INTRODUCTION

In presenting to the public the "Gazetteer and Directory of Wellington County," we desire to return our sincere thanks to all who have so kindly aided us in our efforts to secure the information it contains. Especially are our thanks due to the Editors of the different papers published in the County, for the uniform kindness they have evinced in calling public attention to the author's efforts, and for essential aid in furnishing material for the work. The various Township Clerks, and many others, have placed us under similar obligations, to all of whom we tender our grateful acknowledgements.

That errors have occurred in so great a number of names and dates as are here given is probable; and that names have been omitted is quite certain. Of such as feel aggrieved in consequence of errors or omissions we beg pardon, and can only say that we have exercised more than ordinary care and diligence in this difficult and complicated feature of book making. Let us remind those who may be disposed to criticise our work too closely, that

"to err is human; to forgive, divine."

We regret that our work has been delayed somewhat beyond the time promised, owing chiefly to the fact of underestimating the amount of labor which was before us, but we cherish the hope that the completeness of the work will make ample amends for our

shortcomings on this score.

In connection with this work, we take pleasure in presenting our patrons with a neatly engraved Map of the County; a feature which has been added at a considerable extra outlay, and which was not promised at the time of our canvass. This will be found the most accurate map of the County now extant, and should add materially to the value of the Directory as a work of reference.

The Advertisers in this work represent the leading business houses in the County, and we most cheerfully commend them to the patronage of all those under whose observation these pages

may come.

With thanks to friends and patrons generally, we leave our work in their hands, trusting it may meet with that favour which earnest endeavor ever wins from a discriminating business public.

WM. W. EVANS.

The liberal patronage accorded us by the public of Tozonto since commencing business, particularly during the past year, will be but feebly acknowledged by our heartiest expression of thanks.

Raving observed at an early stage of our career that Frinting was fast drifting towards a monopoly, we concluded that success was attainable only by rigid personal application, strict economy, judicious enterprise, and unwavering attention to the wants of our customers. Acting on this observation, we soon found our business outgrowing our premises, and fortunately succeeded in purchasing the capacious property we now occupy.

Que plant now comprises Ten of the most modern and approved Book and Job Printing Presses, Stereotyping and other Machinery necessary for a first-class Office.

THE FERGUS

'NEWS RECORD,'

(ESTABLISHED 1858.)

PUBLISHED THURSDAY MORNING

BY J. & R. CRAIG,

Has a larger circulation in Centre and North Wellington, and in the south-west side of the County of Dufferin than any other newspaper.

Advertisers will find THE NEWS RECORD the best medium for communicating with the farmers of Nichol, West and East Garafraxa, East and West Luther, the south end of Arthur, the north end of Peel, the south end of Amaranth, and the north-west ends of Erin and Eramosa.

J. & R. CRAIG,

JOHN HALL, ARCHITECT,

DESIGNER & VALUATOR.

COUNTY BUILDINGS,

GUELPH, - - ONT.

JAMES' PATENT

FIRE AND WATERPROOF

ROOF PAINT

Is the most satisfactory Roof Paint yet discovered, and stands to-day without an equal. It forms a hard and durable surface. It gives equal satisfaction on

OLD OR NEW ROOFS,

Tin, Felt or Shingles.

It will absolutely resist fire from Live Coals, Sparks or Shingles flying from burning buildings. It will not affect the rain water after the first rain. Therefore my paint supplies a want long felt, in being Fire and Waterproof, in preventing decay and warping of shingles, and in improving the safety and appearance of buildings.

WELLINGTON COUNTY.

HIS County is bounded on the north by the county of Grey; on the east by the counties of Dufferin, Peel, and Halton; on the south by Wentworth county; and on the west by the counties of Waterloo, Perth and Huron. Its position is about the centre of the Ontario peninsula. It contains twelve townships, viz.: Arthur, Eramosa, Erin, Guelph, Maryborough, Minto, Nichol, Peel, Pilkington, Puslinch, West Garafraxa and West Luther. There are also nine town and village corporations, besides the city of Guelph. The towns consist of Harriston, Mt. Forest and Palmerston. The villages are Arthur, Clifford, Drayton. Elora, Erin and Fergus. The distance across the county at its widest point is about 45 miles, and from north to south about 55 miles. The townships of Amaranth, East Garafraxa and East Luther, formerly belonging to this county, were, on the erection of Dufferin county, set off to form a portion of the new county, which leaves Wellington county with an area of about 750,000 acres. About 15 per cent. of its area is still timbered with beech, maple, elm, cedar, hemlock, basswood, ash and balsam, used chiefly for fuel. building and fencing. Several townships have no more timber than is needed for local requirements.

The surface is generally of a rolling character, and the

soil variable, clay and sandy loams preponderating.

"Heavy clay exists to the extent of about 13 per cent., with a depth of about six inches, and resting on a clay subsoil; clay loam about 40 per cent., with a depth of from six inches to two feet, and resting on a sand and gravelly subsoil; sandy loam about 29 per cent., depth two and a half feet, with a sand subsoil; sand, inappreciable; gravelly, about six per cent., depth variable, with gravelly subsoil; black loam about 12 per cent., depth from one to three feet, variable subsoils. A very small proportion is reported too stony or rocky for profitable cultivation,

except in the township of Erin, which reports 10,000 acres, or about one-seventh of its area. Very little is so hilly as to be objectionable for the purposes of cultivation; about fifteen and a half per cent. is bottom, about eleven per cent. is swampy, and a small proportion wet, springy land. The proportion reported rolling and cultivatable is about 73½ per cent. For agricultural purposes about 45½ per cent. is reported first class; 31 per cent. second class; and the remainder third class."* Limestone exists in great abundance, and is extensively quarried along the banks of the streams. The county is admirably watered and well supplied with water power by the Grand River, the Speed, Conestoga and their tributaries, and branches of the

Saugeen.

The county is well supplied with railroad facilities. The W. G. & B. R. enters it from the south near the north line of Puslinch, and traverses nearly the whole length of the county, passing through Guelph, Elora, Fergus, Alma, Drayton, Moorefield, Palmerston, Harriston and Clifford. leaving the county at its extreme north-west corner. main line of the Grand Trunk enters the county on its east line near Rockwood, and passing through Guelph leaves the county on the west line of the township. main line of the Credit Valley traverses the south border of Puslinch from east to west, and a branch of the same road from Orangeville enters the county near Erin, passing through Fergus and terminating at Elora. The T. G. & B. R. enters the county on the east line of Luther, and passing through Arthur, Mt. Forest and Harriston, leaves the county on the west line of Minto. The Stratford & Lake Huron and Georgian Bay & Lake Erie roads traverse the township of Minto from south to north, entering the county at Palmerston and passing through Harriston.

Wellington County originally formed a part of the Wellington District, which was formed out of the counties of Halton and Simcoe, and proclaimed a district on the 20th of April, 1838. In order to expedite settlement a line of road was surveyed from the township of Nichol to Owen Sound, now known as the Owen Sound Road. The land on each side of this road was laid out in fifty acre lots and

^{*} Ontario Agricultural Commission,

given away to actual settlers, with the privilege of purchasing the fifty acres behind, on condition of performing the stipulated settlement duties, which consisted in actual residence, the erection of a house or building of some kind. the clearing of a certain portion of the land, and making the road in front of the lot for half its statute width. These duties were to be performed within two years from taking possession, after which a deed was granted. The system worked well, and in a short time every lot along the road was taken up. But few of the original settlers remained on the lots, most of them selling out after making small clearings. As they got the land for nothing, the money they received enabled them to go upon fresh land with increased means and greater comfort, while their removal made way for a better class of settlers, possessing more capital, and consequently able to improve the country Another road was subsequently much more rapidly. opened from Nichol to the Saugeen, which was settled in a similar manner and with equal success. The district now began to fill up rapidly, partly with newly arrived immigrants, but principally with settlers from the older portions of the Province, who with the restless spirit characteristic of the pioneers of the wilderness, had, many of them, for a second and a third time, sold out their improvements and taken axe in hand to do battle with the forest. Gradually mills were erected on the streams and the nucleus of villages formed which grew into business centres of more or less importance. The advent of the railroad and the telegraph subsequently added their impetus to the facilities of settlement, and population flowed in steadily, until at the present time the county may be said to be all settled, and contained a population, according to the last census, of 63,289.

The chief products of Wellington are grain and roots, the latter largely used for cattle feed. The county is well adapted to grain growing, stock raising and dairying. It is said that more turnips are raised and more beef sold in Wellington than in any other county in Ontario. According to the Report of the Ontario Agricultural Commission for 1881, the townships sustain 48,238 horned cattle, 17,107 horses, 47,924 sheep and 15,625 hogs. Of horned cattle

Durham and Durham grades predominate. The principal markets of the Dominion are supplied from Guelph with fat beeves, and in addition large numbers are exported to England. The horses are heavy draught and general purpose, with some Clydesdale blood; the sheep, Leicester, Cotswold and Southdown; and the hogs principally Berkshire grades. One report says: "Wellington possesses better herds and more good stock than any other county in the Dominion. Durham blood is largely diffused, and a poor beast is becoming a rarity. The county has many importers of thoroughbreds, and, in addition to Shorthorns, has herds of Herefords, Galloways and Devons."

TOWNSHIPS.

RTHUR Township lies on the north border, on the Grey County line, having Luther on the east, Peel and Maryborough on the south, and Minto on the west. The surface is moderately rolling, and the soil generally heavy clay and clay loam, with an average depth of eight inches and a clay subsoil. The area of the township is 68,823 acres, 34,000 of which are cleared. The timber consists of beech, maple, elm, cedar, hemlock, basswood and ash. The land is well adapted for agriculture, spring wheat, barley, oats and peas, being the principal products. It is well watered by the Conestoga, branches of the Saugeen, and other small streams. The Owen Sound Road passes diagonally through the township from Arthur to Mt. Forest, parellel to which runs the T. G. & B. Railway, while the Georgian Bay and Lake Erie R. R. crosses the north-west part, passing through Mt. Forest. The population is 3,347. There are eight post offices in the township, viz :- Arthur, Derrynane, Farewell, Kenilworth, Mt. Forest, Petherton, Riverstown and Wagram.

ARTHUR is an incorporated village at the corner of the townships of Arthur, Peel, West Luther and West Gara-

fraxa, situated on the main road from Guelph to Owen It is a station of the T. G. & B. R. R., and is distant from Fergus 12 miles, Orangeville 23 miles, Toronto 72 miles, Mt. Forest 15 miles, and from Guelph 25 miles. The Registry Office of the North Riding of the county is located here. Up to the year 1840 the site of Arthur village was covered by the primeval forest, the echoes of which were only awakened occasionally by the march of the Indians on their way to and from the Grand River, their trail lying along about where Francis street now is, on which stood several empty wigwams. In the fall of that year settlement commenced. George street was chopped and a government shanty erected for the reception of emigrants. Sometimes it was occupied by six or seven families at once, who were fed by the Government and supplied with a negro cook. It was in the spring of '41, in this shanty, that the first death occurred; the deceased was a child, of about four years of age; death was caused by an over dose of whiskey, which was very plentiful in those days. For a couple of years nothing of consequence transpired except the erection of a few log houses and the destruction of the Government shanty by fire. The land agent had erected the mansion on Francis street, which still stands, and is yet unoccupied. There were two small houses near the junction of Francis and George streets, and one opposite; a tavern and store stood opposite one another a little higher up, and this constituted the village at this date. But the thriving condition of Arthur was soon to receive a severe check. The hotel keeper drank himself to death; thus the second death was caused by whiskey. The branch store, which belonged to a gentleman in Fergus, was withdrawn, and the land agent recalled. The three citizens went west, and Arthur was left as empty as it was ten years before. The village remained in this condition until the beginning of the year 1845, when it became inhabited once more, by a much better class of people than the first, and very soon attained a thriving condition. The village did not show much signs of growth until '50, and the succeding three or four years, when it presented quite a thriving aspect, containing two stores, a post office, an oatmeal, grist and saw mill, a blacksmith shop, two taverns and a school house. The first religious exercise was conducted by the Presbyterians, but the first denomination that built a church was the Episcopalians, in the year '55. In the succeeding years the village grew steadily, and gave considerable promise of some day becoming a large town.*

The village was incorporated in January, 1872.

Mr. Forest is a thriving town, pleasantly situated on the north line of the township, lying partly in Grey county. The Owen Sound road passes through the town. It is also an important station on the T. G. and B. R. R. and Georgian Bay and Lake Erie Railway, which with their connections, renders it easy of access from all parts of the Province. It is surrounded by a fertile agricultural country, and is an important grain and cattle mart. 'A branch of the Saugeen river, formerly known as the Maitland, passes through the town and affords an excellent water privilege, which has been utilized to a considerable extent. The town is well laid out, and the public buildings, business blocks, as well as private residences, inspire the beholder with the idea of thrift and comfort. The churches are mostly substantial brick buildings and comfortably fitted up. A fine brick school house was erected in 1878, at a cost of \$6,000. It is two stories in height and surrounded with a large roomy play ground. It is heated with steam throughout. The class rooms are well arranged, and fitted with all necessary appliances required in institutions of The building is occupied by both the this character. The site of Mt. Forest was reserved by the Government as a town plot and named by them. It was surveyed into lots in 1853, settlement commencing about that time. The first settlers were principally Scotch, with a few from Prince Edward County. The post office of Mt. Forest was established in 1852, with Robert McDonald as postmaster. Previous to this, however, a post office called Maitland existed here, named after the stream which was supposed to be identical with the Maitland River, but was afterwards discovered to be a branch of the Saugeen. Jacob and David Yeomans established the first grist and saw mill, about 1855, known as the "Pepper Mill." Robert Mc-Donald was the first merchant, in 1852. The first hotel was kept by "Grannie" Horsburg, about the same time. A log church was erected by the Wesleyans, where the M. E. church now stands, which was used by all denominations. The first resident school teacher was Miss Jennings, who kept a private school. Rev. David Auld (Methodist New Connexion) was the first resident preacher. newspaper was established about 1857, by Thos. Greenham, of Fergus, and called the Express. This was succeeded by the Examiner in 1862, which was merged into the Confederate in 1880. The Confederate was established in 1867 by the present publisher. The Mt. Forest Advocate was established in January, 1881, by E. G. Hart.

Mt. Forest was incorporated as a village in 1862, and as a town in December, 1879. Thos. Swan was the first

mayor.

The township commenced settling around Arthur village about 1840, and was about all settled by 1866. The first settlers were principally English, Irish and Scotch. Among the first settlers at Arthur village were John McIntosh, and Capt. Lamson. In the vicinity of Petherton settled John Rham, Robert and Richard Waters. About Riverstown were Thomas Stevenson, Bryan O'Donnell and Robert Morris. About Kenilworth there settled William Gunn,—Bacon, Isaac Thompson and John O'Donnell. The first birth was a daughter of Bryan O'Donnell, about 1841. The first saw-mill was built by Albert Townsend, on the 10th concession, about 1842.

ERAMOSA township is bounded on the north by the township of West Garafraxa; on the east by Erin; on the south by the county of Halton, and on the west by the townships of Guelph and Nichol. Its area is 44,000 acres, 30,000 of which are cleared. The surface is of a rolling character, with a soil of clay and sandy loam. It is well watered, having two branches of the Speed running across the whole township, while various small rivulets supply the remaining

parts and feed the main streams. The timber consists of beech, maple, elm, cedar, balsain, &c. The land is well adapted to agriculture, yielding good crops of fall and spring wheat, barley, oats, peas, turnips, &c., while a considerable portion is devoted to stock raising and dairying. Eramosa presents a fine field for the geologist and lover of nature, the course of the southern stream being marked by rugged rocks. precipices and waterfalls, very romantic and beautiful. The southern part is traversed by the main line of the G. T. R., passing through Rockwood. There are eight post-offices in the township, viz: Eden Mills, Eramosa, Everton, Oustic, Rockwood, Shiloh, Speedside and Utoka.

EDEN MILLS is a post village on the Halton county line, seven miles from Guelph and four from Rockwood station. A branch of the Speed runs through the village, affording an excellent water power. A daily stage connects it with Guelph, and daily mails are received. The village contains an hotel, flouring mill, wagon and blacksmith shop, general store, pump factory, shoe store, cooper shop, Methodist church, and 200 inhabitants.

Eden Mills (flouring and oatmeal) have been established about 25 years. There are five runs of stones, with a

capacity of 75 barrels a day. Albert Tolton.

The Canada Methodist Church is a stone building, seating 250, and was erected in 1861. Services at 2.30 p.m. Sunday school at 1 p.m. There are 100 members. Rev. W. J. Freeman, of Rockwood, officiates

Rockwood is a post village in the south part, near the Halton county line, seven miles from Guelph, and 41 from Toronto. It is also a station on the main line of the G. T. The Eramosa branch of the River Speed passes through the village, affording an extensive water power, which is utilized by a number of mills and factories. The river here, as it courses along its rocky bed with a gradual decline, presents a very picturesque aspect, well worthy of the admiration of the lover of the grand and beautiful in The rocky limestone walls on either side rise to a considerable height, increasing in altitude as the river is descended, while at intervals the cliffs are indented with caves of greater or less dimensions. At one point, near the centre of the river, rises a solitary rock to the height of 80 or 100 feet, topped by a single tall tree, like a sentinel on his watch tower. The village contains three hotels, a stave and heading factory, two shingle mills, a cooper shop, cabinet shop, two tailor shops, a grocery, book store, two flour mills, two blacksmith shops, two wagon shops, a woolen mill, glove factory, an academy, harness shop, two general stores, a shoe shop, stove store, bakery, five churches, and 600 inhabitants.

The Congregational Church is a handsome stone building, nearly octagonal in shape, and presents a very neat appearance. It was erected in 1880 at a cost of \$1,800, and seats 350. Services at 11 a.m. and 7 p.m. Sunday school at 9,45 a.m. Prayer meeting on Weinesday. There are 70 members.

The post office was established about 1860, with James Loghrin as postmaster

Loghrin as postmaster.

Utoka is a post office in the south-west part, on the Guelph township line, about four miles from Guelph.

Settlement commenced in this township about 1821. At that time land was of so little value and Eramosa so distant from markets, that free grants were made to all who could prove their capability of cultivating the same. It

was only required that the fees of the land office should be paid to obtain a grant of 200 acres. A number of the first settlers were from Pennsylvania, to which State they had previously emigrated from England and Scotland. On their first settlement there was neither mill, post office nor store within 25 miles. The town and township of Guelph settling soon after their arrival, contributed materially to the prosperity of Eramosa by furnishing a ready market, at good prices, for all the surplus produce, which the inhabitants well knew how to turn to the best account. In 1825 the township contained 284 inhabitants; in 1841 the number increased to 935; and in 1850 to 2,050. At the present time the population is 3,221. *

ERIN is the most easterly township of the county, being bounded on the north-east by Peel county; south-east by Halton county; south-west by the townships of Guelph and Nichol; and north-west by Garafraxa. The surface is generally rolling, and the soil mostly clay and sandy loam, about one-sixth being black loam, and one-sixth gravelly. About 10,000 acres is reported too stony for cultivation, and a similar quantity swampy. The land is nearly all cleared, there being very little timber, what there is consisting of beech, maple, cedar, hemlock and tamarack. The area of the township is 70,400 acres. The chief farm products are fall and spring wheat, barley, oats, peas and hay. The Orangeville branch of the C. V. R. crosses the northern portion of the township, passing through Erin village. There are eight post offices in the township, viz.: Ballinafad, Binkham, Brisbane, Coningsby, Erin, Hillsburg, Mimosa and Ospringe.

Ballinarad is a post village in the south part, on the Halton county line, six miles from Georgetown, the same from Acton, stations on the G. T. R., seven miles from Erin, a station on the C. V. The township commenced settling in 1820, and was all settled within 35 years. In 1841 it contained 1,368 inhabitants, which had increased to 3,035 in 1850. At the present time it contains a population of 4,000.

GUELPH township is bounded on the north by the townships of Nichol and Pilkington; on the east by Eramosa; on the south by Puslinch; and on the west by Waterloo county. It contains an area of 37,083 acres. 30,000 acres of which are cleared. The surface is generally rolling and the soil about three-fourths clay and black loam, and one-fourth sandy loam. The depth of soil is from twelve to eighteen inches with a hardpan subsoil. It is well watered by the River Speed and its tributaries, and other small streams. Fall and spring wheat, barley, oats,

peas, turnips and hay, are the principal products of the soil, which yields excellent crops. It also ranks as the premier township of the Province for stock raising, containing fine herds of Galloways and Devons, Durham and Durham grades, Berkshire hogs, Cotswold and Leicester sheep, &c. Limestone exists in abundance along the streams, which is extensively quarried. The main line of the G. T. R. traverses the southern portion from east to west, and the W. G. & B. R. R. passes through the central portion from south to north. The township contains five post offices, viz.: Armstrong's Mills, Gourock, Guelph, Marden and Mosborough.

Armstrong's Mills is a post office in the north part, on the River Speed, near the line of Eramosa, seven miles from Guelph. Semi-weekly mail.

GOUROCK is a post office on the Waterloo Road, four miles from Guelph, and is a flag station on the W.G. & B. R. R. Daily mail.

THE CITY OF GUELPH, the county seat of Wellington, is situated in one of the most fertile portions of the Dominion, about midway between the great lakes. It is built on a number of hills, giving it a picturesque appearance, and is surrounded by a magnificent agricultural and stock raising country, being celebrated, far and near, for the superiority of its products. It is also an important station on the lines of the Grand Trunk and Wellington, Grey and Bruce Railways, which, with their connecting lines, bring it within easy communication with all parts of the Province. The River Speed, a winding stream, with a fall of about 30 feet, passes, through the city, affording an abundant water power. The city is distant from Toronto 48 miles, and from Hamilton 30 miles. Within the corporate limits are a number of extensive quarries, from which an excellent quality of limestone is produced for exportation, and which has been used to a large extent in the erection of the public buildings and private residences of the city.

The business streets are lined with many fine blocks and stores, devoted to the varied departments of trade and commerce, while numerous elegant mansions adorn the subur-

ban portions.

The city is supplied with pure spring water, obtained from living springs near the York road, and forced through the mains by the Holly system.

The public buildings of Guelph are all substantial stone buildings, prominent among which may be mentioned the Court House and Jail, City Hall and Market House, High and Central Schools, Post-Office and Custom House, Loretto Convent, St. Joseph's Hospital, General Hospital, &c.

Loretto Convent, founded in 1856, is beautifully situated on an eminence which commands a charming view of the city, the river, and the surrounding country. The edifice, with the Church of Our Lady, are the first objects that attract the eye within several miles of the city. The Convent is under the superintendence of the Ladies of Loretto, who sustain a boarding and select day school of from 80 to 100 pupils, a select boys' school of some 30 pupils, and are also engaged in teaching the separate schools.

St. Joseph's Hospital and House of Providence, under the superintendence of the Sisters of St. Joseph, is located on Hospital street, north of the London road, and is a fine three-story stone building, fitted up with all necessary appointments for the care of the sick. In connection with the Hospital is a farm of 65 acres, from which is procured the vegetables and fruit used in the institution. The Hospital was chartered in 1862, and additions made from time to time, as necessity required. The House of Providence, in connection, is designed for aged people, and those requiring a temporary home.

The General Hospital is located on Delhi street, on the Eramosa Hill, and is a substantial brick building, three storeys in height, with mansard roof, and fitted up with every necessary for the care of the sick. It was erected some eight years ago, at a cost of about \$10,000. Four acres of ground are attached, from which all the vegetables required are produced, and two cows are kept. The institution is supplied with 50 beds. It is governed by a Board of twelve directors, who are elected annually by the contributing members, the Mayor of the city, one member of the Council, and the Warden of the County, being members of the Board. An annual contribution of \$4.00 entitles

the contributor to a voice in the election of directors. The Medical Board consists of all the physicians in the city.

There are twelve churches in the city, representing the usual phases of religious belief. The buildings are mostly substantial stone structures, a number of them being models of elegance, ornaments to the city, and finished after the most approved styles of church architecture. There are besides, societies of Christadelphians and Plymouth Brethren.

In her school facilities, Guelph has every reason to congratulate herself on the excellent advantages provided, through the wisdom and liberality of her citizens, for the thorough education of her youth. The school buildings, which are among the finest of the city, comprise a high school, central school, and four primary schools, all substantial stone buildings, fitted up with all modern improvements, thoroughly officered with an efficient corps of teachers, and liberally patronized. There is also a Roman Catholic separate school, the Loretto Convent, and several select schools.

The Mechanics' Institute, located in the May's Block, Upper Wyndham street, should also be noticed in this connection. The Institute was incorporated in July, 1853, and has a library of between 3,000 and 4,000 volumes. In connection with the library is a commodious and comfortable reading room, supplied with the leading periodicals; also recreation rooms. A winter course of lectures is sustained, and evening classes, which are well attended.

The Young Men's Christian Association, on Upper Wyndham street, also sustain free reading and recreation rooms, and a small library for the use of the members.

Two first-class hotels, the Royal and Wellington, with others of more humble pretensions, supply all the comforts of a home to the travelling public.

The city supports two ably-managed daily papers, the *Herald* and the *Mercury*, both of which are liberally patronized.

The Institution known as the "Ontario School of Agriculture and Experimental Farm," is situated about a mile to the south of the city. The farm consists of 550 acres, about 400 of which are cleared. It is composed of almost every variety of soil, and hence it is well suited for the pur-

poses for which it was selected. Work commenced in May, 1874. Since that time considerable progress has been made. Many improvements have been made on the Farm. considerable portion of it has been well drained, suitable implements have been provided, and a very fair representation of stock secured. The Horticultural Department has been thoroughly established, and is now one of the most efficient means of education in connection with the Insti-The Institution is well officered by an efficient corps of instructors, the Farm being divided into five distinct departments, viz: Live Stock, Field, Horticultural, Mechanical, and Experimental. The instruction received in the class-room is, as far as possible, illustrated and exemplified in the fields, yards and shops. A diploma is given to each student who completes his course of study, and passes satisfactorily all examinations, both on the subjects contained in the curriculum, and on the work of his apprenticeship. The buildings have been erected on an elevated portion of the Farm, on the north side of the Dundas road, commanding an extensive view of the surrounding country, and the City of Guelph. The principal entrance is from the Dundas road, at the south-west angle of the grounds in front of the buildings, which have been skilfully planted; the hot-houses and horticultural gardens being in the south-east part of the premises, and having a separate entrance on the Dundas road. The buildings now completed occupy a space of 240 feet in front by 180 feet in depth, and contain a reception room and office, four large class and lecture-rooms, with dining and reading-rooms, library, dormitories for 130 pupils, bath-rooms and lavatories, and apartments for the President, Professor of Agriculture, Assistant Master, and Bursar, also Matron's and Servants' rooms. The city of Guelph was founded by the well known

novelist, John Galt, who was then acting as Commissioner for the Canada Company, the original proprietors of the land. The historic spot where the first tree was felled is to be found near the Grand Trunk passenger station, the embryonic city being then and there christened "Guelph" with due solemnity. This event took place on the 23rd of April, 1826, being St. George's day. Mr. Galt, in speaking of the event, says:

"The founding of a town, like the launching of a vessel, was an era of which the horoscope might be cast. cordingly appointed a national holiday for the ceremony which secretly I determined should be held in remembrance * * * The tree fell with a crash of accumulat-The tree fell with a crash of accumulating thunder, as if ancient nature were alarmed at the entrance of social man into her innocent solitudes, with his sorrows, his follies and his crimes. I do not suppose that the sublimity of the occasion was unfelt by others, for I noticed that after the tree fell there was a funereal pause, as when the coffin is lowered into the grave; it was, however. of short duration, for Dr. Dunlop pulled a flask of whiskey from his bosom, and we drank prosperity to the city of The name was chosen in compliment to the Guelph. Royal Family, both because I thought it auspicious in itself, and because I could not recollect that it had ever been before used in all the King's dominions. In planting the town I stipulated that half the price of the building sites should be appropriated to endow a The school-house was thus among the first buildings undertaken to draw settlers." Mr. Robert Thompson, still a resident of the city, and one of the first year's settlers, in a sketch of the early history of Guelph, to which we are indebted for the following facts, states that "On the centre of this stump, [of the first tree felled] the surveyor, John McDonald, planted his compass staff, and declared it to be the centre of the city prospective; but a very serious difficulty presented itself at this juncture. This tree stood near the banks of the River Speed, which formed the extreme eastern limits of the plot or hillock set apart as the site proper for the town; and how to fix the centre and circumference on one and the same spot was a problem very difficult to solve. The Doctor, however, was quite

equal to the emergency, and at once suggested the ladies' fan, to which all present gave hearty consent. The stump was afterwards fenced round, neatly levelled and dressed on the top, and a sun-dial placed on it, which answered as the town clock for several years.

"Ready employment and remunerative wages soon brought reinforcements of craftsmen of various kinds to the place, insomuch that great inconvenience was experienced for a time in finding even temporary accommodation for the workmen and their families. The first three months were mainly occupied in clearing up the land and erecting

log houses in different parts of the town."

"Early in July an opening celebration was mooted, and finally the King's birthday was fixed upon for the occasion. All hands were soon set to work in making the necessary preparations. A large frame building to be called a market house was soon in course of erection, and was to be used on the occasion as a place of amusement and festivity. * * The King's birthday happening to fall on Sunday the celebration must necessarily come off on Monday the 13th, but Sunday did not prove a day of rest. The new market house was only about half shingled. The ox had to be dressed and made ready for the roast, and various other little preliminaries preparatory to the occasion. The day came, and visitors from various parts began to flock in. The band from "Little York," now Toronto, was in attendance, Mr. Gurnett, of Ancaster, editor of the Gore Gazette, was present, and had quite a lengthy article in his next issue. Waterloo, Galt, Eramosa, and Woolwich, were all represented. About 500 strangers in all were present early in the morning. The dressed ox had been placed on a windlass in front of a burning log pile and turned as on a spit for about six hours. He was then cut in pieces and served up. Two pot-ash kettles of potatoes were by this time also ready for serving up, together with plenty of bread, hemlock tea and whiskey. The entire company were supplied with a plain but sumptuous dinner; the only attempt at ornamentation being the head and horns of the bullock placed on a large side dish at the head of one of the tables. All were satisfied that the ox had been roasted whole, but very few of those who partook, believed that the whole of the ox was roasted.

"Next on the programme was the ceremony of laying the toundation stone of the two first stone buildings in the One of these was intended for a bank. It was located on or about the spot where the Grand Trunk Passenger Station now stands. It was finished in the spring of 1828, and used for some months as an office by some of the Canada Company's clerks, The other referred to was a school-house, located a few chains further to the east. Mr. David Mathews was the teacher in this house for the first ten or fifteen years. It was also used as a meetinghouse or church by the various religious denominations for several years after its erection. The amusements of the day were varied and diversified. The only thing that attracted much attention was the firing of wooden cannon. These were made of beech and maple logs about two feet in length and one foot in diameter, with a two-inch bore, and bound with three strong iron bands, generally bursting about the first or second shot. A few fights brought the day's proceedings to a close, and the crowd generally dispersed. Some, however, of the more aristocratic, remained for the evening. A ball and supper was to come off in the priory. The tables were spread in the main building, as yet in an unfinished state. From sixty to eighty sat down to a sumptuous supper, Mr. Galt at the head of the table, and the old Doctor acting as Vice. What followed the removing of the cloth can be easier imagined than described. Suffice it to say the 'nicht drave on wi' sangs and clatter, and aye the grog was growin better.' The ball was led off by Mr. Galt and Mrs. Leaden. Farther on in the evening, however, a row ensued, and one Thomas Brown, acting as Constable pro tem., while endeavouring to restore peace, had his hand badly cut by a carving knife in the hands of one of the rioters. Brown was in consequence appointed Grog Boss among the company's workmen. This Brown was father of the first child born in the town. Letitia Brown, infant, was the grantee of a house and lot as a free grant from the Canada Company promised to the first born The lot referred to is eighty-five on Quebec in the town.

"A brisk business in building continued during the remainder of the season. The buildings, however, were for

the most part of a somewhat different class from those erected in the early part of the season. A frame store was erected and kept by the firm of Gilkinson & Leaden. It stood on East Market Square, near the Grand Trank Station. A saw-mill was erected by the same firm on the site where the People's Mill now stands. Jenkins & Oliver built a stone store, just opposite the first mentioned, on the north-west side of the square. * * Early in the spring of 1828 two other stores were opened on the south side of Upper Market Square—one by Thomas McVane, who occupied a log house opposite the drill shed; the other was a frame building, a little farther eastward, with one Charles McCrae as its proprietor."

"By this time the town had assumed such proportions that it was deemed desirable to hold semi-annual fairs. So the first Mondays in May and November were the days named. The first May Fair in Guelph was a day long to be remembered. The show of stock, however, was something very different from what was exhibited at our last Easter Fair. Three cows and two yoke of oxen comprised the entire stock on the ground." "A portion of what is known as the old burying ground, was cleared off early in August, 1828, and the first one buried was a man named Reid, one of the first year's settlers in the Scotch Block on Elora Road."

The first death was that of a brewer or beer peddlar, named Stephen Tuttle, who was killed by the fall of a tree, on the Waterloo road.

The first permanent Sunday school was established in connection with the Methodist Society, by Mr. James Hough, in July, 1836. The first school teacher in the town was a man named Davis, who opened a private school for a few months towards the end of 1827. An office for job printing was opened on Waterloo street early in 1828, by a man named Chatterton, existing only six months. The Canada Company's offer of a town lot and house for the first weaving done in the town was awarded to the late James Hodgert, Esq., who had a loom running in the winter of 1827–8. This lot is situated on the corner of Quebec street and St. George's Square, lately the property of Messrs. Heffernan. The first marriage solemnized was

that of Christopher Keough to Miss Ann Greeu, in September, 1827. The first practicing physician in the town was a Doctor Welsh, in 1827.

Guelph was incorporated as a town in 1856, with a population of 3,000, which had increased to 5,500 in 1867, and in 1879, on the 52nd anniversary of the cutting of the first tree, was declared a city by Royal Proclamation, with a population of nearly 11,000.

ELORA is a flourishing incorporated village on the line of Pilkington, at the junction of the Grand and Irvine rivers, and an important station of the W. G. & B. R. R. It is also the western terminus of the Orangeville branch of the C. V. R. Its railroad facilities, together with the admirable agricultural country with which it is surround-

ed. makes it an important grain and cattle market. It has an excellent water power, with a fall of forty feet on the Grand River, which is utilized by a number of mills and The mercantile interests are well sustained, and the substantial looking church and school buildings which ornament the village, bear ample testimony to the value placed upon both secular and spiritual education by its citizens. A well managed local paper, the Elora Express. is published here, which is liberally patronized. Excellent stone for building purposes abounds along the banks of the rivers, but the quarries are not much worked. One feature of the village is worthy of an abler pen than we can wield; viz., the grand natural scenery about the junction of the streams, which is perhaps unexcelled in the Province, and which has given the place some local celebrity. The falls on the Grand River have a height of about forty feet, below which both streams have excavated a deep chasm, the rocky limestone walls on either side rising to the height of some 70 or 80 feet, while here and there, at intervals, the cliffs are indented with caves of greater or less On the bank of the Irvine the bed of the proportions. stream is reached by a succession of short stairs, and a path along the river's side leads to a number of caves and romantic grottoes, where rustic seats are provided, while a short distance down the stream is seen a substantial bridge spanning from cliff to cliff, but appearing to the beholder from the great depth below, very fragile indeed. Elora is distant from Fergus three miles, from Guelph 13 miles, and from Toronto 60 miles. The population is 1,553.

The village was laid out in the year 1832 by Wm. Gilkison, of Brantford, and in the fall of the same year the village plot was surveyed by Lewis Burwell, and in the following year a bridge was constructed across the river, which was subsequently destroyed by the spring floods and another one built in 1853. Previous to 1844 little improvement was made. In that year Chas. Allan formed a company and built a grist mill, stores, &c. The village then steadily improved. It was named after the celebrated caves of Elora, in India. The first actual settler was Roswell Matthews, who, in 1818, made a clearing at the Falls. The village was incorporated in 1858, David Foote being the first reeve. Martin Martin kept the first hotel. The Wesleyan Methodists erected the first church; Knox Church (Presb.) being the next.

Fergus is a flourishing incorporated village on the Grand River, three miles east from Elora, and distant 13 miles from Guelph and 61 from Toronto. The Grand River affords an excellent water privilege for its mills and factories, and being on the line of both the C. V. R. and W. G. & B. R. R. its shipping facilities are first-class. It is also an important mart for the products of the rich agricultural country with which it is surrounded. Its business blocks and stores, which are numerous, are mostly built of stone. as are many of the dwellings, churches, schools and factories, which give it a solid, substantial appearance. manufacturing interests are well sustained, and the educational facilities ample, the schools being efficiently officered and well patronized. The churches are mostly of stone, of handsome exterior, an ornament to the village and a credit to the promoters. The river, which divides the village into two parts, is spanned by two substantial bridges, the land rising on each side with a gentle incline. An ably conducted weekly paper, the The News Record, is published here, which is well patronized. The population is about 2,000.

Fergus was laid out in 1833 by Hon. Adam Ferguson and James Webster, who built a dam and erected a saw and grist mill. Settlement commenced in 1834. Thomas Young opened the first store. Hugh Black kept the first hotel. St. Andrew's (Presb.) was the first church erected, Rev. Alex. Gardiner being the first pastor. James McQueen was the first school teacher, and the first postmaster, and has occupied the latter position ever since. He, with Messrs. A. D. Ferrier, James Perry, Chas. Allan, Mitchell & Gartshore, and others who operated the first saw mill, were among the first settlers. In the early days of the settlement, criminals were sentenced to extract one or more stumps from the Main street, according to the enormity of their crime, a penalty which was rigorously exacted. The village was incorporated in 1857.

For the information of those who entertain the idea that every important new invention is the product of Yankee ingenuity, it is worthy of record that one of the most important labor saving discoveries of the age, was the invention of an early citizen of Fergus. We refer to the reaping machine, which was invented by Rev. Robert Bell, who was tutor to the family of Hon. Adam Ferguson. model of the machine was presented to the Farmers and Mechanics Library of Fergus, on the return of that gentleman to Scotland. It subsequently mysteriously disappeared from their rooms, and found its way to the States, where it is supposed to have come into the possession of Mr. McCormick, who modeled his reaper from it. It is a fact that the agricultural societies of Great Britain, a few years since, acknowledged their indebtedness to Mr Bell for this useful invention, by presenting him with £6,000 sterling.

SALEM is a post village, prettily situated on the Irvine River, about one mile from Elora. It contains four shoe shops, a foundry, cooperage, shoe peg factory, bakery, fancy store, three hotels, two general stores, two carriage shops, two blacksmith shops, a harness shop, a flouring mill, tailor shop, two breweries, a cabinet shop, a Lutheran church, and 700 inhabitants.

The Lutheran Church is a brick building, seating 150. Services each alternate Sabbath at 3 p. m. Sunday school at 2 p. m. Rev. John Frosch, of Elmira, pastor.

The village was laid out by Sem Wissler and surveyed in 1856. Wissler & Erb kept the first store and erected a saw and grist mill, and tannery. The post-office was opened June 1st, 1863, with Sem Wissler as postmaster.

The township of Nichol was called after Col. Nichol, who received it as a grant from Government for services in the war of 1812-14. It subsequently passed into the hands of Col. Thos. Clarke and others, of Niagara Falls, from whom 7,000 acres, or a fourth part, was purchased by Hon. Adam Ferguson and James Webster. Settlement commenced about 1830 in the neighbourhood of Barnett, the Flewelling family, from the maritime provinces, being the first settlers. They were followed by A. F. Sherratt, James Elmslie, John Cook, John Mutrie, Henry Metcalf, Thos. Wilson, the Scotts, Cunninghams, and others from Scotland and England, who settled along the 7th, Sth and 9th concessions, James Davidson and Patrick Scanlan on the 5th concession, and the Broadfoots and Dows on the 10th. In

1834 settlement commenced along the river at Fergus. Most of the settlers on the 11th, 12th and 13th concessions came in in 1834 and '35. The 14th, 15th and 16th began settling in 1835. The first town meeting was held Jan. 1st, 1832. John Bryden and James Craig were elected joint assessors, and John Mutrie, collector. James Elmslie was the first town clerk. He was succeeded by James McQueen, the present clerk, in Jan., 1837, who has retained the office ever since. The first election of township officers and Council took place in 1850, resulting in the election of Thomas Loghrin, John Valentine, John Watt, Archibald F. Sherratt and Chas Allan. Mr. Allan declining to act, John Brockie was subsequently elected in his place. John Watt was elected first reeve, and James McQueen, clerk.

Mr. McQueen, who was postmaster, also carried the mail once a week to Guelph, on horseback, through the woods. Once on this trip, on coming to a stream, he found the bridge had been swept away by a flood, and he swam the river with his horse. The mail bag got loose and floated down the river. His clothing froze on him. He went to a house near by, and attaching a hoe handle to a rake handle, after wading into the stream as far as possible, he succeeded in rescuing the bag, when, after drying his clothes, he proceeded on his journey. During the Mc-Kenzie Rebellion Mr. McQueen would go sometimes twice and thrice a week to Guelph to get the news. On one occasion, to avoid the Rebels, who were appropriating all the horses they could find, he returned a roundabout way through Eramosa, which delayed him much beyond his regular time. The settlers became very much alarmed at his absence. When they heard the sound of his horn it was very welcome news, and they all hasted out to meet him.

About 1840 a large party of poor Highland fishermen were sent out to Canada by the Duke of Argyle. They were penniless and only one of them could speak English. The authorities sent them from one point to another, and 200 of them were sent by teams to Fergus by the Hamilton people, and dumped on the street, the teamsters turning around and driving off without making any explanations. What to do with them was the question. They showed a letter from the Duke commending them to the magis-

trates of the Province. They thought this was all that was necessary to compel the authorities to minister to their necessities, and were surprised when informed that the Duke of Argyle had no more authority here than the Czar of Russia. The settlers finally gave them homes amongst them, and set them to work. They knew nothing of farming, but were willing to learn. Many of them subsequently took up land, and became prosperous farmers.

PEEL township is bounded on the north by the township of Arthur; on the east by Garafraxa; on the south by Nichol and Pilkington, and portions of Waterloo and Perth counties; and on the west by Maryborough. The W. G. & B. R. R. passes through the central portion, with stations at Alma, Goldstone and Drayton. The surface is rolling in character, with a clay soil, two-thirds being heavy clay, of a depth of six inches, and clay subsoil, and about one third a clay loam of a depth of six inches, with a subsoil of gravel and sand. One-fourth of the township is reported first class land, one-half second class, and onefourth third class. It is well watered by the Conestoga River, and other small streams. The chief products of the soil are spring wheat, barley, oats, peas, hay &c. A considerable portion is devoted to pasturage, stock raising being largely engaged in. The area of the township is 74,613 acres, 48,419 of which are cleared. The timber is principally hardwood. There are eight post offices in the township viz: Alma, Creek Bank, Drayton, Glen Allan, Goldstone, Macton, Parker and Winfield.

Allan, Thos. and John Garbutt, and Thos. Cosford, mostly from York county. The north part was settled principally by Irish Catholics In 1837 Peel contained but 300 inhabitants, which had increased by 1850 to 1,966. At the present time the population amounts to 4,116.

PILKINGTON township is bounded on the north by the township of Peel; on the east by Nichol; on the south by

Guelph; and on the west by Waterloo county. The surface is mostly rolling, and the soil principally clay and sandy loam. One-half the township is reported first-class farming land, a quarter, second-class, and the remainder third-class. It is well watered by the Grand River and other streams. The chief products of the soil are fall and spring wheat, barley, oats, peas, turnips, hay, &c., and a considerable portion is devoted to pasturage, stock raising being larely engaged in. The timber consists of hardwood and cedar. The area of the township is 29,858 acres, 22,180 of which are cleared. The population is 1,750. There are three post-offices in the township, viz., Inverhaugh, Pentland and Ponsonby.
