of Education Archives and a long standing officer of the Scarborough Historical Society. His knowledge of the history of Scarborough and its sources was an indispensable contribution to this bibliography.

We also wish to thank staff, at the libraries, archives, and churches that were visited by the researchers, for their support and assistance.

## Introduction

This bibliography was created for all who are interested in the past, present, and future of Scarborough. To our knowledge it is the most comprehensive list of sources compiled to date. Although every effort was made to locate materials relating to Scarborough, we cannot claim the list is absolutely complete.

The types of materials listed in the bibliography include monographs, periodicals, periodical articles, newsletters, newspapers, maps, atlases, dissertations, manuscripts, and unpublished materials. Each source is annotated to assist researchers in determining whether it is appropriate for their needs. Most entries include a location code to aid in research. Only one location is given for each source, although other collections may also own the material.

The researcher should be aware that some locations were identified as early as 1982 and changes in the institutions' holdings may have occurred since then. Librarians will be pleased to assist you in finding the items listed herein.
