Hespeler

gentlemen.

Spent P.C. of Oct 3.
to hand your order booked for fine dust
which will go to day.

In regard to the Eosine. Mr Forbes.
when he came to the city Bvt. the 1 lb of
Eosine B shade had 1 lb of the ^{sent} 4th with
the acid manganate. I would not change because
it was just exchanged. The B shade was
sent at the same time as the soda.

Hoping this is satisfactory
We are

Yours Truly
